- If specifying a grommet in the center location of a component worksurface, be sure there is clearance under the grommet opening so as not to conflict with undersurface components

**Worksurface grommet locations:**

Excluding the J-Desk and the corner unit, distance to the center of the grommet is the same for the G1 round grommet, G11 racetrack grommet or the CUT-G17 option.

Excluding the J-Desk and the corner unit, the same locations are available for the round or racetrack grommet and the cutout option.
