ALUMINIUM PLATE BOATS

STABILITY | INNOVATION | PERFORMANCE

FORMOSAMARINEBOATS.COM.AU

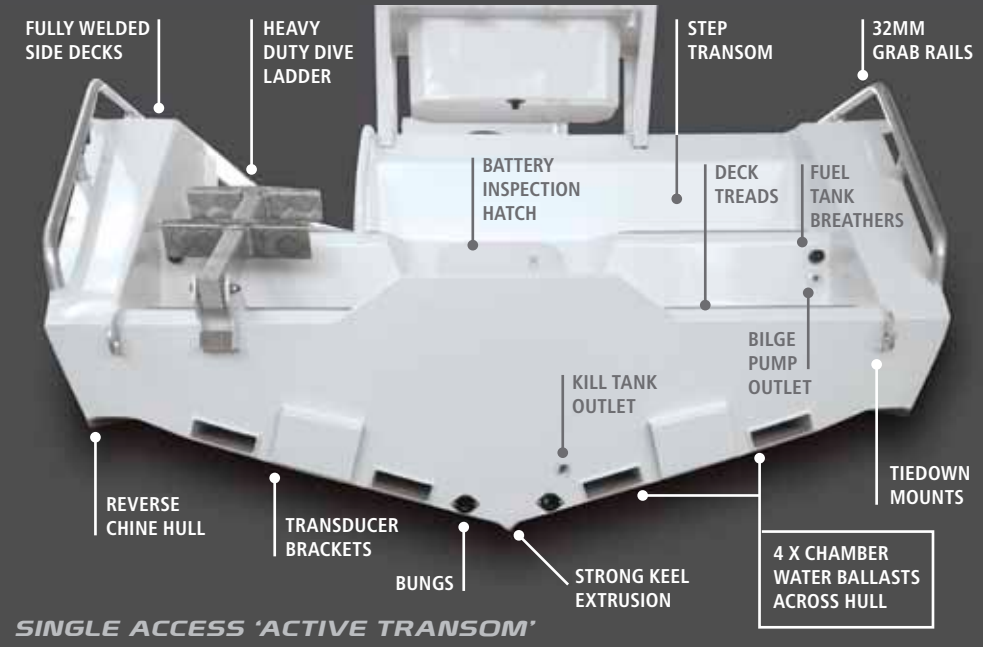

AN INNOVATION IN BOATING

MANUFACTURED AND DESIGNED BY FORMOSA MARINE, SEA-ROD ALUMINIUM PLATE BOATS COMBINE THE FAMOUS BUILD AND PERFORMANCE QUALITIES OF A FORMOSA MARINE HULL BUT WITH THE LATEST INNOVATIVE DESIGN FEATURES TO OPTIMIZE YOUR PREFERRED FISHING AND BOATING ACTIVITIES.

The SEA-ROD range of boats are leading the way in plate boat design, construction and performance. With a SEA-ROD you receive the Formosa Marine build with the industry's only four chamber water ballast hull using the unique *COUNTERBALANCE* design, the SEA-ROD Step Down Transom, 'Active Transom' designs and more design features.

For the latest developments in the SEA-ROD range and for a dealer near you, visit online at www.formosamarineboats.com.au

THE SEA-ROD STEP DOWN TRANSOM

SINGLE ACCESS 'ACTIVE TRANSOM'

FOUR CHAMBER WATER BALLAST HULL

The SEA-ROD range have a unique four (4) chamber *COUNTERBALANCE* water ballast system for unrivalled stability at rest. Unlike traditional keel ballasts, the SEA-ROD off centre ballast hull combined with a wide beam and reverse chine hull minimises hull roll or sway from swell and internal boat movement.

Once you are on your way, the 4 chambers rapidly empty, allowing you to get on the plane without any change in performance. The water ballast hull is available in sizes 520 and over.

Formosa Marine CLASSIC models have taken the standard hull design to the next step in innovation by developing not only a *COUNTERBALANCE* water ballast hull but have also developed a process that makes them available in the CLASSIC 520, 550 and 580 models. This design is unique in aluminium plate boats with plywood floors.

Each boat is fitted with an accompanying heavy duty dive ladder and deck treads on a step down transom design, so entering the boat and accessing the water and motor is a breeze.

'ACTIVE TRANSOM'

Choose the **ACCESS** you need with the 'Active Transom' for fishing, casting, diving or simply enjoying the waters. The step down transom, while providing additional storage and improved access, allows for the innovative 'Active Transom' design options for OFFSHORE and CLASSIC sizes 520 and over.

FULL ACCESS: This design offers the ultimate in water and motor access with the unique fold down transom doors that convert into a versatile casting platform or rear lounge deck.

DUAL ACCESS: Two folding transom doors, one on either side of the motor gives double the access for the family. Install two extended heavy duty Dive Ladders and access is ideal for diving trips.

SINGLE ACCESS: Have it all with this option. A single folding transom door for ease of access while allowing room for accessories. The transom door can be mounted on port or starboard side.

CLOSED ACCESS: The step down transom design gives you the ultimate in transom storage and room to add optional extras such as the Bait Board with Bait Tank and Tackle Boxes.

THE RANGE

SEA-ROD BY FORMOSA MARINE OFFER A LARGE RANGE FROM OPEN TO CABIN MODELS. TO SUIT ALL BOATING STYLES AND BUDGETS, YOUR FAVOURITE DESIGN IS NOT ONLY AVAILABLE IN THE PREMIUM OFFSHORE RANGE BUT ALSO IN THE CLASSIC RANGE FOR PERFORMANCE, QUALITY AND VALUE.

OFFSHORE

The OFFSHORE range is innovatively designed to safely meet the challenging conditions of offshore boating. They have more standard design features including a true Aluminium Self-Draining Deck, a 4mm High Tensile 5083 Grade Aluminium Hull and Hydraulic Steering (sizes 620 and over - 5mm bottom sheets). The Active Transom is available in OFFSHORE sizes 520 to 580.

Classic

The CLASSIC range combines the strength, quality and safety of the OFFSHORE plate boat with great value. Installed with Marine Grade Plywood flooring, dipped and carpeted to last. Built with a 5052 High Strength Marine Grade Hull with 4mm sides and bottoms. The 4 Chamber Water Ballast Hull and Active Transom are available in the CLASSIC sizes 520 to 580.

Barra PRO

As part of the CLASSIC Range, the BARRA PRO is the ultimate Barra or Bass hunting vessel with raised casting decks forward and rear. These boats are ideal for finding any backwater location. The Barra Pro is built with the traditional Formosa Marine plate boat construction and designed to handle all on water and off-road conditions.

SEA-ROD DIFFERENCE

Make the most of your deck and transom area with the SEA-ROD range. Depending on the model, the range features a unique folding transom door to extend your fishing platform. Also unique to the SEA-ROD is a folding, recessed lounge option. The lounge can safely seat up to three people and be folded away to optimise valuable deck space.

TOW-CATCH™

Enjoy the benefits of solo deploying and retrieving at the boat ramp. After working closely with major trailer brands, Redco and Dumbier, the Formosa Marine designed Tow-Catch™ is a hook and eye design welded to the keel, a standard feature that gives you the option to install a quick release boat catch onto a suitable trailer. Talk to your dealer for more information on this new feature.

V2 HULL

The latest advancement in hull design, the V2 Hull offers enhanced performance and strength, while maintaining and taking advantage of Formosa Marine's acclaimed sharp nose line, deep hull and wide beam. The V2 Hull advances and modernises the boats through the following enhancements: **SHARPER DEADRISE:** A sharper, more defined deadrise provides greater trim range, enhanced

tracking, softer ride and a quick response out of the hole.

UNDER FLOOR CELL DESIGN: Increased floor rigidity using an under floor lock cell design, gives the floor more structural reinforcement.

INCREASED STORAGE: Extra side pockets for more storage and additional hull strength.

HULL STRENGTH UPGRADE: From size 455 and over, all Formosa Marine built hulls now feature 4mm sides with no pressings as standard.

DESIGN FEATURES

OFFSHORE models

THE TOP OF THE RANGE SEA-ROD OFFSHORE PROVIDES SELF-DRAINING DECKS WITH SCUPPERS AS A STANDARD FEATURE NOT FOUND ON COMPARABLE BOATS ON THE MARKET. THE OFFSHORE INCLUDES THE FOLLOWING FEATURES AND THOSE STANDARD ON A FORMOSA MARINE BUILT BOAT. FOR MODEL SPECIFIC FEATURES PLEASE REFER TO THE RELEVANT SPECIFICATION SHEET.

SELF-DRAINING DECK

A large drain channel is welded in each corner of the transom. This true self-draining deck quickly removes excess water from the floor area which may occur when caught in heavy seas or while hosing down the deck. The aluminium deck is carpeted with marine grade quality flooring making it a great non slip surface that is comfortable from the sun's heat. For peace of mind, the hull is foam filled and an underfloor bilge pump is fitted as a standard feature.

HIGH TENSILE HULL

The exterior hull on an OFFSHORE model is built with High Tensile 5083 Marine Grade 4mm aluminium sheeting. 5083 Marine Grade Aluminium is known for its exceptional performance in extreme environments. Model sizes 620 and over are built with 5mm bottom sheets as standard.

HYDRAULIC STEERING

SeaStar Solutions® Steering Systems are standard on the SEA-ROD range. The OFFSHORE models are fitted with the premium SeaStar Hydraulic Steering System. The CLASSIC models are installed with the new high performance XTREME™ Cable Steering System. For more information view Formosa Marine's Suppliers List page online: www.formosamarineboats.com.au/suppliers-list/

STANDARD features

DEEP SIDES, WIDE BEAM

A Formosa Marine built hull is renowned for its generous freeboard height, wide beam and ergonomic layout making you feel like you are in a much larger boat! Combined with the sharper deadrise of the V2 Hull and reverse chine, a Formosa Marine boat gives you more stability and a smoother, drier ride in all boating conditions.

RAISED SHEER & CHINE LINE

With not only a sportier look, the raised sheer line provides protection from large swell keeping a drier deck and also allowing the massive internal space and deeper sides Formosa Marine is known for. The distinctive curved chine line has become Formosa Marine's 'hallmark' well noted on the water.

PLATE BOAT CONSTRUCTION

The longitudinal stringers and underfloor lock cell frame are welded directly to the bottom sheets. Extra build quality and design features will ensure every Formosa Marine hull has the rigidity to withstand open water conditions and provide many years of trouble free boating.

REVERSE CHINE HULL

The 120mm wide reverse chine combined with a wide beam and the COUNTERBALANCE water ballast hull makes this Formosa Marine built hull one of the most stable hulls at rest or in a rolling sea. The reverse chine and the welded on planning strakes provide excellent tracking performance and a smooth ride in choppy conditions.

QUALITY FLOORING

SEA-ROD OFFSHORE floors are constructed out of 4mm aluminium and finished off with marine grade carpet. The CLASSIC models have BS1088 Marine Grade plywood pre dipped in an anti-fungal agent and finished off with Marine Grade carpet. All SEA-ROD hulls are constructed from superior materials to ensure performance and longevity.

NEW ALI BOWROLLER

Designed by Formosa Marine for the V2 Hulls, this new aluminium Bowroller has been engineered to suit manual deployment and/or drum winches. It is fully welded to the nose sheet and also welded to the 32mm grab rails for extra strength and a superior design. The Bowroller protrudes sufficiently to allow self-gravity release.

FULLY WELDED SIDE DECKS

The side decks and gunwales on a Formosa Marine hull are fully welded and not stitched, offering greater rigidity and strength. The welded side decks are easy to clean and give better paint longevity. You will notice on a Formosa the welding is not sanded smooth and bogged, keeping the full strength you expect with a fully welded plate boat.

HEAVY DUTY DIVE LADDER

Whether boarding or disembarking, the Formosa Marine designed and manufactured heavy duty aluminium ladder provides total stability underfoot at all times. An internal grab rail, shown to the right of the ladder, is a standard feature on all boats with a transom door.

NO LONGER DO YOU HAVE TO CHOOSE BETWEEN A FAMILY FRIENDLY BOAT OR A FISHING WORKHORSE. THE CENTRE CABIN HAS AN OPEN LAYOUT, SHELTERED SEATING, STORAGE, WIDE BEAM AND HIGH SIDES GIVING COMFORT AND PROTECTION.

Designed with open water fishing in mind, this true walk around design and ergonomic layout makes this boat feel bigger than it really is.

The SEA-ROD Centre Cabin features SeaStar Hydraulic Steering and a hinged rocket launcher on all models.

Hard Top options are available on the Centre Cabin including the new Enclosed Cabin Hard Top. See page 5 for more information on the Hard Top options and page 23 for popular optional extras.

The SEA-ROD Centre Cabin features the four (4) chamber water ballast hull to provide counter

balance and the 'Active Transom' which gives you the option to design your ultimate water access.

The OFFSHORE models feature a High Tensile 5083 Aluminium plate hull with a true aluminium self-draining deck. Standard features include box pedestal seats for extra storage, folding transom door, transom storage hatches, folding screen, SeaStar hydraulic steering and more.

The CLASSIC models provide the same great ride as the OFFSHORE. The quality flooring is BS1088 Marine Grade Plywood, dipped and carpeted.

Standard on all boats is the V2 foam filled hull, a heavy duty Formosa Marine designed Ali Bowroller, heavy duty Dive Ladder and Tow-Catch™ for solo trailer deploy. Check with your dealer on a suitable trailer and accessory to take full advantage of the Tow-Catch™.

THE SEA-ROD HALF CABIN IS THE ULTIMATE IN FISHING AND FAMILY FRIENDLY BOATING. THE DESIGN INCLUDES A LARGE INNER CABIN, PADDED BUNKS AND UNDER BUNK STORAGE PROVIDING PLENTY OF ROOM TO GET AWAY FROM THE ELEMENTS OR JUST SOMEWHERE FOR THE FAMILY TO RELAX IN COMFORT.

The wide beam, high sides and recessed rear lounge makes the half cabin comfortable and safe in choppy conditions when carrying several passengers. It is the perfect platform for fishing and overnight stays. Your local dealer can help with Bimini tops and covers to suit.

The SEA-ROD offers an innovative four (4) chamber water ballast hull with superior *COUNTERBALANCE* stability at rest and the 'Active Transom' giving you

the option to design your ultimate water access.

The OFFSHORE model features a high tensile 5083 plate hull with a true self-draining deck. Standard on the OFFSHORE are two (2) premium sliding seats with arm rests on storage boxes, transom folding door, transom storage hatches, SeaStar hydraulic steering and more.

Standard on all boats is the V2 foam filled hull, a heavy duty Formosa Marine designed Ali Bowroller, heavy

duty Dive Ladder and Tow-Catch™ for solo trailer deploy. Check with your dealer on a suitable trailer and accessory to take full advantage of the Tow-Catch™.

Turn your Half Cabin into a Hard Top with an Open Cabin, Enclosed Cabin or Folding Rocket Launcher with Visor. See page 5 for these features. Visit the website for the full list of optional extras for the Half Cabin: www.formosamarineboats.com.au/optional-extras

CENTRE CONSOLE

520

DESIGNED FOR THE ULTIMATE IN DECK SPACE, THE SEA-ROD CENTRE CONSOLE WITH ITS WIDE AND GENEROUS FREEBOARD IS A GREAT VERSATILE PLATFORM TO SUIT YOUR VARYING FISHING AND BOATING NEEDS.

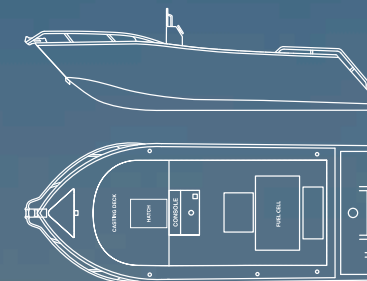

The Centre Console has a large casting deck, underfloor storage and the option to add additional seating and a folding T-Top making this a popular and versatile model.

Sizes 520 and over have the *COUNTERBALANCE* water ballast hull for even more stability at rest and the 'Active Transom' which gives you the option to design your ultimate water access. The 480 size has the original Formosa Fastback Transom and no water ballast hull due to the small size.

The OFFSHORE Centre Console has a 4mm High Tensile 5083 Aluminium plate hull with the exception

of sizes 620 and over which have 5mm bottom sheets. Standard on the OFFSHORE is an aluminium self-draining deck, folding screen, twin flip seat with large storage box, folding transom door, transom storage hatches, hydraulic steering and more.

The CLASSIC models offer the same quality build and performance as the OFFSHORE with quality BS1088 Marine Grade Plywood floors.

KEY FEATURES

- HIGH TENSILE 5083 PLATE HULL
- SEASTAR HYDRAULIC STEERING SYSTEM
- RECESSED REAR LOUNGE
- FOLDING TRANSOM DOOR

Classic 480**, 520, 550, 580

- MARINE GRADE PLYWOOD FLOOR
- XTREME™ NFB STEERING (580 HYDRAULIC)
- 4MM SIDES AND BOTTOMS

POPULAR OPTIONS

- FULL ACCESS ACTIVE TRANSOM (Sizes 520, 550, 580)
- AUXILIARY MOTOR MOUNT
- BAIT BOARD WITH BAIT TANK
- SAVWINCH ELECTRIC DRUM WINCH
- BERLEY BUCKET
- KILL TANK

THE SEA-ROD RUNABOUT IS PERFECT FOR THE FAMILY DAY OUT WITH PLENTY OF DECK SPACE TO MOVE AROUND. COMBINED WITH ADDITIONAL STABILITY FROM THE WATER BALLAST HULL AND THE FLEXIBILITY OF THE STEP DOWN ACTIVE TRANSOM, THE RUNABOUT IS A GREAT ALL-ROUNDER.

The SEA-ROD Runabout has a raised sheer line, wrap

around screen and seating for five people which makes it ideal for family day trips. The extra wide beam, reverse chine hull, generous freeboard and high sides makes this SEA-ROD a very stable and safe platform particularly when carrying small children.

Formosa Marine's SEA-ROD models, 520 and over, feature the *COUNTERBALANCE* water ballast hull for even more stability at rest and

the 'Active Transom' which gives you the option to design your ultimate water access.

The OFFSHORE Runabout has a High Tensile 5083 Aluminium plate hull, a self-draining deck, the V2 foam filled hull and great stability. Sizes 480 to 580 have a 4mm aluminium hull (620 and over-5mm bottom sheets). Standard on the OFFSHORE are two (2) pedestal sliding seats, recessed rear lounge, dash

screen with door, transom door, transom storage hatches, heavy duty Ali Bowroller, Tow-Catch™, heavy duty Dive Ladder, hydraulic steering and more.

The CLASSIC models offer the same quality build and performance with quality Marine Grade Plywood flooring, heavy duty Dive Ladder, XTREME™ steering, Bowroller and Tow-Catch™. Check with your dealer on a suitable trailer to take full advantage of the Tow-Catch™.

THE SEA-ROD SIDE CONSOLE HAS THE PERFECT OPEN DESIGN; TEAM IT WITH THE NEW FULL ACCESS 'ACTIVE TRANSOM' AND IT'S IDEAL FOR LURE FISHING IN ESTUARIES WITH THE STRENGTH TO GO OFFSHORE.

A side mounted console provides enough room to store equipment and maintain easy driving visibility. The forward casting deck, which can be optioned to your preferred height, provides great storage.

Formosa Marine's SEA-ROD models, 520 and over, have the *COUNTERBALANCE* water ballast hull for even more stability at rest and the 'Active Transom' gives you the option to design your ultimate water access.

Available in six (6) sizes, the OFFSHORE Side Console has a 4mm High Tensile 5083 plate hull with the exception of sizes 620 and over which have 5mm bottom sheets for even more strength. Standard on

the OFFSHORE Side Console is an aluminium self-draining deck, two (2) removable swivel seats, five (5) seat positions, transom door, transom storage hatches and hydraulic steering as standard.

The CLASSIC models offer the same quality build and performance with four seat positions, quality Marine Grade Plywood flooring, dipped and carpeted.

Standard on all boats is the V2 foam filled hull,

heavy duty Formosa Marine designed Ali Bowroller, aluminium Dive Ladder and Tow-Catch™ for solo trailer deploy - check with your dealer on a suitable trailer.

Choose from a range of optional extras (page 23) such as the Bait board with Bait Tank and Electric Motor Mount. For the full range of optional extras for the SEA-ROD Side Console visit online:

www.formosamarineboats.com.au/optional-extras

580

KEY FEATURES

OFFSHORE 520, 550, 580, 620, 660, 700

- SELF-DRAINING ALUMINIUM DECK
- HIGH TENSILE 5083 PLATE HULL
- CUSHIONED BOW SEATING WITH STORAGE
- SEASTAR HYDRAULIC STEERING SYSTEM
- FOLDING TRANSOM DOOR

Classic 520, 550, 580

- MARINE GRADE PLYWOOD FLOOR
- MARINE GRADE PLATE HULL
- XTREME™ NFB STEERING (580 HYDRAULIC)
- CUSHIONED BOW SEATING WITH STORAGE

POPULAR OPTIONS

- CASTING DECK CENTRE CUSHION
- BAIT BOARD WITH BAIT TANK
- ELECTRIC MOTOR MOUNT
- DUAL ACCESS ACTIVE TRANSOM
- 2 TONE PAINTED HULL

THE SEA-ROD BOWRIDER IS THE MOST VERSATILE MODEL AROUND. RELAX ON THE CUSHIONED SEATING UP THE FRONT OR CONVERT THE AREA INTO A GREAT CASTING DECK - THE CHOICE IS YOURS!

With the added benefit of the *COUNTERBALANCE* water ballast hull for even more stability at rest (sizes 520 and over) and the 'Active Transom' you have the option to design your ultimate water access.

The deep cushioned forward seating/lounge area with a large amount of storage can be converted into the ultimate fishing platform by removing the cushions and installing the centre board supplied.

The OFFSHORE models have a 4mm High Tensile 5083 Aluminium plate hull. Sizes 620 and over have 5mm bottoms for extra strength. Standard on the OFFSHORE is an aluminium self-draining

deck, two (2) pedestal sliding seats, rear lounge, transom folding door, storage hatches, wrap around screen and hydraulic steering.

The CLASSIC models offer the same quality build and performance as the OFFSHORE with quality BS1088 Marine Grade Plywood floors.

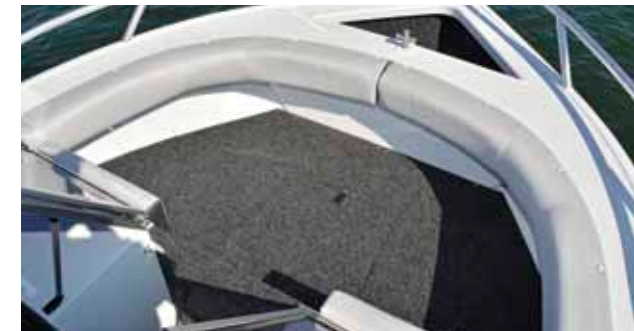

Standard on all boats is the V2 Hull, a heavy duty Formosa Marine designed Ali Bowroller, aluminium

Dive Ladder and Tow-Catch™ for solo trailer deploy. Check with your dealer on a suitable trailer and accessory to take full advantage of the Tow-Catch™.

Customise your boat with optional extras such as a Kill Tank, Berley Bucket and the Formosa Marine built Bait Board with Bait Tank and Dual Access just to name a few. Visit online for the full list of Bowrider options: www.formosamarineboats.com.au/optional-extras

TRANSOM MOUNTED DIVER'S SEAT

THE SEA-ROD TERRITORY HAS A LARGE FORWARD FISHING PLATFORM AND REAR CENTRE CONSOLE. THIS MODEL HAS BEEN TRIED AND TESTED WITH OUR NORTHERN TERRITORY CUSTOMERS, HENCE THE NAME. DESIGNED TO BE VERSATILE ENOUGH TO TRAVEL DEEP INTO BARRA COUNTRY OR OFFSHORE FOR SOMETHING DIFFERENT.

The driver seat base is mounted behind the helm and features an extra large forward casting deck. The wide beam, high sides and ample underfloor storage was designed for the ultimate stable fishing platform.

Popular optional extras for this model include Kill Tank, Electric Motor Mount, Bait Board with Bait Tank, Rod Holders, Transom Mounted Seat Positions and Aluminium Casting Deck. Visit the website for more.

The OFFSHORE models have a 4mm High Tensile 5083 Aluminium plate hull and 620 sizes and over have 5mm bottoms. Standard with the OFFSHORE are an aluminium self-draining deck, three (3) swivel seats, six (6) seat positions, transom folding door, transom storage with hatches, hydraulic steering and more.

The CLASSIC models offer the same quality build and performance with quality Marine Grade

Plywood flooring, transom storage, three (3) swivel seats (480-2), six (6) seat positions (480-4) and raised casting deck with storage.

The V2 Hull has a sharper deadrise giving a softer ride, an improved trim range and increased performance especially in the turns, extra floor structure for a solid under-footing and side extrusions to hide fuel lines and wires for a clean interior.

FISH » WAKE » SKI

580

FISH » WAKE » SKI – DO IT ALL WITH THE NEW X BOWRIDER. TAKE THE FAMILY OUT SKIING OR WAKE BOARDING ONE DAY » TRANSFORM THE X BOWRIDER FOR OFFSHORE FISHING THE NEXT.

Featuring a raised dash and booster seats mounted on pedestal boxes for the ultimate offshore seating position. The innovative Folding Wake/Rocket Launcher has never been seen before on an

aluminium plate boat. Welded for strength and stability, it features a fold down design for storing the boat undercover. Fully welded onto the launcher are three (3) grab rails, four (4) rod holders and a ski/wake pole. The unique 'knuckle' design features exposed perforated Aluminium plate on the outside and the inside is a perfect speaker housing.

The cushioned bow seating with storage converts into

the ideal fishing platform by removing the cushions and adding a casting deck centre board (standard) conveniently stowed under the passenger console.

The X Bowrider has SeaStar hydraulic steering and two (2) side folding seats as standard; a practical setup sitting low for safety and allowing seating for up to six. A recessed rear lounge is an option.

The OFFSHORE models have a 4mm High Tensile

5083 Aluminium plate hull (620 has 5mm bottoms). The OFFSHORE is an aluminium self-draining deck, two (2) pedestal sliding seats, transom storage hatches and wrap around screen.

Standard on all boats is the V2 Hull, heavy duty Ali Bowroller, aluminium Dive Ladder and Tow-Catch™ for solo trailer deploy. Choose from a large range of optional extras to build your ultimate X Bowrider.

BARRA PRO

450

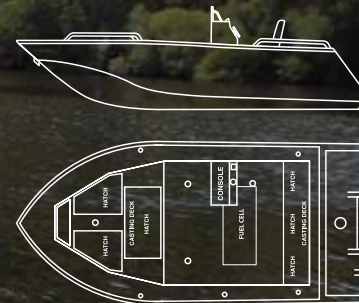

500

FORMOSA MARINE ALSO OFFER THE BARRA PRO RANGE, THE ULTIMATE BARRA OR BASS HUNTING VESSELS. AVAILABLE IN SIZES 450 AND 500.

These boats are ideal for any backwater location but still built strong, in the traditional Formosa Marine way, to handle multiple boating conditions. Gone is the 'tinnie slap' you expect from a small boat, so your back and friends will thank you!

The design, strength, stability and performance surpasses equivalent sized boats on the market. Be assured that when you finally get where you want to be, whether you've travelled over corrugated roads or unforgiving river banks, the hull will still be in one piece!

The Barra Pro range features a 4mm Marine Grade Plate Hull and **NOW with no pressings**, with
