# Welcome

BeWell Canadian Spas are manufacturers of premium hot tubs, produced in Quebec, Canada. Our spas combine European design with the renowned Canadian quality, providing the ultimate hydrotherapy experience.

Our team of engineers have years of experience working for different brands within the industry, we have taken all this knowledge and created this beautiful range of hand crafted spas, for you.

We are that confident in the quality of our spas that we provide a warranty not offered by any other spa manufacturer.

BeWell guarantees total satisfaction!

A close-up photograph of a woman with blonde hair, smiling broadly while sitting in a hot tub. The water is bubbling around her. The image is partially obscured by a diagonal white line that separates it from the text on the right.

## Product Warranty

We are so confident of the build quality of our spas that we offer a 15 year warranty! This is unrivaled in the industry.

- 15 years warranty on the shell structure.  
The shell will maintain it's structural integrity and configuration and be free of any water loss due to a defect in the shell
- 7 years warranty on the shell surface.  
The surface of the shell will remain free from blistering or delamination for a minimum of 7 years
- 3 years warranty on components.  
Components such as the control panel, heater, pumps will be free from defect or failure.

\*The above warranties exclude consumable or perishable items such as fuses, bulbs, headrests and gaskets.

\*7 year warranty on Shell Surface Executive models only, 3 years on the rest of the range.

## Quality Assurance

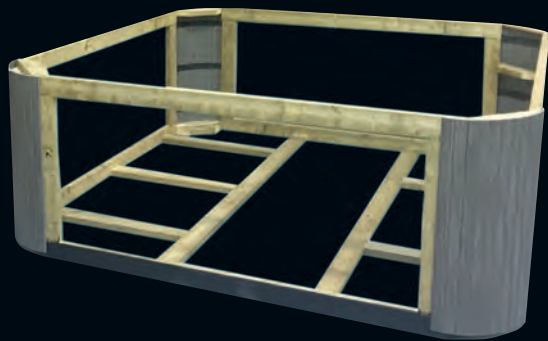

BeWell Spas prides itself on being a Canadian manufactured Spa, using only the highest quality Canadian & American made components. We partner with some of the industry's leading suppliers to bring you the very best in hot tubs at an affordable price.

## Structure

Every BeWell spa is made from the finest 4" x 2" Canadian Pine, which is treated to class 4, meaning it is protected against weathering and will not degrade. The advantage of using wood is that it absorbs vibrations made by the powerful jets. The pumps are mounted on a silent block, again absorbing vibrations and noise.

## Insulation

We use only the best insulation across all our range. We use 4cm thick high density polyurethane insulation which is backed with heat reflective surfaces. This both reflects the heat back into the spas cabinet but also reflects the external air away. The heat from the pumps is recycled back into the water. We also provide a 5" thick insulated thermal cover with every spa.

## Base & Shell

The base isolates the electrical components from the soil. It supports the weight of the spa and ensures stability and balance.

Our shells are thermoformed and laminated in our Canadian factory. Our experience and expertise allows us to produce an excellent finish and be fully weather resistant.

# User Friendly Controls

## BeWell Touch

**A unique user interface and an engaging new way to control your spa equipment and accessories!**

No buttons, keys and overlays! Mode and function selection wheels, all-on or all-off one touch activation key of last used settings, interactive display icons and on-screen messages are all elements of the BeWell Touch user interface designed to let spa users interact intuitively with their spa and its value-added accessories.

## BeWell Colour

The BeWell Colour is built with all the great features you would need but in a smaller package. It is discreet, compact, and unobtrusively beautiful. Save space without losing out on functions.

- With a bright, full colour display, We have created the seamless graphic interface spa users have been waiting for!

# BeWell Sound

Streamed From Your Spa – Your Favourite Music Never Sounded So Good!

## BeWell Touch

BeWell Spas which come with the BeWell Touch control panel include our fully integrated audio system. Its interface features full control of audio sources, volume and settings, and display of song tag information from Apple music, Spotify etc

Designed to deliver clean, crisp rich sound in the highest quality performance expected by music lovers.

Spas with the BeWell Touch control will be supplied with waterproof speakers and a subwoofer for a great quality sound.

Original Series have 2 Speakers and Subwoofer, Executive Series have 4 Speakers and Subwoofer.

## BeWell Colour

BeWell Spas which use the BeWell Colour control panel come with a simple Bluetooth amplifier and 2 built in waterproof speakers and a subwoofer for a great quality sound.

Simply connect your phone/tablet and choose your favourite music via our integrated audio system.

Sit Back and enjoy!

# BeWell Self Cleaning System

Water so clear you'll want to touch it, you'll need to feel it!

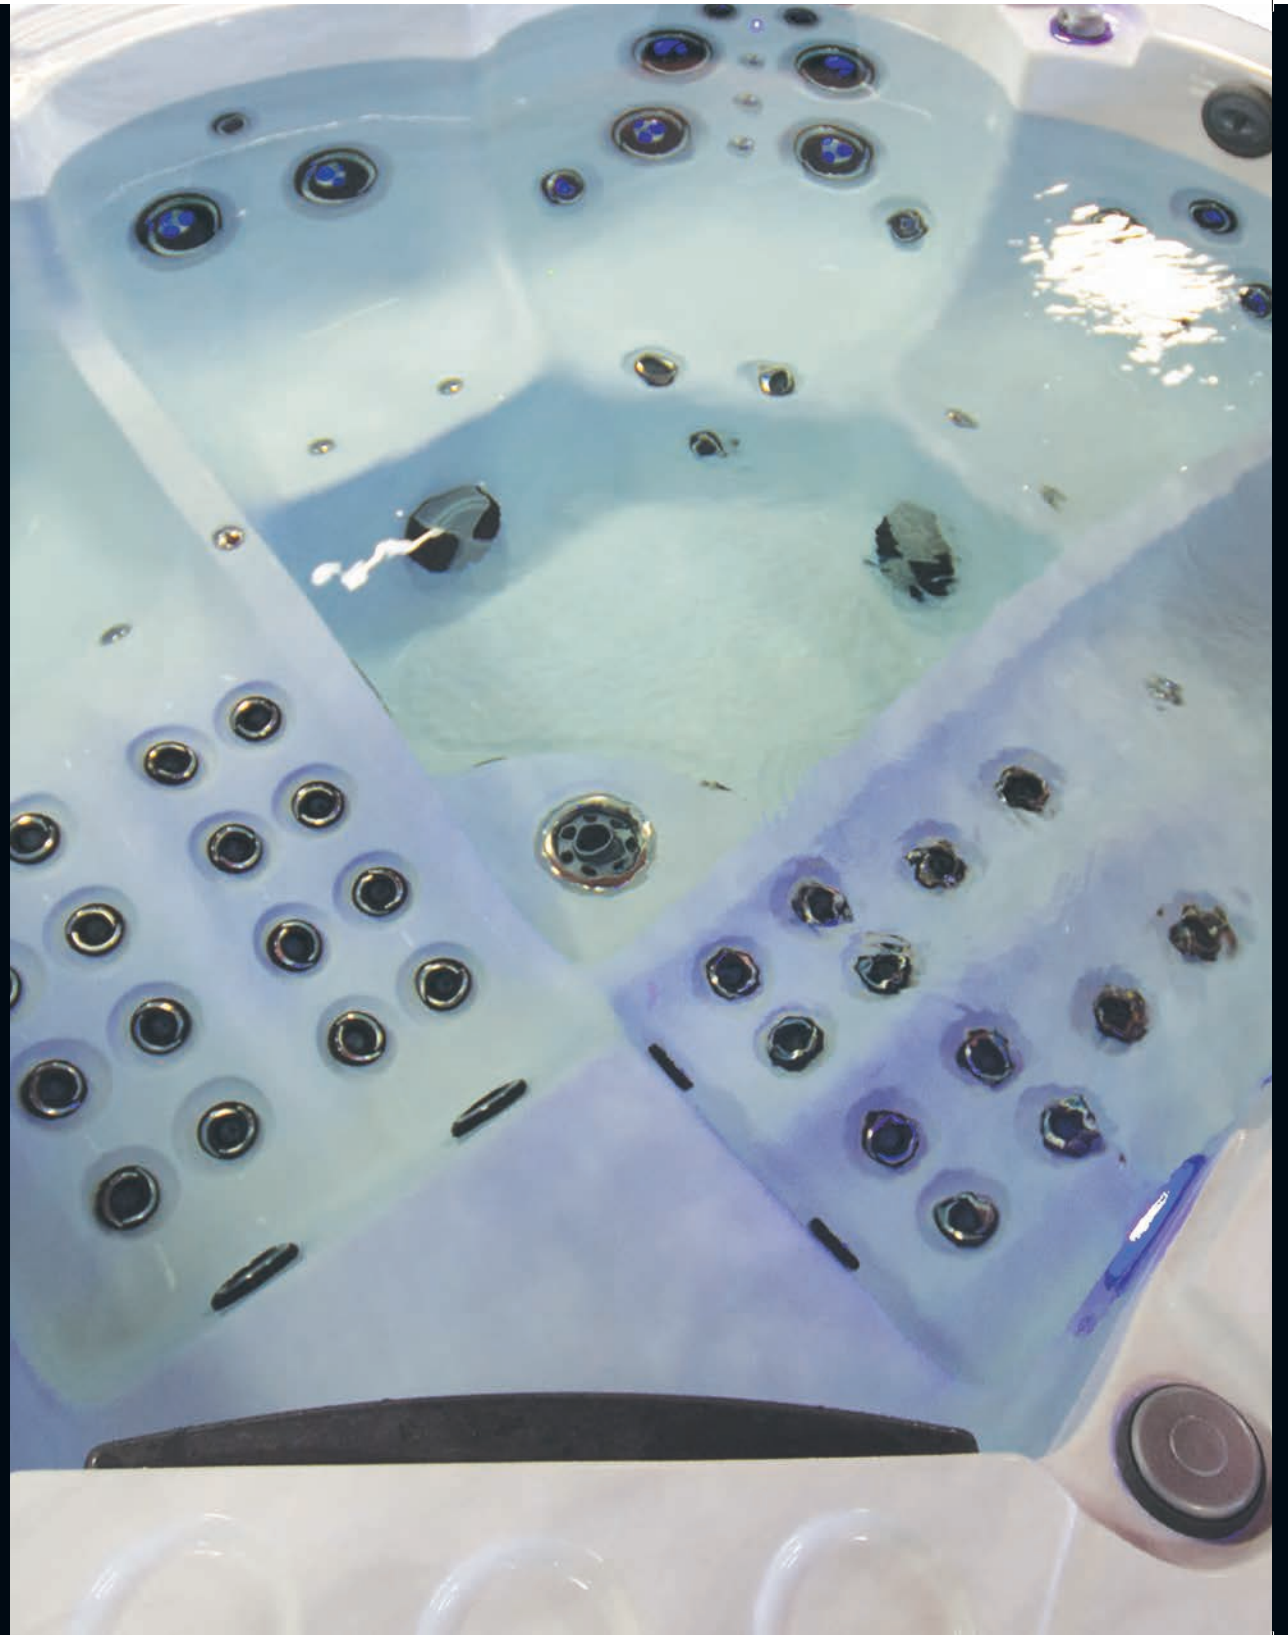

Our automatic water treatment system generates and releases bromine into the water to eliminate microbiological contaminants such as waterborne bacteria, algae, and organic matter given off by spa bathers for a relaxing and enjoyable bathing experience every time the spa is used.

You'll get clear, clean and soft water every time you use your spa and you will never need to add any other harsh chemicals to the water of your spa.

Even if your schedule keeps you away for weeks, you are sure to enjoy a clear, clean and soft spa water experience when you return.

\*Standard on Executive Series

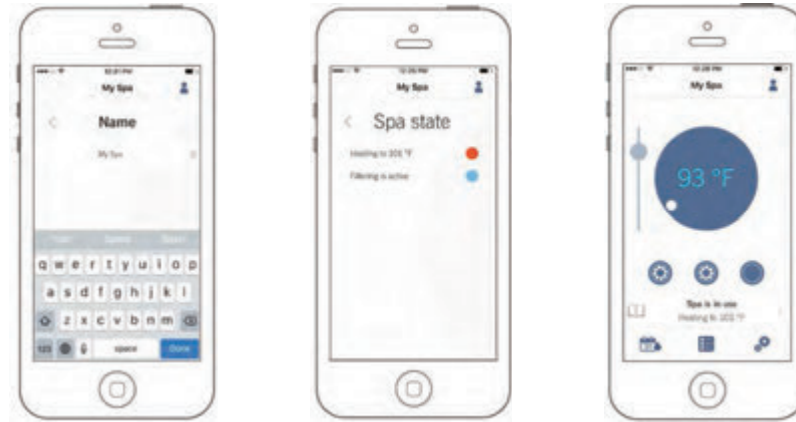

# BeWell Wifi

## Control Your Spa From Anywhere In The World

The BeWell wifi option allows immediate access to your spa from anywhere in the world. It transforms your iOS or Android smartphone or tablet into your ultimate wireless remote control, enabling you to control all aspects of your spa, from your fingertips.

The application makes it very easy to control and program functions and features of your spa from your smartphone or your tablet, even when you're away from home. Push notifications will always keep you informed on the status of your spa, even when your app is not open.

\*Standard on executive series

# Customise Your Spa

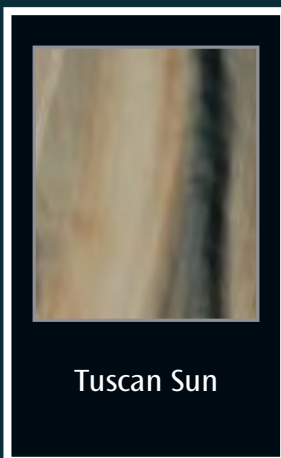

## Acrylic Colours

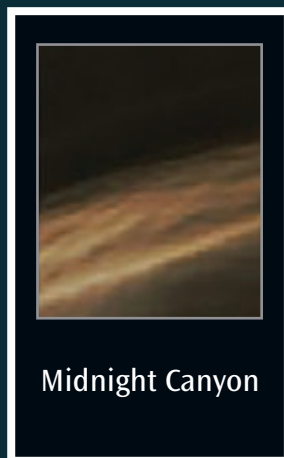

Sterling Silver

Pearl Shadow

Tuscan Sun

Midnight Canyon

## Cabinet Colours

# Hydrotherapy Jets

## Back & Hip Jets

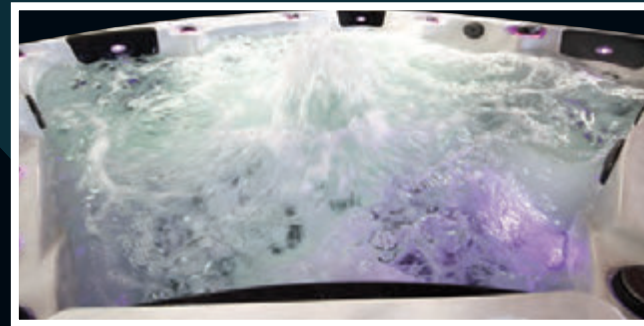

Our back, hip & waist jets are perfectly positioned to help break down any fatty tissue to help tone your body. The hydro massaging feature can also assist in rehabilitation following injury.

## Lounger Jets

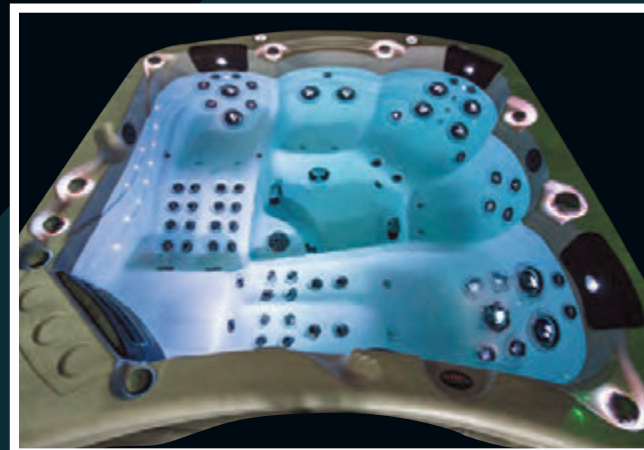

Sit back and relax in our ergonomically designed lounger seat with perfectly positioned jets to reach your back, hips and legs for that full body massage.

## Volcano Jets

Our volcano jets offer a powerful massage for your feet, relieving all the stresses of being on your feet all day.

## Illuminated Controllers & Back Lit Jets

Add an extra touch of relaxation by including illuminating controllers and back lit jets to your spa.

\* Illuminated controllers standard on all models. Back lit jets standard on Executive Series.
