## WASTELAND 9

Nuclear holocaust has rendered most of the planet a desert wasteland. Radiation levels are incalculable. A shadowy government agency contracted Vault-Tec to build a network of underground Vaults to house the survivors. The Master has built an army of mutant survivors and outcasts, as well as a fiercely loyal unit of heavily armed soldiers called The Enclave.

There are three distinct teams fighting throughout the Wasteland. Each faction has their own motivations and ideas on how the Wasteland should be explored, and ultimately, conquered.

Uniform requirements will be strictly enforced. Team uniforms are defined by shirt/top color and pattern.

### Harlem Militia

Uniform: MultiCam/Desert Tan/Atacs patterns (NO black vests, rigs, or plate carriers)

*A paramilitary organization from the Southern section of the Wasteland*

### Hudson Rangers

Uniform: All green and woodland patterns (NO black vests, rigs, or plate carriers)

*A survivalist group from the Northwestern section of the Wasteland*

### Newhaven Mercs

Uniform: Black and shadow patterns (ANY color vest, rig, or plate carrier)

*Mercenaries and hired guns from the Northeastern section of the Wasteland*

### Non-Faction Players (NFPs)

Non-faction players act as antagonists, allies and guides throughout the Wasteland. Some characters will aid you, for a price. Some character's sole motivation is to destroy you and your entire faction.

### The Enclave

The Enclave are a unit of heavily armed soldiers, using almost indestructible Power Armor Suits. The Enclave are generously paid for their allegiance to The Master.

### Mutants

The mutants are a human race that could not escape the effects of the nuclear fallout. They are loyal to The Master, and will stop at nothing to rid the Wasteland of interlopers.

### Vault Dwellers

The Vault Dwellers have been living in seclusion for the past 10 years. They possess very unique medical abilities, but are scared off very easily.

### The Merchant

The Merchant is a self serving, mysterious character. He takes pride and joy in providing the best possible deals on ammunition, equipment and supplies in the entire Wasteland.

### The Master

The Master is a shadowy figure, controlling the Wasteland from a secret location. No one has ever seen The Master, and reports on his or her whereabouts never lead to capture and prosecution.

## **ABOUT**

Inspired by the video games FALLOUT® and WASTELAND 2®, this event will feature unique rules designed to simulate the experience of leveling up and survival/scrounging in a post-apocalyptic world.

## **WHAT TO EXPECT**

Operation:Wasteland is a sci-fi variant of a MilSim airsoft game. All factions start with limited ammunition and must find extra ammo on the field or trade bottle caps for more from the Caravan or The Merchant.

Teams must find Rad-X Boxes and hoard them in their HQ. The team with the most Rad-X Boxes at the end of the game will be the winner. Teams may attempt to raid other teams' HQ for their boxes and supplies.

## **GAME PLAY**

Each phase of Operation:Wasteland will have specific rules of engagement and authorized weapons. Each phase will also have tasks, missions and objectives that must be completed before leveling up.

## **PHASES**

- Phase I “Level 1”

Pistols, shotguns, bolt action rifles and muzzle loaded AEGs. Event supplied BLACK BBs only.

Objective: Secure a Vault for your faction to use as a Base of Operations and Storage Center. Vaults are NOT respawn points. The collection and storage of Rad-X boxes will begin in this phase.

- Phase II “Level Up”

Magazine fed AEGs permitted. Semi-auto operation. Event supplied BLACK BBs only.

Phase II will include the majority of the tasks and missions.

- Phase III “Advanced Mode”

Personal BBs and full-auto operation permitted

Phase III will bring the episodes unfolding in Operation:Wasteland to a climax. The power grid must be destroyed and The Master must be eliminated.

## **EQUIPMENT CHECKLIST**

Once the affected player pronounces "All Clear", players should return their red rags to their pockets and yell "All Clear."

2.3. NO blind firing. You must be able to see along the barrel of the gun you are firing with your own (no using mirrors or devices to shoot around obstacles).

### 5. GAME PHASES

b. When out of the line of fire, wave your red rag above your head vigorously, then tie it around the front sight of your gun.

Expect to be hit multiple times while getting your red rag – don't get mad, GET BEHIND COVER. Please

keep in mind most players cannot hear you while firing their weapon. Your red rag is the primary signal of being hit. Red ball-caps are not acceptable substitutes for red rags.

## 7. BLEED OUT

7.1. After waving your dead rag, sit or lay down in the field for a 3-minute BLEED OUT period simulating a CRITICALLY WOUNDED soldier.

a. CRITICALLY WOUNDED may not stand. They must sit down or take a knee.

7.2. CRITICALLY WOUNDED players may either yell or radio for a STIMPAK

7.3. CRITICALLY WOUNDED players may warn teammates of immediate danger but may not engage in communication (ie. "Be careful, there's enemy inside." Is O.K. but "There's a sniper about 9ft to the left of that tree. Flank him to the right." Is NOT)

## 9. STIMPAKS (STIMS)

Adrenalin/endorphin boosters, which negate the effects of a player's wounds. STIMPAK can be used to

'heal' CRITICALLY WOUNDED players when ingested. STIMS are scenario ITEMS which the player must

actually consume (unless the player is diabetic)

9.1. Player must drink the entire packet and stow the empty (don't litter)

9.2. Player will stow their bandage and return to play

## 10. KIA (KILLED IN ACTION)

After 3-minutes (without a STIM) a CRITICALLY WOUNDED player becomes KIA

10.1. KIA players will assume a non-combative posture and quickly remove themselves from any direct fire proceed in the most direct route to their team's RESPAWN

a. Players should put a red rag on their head and tuck it into their goggle strap

b. Players should sling or stow their weapons

## 10.2. DROPPING LOOT.

a. Any Rad-X boxes, spare BBs or other scenario ITEMS must be dropped in or on the nearest structure or man-made object (eg. Barrel, crate, etc.)

## 11. RESPAWN

11.1. Players must wait a minimum of 1-minute at SPAWN before returning to play.

11.2. Dead players will organize themselves into (4) man squads to return to play

## 12. NFPs (Non-Faction Players) SPECIAL RULES

12.1. Super-MUTANTS and players wearing POWER ARMOR, have extra stamina or advanced armor and can take additional hits before expiring

a. MUTANTS take (3) BB hits before they BLEED OUT

b. ENCLAVE POWER ARMOR takes (3) BB hits before overheating and player simulates powering down (bow) and will remain inactive for  $\geq 30$  seconds or more. After 3 POWER DOWNS the ENCLAVE player BLEEDS OUT

12.2. NFP players RESPAWN in the field after they BLEED OUT by moving away from sight of live players and returning to play

12.3. Players may not follow dead NFP players and must allow them space to respawn

## 13. MINIMUM SAFETY DISTANCE

There will be no 'bang-bang' rules for close range engagements

13.1. Players should exercise good judgment and sportsmanship and refrain from shooting live

players closer than 15ft away by taking a few steps away before firing.

#### 14. SURRENDER

14.1. Players who catch an enemy unaware and 'Dead to Rights' may ask them to "SURRENDER" to let them call themselves hit without actually being shot.

16.4. Hand Grenades must be tossed under handed

16.5. Players must loudly yell "Frag Out!" prior to tossing their Hand Grenade, to reduce the chance of enemy players getting hit in the face by a thrown grenade

16.6. BB Shower shells will be treated as BB shotguns against outdoor players

16.7. RPG Nerf warhead/BB Shower shells fired into the doorway of a 4 walled structure will be treated as a hand grenade going off in the center of the room
