

Welcome to Dr Ageless

At our clinic we provide an individualised approach to improving your overall health and wellbeing. Among other things, we focus on addressing any issues you may have with previous, current or ongoing injuries, injury prevention and recovery, muscle recovery, decreased libido, mood concerns, weight management, vitamin and mineral deficiencies.

Our Service Include

- Health and wellbeing assessments
- Hormone Replacement Therapy (HRT)
- Growth Hormone Replacement Therapy (GHRT)
- Peptide Treatments
- Platelet Rich Plasma Treatments (PRP)
- IV Rehydration and Supplement Treatments

Our Process

We strive to maintain close monitoring of your progress and we achieve this by conducting regular blood test and physical reviews.

Your initial consultation will enable our team to:

- Provide you with information regarding our services and treatments
- Determine a baseline for your current state of health
- Order pathology (this may require you to be fasted)
- Address any questions or concerns you may have

Upon your second visit, we review your pathology results and determine a treatment regimen based on your desired outcomes.

Subsequent to that, we will be meeting with you at regular intervals to assess and review your progress and make any necessary adjustments to your treatment.

Fees must be finalised at completion of your appointment. Payments can be made via Visa, MasterCard, Amex, Eftpos and cash. Fees are subject to change without notice.
