WEDDING CELEBRATIONS

It's your big day, you want it to be special on all levels, so what you don't need is just an ordinary cake at the end of the menu. Sweet Sneak Studio makes sure to translate your personal stories into a cake table that makes you want to marry all over again!

The Sweet Sneak cake table is not a normal cake buffet. It is a set up that acts as center piece for the reception or the dessert part of your wedding evening; it invites your wedding guests to gather around it to mingle and maybe even meet with others for the first time.

To create a jaw-dropping cake table, we recommend to go for a menu consisting of one layered wedding cake (to have the traditional wedding-cake-cutting moment) with an 'ocean' of mini cakes around it (2 types per guest). This could be anything from different flavoured mini cupcakes to mini cheesecake or brownie or carrot cake etc.

Love is in the detail.

The overall look comes out best once all details are pulled together which is why we always offer the set up on site.

The full wedding cake table set up covers:

- Concept and menu design
- Initial and tasting meeting
- Cake production
- Delivery
- Set up and styling

Wedding cake table set ups start around 10.000 DKK.

Rikke and Jens held their wedding ceremony in the heart of Vesterbro, Copenhagen. On a beautiful September day we set up their reception buffet outside in front of the church – a long table filled with flowers, sparkling wine, delicious sandwiches, seasonal mini cupcakes and a 2-tier wedding cake with salted caramel.

Salted caramel, figs and chocolate were the theme for Birgitte & Heine's late summer wedding. Here, the focus was on the 3-tier wedding cake, mini cupcake bites and fresh flowers made the setup complete.

In a beautiful green house in Frederiksberg, we set up this rustic cake table. All mini cupcakes, carrot cake bars and salted caramel cookies were decorated with edible flowers and seeds from gardens around Copenhagen. The tea bar offered all homemade ingredients and invited guests to mix their own tea blend matching the mood of the event.

Our cake tables are always customized for your very own wedding. You can choose among different styles of cakes as well as flavours. The decoration of the cakes can always be adjusted to your overall wedding theme (flowers, fruits, cake toppers etc.). We work with the charm of every season's fresh ingredients – the availability of flowers, fresh fruits and berries therefore varies depending on your wedding day.

On the next page you can find an overview of all types and tastes.
