Welcome to Developing DCAA-Compliant Indirect Rates

Presented by: Gelman, Rosenberg & Freedman CPAs and Aldebaron, Inc. (SYMPAQ)

The program will start promptly at 12:00 PM ET

Please note: Use the "Question" panel to speak with the administrator if you experience any technical issues while logging into GoToWebinar. For the best audio quality, please call-in by phone vs. connecting via your computer.

Call: +1 (562) 247-8422 | Access code/event number: 676-883-358

Housekeeping

General Information/Technical Questions

- We <u>strongly</u> recommend that you connect by phone instead of your computer for the best audio quality. Call +1 (562) 247-8422. The event number is 676-883-358.
- Please use the "Question" panel for any technical questions, or you may contact Dominic Acosta at dacosta@grfcpa.com.
- This presentation will be recorded and made available to download at www.grfcpa.com/webinars/.

Housekeeping

CPE Credit

- Important: Three (3) CPE words will be provided during the presentation. Please write them down
 we will not provide them again via GoToWebinar or email (no exceptions).
- Please complete the electronic survey that will appear automatically at the end of the webinar.

 Turn off your pop-up blocker (leaving it on could block the survey).
- Attendees seeking CPE for this presentation must complete the survey and <u>enter all three CPE</u> <u>words</u>. You cannot claim CPE unless we receive a completed evaluation with the correct words.
- Technical questions about the survey can be addressed to Dominic Acosta at dacosta@grfcpa.com.

Overview

- Single Burden Rate
- Multi-Tired Indirect Rates
 - Service Centers: Fringe, Occupancy
 - o Overhead, G&A, Subcontract Administration
- Uniqueness of Bid & Proposal (B&P) and IR&D
- What does the FAR say about rates
- Order in allocations (step-down)
- Analysis of Indirect Rates

Poll Question #1

My level of understanding regarding FAR Part 31, CAS, OMB Circulars and special contract requirements is ______.

- A) excellent
- B) good
- C) fair
- D) in need of improvement

Basic Indirect Rate Model

150

$$1,000 = 15\%$$

What are indirect rates? The fraction is a mathematical expression of your administrative infrastructure contract level oversight (overhead), overall entity (G&A), or specialized selfliquidating pools for fringe benefits on labor or occupancy on square feet, or IT hours (not discussed in this presentation).

Single Burden Rate

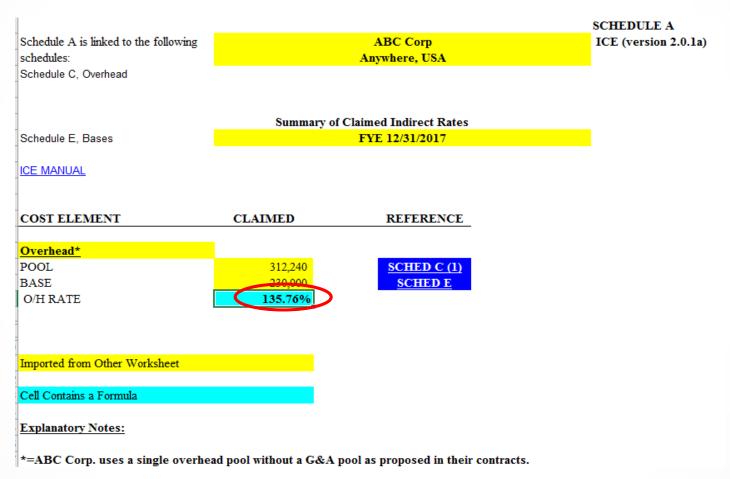

The Uniqueness of One Indirect Rate

Single Burden Structure

- 1 cost pool with components of fringe and G&A (General & Administrative) type expenses
- Allocation base includes only direct labor dollars
- Presented indirect rate for negotiation

Presentation of Typical Negotiated Rates

& FREEDMAN Certified Public Accountants

Service Centers Fringe and Occupancy

Definitions

- Service Centers are intermediate cost objectives since they are indirect cost pools that retain cost to be further allocated to both direct and indirect components within a final cost objective until there are zero dollars remaining in the pool.
- Types of Service Centers
 - o Fringe benefits allocated to productive labor: direct, overhead and G&A
 - o Occupancy is apportioned to both G&A and overhead cost pools based on the cost centers' square footage or labor dollars.
 - Human resources is apportioned to both G&A and overhead cost pools based on the number of employees (headcount)
 assigned to those particular cost centers. (No example provided in this session.)

Definitions (continued)

- Benefits Provided To Employees
- Paid Absence (Vacation, Holiday & Sick Leave)
- Payroll Taxes
- Pension Plan
- Group Ins (Health, Life & Disability)
- Tuition Assistance
- Public transportation

Occupancy Pool & Base Detail

Poll Question #2

We have assessed our indirect cost rate structure and identified areas of potential noncompliance _______.

- A) within the last month
- B) within the last year
- C) not yet but we anticipate the need soon

Overhead

- Overhead is a cost pool often predicated on a direct labor plus B&P labor allocation base including applied fringe benefits to both.
- A local overhead relates to smaller segments of the company based on:
 - o Business line or type of contractual services,
 - Manufacturing or engineering,
 - o On-site or off-site overheads, or
 - Geographic rates
- Presented indirect rate for negotiation

Total Overhead Base	\$	832,002	\$ -	\$	832,002		
Overhead Rate		63.95%			60.00%		

Overhead Base* - Straight time direct labor dollars of all contracts and projects including labor costs of IR&D/B&P projects plus fringe on direct labor.

General & Administration (G&A)

Benefits the Entire Company

G&A Cost Pool

- Overall general executive and administrative offices that do not solely relate to any major function of contractor.
- Include allocable portion of fringe on indirect labor
- Executive staff (CEO, COO, VPs)
- Finance (CFO, Controller)
- HR, safety and risk management
- Budget and planning, bid & proposal, facilities

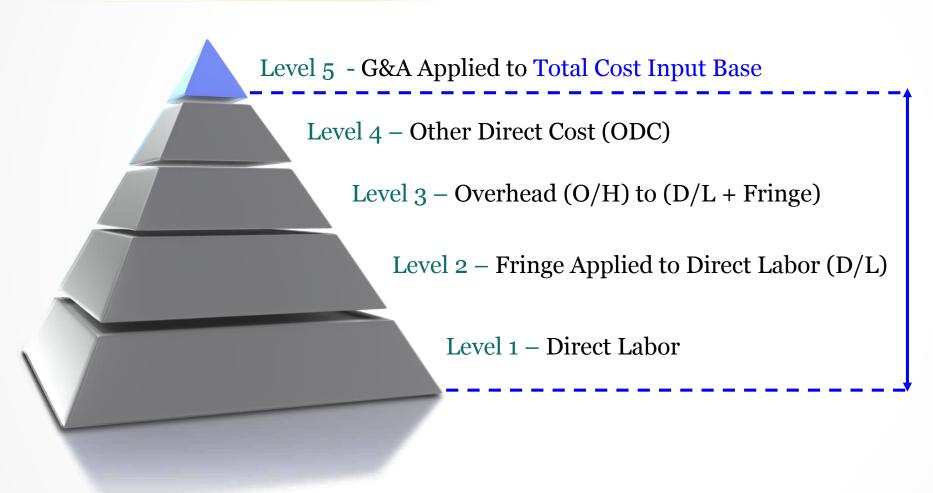

- Legal/General counsel
- Information Technology
- Sometimes fringe, occupancy resides in G&A

G&A Allocation Base

- G&A Total Cost Input Base:
- Direct labor + applied fringe
- Other Direct Cost (travel, supplies, misc.)
 - Subcontracts
 - Material & Consultants
- Value added G&A Base may exclude:
- Subcontracts/Material/Consultants
- Presented indirect rate for negotiation

Subtotal IR&D + B&P	65,660	(1,192)	64,468		
TOTAL G & A EXPENSE POOL	339,777	(9,479)	330,298		_

Explanatory Notes:

- 1 Executive Compensation claimed is less than limitations established per FAR 31.205-6 and DFARS 231.205-6
- 2. Expense of President Vice President, and wives on a personal trip not claimed.
- 3. Unallowable cost per FAR 31.205-14, entertainment.
- 4. Unallowable cost per FAR 31.205-1(f)(5) advertising and general promotional materials about the company, distributed to the general public.
- 5. Unallowable cost per FAR 31.205-3, bad debts.
- 6. Unallowable cost per FAR 31.205-20, interest.
- Unallowable cost per FAR 31.205-1(f)(2), trade shows.
- 8. Adjustments reflect the difference between the G/L overhead rate of 63.95% and the claimed rate of 60.00%.

NOTE: Although IR&D and B&P are technically not G&A expenses, they are normally allocated using the same cost input base as used for G&A. The term G&A used in this model includes IR&D and B&P. In the event that the base used to allocate IR&D and B&P is different than the base used to allocate G&A, a separate schedule for IR&D and B&P would be required.

G&A Allocation Base (TCI)

G & A Base:		
Contract Labor	\$ 633,012	
Contract Travel	34,563	
Contract Material	842,981	
Other Direct Costs	172,105	
Subcontracts	944,841	
Subtotal = DIRECT COSTS	\$ 2,627,502	
General Ledger Overhead (before adjustments)	532,086	2
Fringe on Direct Labor (before adjustments)	175,178	
Less: IR&D/B&P Fringe transferred to G & A pool.		
IR &D Fringe (at G/L rate)	(3,810)	
B&P Fringe (at G/L rate)	(2,540)	
Less: IR&D/B&P O/H transferred to G & A pool.		
IR &D O/H (at G/L rate)	(10,858)	3
B&P O/H (at G/L rate)	(7,239)	3
Other Misc Adjustments to G&A Base (provide detailed support)	-	
G&A Base - Total Cost Input (exludes IR&D/B&P and COM)	\$ 3,310,318	4
G&A Rate	9.98%	
Notes:		
(2) The claimed G & A base must include both the Schedule C claimed overhead \$499,174 plus		
unallowable overhead costs incurred but not claimed of \$32,912.		
(3) Overhead on the IR&D/B&P labor at the General Ledger rate of 63.95% is used instead of 60.00%	because	
the unallowable portion from overhead pool (543,522) must also be deducted from the G & A base. The	G&A base does not include G&A unallowable.	
(4) In summary, the total cost input base consists of contract direct costs plus overhead (claimed and		
unclaimed) less overhead on IR&D/B&P transferred to the G & A pool. The base does not include IR&	&D	
direct costs which are usually recovered through the G&A pool.		

Poll Question #3

Does your organization have appropriate accounting practices for identifying and removing unallowable costs from indirect cost proposals?

- A) Yes
- *B*) *No*
- C) I am not sure

The Uniqueness of Bid & Proposal Cost

As a Part of the G&A Cost Pool

Bid & Proposal (B&P)

- Treated like a direct project, i.e. an intermediate cost objective per CAS 420
- Establish a special job or project number for each B&P project, if applicable.
- B&P direct labor receives an application of the fringe and overhead.
- B&P ODC's are also tracked by B&P job no.
- Independent Research & Development (IR&D) cost is treated the same as B&P

- Total B&P project cost is comprised of:
 - Direct labor
 - Applied fringe to direct labor
 - Applied overhead to [direct labor + fringe]
 - Other Direct Costs
- B&P is transferred in total to G&A pool
- Allocated over the TCI or G&A base

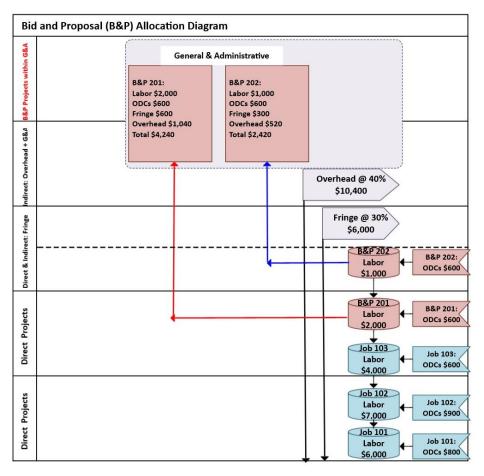

- B&P is incurred after a bid/no-bid decision has been made by management.
- Up to the bid/no-bid decision, the initial effort is considered direct selling assigned to overhead and/or G&A.
- Idea: define business development as direct selling
- B&P includes technical volume of a proposal.
- Usually the effort to prepare the cost volume requires G&A personnel and as such, since B&P will reside in G&A, G&A personnel do not track their labor to a B&P job number.

• Includes the cost in preparing, submitting, or supporting any bid or proposal which effort is neither sponsored by a grant, nor required in the performance of a contract.

Material Handling

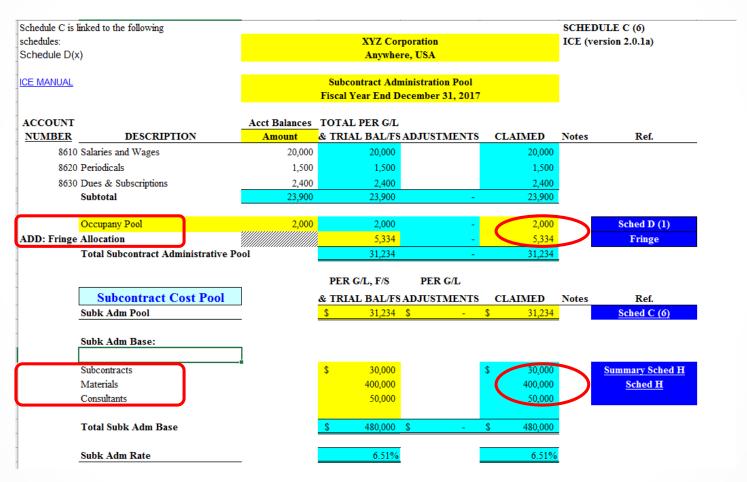

& Subcontract Administration

Subcontract/Material Handling

- Subcontract Administration is the administration of subcontractors and consultants where the direct subcontract and consultant costs are the allocation base.
- Material Handling pool pertains to the administration of the distribution and receipt of product
 - o Handling pool includes distribution, purchasing, receiving, inspection, packaging, freight in/out
 - Material or products allocation base
- Presented indirect rate for negotiation

Subcontract/Material Handling Rate

FAR on Indirect Cost What are the Rules

FAR 31.203

- Logical cost groupings 203(c)
 - Select an allocation base that is common for all cost objectives (contracts)
 - The base selected shall allocate the grouping basis of the benefits accruing to intermediate and final cost objectives
 - When the outcome can be achieved by less precise methods, the number and composition of cost groupings should not unduly complicate the allocation

FAR 31.203 (continued)

- Do not fragment the base 203(d)
- Once the appropriate base for allocating indirect costs has been accepted
- The contractor shall not fragment the base by removing individual elements
 - o TCI vs. Value-Added
 - o If Total Cost Input Base is used to allocate G&A costs, the base shall include all items that bear a pro rata share of G&A cost, whether allowable or unallowable, commercial or federal work

FAR 31.203 (continued)

- Separate cost groupings for offsite locations may be necessary 203(f)
- Base period for allocating indirect costs is their fiscal period for incurring and accumulating costs to be allocated to work performed in that period 203(g)
- Indirect costs that meet the definition of excessive pass-through charge in 52.215-53 are unallowable 203(i), i.e. subcontractor costs

Order of Allocating Cost

Step-Down Method

FAR 31.203

- Allocation order 203(b)
- After direct costs have been charged directly to the contract
- Indirect costs are those remaining to be allocated to
- Intermediate cost objectives: fringe, occupancy
- 2 or more final cost objectives via overhead, G&A
- No final cost objective will have indirect costs allocated if other costs for the same purpose have been included as a direct cost

FAR 31.201-4 – Allocation Order

- Incurred specifically for the contract
- Benefits both the contract and other work
- Can be distributed to them in a reasonable proportion to the benefits received
- Necessary to the overall operation of the business
- Though a direct relationship to any particular cost objective cannot be shown

XYZ GovCon Multiple Rate Structure (FYE 12/31/15)

10000	Overhead at Headquarters: McLean, V.	A 50000

Analysis of Indirect Cost

Final Thoughts

Percent of Base Analysis – Fringe Pool Example

<u>FY 2017</u>		<u>FY2018</u>		<u>Account</u>
\$1,500	15%	\$1,500	20%	Leave
1,500	15%	2,500	33%	Medical
<u>500</u>	<u>5%</u>	<u>500</u>	<u>7%</u>	Payroll
\$3,500	35%	\$4,500	60%	Fringe Pool
\$10,000		\$7,500	Total Labor Base	

Indirect Rate Multiplier

- Indirect Rate Loading Factor:
- Fringe (1.35) x Overhead (1.25) x G&A (1.12) = 1.89
- For every D/L \$1.00 spent, there will be an additional cost of 89¢ in burden cost.

Final Thoughts

- Emerging structures
 - Single overhead
 - o Fringe and G&A, too small for overhead
- Secrets, tips and tricks: competitiveness
 - Low multipliers drive cost direct
 - Consultant market driven > actual wrap rates
- Proper design & set up per FAR 31.2
 - Full cost recovery cost buildup
 - Best model DCAA ICE template
