Buy it for looks. Buy it for life.®

Wave hello to MotionSense™.  
Hands-free convenience in the kitchen.

 motion**sense**®

Four styles to match any décor. *motion*sense®

ST6®

Align®

Brantford™

Arbor®

MotionSense™ lets you set things in motion with just a wave of your hand. This innovative, hands-free system starts and stops water flow based only on your movements. Nothing is easier or more convenient.

Hands-free operation no other faucet can touch.

### Three ways MotionSense responds to you.

Want to rinse off a plate on the way to the dishwasher? Need to wash your hands when they are covered in cookie dough? Or are you just grabbing a quick glass of water? MotionSense features two unique sensors that intuitively understand what you're trying to do and act like another set of invisible hands—turning the water on and off just when you need it. Combined with the standard handle operation, accomplishing nearly any task with MotionSense is as easy as 1-2-3.

1. Wave Sensor

2. Ready Sensor

3. Handle

Beyond active: Attractive.

MotionSense sensors are tastefully integrated into the faucet so beautiful styling is all you'll see.

**MOTIONSENSE FINISH OPTIONS**

Chrome (C), Spot Resist™ Stainless (SRS),  
Oil Rubbed Bronze (ORB) Available on Arbor® and Brantford™ only.

1 ■

### Wave Sensor

Pass your hand across the top of the faucet to activate water flow. Wave again to turn it off.

Arbor® faucet shown

## Ready Sensor

Simply place your hands, a dish or a glass below the spout to start the flow of water. Pull away, and the water stops.

# 2.

# 3

## Handle

Turn the faucet on/off anytime, and adjust water temperature and flow.

In touch with your needs.  
Not with your hands.

Every aspect of MotionSense was designed to delight. With the ideal combination of intelligent, yet simple-to-use, technology, MotionSense makes using a kitchen faucet easier, more convenient and more rewarding than ever.

## **MotionSense is designed to delight.**

### **Easy**

It's simple to interact with the user-friendly design.

### **Efficient**

MotionSense gives you the flexibility to complete a variety of tasks with a speed and efficiency you've never before experienced.

### **Germ Control**

Hands-free operation helps you control the spread of germs. And means your faucet needs less cleaning.

### **Water Savings**

With sensors that deliver water only when you need it, MotionSense is designed to minimize waste.

Buy it for looks. Buy it for life.®

More innovative features you'll only find from Moen.®

## reflex

Designed to put itself away. Everything has its place, especially in the kitchen. And with Reflex® you get all the benefits of a flexible hose, plus the convenience of a spray head that retracts fully and securely.

[moen.com/reflex](http://moen.com/reflex)

Spot Resist™ lets you maintain a brilliant finish by preventing the unsightly buildup of fingerprints and water spots. And when it does come time to clean, easily wipe the surface clean in seconds.
