IAW flushing water system in Charlestown through April 8

Construction for new treatment facility to start mid 2021

Indiana American Water (IAW) will be flushing the Charlestown water system through April 5. Since purchasing the Charlestown water system in March 2019, IAW has invested more than \$4 million on upgrades. They have also announced they will be building a new treatment facility to filter iron and manganese from its ground water source. Construction on the facility is planned to get started mid 2021 with a projected completion planned for next summer. A portable filtration unit will also be placed in April 2021 to provide improvements in water quality until the new facility is in service.

In addition to the investments above, IAW proactively flushes water mains to enhance water quality by removing sediments and minerals from the distribution system. IAW plans to flush water mains in Charlestown at least twice a year and more in specific areas

as needed. The most recent system flushing took place in Fall of 2020.

The flushing will be taking place between 8 a.m. and 8 p.m. over the next month. During this time, motorists may see crews flushing hydrants when driving; they are asked to drive carefully through the area where they are working. To help provide clean water they will install a tanker of water at the Greenway Park parking lot off of Market Streets so that residents can fill empty water containers.

Residents may wish to delay running their dishwasher and doing laundry until the crews are finished as water could be discolored. If laundry is discolored due to accidentally running laundry during flushing:

- *Do not put the clothing in dryer
- *Do not use bleach as it will intensify stains

*Do rewash clothing immediately using more detergent or a heavy duty detergent

*Do add a rust remover to the load
Although, discolored water is safe to drink, individuals may wish to draw water and store in the refrigerator for drinking and cooking ahead of time.

IAW recommends if residents encounter discolored water, letting a cold water faucet run for a few minutes to see if water runs clear. (Always do this with cold water to ensure sediment is not introduced into the hot water tank.) If possible, also use the cold water faucet on the bathtub or an outside faucet to flush discolored water from your plumbing systems.

Residents needing further assistance, can contact IAW customer service at 1-800-492-8373.

Area fire departments called to recent land fires

Barn fire extinguished after trash fire spreads

Monroe Township Fire Department was dispatched to a barn fire on the afternoon of March 8 on Henryville-Otisco Rd. An unattended trash fire had spread through surrounding grass and brush and to a small outbuilding. The fire was extinguished without spread to neighboring properties without any injuries. However, the remote area it was in made it a challenge as it was down a narrow drive with a bridge over a creek. Tri-Township Fire & Rescue and Sellersburg Volunteer Fire Department also assisted in the efforts.

Multiple departments fight large land fire

On Wednesday, March 10 multiple units were on the scene of a large brush fire on Beagle Club Road that was initially believed to be one to two acres in size. Once on the scene crews discovered that it was much larger and had spread over ten acres of rough and hilly terrain. High winds had fueled the fires growth and made the fire more challenging to extinguish. Monroe Township Fire Department was assisted by the Charlestown Fire Department, Gibson Township, Vienna Township, Sellersburg Volunteer Fire Department, Lafayette Township Fire Protection District, and Clark County Emergency Management Agency. Tri-Township Fire & Rescue was called upon to cover the Monroe Township area for any other incidents. Thanks to the dedicated efforts of all responders, the fire was contained to the woods and no structures were threatened or damaged.

ISP investigates crash - driver fatally struck after exiting car on I-65

An early morning crash in Scott County on I-65 turned deadly on the morning of Monday, March 8 when the driver was struck after exiting his car.

Around 2:50 a.m., 911 calls reported a semi-truck had struck a person in the roadway on I-65 northbound near the 33 mile-marker, just south of the Austin, Indiana exit. Austin Indiana Police and Indiana State Troopers were the first to arrive on-scene. When officers arrived, they found 25-year-old Stefan Porch of Matteson, Illinois, deceased after being struck by a northbound semi-truck. Officers then requested an Indiana State Police crash reconstruction team to assist in the investigation.

After the preliminary investigation, investigators believe Stefan Porch was northbound in a silver 2020 Kia Forte with five passengers on board. The Kia then collided with a second vehicle, possibly the rear of a northbound tractor-trailer or box truck.

At this time, it appears the second vehicle did not stop and continued from the scene. The Forte came to a stop in the roadway, and Stefan Porch exited the car. As Stefan Porch left the vehicle, he stepped into the path of a northbound semi-truck. The driver of the semi was unable to avoid striking Mr. Porch. The semi was driven by Barbaro Trizan Cuellar, of Louisville, Kentucky, who was uninjured in the crash.

All passengers in the car were taken by ambulance to Scott Memorial hospital for any possible injuries from the initial crash. No significant injuries were reported.

The driver of the Semi was not injured.

This crash is still under investigation. Anyone with information regarding the second vehicle is asked to contact the Indiana State Police Sellersburg Post.

The family of the deceased has been notified.

Indiana State Police Troopers were assisted by the Austin Police Department, The Scott County Sheriff's Department, The Scottsburg Fire Department, and the Austin Fire Department.

Kentucky Man Arrested for Attempted Rape on I-65 Roadside

Michael L. Glover

An Elizabethtown, Kentucky man was arrested for attempted rape on Thursday, March 11 after Indiana State Police stopped to investigate a truck stopped in the roadway.

Just before seven o'clock Thursday evening, Sgt. Matt Marshall from the Indiana State Police post in Sellersburg responded to the 21.9 mile-marker on I-65 northbound after a 911 caller reported a truck stopped partially in the roadway just south of the northbound rest park. The caller said they had almost collided with the pickup truck, which was hard to see because it had no headlights or taillights activated.

Sgt. Marshall approached the truck, which at first glance appeared to be abandoned. However, inside the truck, Sgt Marshall observed a male lying on top of an unconscious female. The female was unclothed from the waist down, and it appeared the man was attempting to sexually assault her.

Sgt. Marshall knocked on the window, and the man, identified as Michael L. Glover, 38, of Elizabethtown, Kentucky, attempted to re-secure his pants

as he stepped from the vehicle. Sgt. Marshall observed open alcoholic containers in the pickup and believed Glover to be intoxicated. Medical personnel were called to the scene for the female who remained unconscious.

As a result of the investigation, Sgt. Marshall learned Glover could not identify the woman correctly. Sgt. Marshall also learned that Glover and the victim were new acquaintances, and Glover had possibly given the victim a drink after asking her to ride to a local grocery store in Elizabethtown, Kentucky. The investigation also revealed the victim was unable to recall how or why she was found in Indiana.

Michael Glover was arrested for the following:

--Attempted Rape - Level 3 Felony

--Public Intoxication, Endangering Life of Another - Class B Misdemeanor

--Public Intoxication, Endangering Own Life - Class B Misdemeanor

--Disorderly Conduct - Class B Misdemeanor

--Public Nudity - Class A Misdemeanor

Michael Glover was incarcerated at the Clark County Jail.

All subjects are presumed innocent until and unless proven guilty in a court of law.

Sgt. Marshall was assisted by Troopers Justin Smith and Cameron Collins. The Monroe Township Fire Department, The Clark County Sheriff's Department, and New Chapel EMS.

The family later relocated to Johnson County Indiana, where he graduated as one of six (6) from Clark High School.

Charlestown Dog Park offer pet owners a place to exercise their dogs

Charlestown's dog park is a great way to get the dogs out for some exercise and play time. The dog park is located on the west side of Spring Street, across from the basketball courts that are in Greenway Park. The park has two different areas, one for larger dogs and one for smaller dogs. In order to use the dog park, each dog must be registered, annually, and must have on file up-to-date proof of

vaccinations. The park features fencing and a state-of-the-art electronic security gating system, play and exercise equipment for the dogs, and walking areas throughout and around that are designed to be multi-use green space for both pet owners and the general public.
