Virtual Recognition Celebration 2021

Wednesday, May 26, 2021

UNITED STATES OF AMERICA
NATIONAL ANTHEM

*O say can you see, by the dawn's early light,
What so proudly we hail'd at the twilight's last gleaming,
Whose broad stripes and bright stars through the perilous fight
O'er the ramparts we watch'd were so gallantly streaming?
And the rocket's red glare, the bombs bursting in air,
Gave proof through the night that our flag was still there,
O say does that star-spangled banner yet wave
O'er the land of the free and the home of the brave?*

THE ACADEMIC PROCESSION

The centuries-old pageantry of the academic procession comes from ancient tradition, rooted in the early universities. The solemn procession before you is the college's way of giving depth and distinction to the commencement of these men and women.

Academic caps, gowns and hoods date back to the twelfth century, developing gradually from the long flowing robes that the teachers wore to protect themselves from the cold of the medieval buildings. Since the scholars of the time were usually clerics, their robes differed little from those used by the church orders. Slowly, certain styles were designated for the universities and these, with minor modifications, are the costumes worn today. Hoods were originally fashioned after the monk's cowl; the mortarboard cap, with its tassels, evolved from the skull caps of the scholar-monks.

In France, where the degree program probably began, wearing the cap and gown marked the formal admission of the "licentiate" to the body of masters. In our country, caps and gowns have been used since colonial times. Columbia University, or King's College as it was then called, began this custom at an early date. New York University, the University of Pennsylvania and others followed, and in 1894 a commission representing the leading American colleges met to discuss academic ceremonies. A year later, the intercollegiate code was adopted. Today, more than 700 colleges and universities in the United States, Canada, the Philippines, Puerto Rico, Turkey and others follow this code. Standard styles in caps, gowns, and hoods for Doctors, Masters and Bachelors were established.

In recent years, distinctively colored gowns have been authorized for specific schools. For example, the Columbia gown is slate gray, the New York University gown is violet, the Yale gown is blue, the Harvard is crimson and The City University of New York gown is navy blue. The hoods worn over the shoulders and down the backs of the members of faculty reveal the degrees and institutions of the wearers. The velvet binding or edging is distinctive of the subject to which the degree pertains. The silk lining of the hood is in the color or colors of the institution granting the degree. The shortest hood is the Bachelor's; the longest and broadest is the Doctor's; and the Master's is midway between these in size. In the colors of the colleges, there is much duplication and it would be useless to identify them. However, there is a standard color for the subject and the degree, indicated by the velvet edging which shows in front and over the shoulders, and the most common of these are given below:

COLOR CODE FOR HOODS

Arts, Letters, Humanities.....	White	Medicine	Pink
Commerce, Business	Drab	Music	Silver Gray
Economics.....	Copper	Pharmacy	Olive Green
Education	Light Blue	Philosophy	Dark Blue
Engineering	Orange	Physical Education	Sage Green
Fine Arts.....	Brown	Public Administration.....	Peacock Blue
Law.....	Purple	Science	Golden Yellow
Library Science	Lemon	Social Work	Citron
Medicine	Green	Theology	Scarlet

THE MACE

The mace, a traditional part of every academic ceremony, is a heavy staff used as a symbol of authority. It is carried by the leader of the procession, who is referred to as the Mace Bearer or the Grand Marshal.

In early Roman days the mace, carried by officers called lictors, consisted of a bundle of rods known as fasces that showed the authority of the magistrates. In medieval times, the mace was wielded in legislative assemblies to protect officials.

In the United States House of Representatives the mace is about three feet long, made of ebony rods with a band of silver. A silver globe stands on a protruding rod, and a silver eagle with wings outspread sits on top of the globe.

The John Jay College mace was created in 1968 by Anthony T. Muratore, a student and police detective. It is 29 inches long, in blue and gold, and bears the seal of the College and the seal of The City University of New York at its pinnacle.
