

We Can Do This:
Advice and
Resources for

Meeting the NSLP New Meal Pattern

as of December 2012

Purpose:

School Nutrition Professionals are in the process of implementing the new USDA Meal Pattern and have asked for SNA to provide easy-to-find answers to their Meal Pattern questions as well as sample menus and tools from States and local school districts that will help others not have to “reinvent the wheel.” For the entire “We Can Do This: Advice and Resources for Meeting NSLP New Meal Pattern,” visit www.schoolnutrition.org/mealpattern.

Contents:

This Resource Guide will be updated as new guidance and additional examples become available. USDA Frequently Asked Questions (FAQ's) are incorporated in the appropriate chapter(s). This Guide covers Lunch Programs only.

Chapter I: Meal Pattern—What is it and When Does It Need to be in Place?

Summary of New Meal Patterns & Timelines

USDA Memo SP 10-2012—Revised April 27, 2012 “Nutrition Standards in the National School Lunch and School Breakfast Programs”
<http://www.fns.usda.gov/cnd/Governance/Policy-Memos/2012/SP10-2012osr2.pdf>

The new meal patterns for the National School Lunch and Breakfast programs were announced by USDA in the Spring of 2012. The new requirements will go into effect on July 1, 2012. There are many changes that must be understood and put in place by the beginning of school year 2012-13. Some of the changes will be phased in over the next several years. This guide is presented as a resource for school districts and state agencies to assist in bridging the gaps between what has been in the past and what is to be in school year 2012-13.

When one describes the new meal pattern as “food based” that is not entirely the case. Granted, menus must be developed around key food groups to include vegetable variety and specific foods ranging from grain products considered “whole grain-rich” to unflavored low-fat milk. Nutrient analyses must be conducted to ensure that not only are the prescribed foods offered in the serving

sizes required but that calories, sodium and saturated fat are held within prescribed limits.

The new meal pattern is food based and requires minimum and maximum calories averaged over a typical school week. There are maximum levels of saturated fat. Trans fat has been eliminated altogether. Each menu must be age-appropriate for the grade groups K-5, 6-8 and 9-12. K-5 and 6-8 can be combined due to an overlap on minimum/maximum average calories for the week. These are some of the major changes this guide presents to enable our members to be successful in meeting the requirements and continuing to serve meals that are acceptable to students.

Materials presented in this guide have been collected from the National Food Service Management Institute, USDA and various state agencies. **Please refer to USDA memos for the most up-to-date information.**

USDA Food and Nutrition Service

Nutrition Standards for School Meals

<http://www.fns.usda.gov/cnd/Governance/Legislation/nutritionstandards.htm>

Chapter II: Digging Deep into Each Category

All menu offerings must be broken down into the three age/grade groups: K-5, 6-8, and 9-12

GRAINS

Grades K-5: 8 to 9 oz. eq./week

Grades 6-8: 8 to 10 oz. eq./week

Grades 9-12: 10 to 12 oz. eq./week

1 oz. eq./day minimum for K-5 & 6-8

2 oz. eq./day minimum for 9-12

- In the first year of implementation, one half of the grains offered must be whole grain rich.
- There will be weekly grains ranges plus daily minimum requirement.
- The 50% guideline for whole grain-rich requires that if the food item is a grain-based product, it must contain 50% or more whole grains by weight or have a whole grain listed as the first ingredient on the ingredient label. If the food item is a mixed dish product (lasagna, stir fry, etc.), a whole grain must be the primary grain ingredient by weight.
- The grain ranges are the minimum and maximum schools may offer per week. They are intended to help schools offer age-appropriate meals within the required calorie ranges.
- Schools do not have to offer whole grain rich products daily as long as the weekly offerings equal at least 50% whole grains.
 - In SY 2012-13, battered and/or breaded products offered will not be counted toward maximum weekly grain requirements.
- Every school meal must offer the daily minimum requirements for all components. Therefore, if a pizza contains adequate grains to meet the minimum daily requirement, but a sandwich roll does not, the sandwich meal must contain another grain in order to meet the minimum.
- There is a daily minimum grain requirement but not a daily maximum. One must keep in mind, however, that there is a weekly maximum.
- There is a limit of up to two ounce equivalents of grain-based desserts per week (total of 2 ounce equivalents).
- Fully cooked grain and pasta items whose nutrition label has water as the first ingredient, followed by a whole grain is considered whole grain-rich.
- All grains offered in amounts of 0.25 oz. equivalent or greater must be counted toward daily and weekly grain offerings regardless of whether or not they are whole grain-rich.

(See USDA Memo: SP 11-2013, dated Dec. 7, 2012)

MEAT/MEAT ALTERNATE (M/MA)

Grades K-5: 8 to 10 oz. eq./week

Grades 6-8: 9 to 10 oz. eq./week

Grades 9-12: 10 to 12 oz. eq./week

1 oz. eq./day minimum for K-5 & 6-8

2 oz. eq./day minimum for 9-12

- This component must be served in a main dish or in a main dish and only one other food item.
 - Schools without daily choices in this component may not serve the same meat/meat alternate more than 3 times/week.
 - May supplement with other M/MA to meet full requirement
 - One ounce cooked, skinless, unbreaded portion of beef, fish, poultry, equals one ounce of the Meat/Meat Alternate requirement. NOTE: Check Food Buying Guide as reference.
 - Four ounces (weight) or ½ cup (volume) of soy yogurt or dairy yogurt equals one ounce of the Meat/Meat Alternate requirement.
 - Two tablespoons of nut butter, almond butter, cashew nut butter, peanut butter, reduced fat peanut butter, sesame seed butter, soy nut butter, or sunflower seed butter equals one ounce of the Meat/Meat Alternate requirement.
 - Nuts or seeds such as sunflower seeds, almonds, and hazelnuts may be used to meet no more than one-half of the Meat/Meat Alternate component with another Meat/Meat Alternate to meet the full requirement.
 - Commercially prepared tofu must be 2.2 ounces (¼ cup) by weight with 5 or more grams of protein to equal one ounce of the Meat/Meat Alternate requirement.
 - Other meat alternates, such as cheese and eggs, may be used to meet all or part of the Meat/Meat Alternates component in accordance with FNS guidance.
 - A ¼ cup of drained beans/peas/legumes equals one ounce of the Meat/Meat Alternate requirement.
 - Regardless of the protein foods offered, schools must plan all meals with the goal to meet the dietary specifications for sodium, saturated fat, trans fat, and calories.
- (See USDA Memo: SP 11-2013, dated Dec. 7, 2012)

MILK

Grades K-12: 1 cup/day

- Allowable milk options:
 - Fat-free (unflavored or flavored)
 - Low-fat 1% (unflavored only)
 - Fat-free or low-fat lactose-reduced or lactose-free
- Must offer at least two choices daily.
- Does not alter nutrition standards for non-dairy milk substitutes (e.g., soy beverages).
- Milk provisions also apply to children ages 3-4.

FRUITS

Grades K-5: ½ cup/day

Grades 6-8: ½ cup/day

Grades 9-12: 1 cup/day

- No more than half the fruit offerings may be in the form of (only) 100 % juice (over the week).
- May select from fresh, frozen, canned in juice/light syrup, or dried fruit options.
- For SYs 2012-14, frozen fruit with added sugar is allowable in the NSLP. (*USDA Memo: SP-20 2012-REVISED, dated Sept. 11, 2012*)
- ¼ cup dried fruit = ½ cup fruit.

VEGETABLE (see Appendix B)

Grades K-5: ¾ cup/day

Grades 6-8: ¾ cup/day

Grades 9-12: 1 cup/day

- A daily serving at lunch must be offered: K-5=¾ cup, 6-8=¾ cup, 9-12=1 cup.
- Daily serving that reflects variety over the week.
- Vegetable subgroup weekly requirements for:
 - Dark Green (e.g., broccoli, collard greens, spinach)
 - Red/Orange (e.g., carrots, sweet potatoes)
 - Beans/Peas (legumes) (e.g., kidney beans, lentils) (see Appendix A)
 - Starchy (e.g., corn, green peas, white potatoes)
 - Other (e.g., onions, green beans, cucumbers)
 - Additional vegetables to meet the total required for the week
- Changes in crediting of uncooked leafy greens; leafy greens will credit as half of volume as served. Therefore, one cup of romaine lettuce is creditable as one half of a cup of vegetables.
- Foods from the beans/peas (legumes) subgroup may be credited as either a meat alternate or as a legume vegetable but not as both simultaneously.

SODIUM

- Sodium limits and timelines for implementation will begin in School Year 2014-15

Final Rule "Nutrition Standards in the National School Lunch and School Breakfast Programs" (1/26/12)

Sodium Reduction: Timeline & Amount				
Age/Grade Group	Baseline: Average Current Sodium Levels as Offered ¹ (mg)	Target 1: July 1, 2014 SY 2014-2015 (mg)	Target 2: July 1, 2017 SY 2017-2018 (mg)	Final Target: July 1, 2022 SY 2022-2023 (mg)
School Breakfast Program				
K-5	573 (elementary)	≤540	≤485	≤430
6-8	629 (middle)	≤600	≤535	≤470
9-12	686 (high)	≤640	≤570	≤500
National School Lunch Program				
K-5	1,377 (elementary)	≤1,230	≤935	≤640
6-8	1,520 (middle)	≤1,360	≤1,035	≤710
9-12	1,588 (high)	≤1,420	≤1,080	≤740

¹ SNDA-III

CALORIES

(All calorie determinations are based on a weighted average.)

Grades K-5: 550-650/weekly average

Grades 6-8: 600-700/weekly average

Grades 9-12: 750-850/weekly average

- Averaged over a week:
- Specific calorie levels are required for a lunch meal to be considered a healthy school meal depending on the age/grade groups. These calorie levels are weekly averages.
- Since there is no overlap in calorie requirements for K-5 and 6-8, a school could offer age/grade groups K-8 a single menu that falls within a range of 600-650 average calories per week to meet the requirement for each grade group.

FATS

- Calories from saturated fats must average less than 10% weekly.
- Trans fat must be zero.
- Naturally occurring trans fats found in products such as beef, lamb and dairy products made with whole milk are excluded from the trans fat requirement.
- When using a commercially prepared product, schools must refer to the nutrition facts panel to determine that there are zero grams of trans fat per serving. For mixed dishes that may contain both naturally occurring trans fat and added/synthetic trans fat the only certain way to determine if the product is in compliance is for schools to request information from suppliers on how much of the trans fat is naturally occurring.

Chapter III: Offer vs. Serve (OVS)— Must Take a Fruit or Vegetable

Point of Sale—What Do We Do?

- In schools with multiple serving lines (multiple offerings), daily minimum requirements must be met on all offerings. Example: In grades 9-12 the minimum daily grain requirement is 2 oz. equivalents. If a school offers a choice between a pizza with 2 oz. equivalents of grain OR a stir fry with a 1 oz. equivalent of grains, only one of the offerings meet the two oz. minimum. The school must offer an additional one oz. equivalent of grains with the stir fry, such as a side item, in order to meet daily grains minimum.
- Each independent serving line must meet the daily and weekly requirements (including subgroups) in order to ensure that a child is able to take a reimbursable meal in any line they choose.
- In the NSLP, schools must offer five food components (milk, fruits, vegetables, grains, meat/meat alternates). Students are allowed to decline 2 of the 5 required food components under Offer vs. Serve (OVS) at lunch. If a student takes a ½ cup of vegetable and also chooses a fruit, then the fruit must be the full component which would be ½ cup or 1 cup depending on the grade group. Students must select the other food components in the quantities planned.
- Students can meet the ½ cup of a fruit or vegetable by selecting different fruits or vegetables. ½ cup allowance for fruit or vegetables may be used only once for either the fruits or vegetables component in a meal, so the other food components selected by the student under OVS must be full components.
- Students can meet the OVS ½ cup requirement by selecting ¼ cup of fruits AND ¼ cup of vegetables.
- The number of components that can be declined when OVS is in place is the same in all age/grade groups.

What Has to be Posted Before the Serving Line?

- The foods or food components (depending on the situation) that are part of a meal must be labeled, listed or otherwise identified near/at the beginning of the serving line and prior to the point of service so students can easily choose a reimbursable meal.
- When food components/food items are located in an approved location beyond the POS, they must be labeled, listed on the menu, or otherwise identified so the students can easily identify all the components for a reimbursable meal and select the correct quantities. There must be a system in place to ensure that each reimbursable meal selected by the student (within their respective age group) under OVS includes at least a ½ cup serving of fruits or vegetable.

Resources

USDA: Offer Versus Serve Teaching Tool for Students

Provides mini posters and color-coded serving line signs to help students choose the right foods for Offer Versus Serve. Available for either Nutrient Standard Menu Planning or Food Based Systems.

Florida Department of Agriculture and Consumer Services

New Meal Pattern & Quick Tips

for School Food Service Personnel

Welcome to School Lunch

Food and Nutrition Services is excited to have your student join us for school lunch. Entering the lunch room can be an overwhelming experience for new and young elementary students, and all elementary students might need a refresher on the meal selection procedures. This activity sheet is designed to assist elementary students in understanding the choices they make when joining us for lunch. Please review the elementary Lunch Color Wheel with your student, so they have a good understanding of their lunch choices.

Plan Your Meal

Draw in pictures of the menu items you selected, or draw a line to your favorite lunch choices to the boxes below. Remember, you must take 1 red or 1 green component and may select 1 orange, 1 purple and 1 blue.

Today's Lunch Menu

Turkey and Cheese Whole Wheat Wrap

Chef Salad

Whole Wheat Spaghetti with Whole Grain Breadstick

Baby Carrots with Low Fat Ranch Dip

Tomatoes

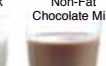

Orange

Strawberries

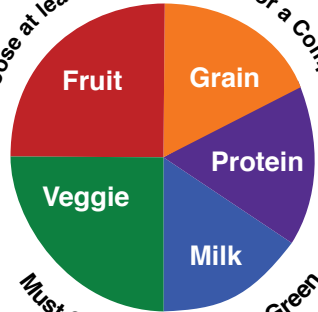

1% White Milk

Non-Fat Chocolate Milk

Must choose at least 3 Components for a Complete Meal

Must Choose 1 Red or 1 Green

Sample Lunch Tray

Chapter IV: Extra Reimbursement— What You Need to Do to Get It

Summary of Requirement & Timelines

- Beginning **October 1, 2012** School Food Authorities (SFA) certified as meeting the new meal pattern requirements will be entitled to an additional \$0.06 per qualifying lunch served.
- In order to receive the additional funding the SFA must submit to the state agency (SA) one week's worth of menus, detailed menu worksheet for each type of menu offered in all schools during a typical school week, and some form of nutrient assessment.
- The SA has 60 days from receipt of SFA documentation to certify eligibility for the additional funding. SAs will have 60 days from October 1 to act on menus received prior to October 1.

There are three options for certification. These options were designed to use, to the maximum extent practicable, existing processes and information.

- **Option 1** allows SFAs to submit one week of menus, detailed menu worksheets showing food components and quantities for reimbursable meals for these menus, and a nutrient analysis of calories and saturated fats. This option acknowledges that a large number of SFAs already use nutrient analysis software to monitor the nutrient levels in their meals.
- **Option 2** allows SFAs to submit one week of menus, detailed menu worksheets showing food components and quantities for reimbursable meals for these menus, and a simplified nutrient

assessment of calories and saturated fats. This option acknowledges that not all SFAs use nutrient analysis software. A simplified nutrient assessment is intended to be a proxy for the nutrient analysis.

- **Option 3** allows State agencies to certify an SFA during a review. If the State agency offers this option, the SFA would need to have one week of menus, detailed menu worksheets for these menus, and all information needed for the State agency to conduct a nutrient analysis.

USDA Memo SP 31-2012-Revised June 11, 2012

See http://www.fns.usda.gov/cnd/Governance/Policy-Memos/2012/SP34-2012assessment_directions.pdf for SIMPLIFIED NUTRIENT ASSESSMENT

- SFAs must demonstrate compliance with both breakfast and lunch if SFA offers breakfast.
- Menus certified as eligible by SAs after October 1 will have retroactive addition of the \$0.06/lunch back to meals served beginning October 1 or the beginning of the month of SFA submitted documentation, whichever is later.

What To Do If Grades Overlap

- When serving K-12 students in a single school, one way to ease menu planning for these two grade groups is to start with a menu that is appropriate for grades 6-8, then add in a few additional foods to serve to the older grade group. For grades 9-12, the fruit and vegetable minimums must be met. Therefore, on top of the requirements for the grades 6-8, schools must make available to the older children: $\frac{1}{2}$ cup more fruit daily, $\frac{1}{4}$ cup more vegetables daily and across the week $\frac{1}{2}$ cup more red/orange, $\frac{1}{4}$ cup other, $\frac{1}{2}$ cup additional (any subgroup) vegetables.
- In schools serving Pre-K students menu planners must provide the existing meal pattern for Pre-K students.

Minnesota Sample Cycle Menu

SAMPLE CYCLE MENU GRADES K-5

	MON 1	TUES 1	WED 1	THURS 1	FRI 1
MEAT/MA	Turkey Corndog ^W	Sweet & Sour Chicken ^R	Turkey Sausage	Apple Cider Stew ^R	Turkey Sloppy Joe ^{R,W}
GRAIN		Brown Rice ^W	French Toast Sticks ^{W,2 ea}	Dinner Roll ^W	
VEG	Corn on the Cob ^L	Broccoli	Roasted Squash ^{R,L}	Romaine Salad _{1c}	Sweet Potato Fries
VEG	Marinated Black Bean Salad	Carrots	Sliced Cucumbers ^L		Celery Sticks
FRUIT	Watermelon Wedges ^L	Fresh Apple Slices ^L	Orange Juice	Orange Smiles	Juicy Pears
CONDIMENTS	Ketchup, Butter	Ranch, Yogurt Dip	Maple Syrup	Ranch, Butter	Ketchup, Hummus
	MON 2	TUES 2	WED 2	THURS 2	FRI 2
MEAT/MA	Cheese Pizza ^W	Hamburger on Bun ^W	Vegetarian	Crunchy Chicken Wrap ^{R,W}	Fish Sandwich ^W
GRAIN			Chili ^R		
			Cornbread		
VEG	Romaine Salad	Lettuce & Tomato		Potato Wedges	Carrot & Celery Sticks
VEG	Beets 'n' Sweet ^{R,L}	Fiesta Beans & Rice ^{R,W}	Fresh Broccoli		Creamy Coleslaw ^L

NSLP - FOOD BASED MEAL PATTERN - LUNCH MENU - 5 DAY

Components Week 1	Menu Item Name & Info	Day 1	Day 2	Day 3	Day 4	Day 5
Vegetables: (Dark Green ½ c/wk)	Item			Steamed Broccoli		Collard Greens
	Portion in cups			¼ Cup		3/8 Cup
Vegetables: (Red/Orange ¾ c/wk)	Item	Sweet Potato Fries		Tomato (Meat Sauce)	Baby Carrots	Tomato (Pizza Sauce)
	Portion in cups	¼ Cup		3/8 Cup	¼ Cup	1/8 Cup
Vegetables: (Beans, Peas or Legumes ½ c/wk)	Item		Baked Beans (USDA- I-06)			
	Portion in cups		2/3 Cup (credits ½ Cup)			
Vegetables: (Starchy ½ c/wk)	Item				Sweet Corn	
	Portion in cups				½ Cup	
Vegetables: (Other ½ c/wk)	Item	Green Beans			Avocado Slice	
	Portion in cups	½ Cup			1/8 Cup	
Vegetables: (Additional 1 c/wk)	Item		Fresh Cucumber Slices	Mixed Greens Salad (Romaine & Spinach)		Veggie Dippers (Red & Green Pepper Strips)
	Portion in cups		¼ Cup	1 Cup (credit ½ Cup)		¼ Cup
Other Foods	Item					
	Portion in cups					
Condiments	Item	Light Mayo/Ketchup	Light Ranch Dressing/Ketchup/Mustard	Light Salad Dressing	Light Ranch Dressing/Mustard	Light Ranch Dressing
	Portion size	1 packet each	1 packet each	1 packet	1 packet each	1 packet

Note: *Contribution in oz. is the cooked amount. i.e., ¼ cup cooked dry beans or 1.34 oz. raw ground beef (no more than 15% fat) yields 1 oz. cooked beef and each provides 1 oz. M/MA. Add additional menu item pages as needed

Note: FBMP = Food Based Meal Pattern, eq. = equivalent, c = cup, WGR = whole grain-rich, M/MA = meat/meat alternate, oz. eq. = ounce equivalent.

*Reduced meat alternate portion in Spaghetti and Meat Sauce USDA D-35 from 2 oz (17 pounds (raw meat, no more than 15% fat) per 100 servings to 13 pounds (raw meat, no more than 15% fat) per 100 servings).

**Substitute whole wheat spaghetti for enriched spaghetti.

Reminder: Sodium - Target I for SY 2014-2015 - Lunch ≤1230 mg (K-5); ≤1360 mg (6-8); ≤1420mg (9-12).

Weekly Averages: Calories - 575; Sodium - 1050 mg; Saturated Fat - 4.19 g (6.55%).

Chapter VI: Educating Parents

Sample Letter to Parents

Healthy Changes in Our School Cafeterias!

Dear [INSERT DISTRICT NAME] families,

This fall, [DISTRICT NAME] school cafeterias are meeting tough new federal nutrition standards for school meals, ensuring that meals are healthy and well-balanced and provide students all the nutrition they need to succeed at school. Now is a great time to encourage your kids to choose school lunch!

School meals offer students milk, fruits and vegetables, proteins and grains, and they must meet strict limits on saturated fat and portion size. Starting in School Year 2012-2013, school lunches will meet additional standards requiring:

- Age-appropriate calorie limits
- Larger servings of vegetables and fruits (students must take at least one serving of produce)
- A wider variety of vegetables, including dark green and red/orange vegetables and legumes
- Fat-free or 1% milk (flavored milk must be fat-free)
- More whole grains
- And less sodium

We're always working to offer [DISTRICT NAME] students healthier and tastier choices. [INSERT INFO ON ANY OTHER INITIATIVES: LOCALLY GROWN FOODS, HEALTHY NEW MENUS, CHEF PARTNERSHIPS, ETC]

School meals are a great value and a huge convenience for busy families too! [INSERT DETAILS ON MEAL PRICES AND ONLINE PAYMENT SYSTEMS]

Template Press Release

[INSERT DISTRICT NAME] School Meals Meet Tough New Nutrition Standards

[INSERT CITY, DATE] As **[DISTRICT NAME]** students return to school this fall, they'll find healthy new choices in their school cafeterias.

[DISTRICT NAME] will be serving school meals that meet tough new federal nutrition standards, ensuring that meals are healthy, well-balanced and provide students all the nutrition they need to succeed at school.

School meals offer students milk, fruits and vegetables, proteins and grains, and they must meet strict limits for saturated fat and portion size. Starting this fall, school lunches will meet additional standards requiring:

- Age-appropriate calorie limits
- Larger servings of vegetables and fruits (students must take at least one serving of produce)
- A wider variety of vegetables, including dark green and red/orange vegetables and legumes
- Fat-free or 1% milk (flavored milk must be fat-free)
- More whole grains
- And less sodium

"We're always working to offer **[DISTRICT NAME]** students healthier and tastier choices," said **[INSERT SN DIRECTOR NAME]**. "In addition to meeting new nutrition standards, we're also **[INSERT INFO ON ANY OTHER INITIATIVES: LOCALLY GROWN FOODS, HEALTHY NEW MENUS, CHEF PARTNERSHIPS, STUDENT TASTINGS, NUTRITION EDUCATION, ETC]**."

School meals are a great value and a huge convenience for busy families. **[INSERT DETAILS ON MEAL PRICES AND ONLINE PAYMENT SYSTEMS]**

To find out more about **[DISTRICT NAME]'s** healthy school meals **[INSERT WEB SITE OR OTHER CONTACT INFO]**.

Talking Points and more...

New Meal Pattern Talking Points

- As [DISTRICT NAME] students return to school this fall, they'll find healthy choices in their school cafeterias.
- [DISTRICT NAME] will be serving school meals that meet tough new federal nutrition standards, ensuring that meals are healthy, well-balanced and provide students all the nutrition they need to succeed at school.
- School meals offer students milk, fruits and vegetables, proteins and grains, and they must meet strict limits for saturated fat and portion size.
- Starting this fall, school lunches will meet additional standards requiring:
 - Age-appropriate calorie limits
 - Larger servings of vegetables and fruits
 - A wider variety of vegetables (including dark green and red/orange vegetables and legumes)
 - Fat-free or 1% milk
 - More whole grains
 - And less sodium
- We're always working to offer [DISTRICT NAME] students healthier and tastier choices.
- In addition to meeting new standards, we're also [INSERT INFO ON ANY OTHER INITIATIVES: LOCALLY GROWN FOODS, HEALTHY NEW MENUS, CHEF PARTNERSHIPS, STUDENT TASTINGS, NUTRITION EDUCATION, ETC]
- School meals are a great value and a huge convenience for busy families.
- *Consider mentioning meal prices and payment systems, eg:* Our school lunches cost only xxx for elementary students and xxx for secondary students and parents can pay for these meals online through our website.

Appendices & Resources

APPENDIX A - APPROVED BEANS

Mature dry beans and peas are creditable in food-based menu planning as either a vegetable or Meat/Meat Alternate component, but not as both components simultaneously. The term “dry beans and peas” refers to the harvesting process of allowing the bean or pea to “mature” or “dry” on the plant before harvesting; it does not refer to the “as-purchased” form of the bean. Many canned or frozen beans or peas are actually dry beans and peas that have been cooked and canned or frozen and are therefore acceptable for meeting criteria.

Bean Products, dehydrated, Refried Beans

Bean products, dry beans, canned, beans baked or in sauce with pork

Bean Products, dry beans, canned, beans with bacon in sauce

Bean Products, dry beans, canned, beans with frankfurters in sauce

Bean Products, dry beans, canned; Beans, Baked or in sauce, Vegetarian, includes USDA Foods

Bean Products, dry beans, canned; Refried Beans, includes USDA Foods

Bean soup, dry beans, canned, condensed, (1 part soup to 1 part water)

Bean soup, dry beans, canned, ready-to-serve

Beans, black, (Turtle beans), dry, canned, whole, includes USDA Foods

Beans, black, (Turtle beans), dry, whole

Beans, black-eyed (or peas), dry, canned, whole, includes USDA Foods

Beans, black-eyed (or Peas), dry, whole, includes USDA Foods

Beans, garbanzo or chickpeas, dry, canned, whole, includes USDA Foods

Beans, garbanzo or chickpeas, dry, whole

Beans, Great Northern, dry, canned, whole, includes USDA Foods

Beans, Great Northern, dry, whole, includes USDA Foods

Beans, Kidney, dry, canned, whole, includes USDA Foods

Beans, Kidney, dry, whole, includes USDA Foods

Beans, Lima, dry Baby, whole, includes USDA Foods

Beans, Lima, dry, canned, Green, whole, includes USDA Foods

Beans, Lima, dry, Fordhook, whole

Beans, Mung, dry, whole

Beans, Navy or Pea, dry, whole, includes USDA Foods

Beans, Pink, dry, canned, whole, includes USDA Foods

Beans, Pink, dry, whole, includes USDA Foods

Beans, Pinto, dehydrated

Beans, Pinto, dry, canned, whole, includes USDA Foods

Beans, Pinto, dry, whole, includes USDA Foods

Beans, Red, Small, dry, canned, whole, includes USDA Foods

Beans, Red, Small, dry, whole, includes USDA Foods

Beans, Soy, dry, canned, shelled

Beans, Soy, dry, shelled

Lentils, dry

Pea soup, dry peas, canned, condensed, (1 part soup to 1 part water), includes cream of pea soup

Pea soup, dry peas, canned, ready-to-serve

Peas, dry, split

Peas, dry, whole

APPENDIX B - APPROVED VEGETABLE SUBGROUPS

USDA plans to update the fruit and vegetable sections of the Food Buying Guide (FBG) for Child Nutrition Programs. This listing is intended to be a temporary reference to assist the menu planner in making selections to meet the new meal patterns and to guide managers in choosing appropriate menu selections when emergency substitutions are required. Refer to the updated FBG when it is released.

Method of preparation does not affect the vegetable subgroup. For example, sweet potatoes are in the red and orange group, spinach is in the dark green group or white potatoe are in the starchy group regardless of method of preparation.

Dark Green Vegetables	Red & Orange Vegetables	Legumes (Beans & Peas) 1
Bok-Choy Broccoli Collard greens Dark green leafy lettuce Kale Mesclun Mustard greens Romaine lettuce Spinach Turnip greens Watercress	Acorn squash Butternut squash Carrots Hubbard squash Pumpkin Red peppers Sweet potatoes Tomatoes Tomato juice	Black beans Black-eyed peas (mature, dry) Garbanzo beans (chickpeas) Kidney beans Lentils Lima beans (mature, dry) Pinto beans Navy beans Soy beans Split peas White beans
Starchy Vegetables	Other Vegetables	
Corn Cowpeas, immature (not dry) Field peas, immature (not dry) Black-eyed peas, immature (not dry) Green bananas Green peas Green lima beans Plantains Potatoes Water chestnut	Artichokes Asparagus Avocado Bean sprouts Brussels sprouts Beets Cabbage Cauliflower Celery Cucumbers Eggplant Green beans	Iceberg (head) lettuce Mushrooms Green peppers Mixed Vegetables comprised of various subgroups Okra Onions Parsnips Radish Summer Squash Turnips Wax beans Zucchini

Additional vegetables to meet the required weekly quantity can come from any of the subgroups of vegetables.

APPENDIX C - APPROVED GRAINS

While children generally eat enough total grains, most of the grains they consume are refined grains rather than whole grains. Whole grains (e.g., whole wheat flour, oatmeal, whole cornmeal, and brown rice) are a good source of nutrients such as iron, magnesium, selenium, B vitamins, and dietary fiber. The Dietary Guidelines suggests that eating whole grains in nutrient dense forms may lower body weight and reduce the risk of cardiovascular disease. At least half of the grains offered at lunch must be whole-grain rich in School Year 2012- 2013. During SY 2012-13 and SY 2013-14 only, refined-grain foods that are enriched may be included on the lunch menu. The new meal pattern provides a minimum and maximum number of oz. eq to meet the weekly grains requirement by age group.

EXHIBIT A: SCHOOL LUNCH AND BREAKFAST (Groups A-C) WHOLE-GRAIN-RICH OUNCE EQUIVALENCY (OZ. EQ.) REQUIREMENTS FOR SCHOOL MEAL PROGRAMS^{1, 2}

Group A		Oz. Eq. for Group A
Bread type coating	Croutons	1 oz eq = 22 gm or 0.8 oz
Bread sticks (hard)	Pretzels (hard)	3/4 oz eq = 17 gm or 0.6 oz
Chow mein noodles	Stuffing (dry)	1/2 oz eq = 11 gm or 0.4 oz
Savory crackers (saltines & snack crackers)	Note: weights apply to bread in stuffing	1/4 oz eq = 6 gm or 0.2 oz
Group B		Oz. Eq. for Group B
Bagels	Pita bread	1 oz eq = 28 gm or 1.0 oz
Batter type coating	(whole wheat or whole-grain-rich)	3/4 oz eq = 21 gm or 0.75 oz
Biscuits	Pizza crust	1/2 oz eq = 14 gm or 0.5 oz
Breads	Pretzels (soft)	1/4 oz eq = 7 gm or 0.25 oz
(sliced whole wheat, French, Italian)	Rolls	
Buns	(whole wheat or whole-grain-rich)	
(hamburger & hot dog)	Tortillas	
Sweet Crackers ⁴	(whole wheat or whole corn)	
(graham crackers— all shapes, animal crackers)	Tortilla chips	
Egg roll skins	(whole wheat or whole corn)	
English muffins	Taco shells	
	(whole wheat or whole corn)	
Group C		Oz. Eq. for Group C
Cookies ³	Pie crust	1 oz eq = 34 gm or 1.2 oz
(plain—includes vanilla wafers)	(dessert pies ³ , cobbler ³ , fruit turnovers ⁴ , and meat/ meat alternate pies)	3/4 oz eq = 26 gm or 0.9 oz
Cornbread	Waffles	1/2 oz eq = 17 gm or 0.6 oz
Corn muffins		1/4 oz eq = 9 gm or 0.3 oz
Croissants		
Pancakes		

- 1 The following food quantities from Groups A-G must contain at least 16 grams of whole-grain or can be made with 8 grams of whole-grain and 8 grams of enriched meal and/or enriched flour to be considered whole-grain-rich.
- 2 Some of the following grains may contain more sugar, salt, and/or fat than others. This should be a consideration when deciding how often to serve them.
- 3 Allowed only as dessert at lunch as specified in §210.10.
- 4 Allowed for desserts at lunch as specified in §210.10, and for breakfasts served under the SBP.

EXHIBIT A: SCHOOL LUNCH AND BREAKFAST (Groups D-F)

WHOLE-GRAIN-RICH OUNCE EQUIVALENCY (OZ. EQ.) REQUIREMENTS FOR SCHOOL MEAL PROGRAMS^{1, 2}

Group D		Oz. Eq. for Group D
Doughnuts ⁴ (cake & yeast raised, unfrosted)	Muffins (all, except corn) Sweet roll ⁴ (unfrosted) Toaster pastry ⁴ (unfrosted)	1 oz eq = 55 gm or 2.0 oz 3/4 oz eq = 42 gm or 1.5 oz 1/2 oz eq = 28 gm or 1.0 oz 1/4 oz eq = 14 gm or 0.5 oz
Cereal bars, breakfast bars, granola bars ⁴ (plain)		
Group E		Oz. Eq. for Group E
Cereal bars, breakfast bars, granola bars ⁴ (with nuts, dried fruit, and/or chocolate pieces)	Doughnuts ⁴ (cake & yeast raised, frosted or glazed) French toast	1 oz eq = 69 gm or 2.4 oz 3/4 oz eq = 52 gm or 1.8 oz 1/2 oz eq = 35 gm or 1.2 oz 1/4 oz eq = 18 gm or 0.6 oz
Cookies ³ (with nuts, raisins, chocolate pieces and/or fruit purées)	Sweet rolls ⁴ (frosted) Toaster pastry ⁴ (frosted)	
Group F		Oz. Eq. for Group F
Cake ³ (plain, unfrosted)	Coffee cake ⁴	1 oz eq = 82 gm or 2.9 oz 3/4 oz eq = 62 gm or 2.2 oz 1/2 oz eq = 41 gm or 1.5 oz 1/4 oz eq = 21 gm or 0.7 oz

1 The following food quantities from Groups A-G must contain at least 16 grams of whole-grain or can be made with 8 grams of whole-grain and 8 grams of enriched meal and/or enriched flour to be considered whole-grain-rich.

2 Some of the following grains may contain more sugar, salt, and/or fat than others. This should be a consideration when deciding how often to serve them.

3 Allowed only as dessert at lunch as specified in §210.10.

4 Allowed for desserts at lunch as specified in §210.10, and for breakfasts served under the SBP.

EXHIBIT A: SCHOOL LUNCH AND BREAKFAST (Groups G-I)

WHOLE-GRAIN-RICH OUNCE EQUIVALENCY (OZ. EQ.) REQUIREMENTS FOR SCHOOL MEAL PROGRAMS^{1, 2}

Group G		Oz. Eq. for Group G
Brownies ³ (plain)	Cake ³ (all varieties, frosted)	1 oz eq = 125 gm or 4.4 oz 3/4 oz eq = 94 gm or 3.3 oz 1/2 oz eq = 63 gm or 2.2 oz 1/4 oz eq = 32 gm or 1.1 oz
Group H		Oz. Eq. for Group H
Cereal Grains (barley, quinoa, etc) Breakfast cereals (cooked) ^{5,6} Bulgur or cracked wheat Macaroni (all shapes)	Noodles (all varieties) Pasta (all shapes) Ravioli (noodle only) Rice (enriched white or brown)	1 oz eq = 1/2 cup cooked or 1 ounce (28 g) dry
Group I		Oz. Eq. for Group I
Ready to eat breakfast cereal (cold, dry) ^{5,6}		1 oz eq = 1 cup or 1 ounce for flakes and rounds 1 oz eq = 1.25 cups or 1 ounce for puffed cereal 1 oz eq = 1/4 cup or 1 ounce for granola

1 The following food quantities from Groups A-G must contain at least 16 grams of whole-grain or can be made with 8 grams of whole-grain and 8 grams of enriched meal and/or enriched flour to be considered whole-grain-rich.

2 Some of the following grains may contain more sugar, salt, and/or fat than others. This should be a consideration when deciding how often to serve them.

3 Allowed only as dessert at lunch as specified in §210.10.

5 Refer to program regulations for the appropriate serving size for supplements served to children ages 1 through 5 in the NSLP; and meals served to children ages 1 through 5 and adult participants in the CACFP. Breakfast cereals are traditionally served as a breakfast menu item but may be served in meals other than breakfast.

6 Cereals must be whole-grain, or whole-grain and enriched or fortified cereal.
