A WELL-DESIGNED BIKE ROOM

considers everyone's needs, from the property owner looking to get the most value from their space to the end-user seeking convenient, functional, and secure bike parking. Taking into consideration the layout of your space, the anticipated capacity you will need to meet, and the different styles of bikes to be parked will ensure happy building owners and much appreciated peace-of-mind for end users.

Download the complete bike room design guide and many other useful resources from our website: www.dero.com

FREE LAYOUT SERVICE

Many considerations go into building a great bike room, and our experienced sales team is prepared to help. They are well-versed in bike-parking design and are dedicated to providing the best possible layout for your space.

We look forward to working with you on your next bike room!

VERTICAL BIKE PARKING

ULTRA SPACE SAVER SQUARED

Adjustable sliding arms make for easy, flexible installation. Square tubing for greater security.

Security: **□□□□□**

Patents D774,441 | 9,873,472

BIKE FILE

Sturdy sliding hangers allow 9 bikes to be securely stored in an 8-foot section. U-lock compatible.

9 bikes per 8' section

Security: **□□□□□**

2-TIER BIKE PARKING

DERO DECKER

Unlike other two-tier systems, our lift-assist top trays slide smoothly down inches from the ground, thus requiring only minimal lifting of the bike into the tray.

Security: **□□□□□**

Patent 8,950,592 B1

DERO DUPLEX

Sturdy trays with high sides keep bikes from slipping off while loading or unloading, and also make the Duplex compatible with most standard u-locks. Minimum 3 sections.

Security: **□□□□□**

Patent D768,545

FULL CUSTOM DESIGNS

We can help create imaginative bike racks that combine aesthetics and high-security parking – or choose from an existing design. Visit www.dero.com to see more custom designed racks.

IMAGE INFUSION

Turn your bike racks into durable, weather-resistant canvases with our unique full-color powder coat process.

LOGO RACKS

Eye-catching and functional, laser cut logo bike racks create enduring visibility for your brand.

ICON HITCH™

Choose from eight designs: beer mug, bike, bird, coffee cup, silverware, maple leaf, music note, and wine glass. Ideal for coffee shops, restaurants, brew pubs, nature centers, and anyone who wishes to make a statement with these eye-catching bike racks.

Security: □□□□□

2 🚲

TYPE RIDER® RACKS

These laser cut, hand-welded bike racks can be made to spell out a word, brand name, and even a hashtag.

Security: □□□□□

SPECIALTY RACKS

EVENT RACK

An innovative design that addresses the needs of any game, festival, or event requiring temporary and secure bike parking. Stackable for easy storage.

Security: **□□□□□**
14 🚲

ALLEY RACK™

Arm swings a full 180° to offer a variety of locking positions.

Security: **□□□□□**
1-2 🚲
 Patents D774,423 | 9,969,446

SWITCHBACK™

Allows for horizontal bike parking along a wall when your space is limited.

Security: **□□□□□**
1 🚲
 Patent D767,452

COMPACT RACK

Shorter version of the Event Rack with an 8 bike capacity.

Security: **□□□□□**
8 🚲
 Patent D583,716

SADDLE BUDDY™

Designed for trailheads, bike parks and picnic areas, the Saddle Buddy offers a resting place for cyclists' noble steeds. **Not lockable.**

Security: **□□□□□**

WALL RACK

Rubber coating keeps bikes from getting scratched. U-lock compatible. Ideal for reserved car parking stalls in garages or ramps.

Security: **□□□□□**
2 🚲

U-LOCKIT™

Lightweight, modular system for short-term parking at schools, churches, and small businesses. Ships flat.

Security: **□□□□□**
 Patent 9,592,868 B2

BIKE HOOK SOLO

Provides a simple, space efficient way to store and lock your bike.

Security: **□□□□□**
1 🚲

TRACK RACK

Staggered, sliding hook design creates the greatest parking efficiency. **Not lockable.**

13 bikes per 8' section
 Security: **□□□□□**

LOCK DOCK

Keeps your commuters' locks readily available.

METER HITCH

Re-uses existing parking meter poles to serve a dual parking purpose.

Security: **□□□□□**
2 🚲
 Patent D620,845

ULTRA SPACE SAVER SINGLE

Great for property managers as well as for home storage use. Square tube option available.

Security: **□□□□□**

STREETSCAPES

DERO PARKLET

The Dero Parklet is an innovative way to build public gathering spaces right in the heart of the urban streetscape. Businesses and organizations with limited sidewalk space now have the unique ability to extend their atmosphere and aesthetic to the outdoors.

Quick Assembly and Removal

The Dero Parklet bolts together quickly, saving time and labor.

Modular Design

Add sections to suit your available space.

Ships and Stores Flat

A disassembled Parklet packs into a 4' x 8' space for off-season storage.

Meets Most Deck Codes

The Dero Parklet was designed to meet most building codes for decks.

Sturdy, steel railings separate users from traffic

Durable, all-weather decking

Steel flap bridges gap to curb for safety and accessibility

Leveling feet under platform keep the Parklet level with the curb for greater accessibility and safety, while allowing water to drain freely.

The Dero Parklet is engineered to meet the best practices guidelines established by the National Association of City Transportation Officials (NACTO).

CYCLE STALL ELITE

The Cycle Stall Elite's frame is built from rugged, impact resistant, two inch steel. It provides a physical barrier from traffic, while including racks with optimum frame support and security. We can customize this rack with your logo or special shape.

Security: **▣▣▣▣▣**

14 

BIKER BAR™

The Biker Bar is a leaning rail designed to give cyclists a place to rest their foot and balance while waiting for the traffic light without having to dismount.

Patent D796,387 S

CYCLE STALL BASIC

The Cycle Stall Basic kit covers the needs of cities and businesses that want to provide an on-street bike corral at a low cost and minimal changes to infrastructure.

Choose your style of rack!

E-SCOOTER RACK

Declutter sidewalks and create orderly parking for electric scooters. The E-Scooter Rack accommodates numerous scooter models.

4 scooters per rack

Patent pending

WAYFINDING SIGNS

FIXIT

Public Bike Repair Station

The Fixit includes all the tools necessary to perform basic bike repairs and maintenance, from changing a flat to adjusting brakes and derailleurs. The tools and optional air pump are securely attached to the stand with stainless steel cables and tamper-proof fasteners.

Tool Kit and Fixit include the following tools:

- Philips and flat head screwdrivers
- 2.5, 3, 4, 5, 6, 8mm Allen wrenches
- 8, 9, 10, 11, 15, 32mm box wrenches
- Tire levers (2)

Visit www.dero.com/fixitmap/fixitmap.html to see a map of our Fixit stations world-wide.

Patents D680,914 and 9,498,880 B2

QR code takes smart phone users to comprehensive bike repair videos

Large surface area for sponsorship, branding, or wayfinding signage

Tools are secured with braided stainless steel aircraft cables

Screwdrivers and Allen wrenches are on swivel connectors for easier use

Pump can be mounted on either side or back of Fixit

Pump hose is reinforced for maximum protection

All metal pump head accommodates Presta and Schrader valve stem types

PUBLIC BIKE PUMPS

Our Air Kits are public bike pumps made of steel with anodized aluminum parts, and stainless handle and plunger to decrease wear. Features our universal Dero Metal Head™ that works on both Presta and Schrader valves. Pump head hangs above the ground. Galvanized protection plate protects finish. Easy to service.

AIR KIT 4

The Air Kit 4 combines our most robust bike pump with an integrated wheel holder to keep your bicycle in place. The air pressure gauge is on the side to avoid fogging.

Patent pending

AIR KIT PRIME

Stand alone or attached to a Fixit, this new sleek design will help people to keep on rolling. Fits existing Fixits.

Patent pending

METAL HEAD

The Dero Metal Head™ is ready to rock the world of public bicycle repair. Its sturdy cast aluminum construction and easy-to-use functionality takes center stage. Additionally, the new pump head features universal Presta and Schrader valve compatibility.

TOOL KIT

All the tools are securely fastened with stainless steel cables and tamper-proof fasteners. Two versions are available – a floor mounted and a wall mounted version.

Patents D717,214, 9,095,973B2, 9,505,124B2

PUMP STOP

The Pump Stop holds bikes upright while filling tires with air. It is the perfect accessory to any Dero public air pump.

BIKE LOCKERS

VELOPORT™

The graceful lines and modern laser cut design makes the Veloport stand out while offering the security and durability you need in your long-term bike parking. Lift-assist door and lockable inside tray help to guide the bike into the port.

Patents D803,762 S | 9,920,547

DERO SINGLE LOCKER™

This steel bike locker is bike security at its best. Ideal for long-term parking, its steel construction makes sure thieves stay out. Multiple locking options and all standard powder coat color options are available. Ships flat to save you money.

DERO VERTICAL LOCKER

The Dero Vertical Locker unites the space-saving advantages of our Ultra Space Saver parking system with the additional protection of fully-enclosed bike storage. With its unique trapezoidal footprint, the Vertical Locker can be arranged in single or double rows or curved configurations.

Curved configuration

Double-sided row

Patent pending

DERO TWO-TIER LOCKER

We take long-term bicycle storage to new heights with the new Dero Two-Tier Bike Locker. Its upper tray lift-assist makes it easy to load and provides a space-saving solution to meet the increasing demand for covered bike parking.

DERO DOUBLE LOCKER™

This wider version of our steel bike locker allows the option to store two bikes – with doors at each end and a divider between.

FIBERGLASS LOCKERS

These fiberglass bike lockers come in several sizes. The 300 Series ships fully assembled, each unit is self contained, two colors are available, and there is a stackable option. The 350 Series is modular, seven colors are available, includes air vents, stainless steel hardware, gear hooks, number plates, and requires on-site assembly.

BLUETOOTH ACCESS

Access lockers with nearly any smartphone

BIKE SHELTERS

Pocket Shelter
p. 33

Bike Depot
p. 32

Cycle Station
p. 32

Kolo Shelter
p. 33

BIKE DEPOT

The Bike Depot bridges the gap between short and long-term bike parking. An optional wire mesh enclosure provides maximum security for stored bikes. Accommodates 2-tier parking.

VIZOR® SHELTER

A simple, elegant cantilevered bicycle shelter.

Patent D748,562

KOLO® SHELTER

The unique styling of our Dero Kolo Shelter will help beautify your facility and provide secure, covered bike parking for cyclists.

ADD LIGHTS FOR ADDITIONAL SECURITY

Dero offers bright, solar powered lighting units for most of our bike shelters. Ask a sales representative for more details.

CYCLE STATION

With a high roof and open platform, the Dero Cycle Station accepts bike corrals, vertical, or two-tiered bike racks configured to meet your specific needs. Additional options like enclosures and lighting are available.

POCKET SHELTER

Small and versatile, the Pocket Shelter stores bikes in areas that would not normally accommodate bike parking. This shelter is a modular system that provides covered and secure bike storage but is extremely space efficient and cost-effective.

STANDARD PRODUCT OPTIONS

FINISH OPTIONS

Galvanized

Hot-dipped galvanized is an extremely durable and low-cost finish option. The bike racks are hot-dipped galvanized after fabrication and then hand ground to ensure a clean, safe surface.

Stainless

Stainless steel is the most beautiful and durable option. We use a 304 grade stainless steel which will continue to look new and attractive for many years. Satin finish is standard.

PVC Dip

Galvanization is applied before being dipped in UV-stabilized PVC. The coating is subsequently cured to produce a coating that offers excellent protection against abrasion, impact, and corrosion.

Powder Coat

Powder coating provides a durable finish using a solvent-free process that is better for the environment than liquid paints. We offer 20 standard colors and can special order from over 250 custom colors.

MOUNT OPTIONS

Surface

Metal flange anchors to the ground with included wedge anchors. Other special anchors such as tamper-proof nuts are also available.

In-Ground

Rack is embedded into concrete surface.

Rail

Racks are bolted to rails which may be anchored to surface or left freestanding.

Tamper-resistant Fasteners

Breakaway Nut

Stainless Tamper-Proof Nut

Triple-Slot Nut

Concrete Spike

SITE AMENITIES

ultra site

A PLACORE Company

Dero offers a selection of site amenities by our sister company UltraSite. They have over 25 years of experience providing excellent park furnishings and site amenities. Choose from a wide variety of items, such as benches, bollards, and trash receptacles. These products will provide any public space with a functional blend of creative design and security – perfect for parks and rec and indoor bike rooms.

Patents 8,876,009 B2 | 8,952,786 | 9,715,610 B2

AUTOMATED COMMUTER TRACKING SYSTEM

Learn more at www.derozap.com

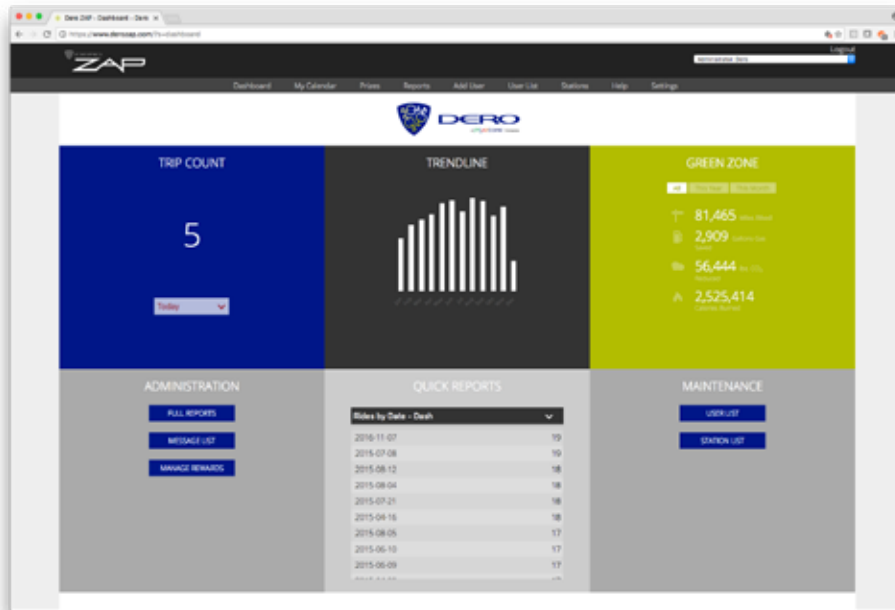

A tamper-proof RFID tag attaches to the front wheel of each registered bike. Hand-held tags are available for people who walk to work.

A ZAP station detects tags as they pass by.

Our powerful web app reports on the data received from each station.

MORE BIKING AND WALKING

Dero ZAP encourages people to bike or walk more and stick with it. Since it's automatic, participants simply have to walk or bike past a ZAP sensor to receive wellness points, prizes or discounts from your wellness program.

SAVE TIME

Dero ZAP automates the management of your commuter program. No more manual entry of commutes; all the data you need is available online or as an easy download.

SAVE MONEY

A modest amount of exercise every day helps prevent painful and expensive medical problems. Keep your employees fit and productive while lowering overall health care costs.
