

FEIN Power Tools 2006/2007

Welcome to FEIN

Our new power tool catalogue will bring you up-to-date on all FEIN tools. On the following pages you will find a broad range of customized tools for the most diverse applications in craft and industry – including a selection of interesting innovations that will make your work easier.

FEIN power tools are equipped with either universal motors or three-phase AC motors. Use with DC power available only upon inquiry.

FEIN power tools comply with the safety requirements in accordance with EN 50144, EN 61029 and HD 400 standards, along with the general requirements in accordance with EN 55014 and EN 61000-3-2/-3-3 standards.

Clearly structured program sections and clearly laid out tables makes it easy to find what you are looking for. You are provided with the facts and information that you need for each FEIN power tool.

The product descriptions refer to the basic models unless other models are specified. These are valid for the rated voltage of 110 Volt at a frequency of 60 Hz. Other voltages and frequencies available upon inquiry.

Subject to change.
Illustrations are non-binding.

The history of power tools

Since 1895 FEIN has held an important advantage over other manufacturers: the invention of the first power tool. FEIN's unique talent for innovation was already evident years before. In 1867, the precocious 25-year-old Wilhelm Emil Fein, together with his brother Carl, founded a "Mechanics Shop" in Stuttgart by the name of C. & E. FEIN.

In 1873, he dazzled the experts by developing an electro-medical inductor. Two years later, Wilhelm Emil Fein invented the first electric fire alarm. Following numerous other sensational advances involving dynamo-electric machines and different lighting equipment, he even built the first portable telephone in the year 1885.

An invention that worked.

In 1895, Wilhelm Emil Fein set a technical milestone in building the first power tool ever: an electric handheld drilling machine. This groundbreaking invention significantly lightened the workload of untold workers in a variety of fields in both industrial-scale manufacturing and manual trades. In view of this great success, Emil Fein, the son of the company founder, made the final decision in 1908 to remake the company as a specialist manufacturer for power tools.

C.E. FEIN continued to develop as a company.

This pioneering act taken in 1895 was followed in the next few years by a number of other developments that further refined the concept of the power tool. They include: the first electric bench drill in 1897; the first portable drill with flexible shaft in the year 1898; and at the turn of the century, the first electric handheld drill, which was easier to use thanks to light-weight aluminum parts. In 1901, FEIN unveiled the first handheld power drill equipped with gearing.

Today

The world's first electric handheld power drill: 1895.

begins with FEIN.

The motor shaft's high rpm rate was reduced by the gearing in such a way that even very hard metals could be drilled. In 1903, FEIN launched the first handheld electric drill that could drill at three different speeds. In the year 1910, this was followed up by the first handheld electric drill with an overload clutch and automatic switch-off. And in the years 1912–13, the first handheld drill with series motors for three-phase DC and single-phase AC current was developed.

In 1914, the first real high-performance power tool was developed: an extremely powerful handheld electric drill for both three-phase AC and DC power. In addition to drills, FEIN also invented and refined a number of other power tools during these years which would lighten the workload of people working at large industrial factories and in small workshops. These machines include: polishing motors, portable sanding motors, centering machines, rail-mounted cold saws, keyway milling machines, high-pressure fans, and electrical block and tackle.

And that was just the beginning...

Portable telephone: 1885.

The first electric fire alarm in 1875.

The first electric handheld power drill built with aluminum components. Built in 1900.

The first handheld sanding motor. Built in 1906.

For more than 100 years, FEIN has developed innovative tools that have set new standards for metal working, the automotive industry, and interior construction. FEIN specializes in meeting the needs of small business and industry alike, something all of our customers truly benefit from. For years, FEIN has had its “finger on the pulse of the market”, acting on the wishes of its buyers in each sector and developing power tools and professional solutions catered to the most discriminating buyers in each individual target group. The result is an extensive product line ready for everyday use – with unique features and a wide range of accessories for every application where obtaining top results is the name of the game.

On the road to global success by innovation and quality.

Efficiency is our number one priority

The professional tools from FEIN are well suited for use on job sites or in the workshop. FEIN also offers premium solutions that are reasonably priced, ergonomically designed, minimize waste and are long lasting. The service life of FEIN's power tools are unsurpassed. By delivering top-flight precision, costly and time-consuming touch-up work are a thing of the past. Your investment in a FEIN tool pays itself back in no time at all.

Quality of the highest standard.

Around the world, FEIN power tools have gained a special reputation with craftsmen and in industry. The key factors in the success of FEIN power tools are their reliability, sturdiness, high level of safety and precision, as well as low wear and tear. That is why we at FEIN offer a three-year warranty* on all our tools. FEIN stands by the high-quality of our tools for everyday heavy-duty use.

Ergonomics and work safety

There is always room for improvement: FEIN tools are therefore constantly being put to the test to ensure our customers receive better and safer equipment with improved ergonomics. Our research and development department use the data obtained from the most strenuous quality control and long-term tests to design FEIN power tools ideally suited for non-stop use, to further improve work safety, and to reduce physical fatigue during work as much as possible.

*For more detailed information on warranties, please refer to page 9 or visit our website at www.fein.de/warranty.

Trend-setting developments for metal working

FEIN markets a complete line of professional power tools for metal working, including drills, screw drivers, grinders, cutters, and saws. The key to the success of FEIN power tools is that they are easy to work with, offer top-flight performance, are heavy duty and extraordinarily strong. FEIN meets these high demands. Top performance and extreme load handling form an ideal combination. Awards such as the reddot and IF (KBM 32 Q) design awards speak for themselves.

Safety of the highest standard

Angle grinders cannot be safe enough. That is why FEIN compact angle grinders have features such as integrated dead-man's handle, self-start lock, restart lock, and soft start.

Engineered down to the last detail

FEIN has brought mag drilling to a high level of perfection. The name FEIN stands for compact, mobile Drills made to perfection: from strong motors to user-friendly features such as a flexible stroke range, double dove-tailed guides, QuickIN tool change, and memory speed function. FEIN safety features such as a self start lock and safety circuit insure job site safety. And last but not least, a comprehensive range of accessories provides for a universal employment in all conceivable areas of metal working.

FEIN Compact angle grinders – Set the standard for performance, safety, and convenience.

Mag drilling with FEIN - extremely cost-effective with high precision

A step ahead of the competition in the automotive sector.

In the automotive sector, FEIN has focused on developing high-precision and efficient solutions. And you can see the results firsthand. Today, FEIN is top in the field in this area. Continuous research and product development provide the perfect conditions to maintain and bolster our position on the market. It allows us to produce tools that are up to the latest standards in terms of handling, efficiency, and worker safety.

One of a kind in our field

FEIN SUPERCUT AUTOMOTIVE is one of the most popular power tools for removing rigidly bonded windshields ever designed and is recommended by all leading carmakers. Its oscillating drive concept coupled with the wide range of accessories created specially for the automotive sector mean FEIN SUPERCUT AUTOMOTIVE is an extremely cost-effective and cost-saving tool. The range of applications includes the removal of glass, plus an array of other automotive applications such as sanding, cutting, scraping, and much more.

Precision for car assembly

FEIN has good reason to claim that it is Powered by innovation. Based on its many years of experience FEIN knows what it takes to drive screws: Safety, optimal screw results, fatigue-free working, and excellent ergonomics. With its line of FEIN ACCUTEc screwdrivers, FEIN is able to offer the best, most cost-effective solution for problematic screwed connections.

The essential tool for removing rigidly bonded windshields – the FEIN SUPERCUT AUTOMOTIVE.

FEIN's all-rounder for interior and renovation work.

New features – greater time-savings – better handling: FEIN demonstrates its expertise throughout the entire product line and this comes to great use in interior work and renovation. Specialty tools, designed specifically to meet the demands of the industry, round out the line. FEIN offers the complete range of professional power tools for interior work all from one source.

Your expert in interior work

FEIN SUPERCUT CONSTRUCTION – the specialist with oscillating movement will win you over with its flexibility in a wide range of applications. Its finely tuned accessory sets for glass work, carpentry work bathrooms/tile work meet the requirements of anyone carrying out standard tasks involved with interior work and renovations to a tee. This includes for example the renovation of insulating glass, removal of grout joints, sawing in tight spots with limited room for movement and much more.

The right driver for every screw

Professional work requires professional tools, specially tailored to the demands of every application. For this reason, FEIN markets a wide range of professional screwdrivers, incl. the autofeed screwdriver – a tool that is extremely compact, powerful, and easy-to-use. It is 6 times faster at driving screws, offers toolless settings and a specially-developed and patented autofeed mechanism, making it an indispensable tool in the workplace.

FEIN specialists for interior work – for precise, safe, and efficient work.

Fein Authorized Warranty Repair Centers

At FEIN Power Tools we believe that we offer the very best in German engineering and precision at an affordable price. Many of our tools are designed to perform specific tasks. We strongly recommend routine maintenance on all FEIN Power Tools to ensure optimal performance every time you use your tool.

The following Authorized Warranty Repair Centers have had “hands-on” training by FEIN Technicians. Our Repair Centers are continually notified of any changes in repair specifications and maintenance on all FEIN Power Tools. Any tool repair performed by any non-authorized repair center will void your warranty.

We strongly recommend that you contact your selected Authorized Warranty Repair Center or FEIN Power Tool factory repair Center in Pittsburgh before you send in your tool. As a courtesy, please let them know what tool model you will be sending for repair. They should be able to tell you approximately how long the repair will take.

FEIN Factory Repair Center:

- Technical support and product-information
- Large inventory of parts for all all FEIN products

- Quick turnaround
- Full performance and safety test
- Sophisticated repair tools and diagnostic equipment
- Highly experienced technicians
- Tool diagrams with part numbers available by telefax or internet

FEIN Authorized Warranty Repair Centers Offer:

- Guaranteed quick turnaround time
- Warranty Service
- All technicians are trained and certified by factory
- Genuine FEIN service parts
- 6 month warranty on parts and labor

To find a local FEIN Repair Center, contact us toll free: 1-800-441-9878 or visit our web page www.feinus.com/p/new-warranty/warranty.htm

Extended warranty – 3 year FEIN PLUS warranty

In addition to our standard one year warranty, you may extend warranty coverage for an additional two years (three years from delivery, in total) for any FEIN Power Tool product purchased after September 1, 2005 (except for FEIN high-frequency power tools, FEIN AccuTEC screw guns, FEIN balancers, FEIN vacuums, FEIN routers, FEIN pipe saws, FEIN pneumatic tools, FEIN battery packs and battery chargers) if you successfully complete the registration

of your product purchase at <http://www.fein.de/warranty> within 4 weeks of the purchase date. You must print and retain your proof of registration as confirmation of your enrollment in the FEIN PLUS warranty program. Successful completion of registration will require you to provide all of the information requested and consent to the storage of your information pursuant to the privacy policy as posted. Other than the term of coverage, all other terms

and conditions of warranty service under our standard one year warranty will apply to the extended FEIN PLUS warranty program. You are covered by our standard one year warranty regardless of whether or not you elect to register for extended coverage under the FEIN PLUS warranty program. All registrations for the FEIN PLUS warranty program need to be placed with C. & E. FEIN GMBH at <http://www.fein.de/warranty>

Cordless

Cordless

The FEIN HANDYMASTERS are setting new standards in design and ergonomics. The machines are light and handy cordless drill/drivers. The vibration-absorbing soft grip and excellent balance ensures superb handling. The FEIN HANDYMASTERS are equipped with highly reliable motors providing sustained power for non-stop heavy

duty operation. Whether you want to carefully insert a screw or drill with plenty of power, the ten-stage clutch setting and the variable speed control allow you to select exactly the amount of performance that you need. If you value flexible working on site, then FEIN HANDYMASTERS are your choice. The optional NiMH

rechargeable battery without poisonous heavy metals is the ecological alternative to the classic NiCd battery.

NiCd battery

18 V - 2.0 Ah, 2.3 lbs.

Part Number 9 26 04 085 02 1

NiMH battery

18 V - 3.0 Ah, 2.5 lbs.

Part Number 9 26 04 086 02 4

Cordless FEIN MULTIMASTER

Accessories are found on page 83-86.

Drilling

Drilling

Perfect solutions cannot be achieved by compromising. The FEIN concept on drilling is not based on an “all-in-one” drill. It centers on using several different power tools, each optimally tailored to the specific application, task, and method of working. Therefore a variety of FEIN hand drills are available: from lightweight one or two-gear hand drills with kinetic

handles, to the robust heavy-duty two and four-gear drills with side handles, to efficient mag drill units for large drilling diameters in steel. In the table on pages 20 and 21, you can see what models are best suited for different drilling diameters on various types of material.

The complete FEIN product line for drilling:

■ Hand Drills	P. 22-24
■ Hammer Drill	P. 24
■ Mag Drills	P. 27-31

■ FEIN Drilling Machines. The right selection – made easy.

Hand Drills

Drilling

Hand Drill up to 1/4"

AT A GLANCE

Compact lightweight hand drill with high speed

- ▶ High motor power for constant RPM's
- ▶ Variable electronic speed control
- ▶ FEIN kinetic handle for safe work without fatigue
- ▶ Integral switch for comfortable handling
- ▶ Tapered drill shaft for accuracy

Model ASye 636
Part Number 7 201 63

Power consumption	Watts	320
Power output	Watts	180
Full load speed	rpm	0–2,150
No load speed	rpm	0–4,080
Cable with plug	ft	8'
Weight	lbs	2.6
Drill Ø steel	in	1/4"
Drill Ø light alloy	in	5/16"
Drill Ø wood	in	1/2"
Cone at drill shaft	B	12
L x H	in	11" x 6 7/16"

Price includes

1 Quick action keyless drill chuck up to Ø 5/16"

Universal Hand Drill up to 5/16"

AT A GLANCE

Versatile hand drill for drilling, screw driving, countersinking and tapping

- ▶ High motor power for constant RPM's
- ▶ FEIN kinetic handle for safe work without fatigue
- ▶ Variable electronic speed control for optimal spot-drilling and screwdriving
- ▶ Reversible
- ▶ Tapered drill shaft for accuracy

Model ASkeu 636
Part Number 7 205 35

Power consumption	Watts	300
Power output	Watts	145
Full load speed	rpm	0–780
No load speed	rpm	0–1,410
Cable with plug	ft	16'
Weight	lbs	2.6
Drill Ø steel	in	5/16"
Drill Ø light alloy	in	1/2"
Drill Ø wood	in	13/16"
Screw Ø	in	3/16
Tapping	in	3/16
Cone at drill shaft	B	12
L x H	in	11" x 6 7/16"

Price includes

1 Quick action Keyless drill chuck with clamping force safety device up to Ø 3/8"

Two-gear Hand Drill up to 3/8"

AT A GLANCE

Compact two-gear hand drill for drilling, screw driving, countersinking and tapping

- ▶ High motor power for constant RPM's
- ▶ Variable electronic speed control
- ▶ Mechanical 2-speed for optimal adjustment for the task at hand
- ▶ FEIN kinetic handle for safe work without fatigue
- ▶ Integral switch for comfortable handling
- ▶ Tapered drill shaft for accuracy
- ▶ Reversible

Model DSkeu 636
Part Number 7 205 37

Power consumption	Watts	300
Power output	Watts	145
Full load speed	rpm	0–430/0–1,050
No load speed	rpm	0–770/0–1,900
Cable with plug	ft	16'
Weight	lbs	3.3

Drill Ø steel	in	3/8"/1/4"
Drill Ø light alloy	in	9/16"/3/8"
Drill Ø wood	in	1"/5/8"
Screw Ø	in	1/4
Tapping	in	1/4
Cone at drill shaft	B	12
L x H	in	12 1/16" x 6 7/16"

Price includes

1 Quick action Keyless drill chuck with clamping force safety device up to Ø 3/8"

Two-gear Hand Drill up to 1/2"

AT A GLANCE

Universal assembly machine for drilling, countersinking, screw driving and tapping

- ▶ High motor power for constant RPM's
- ▶ Mechanical 2-speed gearbox for optimal performance
- ▶ FEIN kinetic handle for safe work without fatigue
- ▶ Variable electronic speed control
- ▶ Reversible
- ▶ Tapered drill shaft for accuracy

Model DSeu 638
Part Number 7 205 40

Power consumption	Watts	450
Power output	Watts	230
Full load speed	rpm	0–470/0–1,400
No load speed	rpm	0–840/0–2,250
Cable with plug	ft	16'
Weight	lbs	4.0

Drill Ø steel	in	1/2"/5/16"
Drill Ø light alloy	in	13/16"/1/2"
Drill Ø wood	in	1 1/4"/13/16"
Screw Ø	in	3/8
Tapping	in	3/8
Cone at drill shaft	B	16
L x H	in	13 3/4" x 6 3/4"

Price includes

1 Quick action Keyless drill chuck with clamping force safety device up to Ø 1/2", 1 additional handle

Four-gear Hand Drill up to 1 1/4"

AT A GLANCE

Powerful reversible four-gear drilling machine with ideal speed adjustment for drilling, reaming, tapping and drive motor applications

- ▶ Extremely strong for heavy-duty applications
- ▶ Mechanical 4-speed gearbox for optimal performance
- ▶ #3 Morse taper arbor
- ▶ Optimally suited on FEIN magnet drill stand
- ▶ Also suitable for tapping under stationary conditions

Model	DDSk 672-1	
Part Number	7 205 01	
Power consumption	Watts	900
Power output	Watts	500
Full load speed	rpm	100/150/260/420
No load speed	rpm	170/250/450/700
Cable with plug	ft	8'
Weight	lbs	22.7
Drill Ø steel	in	1 1/4"
Drill Ø light alloy	in	1 9/16"
Drill Ø wood	in	2 3/8"
Cone at drill shaft	MT	3
L x H	in	15 5/8" x 20 11/16"

Price includes

1 Additional handle, 1 Drift

Two-gear Hammer Drill up to 5/8" in stone

AT A GLANCE

Universal impact drill also for countersinking, screw driving and tapping

- ▶ High motor power for constant RPM's
- ▶ Mechanical gearbox for optimal performance
- ▶ Variable electronic speed control
- ▶ FEIN kinetic handle for safe work without fatigue
- ▶ Reversible
- ▶ Selector switch for Hammer/Drill applications
- ▶ Easily choose mode of operation

Model	DSceu 638	
Part Number	7 204 30	
Power consumption	Watts	450
Power output	Watts	230
Full load speed	rpm	0-700/0-1,800
No load speed	rpm	0-1,100/0-2,800
Blows per minute under load	rpm	0-14,000/0-36,000
Cable with plug	ft	16'
Weight	lbs	4.4
Drill Ø stone	in	5/8"
Drill Ø steel	in	1/2"/5/16"
Drill Ø wood	in	1 3/16"/1 13/16"
Screw Ø	in	3/8"
Tapping	in	3/8"
Thread on spindle	UNF	1/2"-20
L x W	in	14 1/16" x 6 3/4"

Price includes

1 impact resistant Quick action Keyless drill chuck with clamping safety device up to Ø 1/2", 1 additional handle, 1 depth stop

■ Mag Drilling.

In contrast to full drilling, mag drilling only involves machining a narrow ring and not the entire drilling surface.

With its best in-class speed, you are able to drill 40% more holes than other methods.

FEIN offers a finely tuned core drilling system for metal. Using

the FEIN QuickIN rapid change system, you can change bits in just a few seconds. It couldn't be faster or easier.

FEIN drills are rated highly, both in the workshop and out on the job site due to the extremely precise holes they produce as well as their

sturdy design and their easy handling. The magnetic base is so small that the machines can be used even in the tightest spaces. And with high holding force, you can work above your head – without risking injuries.

Mag Drill unit up to 1 1/4"

Quick IN

AT A GLANCE

- ▶ QuickIN system for quick and keyless tool release
- ▶ Optimal ergonomics due to compact design and light weight
- ▶ Strong and accurate dual dove-tail guide
- ▶ Infinitely variable stroke range adjustment for fast and safe tool change, without need to remove core drill unit from the work
- ▶ Electronic overload cut-out for protection of motor and tool if the drilling pressure is too high
- ▶ Magnet monitoring system guarantees long service life of the magnetic coils
- ▶ Integral cooling lubricant supply for clean cutting and long tool life

Model KBM 32 Q
Part Number 7 270 27

Power consumption	Watts	700
Power output	Watts	450
Full load speed	rpm	440
Cable with plug	ft	13'
Weight	lbs	22
Drill Ø steel max.		
Core drill	in	7/16"–1 1/4"
Twist drill (with drill chuck)	in	1/2"
Tap (need spec. device)	in	1/2"
Drilling depth max.	in	2"
Chuck		QuickIN
Magnet holding force	lbs	1,980

Price includes

1 storage box, 1 coolant pump, 1 safety strap, 1 chip hook, 5/8" 3-Jaw Chuck, 4 centering pins, touch guard, 3 QuickIN adaptors for competitor cutters

Universal Mag Drill unit up to 2 1/16"

Quick IN

MEMORY Function

AT A GLANCE

- ▶ Flexible tool use and accuracy with a combination of QuickIN and MT 3 adaptors
- ▶ Reversible for tapping
- ▶ Two-gear drive with completely variable electronic speed reduction
- ▶ Memory of the last selected speed with FEIN MEMORY FUNCTION
- ▶ Electronic overload cut-out for protection of motor and tool if the drilling pressure is too high
- ▶ Magnet monitoring system guarantees long service life of the magnetic coils
- ▶ Strong and accurate dual dove-tail guides with extra large stroke range
- ▶ Automatic cooling lubrication device for single-hand operating convenience
- ▶ Infinitely variable stroke range adjustment for fast and safe tool change, without need to remove core drill unit from the work

Model KBM 52 U
Part Number 7 270 31

Metric bits in HSS 12–32 mm supplied on request.

HM ULTRA bits with QuickIN chuck 12–65 mm

Cutting length 1 3/8"

Available only in metric dimensions and available on request!

Core bit set HSS PRIMA

Consisting of 2 each QuickIN bits HSS Prima, Ø 9/16", 1 1/16", 1 5/16" and centering pin in plastic carrying case

Part Number 6 31 27 226 02 6

Adaptor

Adaptor with QuickIN

Output M18 x 6 P 1,5

Part Number 6 39 01 020 00 6

For 3/4" shank (Weldon) e.g. Slugger-Jancy and Nitto bits with 1/4" pilot hole

Part Number 6 39 01 021 01 4

For 3/4" shank (Weldon Special), e.g. Hougén and Rotabroach bits with pilot hole bigger than 1/4"

Part Number 6 39 01 024 01 9

Output 1/2"

Part Number 6 39 01 022 00 8

Output B 16

Part Number 6 39 01 023 00 2

Retrofitting kit

Adaptor with Weldon shank for conversion to other products to QuickIN System.

Part Number 6 39 01 027 01 0

Other Accessories

QuickIN adaptor shafts

For table and drill press as well as for all other mag drilling units with MT 3-arbor. Incl. hand pump and centering pin for external cooling lubricant supply. For all FEIN core drills Ø 7/16"–2 7/16".

Cone	Part Number
MT3	6 39 01 019 01 3
MT2	6 39 01 018 01 9

For bits with Weldon shank, the corresponding QuickIN adaptor and the long center pin 3 02 17 333 00 3 are required.

For retro-fitting, the KBM 52 U with built-in cooling lubricant supply. For all bits Ø 7/16"–2 7/16".

Cone	Part Number
MT3	6 39 01 017 01 1

For bits with Weldon shank, the corresponding QuickIN adaptor and the long center pin 3 02 17 333 00 3 are required.

Center pins

For QuickIN bits

L	Part Number
4 1/8"	3 02 17 332 00 9

For competitor bits in connection with QuickIN adaptor

L	Part Number
4 11/16"	3 02 17 333 00 3
5 3/16"	3 02 17 355 00 0

Only for 7/16" QuickIN bits

L	Part Number
3 3/8"	3 02 17 338 00 0

Only for 7/16" competitor bits in connection with QuickIN adaptor

L	Part Number
4 15/16"	3 02 17 337 00 2

Extension

For bits with QuickIN shank, drilling in narrow and space restricted, deep or stepped surfaces, through holes as from Ø 1 7/16" is possible. Length 4" incl. centering pin.

Part Number 6 31 06 016 01 0

Tapping fast-release chuck

Only for KBM 52 U
2, with QuickIN adaptor, for
taps in connection with tapping
collets with or without slipping
clutch from 5/16"-5/8"

Part Number 9 26 02 079 01 0

Tapping collets # 2

American Standard Thread
For through holes

Suction plate

For non-magnetic materials,
9 3/16" x 13" x 4 5/16"

Part Number 9 26 02 054 01 6

Vacuum plate

For non magnetic materials and
structured surfaces (checker
plate, bulb plate, and others.)
15 1/16" x 7 7/8" x 3 1/4"

For this a vacuum pump with suction
capacity of 0.55 cfm, -11.6 psi is
required

Part Number 9 26 02 057 01 7

Pipe-drilling device

Incl. clamping strap, for drilling
holes in pipe with Ø from 2 3/8"
to 11 13/16", 8 11/16" x 5 1/8"

Part Number 9 26 02 055 01 0

Safety guard

Prevents accidental contact with rota-
ting parts and increases safety. Suitable
for retro-fitting the FEIN core drilling
unit KBM 32 Q/KBM 50 QX/52 U.

Part Number 6 39 01 037 01 0

Chip protection

Part Number 3 18 10 247 01 9

Cooling system

Bottle holder

For 3 21 32 022 00 7

Part Number 3 02 40 247 00 2

Hand pump

Part Number 3 21 32 022 00 7

Automatic cooling-agent tank

Cooling tank 16 1/2 fl. oz. for gravity
cooling lubrication. Cooling lubricant
supply can be retrofitted on all KBM's.

Part Number 6 39 01 036 01 0

Metal Tools

The perfect solution is never achieved by compromising. This is why the FEIN principle for metal working is not “one for all”, but instead a wide range of high-performance power tools, each ideally geared to very specific applications, jobs, and

work conditions. For this reason there are a large number of different FEIN metalworking tools.

The tables on pages 34–37 show which models are best suited for various applications.

The complete program for metal working:

■ Nibblers	P. 38–42
■ Sheet Metal Shears	P. 43–46
■ Angle Grinders	P. 47–51
■ Die Grinders	P. 52–54
■ Polisher System	P. 55–60
■ Hacksaws	P. 61–63

■ Nibblers.

FEIN nibblers are among the most compact power tools for cutting trapezoidal and corrugated sheet metals, as well as profiles. Their “slim” design makes them extremely versatile and precise in the curves. The working direction can be altered tool-free on all FEIN nibblers.

QuickIN allows for a fast, tool-free change of punches and dies. The HIGH-POWER MOTOR’s excellent efficiency provides for rapid work progress. The air vents, for example, are protected by a mesh from chips getting in when work is being done overhead. FEIN nibblers are noted – just as all

power tools from FEIN – for their uncompromising quality and reduced operational costs.

The most important fields of application: roof and facade construction, metal construction, control cabinet construction, dismantling/recycling.

Nibbler up to 18 gauge

Quick IN

AT A GLANCE

The contractors choice for metal building work

- ▶ QuickIN for a fast change of punch and die
- ▶ High cutting speed for getting the job done
- ▶ Cutting direction adjustable by 360 degrees in 45-degree steps without tools
- ▶ Very economical operation because of long tool life of punches and dies
- ▶ Optimal ergonomics
- ▶ HIGH-POWER MOTOR for supreme performance and stability
- ▶ Ideal nibbler for corrugated sheet metal up to 18 gauge

Model BLK 1.3 CS
Part Number 7 232 36

Power consumption	Watts	350
Power output	Watts	210
Strokes	rpm	1,800
Cutting speed	ft/min	7.5
Cable with plug	ft	16'
Weight	lbs	3.8
Max. cutting capacity		
Steel 56,000 lbf/in ²	Gauge	18
Steel 84,000 lbf/in ²	Gauge	21
Steel 112,000 lbf/in ²	Gauge	23
Non-ferrous metals		
up to 35,000 lbf/in ²	Gauge	14
Cutting width	in	3/16"
Immersion Ø with die	in	3/4"
Radius of smallest curve (inside/outside)	in	9/16"–13/16"
L x H	in	10 11/16" x 5 3/8"

Nibbler up to 16 gauge

Quick IN

AT A GLANCE

Flexible nibbler for thin sheet metals, trapezoidal sheet metals, corrugated sheet metals and profiles

- ▶ QuickIN for a fast change of punch and die
- ▶ Very economical operation because of long tool life of punches and dies
- ▶ Cutting direction adjustable by 360 degrees in 45-degree steps without tools
- ▶ Optimal ergonomics
- ▶ HIGH-POWER MOTOR for supreme performance and stability
- ▶ Profile set for all deep-channel sheet metals up to 6 5/16" channel depth

Model BLK 1.6
Part Number 7 232 32

Power consumption	Watts	350
Power output	Watts	210
Strokes	rpm	1,500
Cutting speed	ft/min	8.2
Cable with plug	ft	16'
Weight	lbs	3.9
Max. cutting capacity		
Steel 56,000 lbf/in ²	Gauge	16
Steel 84,000 lbf/in ²	Gauge	19
Steel 112,000 lbf/in ²	Gauge	22
Non-ferrous metals		
up to 35,000 lbf/in ²	Gauge	12
Immersion Ø with die	in	7/8"
Cutting width	in	3/16"
Radius of smallest curve (inside/outside)	in	1 3/16"–1 3/8"
L x H	in	10 11/16" x 5 7/8"

Nibbler up to 14 gauge

Quick IN

AT A GLANCE

Compact round-die nibbler, also suited for scroll and corner cutting

- ▶ Fast, precise, and powerful bite through all sheet metal up to 14 gauge
- ▶ Ideal for cut-outs: Machine can turn on the spot
- ▶ Especially well suited for cutting edged sheet metals (minimum bend radius 1/8")
- ▶ Optimally suited for template cuts
- ▶ Optimal ergonomics
- ▶ QuickIN for a fast change of punch and die
- ▶ HIGH-POWER MOTOR for supreme performance and stability

Model	BLK 2.0	
Part Number	7 232 29	
Power consumption	Watts	350
Power output	Watts	210
Strokes	rpm	1,000
Cutting speed	ft/min	8.9
Cable with plug	ft	16'

Cutting width	in	3/16"
Radius of smallest curve (inside/outside)	in	3/16"-0
L x H	in	10 1/16" x 6 3/8"

Nibbler up to 10 gauge

Quick IN

AT A GLANCE

Round die for unlimited curves

- ▶ Long tool life, punches can be reground
- ▶ Ideal for cut-outs: Machine can turn on the spot
- ▶ Cutting direction adjustable in three 90-degree steps without tools
- ▶ Warp-free cutting of flat and bent sheet metal
- ▶ Optimally suited for template cuts
- ▶ QuickIN for a fast change of punch and die
- ▶ HIGH-POWER MOTOR for supreme performance and stability

■ Sheet Metal Shears.

FEIN shears are suited for quick cuts as well as for neat, warp-free cut-outs in sheet metals, profiles, or pipes. Curve cuts are also no problem. Another benefit: The open-fronted cutting head provides an optimal view of the cutting line – this makes precise working possible. The most important

fields of application: sheet metal shop, HVAC and electric installation.

You are a cut above the rest with the performance, reliability, and efficiency you get from FEIN sheet metal shears. The compact and lightweight construction lets you work fatigue-free

and precisely. FEIN offers four different machines just right for various sheet metal thicknesses up to 7 gauge. The most important fields of application: Metal construction, climate control, plumbing and roofing fitters, and metal working.

Sheet Metal Shear up to 16 gauge

AT A GLANCE

Easy-to-use and easily curving sheet metal shears

- ▶ Four-sided indexable blade: cleaner and burr-free cutting with low operating costs
- ▶ Excellent ergonomics and unrestricted view of the cutting line
- ▶ Good curve precision with low sheet-metal distortion
- ▶ Light and easy to use one handed shear
- ▶ For sheet metals up to 112,000 lbf/in² and stainless steels
- ▶ HIGH-POWER MOTOR for supreme performance and stability

Model	BLS 1.6 X	
Part Number	7 230 29	
Power consumption	Watts	350
Power output	Watts	210
Strokes	rpm	4,000
Cutting speed	ft/min	16.4–26.2
Cable with plug	ft	16'
Weight	lbs	3.5
Max. cutting capacity		
Steel 56,000 lbf/in ²	Gauge	16
Steel 84,000 lbf/in ²	Gauge	18
Steel 112,000 lbf/in ²	Gauge	19
Non-ferrous metals up to 35,000 lbf/in ²	Gauge	14
Radius of smallest curve	in	3/16"
L x H	in	8 11/16" x 5 1/8"

Price includes

1 set of wrenches

Sheet Metal Shear up to 12 gauge

AT A GLANCE

Easy-to-use and easily curving sheet metal shears

- ▶ Four-sided indexable blade: cleaner and burr-free cutting with low operating costs
- ▶ Excellent ergonomics and unrestricted view of the cutting line
- ▶ Good curve precision with low sheet-metal distortion
- ▶ Light and easy to use one handed shear
- ▶ For sheet metals up to 112,000 lbf/in² and stainless steels
- ▶ HIGH-POWER MOTOR for supreme performance and stability

Model	BLS 2.5

L x H	in	9 3/4" x 6 1/16"

Price includes

1 set of wrenches

Sheet Metal Shear up to 10 gauge

AT A GLANCE

Powerful sheet metal shears

- ▶ Patented swarf suppresser for optimal and safe swarf removal
- ▶ Tool-free height adjustment of the plunger blade for adapting to various material thicknesses
- ▶ Excellent ergonomics and unrestricted view of the cutting line
- ▶ Two-sided indexable blade: low tool costs and simple blade changing
- ▶ HIGH-POWER MOTOR for supreme performance and stability

Model BLS 3.5

Part Number 7 230 23

Power consumption	Watts	1,200
Power output	Watts	750
Strokes	rpm	1,500

■ Angle Grinders.

FEIN angle grinders are available in various models, with disk diameters of 1/2" to 9" and with a performance range of 650 Watt to 2,000 Watt. What you can expect from FEIN angle grinders is a revolution in ergonomics,

safety at the highest level, and a standard for robustness.

Special equipment based on the angle grinders include the FEIN angle polisher, which has ensured its firm status in surface refinement thanks to its high

speed stability across the entire setting range & the FEIN pipe sander as problem solver in the area of sanding and polishing of stainless steel pipes.

Angle Grinder Ø 5"

AT A GLANCE

Compact angle grinder with 5/8"-11 spindle

- ▶ HIGH-POWER MOTOR for high grinding capacity
- ▶ For all grinding, sanding, cutting, and brushing applications
- ▶ Self-start lock prevents uncontrolled reactivation following power interruptions
- ▶ Gentle start for recoil-free and safe starting
- ▶ Spindle lock for quick tool changes

Model WSG 12-125
Part Number 7 220 96

Power consumption	Watts	1,200
Power output	Watts	750
No load speed	rpm	7,000
Cable with plug	ft	13'
Weight	lbs	4.6
Grinding wheel Ø	in	5"
Elastic backing pad Ø	in	5"
Mounting thread		5/8"-11
L x H	in	12 3/16" x 4"

Price includes

1 guard, 1 pair of flanges, 1 additional handle, 1 wrench

Angle Grinder Ø 6"

AT A GLANCE

Compact angle grinder with 5/8"-11 spindle

- ▶ HIGH-POWER MOTOR for high grinding capacity
- ▶ For all grinding, sanding, cutting, and brushing applications
- ▶ Self-start lock prevents uncontrolled reactivation following power interruptions
- ▶ Soft start for recoil-free and safe starting
- ▶ Spindle lock for quick tool changes

Model WSG 12-150
Part Number 7 220 93

Power consumption	Watts	1,200
Power output	Watts	750
No load speed	rpm	7,000
Cable with plug	ft	13'
Weight	lbs	4.6
Grinding wheel Ø	in	6"
Elastic backing pad Ø	in	6"
Mounting thread		5/8"-11
L x H	in	12 3/16" x 4"

Price includes

1 guard, 1 pair of flanges, 1 additional handle, 1 wrench

Angle Grinder Ø 5"

AT A GLANCE

Compact regulatable angle grinder/sander with 5/8"-11 spindle

- ▶ HIGH-POWER MOTOR for high grinding capacity
- ▶ Variable electronic speed control for optimal application of power
- ▶ Wide range of uses thanks to large speed range (e.g. for stainless steels)
- ▶ Self-start lock prevents uncontrolled reactivation following power interruptions
- ▶ Soft start for recoil-free and safe starting
- ▶ In conjunction with the angle polisher WPO 12-27 E, makes an ideal surface finishing combination
- ▶ Spindle lock for quick tool changes

Model WSG 12-70 E
Part Number 7 220 90

Power consumption	Watts	1,200
Power output	Watts	750
No load speed	rpm	2,700-7,000
Cable with plug	ft	13'
Weight	lbs	4.6
Grinding wheel Ø	in	5"
Elastic backing pad Ø	in	5"
Mounting thread		5/8"-11
L x H	in	12 5/16" x 4"

Price includes

1 guard, 1 pair of flanges, 1 additional handle, 1 wrench

Angle Grinder Ø 7"

AT A GLANCE

Efficient angle grinder in the 2,000 W class with 5/8"-11 spindle

- ▶ HIGH-POWER MOTOR for high grinding capacity
- ▶ Self-start lock prevents uncontrolled reactivation following power interruptions
- ▶ Soft start for recoil-free and safe starting
- ▶ For all grinding, sanding, cutting, and brushing applications
- ▶ One of the quietest angle grinders in this class
- ▶ Flattest gear head in this performance class
- ▶ Rear handle can be rotated through 4 positions
- ▶ Coolant air management offers optimal protection against dust
- ▶ Also available with dead-man's switch for maximum safety (7 221 07 29)

Model WSG 20-180
Part Number 7 221 07

Power consumption	Watts	2,000
Power output	Watts	1,250
No load speed	rpm	8,500
Cable with plug	ft	13'
Weight	lbs	9.9
Grinding wheel Ø	in	7"
Elastic backing pad Ø	in	7"
Mounting thread		5/8"-11
L x H	in	20 3/4" x 5 7/8"

Price includes

1 guard, 1 pair of flanges, 1 additional handle, 1 set of wrenches

Angle Grinder Ø 9"

AT A GLANCE

Efficient angle grinder in the 2,000 W class with 5/8"-11 spindle

- ▶ HIGH-POWER MOTOR for high grinding capacity
- ▶ Self-start lock prevents uncontrolled reactivation following power interruptions
- ▶ Soft start for recoil-free and safe starting
- ▶ For all grinding, sanding, cutting, and brushing applications
- ▶ One of the quietest angle grinders in this class
- ▶ Flattest gear head in this performance class
- ▶ Rear handle can be rotated through 4 positions
- ▶ Coolant air management offers optimal protection against dust
- ▶ Also available with dead-man's switch for maximum safety (7 221 08 29)

Model WSG 20-230
Part Number 7 221 08

Power consumption	Watts	2,000
Power output	Watts	1,250
No load speed	rpm	6,600
Cable with plug	ft	13'
Weight	lbs	9.9
Grinding wheel Ø	in	9"
Elastic backing pad Ø	in	9"
Mounting thread		5/8"-11
L x H	in	20 3/4" x 6"

Price includes

1 guard, 1 pair of flanges, 1 additional handle, 1 set of wrenches

■ Die Grinders.

The FEIN die grinders are employed for grinding and polishing, for touch-up work of cutting and punching, for polishing small cast parts,

for sanding welding seams and for performing the finishing touches. As with all other products from FEIN, these devices are sturdy, easy-to-use and powerful.

The die grinders deliver smooth and straightforward surface and weld seam processing.

Die Grinder 4,500/min

AT A GLANCE

Universal die grinder for brushing, sanding, polishing, and drilling

- ▶ Compact design for easy and safe operation
- ▶ Can also be used as a drill
- ▶ Compact corner drill for working in difficult-to-reach areas
- ▶ ¹ The nominal speed of the grinding wheel has to be at least the same as the maximum speed given on the power tool

Model **AHSI 636 c**
Part Number **7 223 02**

Power consumption	Watts	280
Power output	Watts	150
No load speed	rpm	4,500
Cable with plug	ft	10'
Weight	lbs	3.3
Grinding wheel for max. Ø x width	in	2 x 3/8" ¹
Capacity in steel Ø	in	3/16"
Thread on spindle		1/2"-20 UNF
L x H	in	12" x 3"

Price includes

1 key-type chuck up to Ø 3/8", 1 neck sleeve, 1 set of wrenches

Die Grinder 33,500/min

AT A GLANCE

Universal die grinder for applications in difficult-to-reach areas

- ▶ Narrow neck for inside grinding
- ▶ Safe machine control
- ▶ Spindle with multiple bearings for quiet operation
- ▶ ¹ The nominal speed of the grinding wheel has to be at least the same as the maximum speed given on the power tool. Permitted width depending on DIN EN 12413
Please observe specifications on the grinding wheel label

Model **MSh 636-1**
Part Number **7 223 03**

Power consumption	Watts	280
Power output	Watts	150
No load speed	rpm	33,500
Cable with plug	ft	13'
Weight	lbs	3.3
Grinding wheel for max. Ø	in	3/4" ¹
L x H	in	13 9/16" x 2 7/16"

Price includes

1 collet Ø 1/4", 1 set of wrenches

Die Grinder 23,000/min

AT A GLANCE

High-performance die grinder

- ▶ Suitable for grinding disks and carbide burrs
- ▶ Spindle with multiple bearings for quiet operation
- ▶ High performance motor with impressive power
- ▶ ¹ The nominal speed of the grinding wheel has to be at least the same as the maximum speed given on the power tool. Permitted width depending on DIN EN 12413
Please observe specifications on the grinding wheel label

Metal
Tools

■ Polisher system.

Easily achieve a rotary or linear matte, satin or #4 finish on stainless, aluminum, brass and copper. Everything you need to grind, blend, smooth, level, clean, descale, deburr, and polish.

FEIN's variable-speed, electronically controlled constant torque motors produce consistent, uniform surfaces. Tools switch easily from linear to rotary operation. Ergonomic, multi-position handles assure operator comfort.

Choose the tool and specialized accessory kit that best fits your application: WPO 12-27E-PS Angle Polisher, WSG 12-70E-PS Angle Grinder/Polisher or RS 12-70E-PS Pipe Polisher.

Professional Set Stainless Steel

AT A GLANCE

FEIN professional set including polisher and a broad range of accessories

- ▶ HIGH-POWER MOTOR for supreme performance and stability
- ▶ Variable electronic speed control for optimal effectiveness of the tool utilized
- ▶ Includes a work arbor suited for a full-fledged longitudinal satin-finish
- ▶ Maximum speed stability at any load, throughout the entire setting range
- ▶ Ergonomic handle for fatigue-free and comfortable working
- ▶ Self-start lock prevents uncontrolled reactivation following power interruptions
- ▶ Spindle lock for quick tool changes
- ▶ Accessory sets available for a broad range of applications

Model		WPO 12-27 E-PS	WSG 12-70 E-PS*
Part Number		7 220 91 50	7 220 90 50

Price includes
1 WPO 12-27 E or WSG 12-70 E, 1 handle; 1 extension handle, 1 hand guard, 1 4" arbor for cylinder and wheel, 1 5/8" arbor, 1 metal carrying case, 1 complete Basic Set (page 60)

Angle Polisher up to 2,700 rpm

AT A GLANCE

With 5/8"-11 spindle for final sanding, fine brushing, matting and polishing

- ▶ HIGH-POWER MOTOR for supreme performance and stability
- ▶ Self-start lock prevents uncontrolled reactivation following power interruptions
- ▶ Variable electronic speed control for optimal effectiveness of the tool utilized
- ▶ Includes a work arbor suited for a full-fledged longitudinal satin-finish
- ▶ Maximum speed stability at any load, throughout the entire setting range
- ▶ Spindle lock for quick tool changes
- ▶ Soft start for recoil-free and safe starting
- ▶ In conjunction with the angle polisher WSG 12-70 E, makes an ideal surface finishing treatment combination

Model		WPO 12-27 E
Part Number		7 220 91
Power consumption	Watts	1,200
Power output	Watts	750
No load speed	rpm	900–2,700
Cable with plug	ft	13'
Weight	lbs	5
Polishing disc Ø	in	10"
Mounting thread		5/8"-11
L x H	in	12 5/16" x 5 1/4"

Price includes
1 additional handle

Angle Polisher/Grinder up to 7,000 rpm

AT A GLANCE

Compact regulatable angle polisher/grinder with 5/8"-11 spindle

- ▶ HIGH-POWER MOTOR with enormous staying power for high grinding capacity
- ▶ Variable electronic speed control for optimal application of power
- ▶ Wide range of uses thanks to large speed range (e.g. for stainless steels)
- ▶ Self-start lock prevents uncontrolled reactivation following power interruptions
- ▶ Soft start for recoil-free and safe starting
- ▶ In conjunction with the angle polisher WPO 12-27 E, makes an ideal surface finishing treatment combination
- ▶ Spindle lock for quick tool changes

Model		WSG 12-70 E*
Part Number		7 220 90
Power consumption	Watts	1,200
Power output	Watts	750
No load speed	rpm	2,700–7,000
Cable with plug	ft	13'
Weight	lbs	4.6
Grinding wheel Ø	in	5"
Elastic backing pad Ø	in	5"
Mounting thread		5/8"-11
L x H	in	12 5/16" x 4"

Price includes
1 protective suction hood, 1 pair of flanges, 1 additional handle, 1 wrench

* The rated speed of the accessory must be at least equal to the maximum speed marked on the power tool. Accessories running faster than their rated speed can fly apart.

Professional Set Pipe Sander

AT A GLANCE

FEIN professional set RS 12-70 E-PS with basic equipment and a metal case

- ▶ One of the most powerful pipe sanders commercially available
- ▶ HIGH-POWER MOTOR for supreme performance and stability
- ▶ Extremely high abrasion performance
- ▶ Cutting speed up to 72 ft/sec
- ▶ Sanding and polishing as quick as possible
- ▶ Uses range from rough grinding to mirror polish
- ▶ Sanding of pipe arcs in just two passes
- ▶ Tracking stability by precise belt guides
- ▶ Tool-free belt change
- ▶ Self-start lock prevents uncontrolled reactivation following power interruptions

Model RS 12-70 E-PS
Part Number 7 221 13 51

Power consumption	Watts	1,200
Power output	Watts	750
No load speed	rpm	2,700–7,000
Cutting speed	ft/sec	72'
Minimum wall clearance	in	2"
Weight	lbs	8.3
Cable with plug	ft	13'
Pipes up to Ø	in	5/16"–3 1/8"
L x H	in	19 1/8" x 6 1/8"

Price includes

20 sanding belts, 13/26" x 32 1/16" grit 120 and grit 180,
20 sanding belts, 1 9/16" x 32/16", grit 120 and grit 180,
5 fleece belts, 13/16" x 32 5/16", very fine 280,
1 metal tool case

Pipe Sander 1,200 W

AT A GLANCE

Pipe sander for sanding and polishing stainless steel pipes

- ▶ One of the most powerful pipe sanders commercially available
- ▶ HIGH-POWER MOTOR for supreme performance and stability
- ▶ Extremely high abrasion performance
- ▶ Cutting speed up to 72 ft/sec
- ▶ Sanding and polishing as quick as possible

Outer flange
5/8"-11"

Part Number 6 38 02 098 00 7

Additional handle
M 8, vibration absorbing, to reduce the vibrations during longer jobs.

Part Number 3 21 19 119 01 7

FEIN "Turbo II"
Detailed information on "dust-free grinding" and extensive accessories for the FEIN vacuum cleaner can be found in the chapter Accessories / Dust extractor. Easy-to-use wet and dry vacuum with automatic switching.

Universal dust extraction device
5" for fan-pattern grinding wheels, elastic backing pads, support plates, and conical twisted steel wire brushes

Part Number 9 26 02 067 01 6

Brush insert
For universal dust extraction device

Part Number 3 32 18 101 01 4

Protective suction hood "Dust control"
5" for flexible grinding/cutting wheels

Part Number 9 26 02 068 01 4

Spark catcher
For suction hose Ø 1 1/4"

Part Number 3 13 22 489 00 1

Holder
For side handle, 360° rotatable

Part Number 3 30 21 102 02 2

****Work arbor**
For satin-finishing tools (cylinder and roller), clamp range 4"; chuck Ø 3/4"

Part Number 6 38 03 068 02 0

Clamping flange for polishing rings, abrasive fleece wheels, buffer, and polishing wheels with 14 mm chuck, clamping range 1/16"-2"

Part Number 6 38 03 069 02 0

Clamping flange for polishing rings, abrasive fleece wheels, buffer, and polishing wheels clamping range 1/16"-2" with 5/8"-11 chuck

Part Number 6 38 03 070 02 0

Tool case
Metal 15 3/8" x 8 1/4" x 5 1/2"

Part Number 3 39 01 045 01 8

Polishing set
Part Number 6 38 06 178 02 7

Accessory sets
WPO 12-27 E, WSG 12-70 E*

Basic set
Consisting of: 1 fleece sanding cylinder (4" x 4", grit 100/60); 1 lamellar fleece cylinder, (4" x 4" grit 180); 1 sanding fleece, waved, (1 3/16" x 6", M 14); 1 work arbor 5/16"-2"; 10 sanding fleeces with H&L (Ø 4.5", fine); 1 supporting place with H&L (Ø 4.5", 5/8"-11); 1 Twisted round brush (Ø 4.5", 5/8"-11); 2 wrenches.

Part Number 6 37 21 006 03 0

Required:
Work arbor 6 38 03 068 02 0 and holder 3 30 21 102 02 2

Pipe set
Consisting of: 1 sanding belt roll (4" x 2 3/4"), 10 sanding belts (23 5/8" x 1 3/16", grit 60), 10 sanding belts (23 5/8" x 1 3/16", grit 120), 1 fleece belt (23 5/8" x 1 3/16", medium), 1 fleece belt (23 5/8" x 1 3/16", fine), 1 adhesive strip for sanding belts.

Part Number 6 38 06 181 02 2

Required:
Work arbor 6 38 03 068 02 0 and holder 3 30 21 102 02 2

Matting set
Consisting of: 1 lamellar sanding disc (6" x 2", coarse, grit 40), 1 lamellar sanding disc, (6" x 2", medium, grit 60), 1 lamellar sanding disc (6" x 2", fine, grit 80), 1 work arbor (5/16"-2"), 2 wrenches.

Part Number 6 37 21 003 03 0

Polishing set
Consisting of: 1 polishing ring (6" x 1 3/16", sisal/cloth), 2 polishing rings (6" x 3/16", firm cloth), 2 polishing rings (6" x 3/16", soft cloth), 1 brush paste for sisal/cloth (yellow), 1 prepolishing paste for firm cloth (orange), 1 coloring paste for soft cloth (white), 1 work arbor (5/16"-2"), 2 wrenches.

Part Number 6 37 23 011 03 0

Required: Holder 3 30 21 102 02 2

*The rated speed of the accessory must be at least equal to the maximum speed marked on the power tool. Accessories running faster than their rated speed can fly apart.

■ Hacksaws.

FEIN hacksaws perform well in heavy duty use. We also have the right hacksaws for extra large

diameters. Using specialized saw blades and clamping devices, you can work on ductile cast-iron

pipe with diameters ranging from 3 1/8" to 24".

Pneumatic Hacksaw for pipes up to Ø 24"

AT A GLANCE

Compressed air hacksaw for pipes and profiled sections

- ▶ Ideally suited for trimming pipes and profiles made of steel, cast-iron, autoclaved aerated concrete, and plastics
- ▶ Clamp and feed device available for profiles and pipes from Ø 3 1/8" to Ø 24"
- ▶ Adjustable clamping devices permit mitre cuts up to 45° as well
- ▶ Chain extension available

Model STS 325 R
Part Number 7 534 08

Operating pressure	psi	87
Air consumption	cfm	51.2
Power output	W	1,100
Strokes	rpm	330
Stroke of blade	in	2 3/8"
Weight	lbs	15.4

Max. cutting capacity		
Pipes up to Ø	in	24"
Profiles up to W x H	in	11 27/64" x 21 11/16"
L x H	in	18 3/4" x 6 3/4"

Price includes

2 saw blades, 1 set of wrenches, 1 additional handle, 1 hose coupling

Hacksaw for pipes up to Ø 24"

AT A GLANCE

Powerful hacksaw for pipes and profiled sections.

- ▶ Ideally suited for trimming pipes and profiles made of steel, cast-iron, autoclaved aerated concrete, and plastics
- ▶ Clamp and feed device available for profiles and pipes from Ø 3 1/8" to Ø 24"
- ▶ Adjustable clamping devices permit mitre cuts up to 45° as well
- ▶ Especially suitable for sandwich material and layers of different materials
- ▶ Chain extension available
- ▶ Variable electronic speed control for optimal cutting speed

Model AStxe 649-1

Driving Screws More Effectively.

Modern power screwdrivers have transformed tiresome and time-consuming manual labor into a quick, almost effortless task. FEIN screwdrivers allow you to work safely, methodically and rapidly from start to finish until the screw is snugly fastened. And let us not forget the features that make your work that much easier: low weight, top-flight ergonomics and

balance, which make them easy-to-use even under difficult conditions with little noise. Regardless of whether you are working in industry, drywall, metal construction, wood building or other work around the home, FEIN has just the right screwdriver for every fastening application. Choose the screwdriver of your liking from the overview table on page 66.

■ Screwdrivers.

FEIN Universal Screwdriver.

- power-sensitive clutch
- adjustable torque
- work with and without depth stop.

FEIN Tek Screwdrivers.

- for self-drilling screws
- can be used with torque stop or depth stop
- very low noise
- excellent ergonomics
- low weight
- ideal product for roof, wall, and facade construction.

FEIN Drywall Screwdrivers.

- low weight
- able to handle extreme loads
- optimal ergonomics
- depth stop for best screwdriving results
- selective with silent CLIC-STOP clutch or with FEIN universal clutch.
- also available as autofeed screwdriver weighing only 3.5 lbs.

Universal Screwdriver up to 5/16"

AT A GLANCE

Universal screwdriver with adjustable clutch

- ▶ Optimal screwdriving results from a force-sensitive, externally-adjustable FEIN universal clutch
- ▶ Can be used for almost every screwdriving application
- ▶ Excellent ergonomics for fatigue-free and comfortable working
- ▶ High-performance HIGH-POWER MOTOR, ensuring powerful screwdriving for the full depth of the screw
- ▶ Variable electronic speed control for optimal spot-drilling and screwdriving
- ▶ Lockable clutch
- ▶ Integral forward/reverse switch for comfortable handling
- ▶ Depth stop accessory for precise screw depth settings also available

Model	SCU 7-9

by clutch	in/lbs.	160
with fixed drive	in/lbs.	250
Cable with plug	ft	16'
Weight	lbs	3.5
Dowel Ø	in	1/2"
Screw Ø	in	5/16"
Chuck		1/4"
L x H	in	12 3/8" x 6 9/16"

Price includes
 1 bit for Phillips screws size 2 Pozidriv (Form Z)
 1 x additional handle

Depth stops

Whenever the situation allows, the benefits of a depth stop (consisting of a sleeve socket assembly along with a choice of a stop sleeve) should be taken advantage of. Precise setting of the driving depth, steady and even rows of screws, no thread stripping or overdriving of screws, reduced tool wear.

Tek Screwdriver up to 3/16"

AT A GLANCE

Screwdriver, optimal speed for self-drilling screws

- ▶ One of the lightest screw drills in its class
- ▶ Adjustable universal clutch for optimal configuration of torque when working without depth stop
- ▶ Power-sensitive universal clutch
- ▶ HIGH-POWER MOTOR for supreme performance and stability
- ▶ Best fastening results, working either with or without depth stop
- ▶ Relaxed working with practical hand strap
- ▶ Variable electronic speed control for optimal spot-drilling and screwdriving

Model SCS 4.8-25

Full load speed	rpm	0–1,300
No load speed	rpm	0–1,900
Max. torque	in./lbs.	160
Cable with plug	ft	16'
Weight	lbs	3.5

Screw Ø	in	1/4"
Quick-change chuck		1/4"
L x H	in	12 3/8" x 6 5/16"

Price includes

1 depth stop, 1 insert for hexagon bolts, 1 hand strap

Depth stops

Whenever the situation allows, the benefits of a depth stop (consisting of a sleeve socket assembly along with a choice of a stop sleeve) should be taken advantage of. Precise setting of the driving depth, steady and even rows of screws, no thread stripping or overdriving of screws, reduced tool wear.

Drywall Screwdriver up to 3/16"

AT A GLANCE

Professional screwdriver for drywall and interior work with quiet stopping feature

- ▶ One of the lightest professional screwdrivers in its class
- ▶ FEIN sensitive handle
- ▶ Relaxed working with practical hand strap
- ▶ Patented FEIN CLIC-STOP clutch for quiet stops
- ▶ Simple-to-adjust and replaceable depth stop
- ▶ Depth stop sleeve with dust-proof protection
- ▶ Point placement accuracy with infinitely variable electronic speed setting
- ▶ Rapid changeover to collated strips
- ▶ HIGH-POWER MOTOR for supreme performance and stability

Model SCT 5-40
Part Number 7 213 01

Power consumption	W	450
Power output	W	250
Full load speed	rpm	0–2,700
No load speed	rpm	0–4,000
Max. torque	in/lbs.	106
Cable with plug	ft	16'
Weight	lbs	2.8
Screw Ø	in	3/16"
Chuck		1/4"
L x H	in	10 1/16" x 6 3/4"

Price includes

1 hand strap, 1 belt clip, 1 depth stop, dust-proof, 1 magnetic chuck for 1/4" bits, 1 bit 1/4" size 2 / Phillips (form H), with dust-protection ring

Autofeed Screwdriver up to 3/16"

Quick IN

AT A GLANCE

Autofeed screwdriver for drywall and interior work, 6 times faster than non-autofeed tool

- ▶ QuickIN for tool-free removal collated strips, setting of screw length and driving depth as well as quick cleaning
- ▶ One of the lightest autofeed screwdrivers on the market
- ▶ Use with or without FEIN Autofeed
- ▶ Collated strip can be turned 360° for confined places
- ▶ Relaxed working with practical hand strap
- ▶ Patented screw transport system
- ▶ Anti-slippage surface for accurate placement on smooth surfaces
- ▶ Ideally suited for single-hand use
- ▶ Silent FEIN CLIC-STOP clutch
- ▶ TWO-IN-ONE equipment with additional depth stop for not collated screws
- ▶ Variable electronic speed control
- ▶ FEIN HIGH-POWER MOTOR

Model SCT 5-40 M
Part Number 7 213 06 50

Power consumption	W	450
Power output	W	250
Full load speed	rpm	0–2,700
No load speed	rpm	0–4,000
Max. torque	in/lbs.	106
Cable with plug	ft	16'
Weight	lbs	3.5
Screw Ø	in	3/16"
Screw length	in	1"–2 1/4"
Quick-change chuck		1/4"
L x H	in	16 3/8" x 6 7/16"

Price includes

1 bit 1/4" size 2 / Phillips (Form H), long, 1 depth stop, 1 magnetic chuck for 1/4" bits, 1 bit 1/4" size 2 / Phillips (form H), with dust-protection ring, 1 hand strap, 1 belt clip, 1 metal tool case.

Deck Screwdriver up to 1/4"

Model SCT 6-25
Part Number 7 213 03

Power consumption	W	450
Power output	W	250
Full load speed	rpm	0–2,000
No load speed	rpm	0–2,500
Max. torque	in/lbs.	142
Cable with plug	ft	16'
Weight	lbs	2.8

Screw Ø	in	1/4"
Chuck		1/4"
L x H	in	11" x 6 3/4"

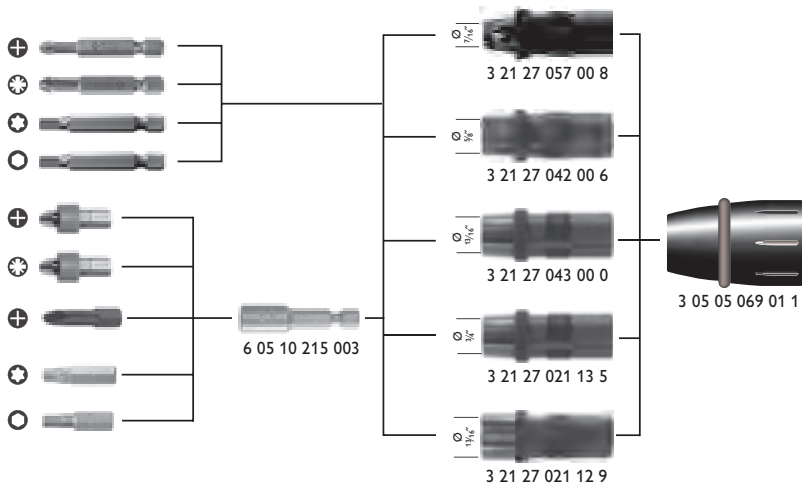

Price includes

1 hand strap, 1 belt clip, 1 depth stop, dust-proof, 1 magnetic chuck for 1/4" bits, 1 bit 1/4" size 2 / Phillips (form H), with dust-protection ring

AT A GLANCE

Powerful professional screwdriver for drywall, interior, and carpentry

- ▶ One of the lightest professional screwdrivers in its class
- ▶ FEIN sensitive handle
- ▶ Relaxed working with practical hand strap
- ▶ Patented FEIN CLIC-STOP clutch for quiet stops
- ▶ Simple-to-adjust and replaceable depth stop for precise fastening work
- ▶ Stop sleeve with dust-proof protection
- ▶ Point placement accuracy with infinitely variable electronic speed setting
- ▶ Rapid changeover to collated strips
- ▶ HIGH-POWER MOTOR for supreme performance and stability

Depth stops

Whenever the situation allows, the benefits of a depth stop (consisting of a sleeve socket assembly along with a choice of a stop sleeve) should be taken advantage of. Precise setting of the driving depth, steady and even rows of screws, no thread stripping or overdriving of screws, reduced tool wear.

■ Tapping.

In comparison to manual work, electric tappers have a hand up not only in terms of speed and physical input but also in regards to precision. This is naturally true for FEIN's tappers. These devices work smoothly without interruption and therefore without the

risk of high torque forces and the attendant hazard of tool breakage. Using the very safe and precise operating FEIN tapper, more than 90% of time can be saved as compared to tapping by hand.

There is an array of FEIN tappers for different applications and thread types. All machines are available with four different clamping chucks.

Tapper up to 5/16"

Model ASge 636
Part Number 7 209 37

Power consumption	W	280
Power output	W	150
Speed of tap, cutting	rpm	0–450
Speed of tap, running back	rpm	0–580
Cable with plug	ft	8'
Weight	lbs	3.5

Thread in steel up to		5/16"
Cone at drill shaft		B 12
L x H	in	9 3/4" x 6 7/16"

Price includes
3-jaw chuck

AT A GLANCE

Lightweight easy-to-use tapper

- ▶ High motor power for reliable operation
- ▶ Integrated reversing gear with rapid return action
- ▶ Variable electronic speed control for optimal spot-drilling
- ▶ FEIN kinetic handle for safe work without fatigue
- ▶ Integral switch for comfortable handling

Tapper up to 1/2"

Model ASge 648
Part Number 7 209 16

Power consumption	W	650
Power output	W	420
Speed of tap, cutting	rpm	0–240
Speed of tap, running back	rpm	0–550
Cable with plug	ft	8'
Weight	lbs	8.1

Thread in steel up to		1/2"
Cone at drill shaft		B 16
L x H	in	16 5/8" x 5 3/16"

Price includes
1 additional handle, with 3-jaw chuck

AT A GLANCE

High-performance tapper with spade handle

- ▶ High motor power for reliable operation
- ▶ Integrated reversing gear with rapid return action
- ▶ Electronic speed control for precise thread-cutting application and steady cutting speed

Multi-Purpose Tools

Power tools based on oscillating mechanics are one of the most successful developments that emerged from FEIN's history, which is abundant with innovations. The principles of FEIN's patented oscillating drive is employed since 1986 in the FEIN MULTIMASTER and FEIN SUPERCUT. This began a new era of universal specialized tools. In addition to its unique features such as low-noise operation with little or no movement by the tool itself, the drive makes manual tasks that were previously both tedious and time-consuming easier. The range of applications hardly knows a limit.

You can saw, grind, scrape, separate, rough machine, polish, cut, compress concrete, and lots more with professional quality. The range of accessories is constantly being broadened for new applications. The triangular shape of the sanding pad made possible thanks to the oscillation concept provides the conditions needed – in contrast to rotating or eccentric movements – to sand in the tightest corners and edges. When sawing, the saw blades help you complete the task even in spots you normally could not reach – and all this with a high level of precision. Its light weight and excellent

sanding capacity with hardly any application force, make your work a pleasure. You can barely feel any vibration and little dust is created, because nothing is flung about. The tools do not kick back. A miracle of technology for professional users as well as for DIY users. One tool, a few attachments, Thousands of projects!

■ FEIN MULTIMASTER.

The astonishingly broad range of applications makes the FEIN MULTIMASTER one of the most versatile and therefore most sensible tools on the market. The application range is almost limitless and will always produce professional results.

For renovating all around the house, for car repairs, boat maintenance, and model building. And that's not the only reason the original FEIN MULTIMASTER has regularly been awarded the best marks in field tests throughout the world.

To ensure that you can make the most out of the excellent capacities of your FEIN MULTIMASTER for your needs, it is available in different versions with extensive equipment and accessories.

FEIN MULTIMASTER START

AT A GLANCE

START version for the most frequent jobs: Grinding, scraping, sawing

- ▶ Almost unlimited applications due to oscillating movement
- ▶ Very easy to handle due to its ergonomic design and light weight
- ▶ Wide range of accessories available

Model MSx 636 II START
Part Number 7 229 26

Power consumption	Watts	180
Oscillations	1/min	21,000
Cable with plug	ft	16'
Weight	lbs	2.4
Sanding pad, corner to corner	in	3 1/8"
L x H	in	9 7/16" x 7"

Price includes

1 hook & loop sanding pad, 20 sheets of hook & loop sandpaper (5 each 60, 80, 120, 180 grit), 1 rigid scraper blade, 1 E-Cut universal blade (1 1/8"), 2 screws and washers for sanding pad and blades, 1 Allen wrench

FEIN MULTIMASTER RS

AT A GLANCE

RS version for many applications

- ▶ Professional sawing, grinding, scraping, separating, sanding, polishing, cutting, concrete compression, and lots more, all with a single machine
- ▶ Almost unlimited applications due to oscillating movement
- ▶ Variable electronic speed control for optimal application of power
- ▶ Very easy to handle due to its ergonomic design and light weight
- ▶ Wide range of accessories available

Model MSxe 636 II RS
Part Number 7 229 27 50

Power consumption	Watts	180
Oscillations	1/min	12,000–21,000
Cable with plug	ft	16'
Weight	lbs	2.4
Sanding pad, corner to corner	in	3 1/8"
L x H	in	9 7/16" x 7"

Price includes

1 hook & loop sanding pad, 20 sheets of hook & loop sandpaper (5 each 60, 80, 120, 180 grit), 1 rigid scraper blade, 1 E-Cut universal blade (1 1/8"), 1 carbide rasp, 1 carbide grout blade, 1 segment HSS blade, 2 screws and washers for sanding pad and blades, 1 Allen wrench, 1 plastic carrying case

FEIN MULTIMASTER XL

AT A GLANCE

XL version with wide range of accessories in metal tool case

- ▶ Professional sawing, grinding, scraping, separating, sanding, polishing, cutting, concrete compression, and lots more, all with a single machine
- ▶ Almost unlimited applications due to oscillating movement
- ▶ Variable electronic speed control for optimal application of power
- ▶ Very easy to handle due to its ergonomic design and light weight
- ▶ Wide range of accessories available

Model MSxe 636 II XL
Part Number 7 229 27 51

Power consumption	Watts	180
Oscillations	1/min	12,000–21,000
Cable with plug	ft	16'
Weight	lbs	2.4
Sanding pad, corner to corner	in	3 1/8"
L x H	in	9 7/16" x 7"

Price includes

1 hook & loop sanding pad, 20 sheets of hook & loop sandpaper (5 each 60, 80, 120, 180 grit), 1 rigid scraper blade, 1 E-Cut universal blade (1 1/8"), 1 carbide rasp, 1 carbide grout blade, 1 segment HSS blade, 1 felt polishing pad, 1 profile sanding kit, 2 screws and washers for sanding pad and blades, 1 Allen wrench, 1 metal carrying case

Cordless FEIN MULTIMASTER

AT A GLANCE

Almost unlimited applications due to oscillating movement

- ▶ Professional sawing, grinding, scraping, separating, sanding, polishing, cutting, concrete compression, and lots more, all with a single machine
- ▶ Very easy to handle due to its ergonomic design and light weight
- ▶ Battery operated, so you have unrestricted freedom of movement
- ▶ Continuous operation possible with a backup battery
- ▶ Durable, rapid charge FEIN batteries with intelligent charging technology
- ▶ Wide range of accessories available

Model	MSx 315	
Part Number	7 129 02	
Current/Voltage	V	9.6
Oscillations	rpm	14,500
Weight (w/ battery)	lbs	2.4
Sanding pad, corner to corner	in	3 1/8"
L x H	in	10 3/8" x 2 5/16"

Price includes

1 x sanding pad, 5 x sanding sheets (grit: 60, 80, 120, 180), 1 x HSS segment saw blade, 1 x rigid scraper blade, 1 x battery (800 mAh), 1 x charger, 1 x key, mounting bolts

Pneumatic FEIN MULTIMASTER

AT A GLANCE

Pneumatic FEIN MULTIMASTER with oscillating movement

- ▶ Professional sawing, grinding, scraping, separating, sanding, polishing, cutting, concrete compression, and lots more, all with a single machine
- ▶ No air leaks, no oil misting in working area
- ▶ Available with a comprehensive range of accessories for professional use in many industry sectors
- ▶ Very easy to handle due to its ergonomic design and light weight

Model	MOx 6-25	
Part Number	7 536 02	
Operating pressure	psi	90
Air consumption	CFM	5
Oscillations	rpm	20,000
Hose size Ø	in	5/16"
Weight	lbs	2.4
L x H	in	7 3/4" x 2 1/2"

Price includes

1 wrench, 1 whetstone (6 37 19 010 01 4)

Carrying Case

Carrying case for the FEIN MULTIMASTER ACCU

1 rechargeable battery (800 mAh), 1 flat sanding pad for very narrow openings, 5 of each type of sanding sheet, grit 60, 80, 120, 180, 240, 320; 3 sanding fingers with 20 sanding sheets, grit 80; 1 carbide rasp (triangular)

Part Number 3 39 01 099 08 1

Carrying case with accessories

The metal case with universal fittings turns the RS package into an XL version, plus more. 1 sanding pad, perforated for dust extraction, 5 perforated sanding sheets, grit size 60, 80, 120, 180. 1 dust extractor, complete with 2 hose connections for suction hose \varnothing 1 1/16"/1 1/4" and 2 adaptors for standard domestic vacuum cleaners, 1 Mini-Cut set & diamond sharpening set, 1 carbide rasp (triangular).

Part Number 3 39 01 099 03 4

Carrying case replacement

Metal case with practical inner compartments, without machine and accessories. Optimally suited for storing the MultiMaster Start and RS.

Part Number 3 39 01 099 01 2

Super Professional Kit

Consisting of:
1 carbide grout blade, 1 carbide rasp, 1 convex knife blade, 1 E-Cut blade

Part Number 6 39 03 167 26 0

Set of clamping screws

For all FEIN MULTIMASTER accessories. 2-pack.

Part Number 4 30 33 087 06 5

Star Adapter

Can be used for all FEIN MULTIMASTER accessories with star mount. The form-fitting mount provides up to 40% better torque transfer.

Part Number 3 01 09 189 01 0

E-Cut universal saw blades

Bi-metal teeth, recessed, also suitable for radii, high speed cut, sheet metal (56.000 lbf/in²) up to about 14 gauge, aluminum profiles, copper pipes, wood, plasterboard, and almost all plastics, flush cut. Length 2 3/8"

Width	qty	Part Number
1 1/8"	1	6 35 02 151 01 8
1 1/8"	3	6 35 02 151 02 0

MiniCut & diamond sharpening set

Consisting of: 1 saw blade holder, 2 saw blades (3/8" and 13/16" wide) for wood and other soft materials, 2 HSS saw blades (3/8" u. 13/16" wide) for non-ferrous metals and plastic, 1 normal diamond file, 1 clamping plate 15°.

Part Number 6 39 01 025 03 5

MiniCut saw blades

For wood and other soft materials, plunge depth 1 3/16", 2-pack.

Width	Part Number
3/8"	6 35 02 132 01 3
13/16"	6 35 02 131 01 0

HSS for non-ferrous metals and plastic, plunge depth 1 3/16", 2-pack.

Width	Part Number
3/8"	6 35 02 130 01 1
13/16"	6 35 02 129 01 9

Diamond file

Grit	Width	Part Number
extra fine	3/8"	6 37 06 014 02 6
fine	13/16"	6 37 06 013 02 8
normal	13/16"	6 37 06 012 02 4

Sanding

Sanding pad set

2-pack, unperforated

Part Number 6 38 06 129 02 6

Set of sanding pads "plastic"

With plastic backing plate to avoid scratch marks. 2-pack.

Part Number 6 38 06 153 02 2

Sanding pad set "flat"

For very narrow openings (e.g. slats on cupboards, windows shutters, etc.), 2-pack.

Part Number 6 38 06 142 02 9

Thick sanding pad, H&L

2-pack, unperforated

Part Number 6 38 06 150 02 6

Thin pad – PSA

2-pack, unperforated

Part Number 6 38 06 165 02 3

Standard pad – PSA

2-pack, unperforated

Part Number 6 38 06 137 01 7

Thick pad – PSA

2-pack, unperforated

Part Number 6 38 06 151 02 5

Sanding sheet set

Consisting of: 10 sanding sheets, unperforated, with hook & loop grit 60, 80, 120, 180, 240.

Part Number 6 37 17 082 03 3

Sanding sheets

Unperforated with hook & loop, can be used universally on almost all materials, such as wood, metal, fiberglass, plastic, enamel, filling compound, soldering joints, leather, etc., fully resin-bonded, high abrasion performance, corundum.

240	50	6 37 17 090 01 8

Sanding pad "supersoft"

For special applications. Only the sanding sheets mentioned below may be used with this sanding pad. 2-pack.

Part Number 6 38 06 141 02 6

Sanding sheets "supersoft"

Special sanding sheets for sanding aluminum rims, for fine sanding, paint run and overspray from wood, plastic, metal, etc. Only for use in connection with sanding pad 6 38 06 141 02 6.

Grit	qty	Part Number
240	50	6 37 17 126 01 5

400	50	6 37 17 128 01 7
500	50	6 37 17 179 01 6

Sanding set "stone"

Universally suitable for sanding stone and stone products. Consisting of: 5 of each type of sanding sheet, unperforated, grit 40, 80, 120, 220, 320, 400, 600, 800; 1 of each type of sanding pad, unperforated, with aluminum and plastic backing plate, 1 felt polishing pad

Part Number 6 38 06 129 06 7

Sanding sheets "stone"

Special sanding sheets for coarse and fine sanding of natural and artificial stone, unperforated with hook & loop fully synthetic-resin bonded, high sanding capacity, dry sanding, silicon carbide.

Profile sanding set

Consisting of: 1 holder and 6 different profile inserts: 1 V-form for 90° angle, 1 trapezoid for tongue-and-groove connections, 1 for straight profiles, 1 for convex forms (large), 1 each for concave and convex forms (small), as well as 5 grinding disks grit 80, 120, and 180.

Part Number 6 38 06 183 02 9

Replacement part for profile kit

Trapezoid profile	3 18 21 029 00 1
“V”-shape profile	3 18 21 031 00 2
Concave profile	3 18 21 033 00 9

Convex profile	Part Number
(Large)	3 18 21 034 00 7
(Small)	3 18 21 035 00 1
Flat profile	3 18 21 036 00 4

Profile sandpaper

Fits on profile sanding set. Can be used universally on almost all materials, such as wood, metal, plastic fiberglass, plastic, enamel, filling compound, soldering joints, leather etc., high abrasion performance, packet of 25.

Grit	qty	Part Number
80	25	6 37 17 217 01 6
120	25	6 37 17 218 01 4
180	25	6 37 17 219 01 8

Sanding finger

Long and narrow sanding fingers for use in extremely tight and hidden spots, in channels, grooves, openings, folds, and joints. Also for mould-making, in concave and convex forms. The sanding finger can be bent to fit on any work piece. 2-pack.

Height	Part Number
1/4"	6 38 06 159 02 3
1/16"	6 38 06 157 02 1

As above, but with hook & loop on top and underside. 2-pack

Height	Part Number
1/16"	6 38 06 158 02 9

Sanding sheets for sanding fingers

With hook & loop fully synthetic-resin bonded, high sanding capacity, corundum. Application: Wood, metal, soldered joints, fiberglass-reinforced plastic, plastic, paint, filler, and leather. pack of 20

Carbide rasp (carbide coated)

Perforated for dust extraction, triangular.

Part Number	6 37 31 001 01 4
--------------------	-------------------------

Finger shape, coated on both sides

Part Number	6 37 31 002 01 7
--------------------	-------------------------

Sanding with out dust

Dust extractor set

2 sanding pads, perforated; 5 of each type of sanding sheet, perforated, grit 60, 80, 120; 1 extractor hood with suction tube; 2 hose nozzles for hose connection Ø 1 1/16" and 1 1/4" plus 2 adapters for connection to the most common domestic vacuum cleaners. For MSx 636 II and MSxe 636 II.

Part Number	9 26 02 065 02 5
--------------------	-------------------------

For MSx 315

Part Number	9 26 02 063 02 3
--------------------	-------------------------

For MOx 6-25

Part Number	9 26 02 059 02 5
--------------------	-------------------------

Adapter hose

For connecting the dust extractor to the most common domestic vacuum cleaners. The adapter hose is pushed onto the hose nozzle for the Ø 1 1/16" hose connection.

Model	Part Number
thin	3 06 05 110 00 8
thick	3 06 05 109 00 6

Sanding pad set

2-pack, perforated.

Part Number	6 38 06 136 02 9
--------------------	-------------------------

Sanding sheets

Perforated, with hook & loop fully bonded with artificial resin, high sanding capacity, corundum. For all-round use with dust extraction on practically all materials such as wood, metal, fiberglass-reinforced plastic, plastic, paint, filler, soldered joints, leather.

400	50	6 37 17 119 01 2

Sanding sheet set

10 of each type of sanding sheet, perforated with hook & loop corundum, grit 60, 80, 120, 180, and 240.

Part Number	6 37 17 109 03 5
--------------------	-------------------------

FEIN "Turbo II"

Easy-to-use wet and dry vacuum with automatic switching. The ideal vacuum cleaner to the FEIN MULTIMASTER. Detailed information on "dust-free sanding" and extensive accessories for the FEIN vacuum cleaner can be found in the chapter Accessories / Dust extractor.

Part Number	9 55 13
--------------------	----------------

Polishing

Set of felt polishing pads

For polishing metal parts, such as door and furniture fittings made of brass, etc., as well as for polishing and decorative polishing of stone and stone products. Gelcoat layers on boats can also be polished. 2-pack.

Part Number 6 38 06 140 02 7

Polishing agents for various materials are available from qualified specialist retailers.

Scraping

Rigid scraper

For removing residual carpet and tile adhesive, scale, underseal, damaged coatings, etc.

Part Number 6 39 03 178 01 7

Flexible scraper

For removing layers of paint, adhesive remnants, stickers, caulking in the kitchen and bath, etc., 2-pack.

Part Number 6 39 03 165 01 3

Tile work

Carbide-tipped segment saw blade

For cutting through marble and concrete grout joints. Recessed saw blades enable you to work flush to the surface. The segment blades allow you to cut at right angles without overcutting. Ø 2 1/2"

Part Number 6 35 02 118 01 6

Diamond saw blade

For cutting through marble and concrete grout joints for small-scale repair of tiled surfaces in interiors and bathrooms, without creating much dust and no risk of damage to neighboring tiles; also suitable for cutting grooves in plaster, bricks, pumice stone, honeycomb stone and aerated concrete for installing electrical wiring. Diamond coating ensures a long life. Also suitable for use with very old and hard sealant materials. Ø 2 1/2"

Part Number 6 35 02 105 01 2

Diamond segment saw blade

For cutting through marble and concrete grout joints in corners without overcutting. Segmented shape also permits work flush to the surface.

Part Number 6 35 02 114 01 7

Cleaning block

Rhombus for cleaning the carbide tipped tools and diamond-coated tools.

Part Number 6 37 19 007 01 0

FEIN MULTIMASTER tile kit

Consisting of: 1 thin carbide blade, 1 normal carbide blade, 1 thick carbide blade, 1 carbide rasp, 1 E-Cut blade 2 1/2"

Part Number 6 35 02 118 03 8

Slicing

Segment blade, concave

For cutting soft materials e.g. felt, leather, polystyrene.

Part Number 6 39 03 193 01 8

Segment blade, convex

For cutting rigid materials, e.g. floor tiles made of plastic, linoleum, rubber, cardboard, leather, wire meshing, looped fabric/carpets, and much more.

Part Number 6 39 03 192 01 4

Boat deck work

Cutter blade

For cutting out deck sealant materials rapidly and safely. Also for problem areas such as cabins, rails, gunwales, cleats, and curves.

Blade width	Part Number
1/8"	6 39 03 200 01 7
3/16"	6 39 03 201 01 6
3/16"	6 39 03 202 01 9

Concrete

Concrete vibrator

For compacting concrete when concreting smaller foundations. Air inclusions are reliably prevented.

Part Number 6 39 01 008 01 0

MSx 315

Dust extractor

Part Number 9 26 02 065 02 5

Battery charger

Charging time 40–100 minutes, power consumption 50 VA, charging current max. 1.7 A, weight 3.3 lbs, cable length 4'ft

Part Number 9 26 04 050 01 0

Battery

NiCd, 9.6 V, 800 mAh, 0.8 lbs

Part Number 9 26 04 007 02 6

NiMh, 9.6 V, 1700 mAh, 0.8 lbs

Part Number 9 26 04 080 02 3

Suspension clip

For attaching to belt loop.

Part Number 3 21 25 058 00 0

Multi-Purpose Tools

■ FEIN SUPERCUT CONSTRUCTION.

Four customized professional sets are available for various user groups. The **professional set for glaziers / window installers** for fast, simple, and neat renovation of putty-mounted insulation windows and dismantling old windows. The time saved compared to alternative methods can be up to 80 %.

The **professional set for carpenters / interior fitters** with an extensive selection of E-Cut saw blades for wood, plastic, plasterboard, and even metal. The **professional set for tilers / installers** with diamond and carbide-coated tools for cutting out hard grouting material and the sanding down of thinset residues as well as

cutter blades for elastic sealants in maintenance joints. The **professional set for sealant / caulking repairers** makes time-consuming manual work a snap thanks to its special attachment. Save up to 60 % time. The powerful and durable FEIN SUPERCUT CONSTRUCTION provides the required sufficient reserve capacity.

FEIN SUPERCUT CONSTRUCTION Professional Set Glazing / Window Installation

AT A GLANCE

Optimally compiled, comprehensive set for glaziers / window installers

- ▶ Ideally suitable for renovating putty-mounted insulation windows and dismantling old windows
- ▶ Repair of insulated windows without breaking the old panes
- ▶ The time saved compared to alternative methods can be up to 80%
- ▶ Extracting of old window frames without damaging the walls or the plaster
- ▶ Removal and fitting work is accomplished quickly, easily, and neatly so that there is no wall damage and making complicated touch-up work unnecessary

Model FSC 2.0-FG
Part Number 7 236 32 51

Power consumption	Watts	400
Power output	Watts	220
Oscillations	rpm	11,000–18,500
Cable with plug	ft	16'
Weight	lbs	2.7
L x H	in	11" x 2 13/16"

Price includes

1 FEIN SUPERCUT CONSTRUCTION in metal tool case;
1 HSS saw blade, recessed, Ø 4"; 1 E-Cut standard saw blade (form 124); 1 each E-Cut universal saw blade (form 147, 148); 1 depth stop; 1 adapter; 1 sanding pad; 5 each sanding sheets, grit 60, 80, 120; 1 segment blade, toothed; 1 cutter blade, mushroom shaped; 1 wrench

FEIN SUPERCUT CONSTRUCTION Professional Set Carpentry / Interior Constructions

AT A GLANCE

The set for carpenters / interior fitters with the complete E-Cut selection

- ▶ For all construction and sawing work, even in hard-to-reach places
- ▶ Brings speed to every construction site
- ▶ Sawing without disassembly. No free space required alongside or behind the work piece
- ▶ High cutting speed and high precision
- ▶ Plunge into the material just like a chisel
- ▶ Clean cuts even by hand; no clamping of the workpiece necessary
- ▶ Convert to a versatile triangular sander with high grinding capacity

Model FSC 2.0-CK
Part Number 7 236 32 52

Power consumption	Watts	400
Power output	Watts	220
Oscillations	rpm	11,000–18,500
Cable with plug	ft	16'
Weight	lbs	2.7
L x H	in	11" x 2 13/16"

Price includes

1 FEIN SUPERCUT CONSTRUCTION in metal tool case;
4 E-Cut standard saw blades (form 123, 124, 135, 136);
4 E-Cut precision saw blades (form 119, 120, 121, 122);
1 each E-Cut universal saw blades (form 147, 148);
1 depth stop; 1 adapter; 1 sanding pad; 5 each sanding sheets (grit 60, 80, 120), 1 wrench

FEIN SUPERCUT CONSTRUCTION Professional Set Tile Workers / Plumbers

AT A GLANCE

Indispensable for all tilers, stove fitters, and plumbers – the professional set with the universal accessories

- ▶ Replacement of single, damaged tiles without damaging adjoining tiles
- ▶ Simple and precise working system – into the corners and along radii
- ▶ Little dirt and dust
- ▶ Cut-outs and fitting work is accomplished quickly, easily, and neatly using the E-Cut saw blades. You don't have complicated touch-up work
- ▶ Convert to a versatile triangular sander with high grinding capacity

Model FSC 2.0-TK
Part Number 7 236 32 53

Power consumption	Watts	400
Power output	Watts	220
Oscillations	rpm	11,000–18,500
Cable with plug	ft	16'
Weight	lbs	2.7
L x H	in	11" x 2 13/16"

Price includes

1 FEIN SUPERCUT CONSTRUCTION in metal tool case;
1 segment blade, diamond coated (form 162);
1 segment blade, mushroom shaped; 1 scraper blade;
1 each E-Cut universal saw blade (form 147, 148);
1 adapter; 2 rasps, carbide-coated, triangular, perforated for dust extractor; 1 wrench

FEIN SUPERCUT CONSTRUCTION Professional Set Sealant / Caulking Removal

AT A GLANCE

Renew sealant/joints fast, cleanly, and reliably with the set for sealant renewers

- ▶ Rapid work progresses with comparatively little effort
- ▶ Optimal ergonomic design for fatigue-free working
- ▶ HIGH-POWER MOTOR for supreme performance and stability
- ▶ Use indoors and outdoors
- ▶ Vibration-attenuating fixed handle for minimizing physical fatigue
- ▶ Tool-free attachable dust extraction device

Model FSC 2.0-SC
Part Number 7 236 32 54

Power consumption	Watts	400
Power output	Watts	220
Oscillations	rpm	11,000–18,500
Cable with plug	ft	16'
Weight	lbs	2.7
L x H	in	11" x 2 13/16"

Price includes

1 FEIN SUPERCUT CONSTRUCTION in metal tool case;
1 vibration-reducing bail handle; 5 cutter blades, straight (form 117); 1 cutter blade, straight, long (form 116);
1 wrench

FEIN SUPERCUT CONSTRUCTION

Model FSC 2.0

Part Number 7 236 32

Power consumption	Watts	400
Power output	Watts	220
Oscillations	rpm	11,000–18,500
Cable with plug	ft	16'
Weight	lbs	2.7
L x H	in	11" x 2 13/16"

Price includes

1 FEIN SUPERCUT CONSTRUCTION in metal tool case, 1 whetstone (6 37 19 010 01 4), 1 mounting bolt (3 30 01 039 01 7), 1 wrench (6 29 07 037 00 3)

AT A GLANCE

FEIN SUPERCUT CONSTRUCTION with oscillating movement for universal deployment

- ▶ Optimally compiled sets available for glaziers/window installers, carpenters/interior fitters, tilers/plumbers, and grouting renewers
- ▶ Fast, reliable, and easy-to-use system
- ▶ Durable 400 Watt HIGH-POWER MOTOR for outstanding performance and stability
- ▶ Infinitely variable electronic cutting frequency control
- ▶ Hexagonal tool mount with frictional connection between machine and tool

Pneumatic FEIN SUPERCUT

Model M0tx 6-25

Part Number 7 536 02

Operating pressure	psi	90
Air consumption	CFM	5
Oscillations	rpm	20,000
Hose size Ø	in	3/16"
Weight	lbs	2.4
L x H	in	7 3/4" x 2 1/2"

Price includes

1 wrench, 1 whetstone (6 37 19 010 01 4)

AT A GLANCE

Pneumatic FEIN SUPERCUT with oscillating movement

- ▶ Hexagonal tool mount with frictional connection between machine and tool
- ▶ No air leaks, no oil misting in working area
- ▶ Available with a comprehensive range of accessories for professional use in many industry sectors
- ▶ Very easy to handle due to its ergonomic design and light weight

Accessories for glazing / window restoration / carpentry / interior construction

E-Cut standard saw blades

Fine teeth for all wood, plaster-board, and plastics jobs, flush cut.

1 3/4"	5	6 35 02 148 02 9
1 3/4"	25	6 35 02 148 03 5

Depth stop

For E-Cut saw blades, for limiting the cutting depth.

Part Number 3 26 07 062 02 2

M-Cut saw blade

For cuts, cut-outs, and grooves in sheet metal, plastics, fiberglass, and carbon fiber-reinforced plastic, 2-pack

Width	Length	Part Number
1 3/16"	1 15/16"	6 35 02 138 01 4

Saw blades

HSS, with fine teeth for precise cutting. Universal deployment on metal sheet up to about 20 gauge, also doubled, and plastics. 2-pack

Ø	Part Number
2 1/2"	6 35 02 102 01 6
3 1/8"	6 35 02 103 01 0

HSS, recessed, countersunk attachment screw for flush working, single pack.

Ø	Part Number
3 3/8"	6 35 02 145 01 8
3 15/16"	6 35 02 137 01 6

Cutting paste

Lubricating agents for working on sheet metals.

Part Number 3 21 32 020 12 9

Circular knife HSS, cranked

For general cutting applications in leather, plastics foils, roofing cardboard, fly screens, etc., single pack

Ø	Part Number
4"	6 39 03 220 01 0

Cutter blade

Mushroom-shaped, for cutting elastic silicon or acrylic connecting joints as well as for separation of insulating glass. 5-pack

Part Number 6 39 03 128 01 2

Multi-Purpose Tools

Segment saw blade

Segmented, for removing panes of insulating glass installed on a putty bed, pack of 2

Part Number 6 39 03 166 01 6

Adaptor

Needed for fitting accessories with round adapters (e.g. for rasping, sanding, and polishing).

Part Number 3 06 05 114 01 1

Sanding pad set

2-pack, unperforated

Part Number 6 38 06 129 02 6

Sanding sheets

Unperforated with hook & loop can be used universally on almost all materials, such as wood, metal, fiberglass, plastic, enamel, filling compound, soldering joints, leather, etc., fully resin-bonded, high abrasion performance, corundum.

400	50	6 37 17 093 01 4

Sanding sheet set

Consisting of: 10 sanding sheets, unperforated, with hook & loop grit 60, 80, 120, 180, 240.

Part Number 6 37 17 082 03 3

Sanding set "stone"

Universally suitable for sanding stone and stone products. Consisting of: 5 of each type of sanding sheet, unperforated, grit 40, 80, 120, 220, 320, 400, 600, 800; 1 of each type of sanding pad, unperforated, with aluminum and plastic backing plate, 1 felt polishing pad

Part Number 6 38 06 129 06 7

Sanding sheets "stone"

Special sanding sheets for coarse and fine sanding of natural and artificial stone. unperforated with hook & loop fully synthetic-resin bonded, high sanding capacity, dry sanding, silicon carbide.

Dust extraction set

For all sanding and rasping jobs with triangular sanding pad and carbide rasp. incl. 2 sanding pads, perforated; 5 of each type of sanding sheet, perforated, grit 60, 80, and 120; 1 extractor hood with suction tube; 2 hose nozzles for hose connection Ø 1 1/16" and 1 1/4" plus 2 adapters for connection to the most common domestic vacuum cleaners.

Part Number 9 26 02 074 01 4

Sanding pad set

2-pack, perforated.

Part Number 6 38 06 136 02 9

Sanding sheets

Perforated, with hook & loop fully bonded with artificial resin, high sanding capacity, corundum. For all-round use with dust extraction on practically all materials such as wood, metal, fiberglass-reinforced plastic, plastic, paint, filler, soldered joints, leather.

Sanding sheet set

10 of each type of sanding sheet, perforated with hook & loop corundum, grit 60, 80, 120, 180 and 240.

Part Number 6 37 17 109 03 5

Carbide rasp

Carbide coated
Perforated for dust extraction, triangular.

Part Number 6 37 31 001 01 4

Finger shape, coated on both sides

Part Number 6 37 31 002 01 7

Set of felt polishing pads

For polishing metal parts, such as door and furniture fittings made of brass, etc., as well as for polishing and decorative polishing of stone and stone products. Gelcoat layers on boats can also be polished. 2-pack.

Part Number 6 38 06 140 02 7

Accessories for tile workers / plumbers

Segment blade

Diamond coated, also for corners and radii and for working without overcutting. Cutting line approx. $\frac{3}{32}$ ", standard model for all marble, epoxy resins, and cement grout.

Part Number 6 39 03 162 01 7

Cutting line approx. $\frac{1}{16}$ ", for extremely thin marble joints. Cutting depth max. $\frac{3}{8}$ ". Not suited for epoxy resin.

Part Number 6 39 03 196 01 3

Saw blades

Diamond-coated, recessed, \varnothing 3 $\frac{1}{8}$ ". Cutting line approx. $\frac{3}{32}$ ", standard design for all marble, epoxy resins and cement mortar.

Part Number 6 35 02 115 01 1

Cutting line approx. $\frac{1}{16}$ ", for extremely thin marbleized mortar. Not suited for epoxy resin and cement mortar.

Part Number 6 35 02 116 01 4

Dust extraction device

For jobs with diamond-coated tools; tool-free mount. Suction hose attachment \varnothing 1 $\frac{1}{4}$ ".

Part Number 9 26 02 075 01 8

Scraper

For removing floor covering remains, underseal and residual bonding material, etc., single pack

Part Number 6 39 03 206 01 8

Cleaning block

Rhombus for cleaning the HM tools and diamond-coated tools.

Part Number 6 37 19 007 01 0

Accessories for sealant / caulking repairers

Cutter blade

Straight shape. Universal blade for almost all expansion sealants. 5-pack

Part Number 6 39 03 117 01 5

Straight, long, for very deep joints, 5-pack

Part Number 6 39 03 116 01 1

Segment blade

Segment shape for V-cuts and for cuts in corners, 2-pack

Cutting length	Total length	Part Number
1 $\frac{3}{16}$ "	2 $\frac{7}{8}$ "	6 39 03 132 01 0

Cleaning blade

Straight, diamond-coated, for cleaning mortar flanks before refilling

Part Number 6 39 03 161 01 4

Work gloves

Vibration-attenuating, certified according to EN 388/420, EN ISO 10819, EEC No. 0200, No. in pack 1 pair

Size	Part Number
9 L	3 21 73 003 00 3
10 XL	3 21 73 004 00 1
11 XXL	3 21 73 005 00 5

Handle

To reduce the vibrations and for better handling of the FEIN SUPERCUT during longer jobs. Can be used with the dust extraction device 9 26 02 075 01 8.

Part Number 3 21 19 116 01 1

Accessory Kits

Accessory set for glaziers / window installers

Subsequent order to professional set glaziers / window installers, consisting of: 1 HSS saw blade, recessed, \varnothing 4"; 1 E-Cut "standard" saw blade (form 124); 1 each E-Cut "universal" saw blade (form 147, 148); 1 depth stop; 1 adapter; 1 sanding pad; 5 each sanding sheets, grit 60, 80, 120; 1 segment blade, toothed; 1 cutter blade, mushroom shaped

Part Number 6 39 03 167 34 2

Accessory set for carpenters / interior fitters

Subsequent order to professional set carpenters / interior fitters, consisting of: 1 each E-Cut "standard" saw blades (form 123, 124 a. 135, 136); 1 each E-Cut "precision" saw blades (form 119, 120 a. 121, 122); 1 each E-Cut "universal" saw blades (form 147, 148); 1 depth stop; 1 adapter; 1 sanding pad; 5 each sanding sheets, grit 60, 80, 120

Part Number 6 39 03 167 35 8

Accessory set for tilers

Subsequent order to professional set tile layer, consisting of: 1 segment blade, diamond coated (form 162); 1 segment blade, mushroom shaped; 1 scraper blade; 1 each E-Cut "universal" saw blade (form 147, 148); 1 adapter; 2 rasps, carbide-coated, triangular, perforated for dust extractor

Part Number 6 39 03 167 36 1

Glazier kit

1 mushroom blade, 4" flush cut blade, 1 serrated sickle blade Cuts in corners, 2-pack

Part Number 6 39 03 167 99 9

■ FEIN SUPERCUT AUTOMOTIVE.

FEIN SUPERCUT AUTOMOTIVE is one of the most successful power tools for removing rigidly bonded car window panes. You have the option of three optimally compiled professional sets for deploying the FEIN SUPERCUT in automobile glaziers, car workshops, and in the cargo sector.

The automobile glazier's **professional set** is specially adapted through its cutter blades to cut out the wind-screens of most automobiles quickly and safely. Windscreen, rear, and side window-panes can be cut out using the **professional set for the auto-**

mobile workshop. Furthermore, it includes additional accessories for sawing and scraping. The **cargo professional set** with its very special cutter blades is the tailor-made solution for trucks, buses, special and rail vehicles.

FEIN SUPERCUT AUTOMOTIVE

Model	FSC 1.6	
Part Number	7 236 31	
Power consumption	Watts	400
Power output	Watts	220
Oscillations	rpm	11,000–18,500
Cable with plug	ft	16'
Weight	lbs	2.8
L x H	in	11" x 2 13/16"

Price includes

1 metal tool case, 1 whetstone (6 37 19 010 01 4),
1 mounting bolt (3 30 01 039 01 7), 1 wrench

AT A GLANCE

FEIN SUPERCUT AUTOMOTIVE for universal deployment in the automobile sector

- ▶ Optimally tailored sets for automobile glass, car workshops, and for the cargo sector
- ▶ Fast, reliable, and easy-to-use system
- ▶ High-performance 400 watt motor for high cutting speeds
- ▶ Infinitely variable electronic speed control
- ▶ Hexagonal tool mount with frictional connection between machine and tool

Pneumatic FEIN SUPERCUT

Model	M0ttx 6-24	
Part Number	7 536 02	
Operating pressure	psi	87
Air consumption	CFM	23.3
Oscillations	rpm	20,000
Hose size Ø	in	3/16"
Weight	lbs	2.4
L x H	in	7 3/4" x 2 1/2"

Price includes

1 metal tool case, 1 wrench, 1 whetstone (6 37 19 010 01 4)

AT A GLANCE

Pneumatic FEIN SUPERCUT with oscillating movement

- ▶ Hexagonal tool mount with frictional connection between machine and tool
- ▶ No air leaks, no oil misting in working area
- ▶ Available with a comprehensive range of accessories for professional use in many industry sectors
- ▶ Very easy to handle due to its ergonomic design and light weight

Adaptor

Needed for fitting accessories with round adapters (e.g. for rasping, sanding, and polishing).

Part Number	3 06 05 114 01 1
--------------------	-------------------------

Sanding pad kit

2-pack, unperforated

Part Number	6 38 06 129 02 6
--------------------	-------------------------

Sanding sheet kit

Consisting of: 10 sanding sheets, unperforated, with hook & loop grit 60, 80, 120, 180, 240.

Part Number	6 37 17 082 03 3
--------------------	-------------------------

Accessory kits for automobile glaziers, cargo and automobile workshops

Automobile glazier accessory kit

Subsequent order to professional kit automobile glazier, consisting of: 3 L-shaped cutter blades, toothed (form 207), 1 each of L-shaped cutter blade, toothed (forms 208 and 209), 1 each of U-shaped cutter blade, reinforced design (forms 157 and 111), also 2 U-shaped cutter blade, reinforced design, toothed (form 212).

Part Number	6 39 03 167 38 3
--------------------	-------------------------

Automobile workshop accessories kit

Subsequent order to professional automobile workshop kit, consisting of: 2 U-shaped cutter blades, short side (form 076), 1 each of U-shaped cutter blade, short side (forms 079 and 101), 1 L-shaped cutter blade, toothed (form 207), 1 straight cutter blade, Z-bend, with adjustable roller stop (form 143), 1 spade-shaped scraper knife with scratch-protective coating (form 129), 1 stopper knife, 1 HSS saw blade (Ø 3 1/8").

Part Number	6 39 03 167 25 7
--------------------	-------------------------

Cargo accessory kit

Subsequent order to professional cargo kit, consisting of: 2 straight cutter blades, toothed (form 073), 1 straight cutter blade, Z-bend, toothed (form 081), 1 hook-shaped cutter blade, toothed (form 217), 1 curved cutter blade, Z-bend, (form 072), 1 each of L-shaped cutter blade, toothed (forms 207 and 209), 1 spade-shaped scraper knife with scratch-protective coating (form 105), 1 traction cable.

Part Number	6 39 03 167 32 0
--------------------	-------------------------

Glazier kit

1 mushroom blade, 4" flush cut blade, 1 serrated sickle blade

Part Number	6 39 03 167 99 9
--------------------	-------------------------

Gator blade kit

consisting of: toothed, 3/4", 1" and 1 1/2" L-shaped Blades.

Part Number	6 39 03 207 02 8
--------------------	-------------------------

U-shaped kit

consisting of: reinforced design, toothed, 3/4", 1" and 1 1/2" U-shaped Blades.

Part Number	6 39 03 210 03 8
--------------------	-------------------------

Dust-Free Cutting / Sanding

Dust-free means quicker job preparation and eliminates 90% of clean up.

FEIN tools paired with a FEIN dust extractor can help you protect the

environment, keep the workplace clean, and make EPA compliance automatic. Dust-free sanding is faster and creates a better finish because the sandpaper rides directly on the work instead of on a bed of dust.

■ Dust-Free Cutting	P. 102-103
■ Random Orbit Sanders	P. 105-106
■ Rotary Sanders	P. 106

■ Dust-Free Cutting.

Cut wireways, cable channels, and access panels in lathe and plaster, concrete, drywall, ceramic tile, or even metal studs virtually dust-free with the new MF 12-180 Construction Cutter from FEIN.

The Construction Cutter uses a diamond blade to plunge cut into walls or floors for clean-edged cutting of channels or cut-outs. Perfect where dust-free work is mandatory such as in hospitals, hotels, and offices.

The tool features FEIN's heavy-duty High-Power motor for incredible non-stop performance. The blade is encased in a dust-free suction container. Cutting depth can be controlled precisely with the depth stop provided. A diamond blade and metal carrying case are included.

Construction Cutter 1,200 W

Model	MF 12-180	
Part Number	7 238 12	
Power consumption	Watts	1,200
Power output	Watts	750
No load speed	rpm	7,000
Cable with plug	ft	13'
Weight	lbs	9.0
Diamond wheel Ø	in	7"
Cutting depth	in	0-2"
L x H	in	14 3/8" x 6 1/8"

Price includes

1 metal tool case, 1 diamond wheel Ø 7 1/8"

AT A GLANCE

Extremely powerful and robust construction cutter for dismantling old windows, or cutting channels

- ▶ HIGH-POWER MOTOR for supreme performance and stability
- ▶ Dust-free operation with dust extraction and closed suction container
- ▶ Stable grip ensures secure handling
- ▶ Precise cuts without damaging the walls
- ▶ Cut passes with minimal clearance along walls
- ▶ Cutting depth can be precisely set by the depth stop
- ▶ Top-quality diamond wheel
- ▶ Companion to: FEIN SUPERCUT for cutting window frames

General Accessories

Diamond wheel

Ø 7 1/8", Special retainer for MF 12-180.

Part Number 6 35 02 146 01 1

■ Dust-Free Sanding Systems.

FEIN Dust-Free sanding systems integrate a variety of sanders and vacuums into complete systems that can capture up to 98 % of the dust created by sanding. Dust-Free sanding is faster and creates a better finish

because the sandpaper rides directly on the work instead of on a bed of dust. Fresh abrasive is always in contact with the surface and the sanding pad and surface stays cool. FEIN sanders can reduce sanding time up to 30 %.

Job site clean-up is virtually eliminated. Masking doors, windows and vents is not necessary, and jobs are completed faster. Finished products are clean and free of dust, and sandpaper usage is reduced.

Pneumatic Random Orbit Sander 5"

AT A GLANCE

- ▶ Excellent handling and low-vibration operation
- ▶ Top sanding performance on every material
- ▶ H&L of the sanding sheets
- ▶ Perfect direct dust extraction
- ▶ Very quiet-running rotating piston air engine

Vacuums

FEIN Dust Extractors and Vacuums

FEIN dust extractors and vacuums are powerful and durable yet comfortably quiet. Vacuum performance is measured by static water lift, and at 90 to 99 inches of water lift, FEIN vacs produce far greater suction than the competition. And, at an average 60 decibels, they are far quieter than most other popular vacuums. All FEIN vacs and dust extractors are designed for heavy-duty, continuous industrial use and employ dual fan turbo cooling to extend motor life. All models can be used wet or dry and have accessory filters up to .3 micron (HEPA) available for them.

Dust Extractors

The Turbo II, and Turbo III models, when combined with FEIN's random orbit sanders, are an integral part of FEIN's 98 % dust-free sanding system. Plug your random orbit sander directly into a FEIN dust extractor. The tool's switch turns the dust extractor on and off and provides a ten second delay after shut-off to clear the hose. FEIN dust extractors handle power tools with inputs of 40 to 2,000 watts (.3 to 19 amps).

Turbo Cooling Technology

FEIN Turbo Cooling Technology uses a dual fan motor to prevent electrical damage and extend the life of the motor. One fan is sealed and creates suction to draw in air and debris, filter it and exhaust it. The second fan draws cooling air from outside and across the motor. This technique, typically found only on more expensive vacuums, assures you that the motor will never be starved for cooling air or exposed to dirt and grime in the tank even if the hose and filter are blocked.

■ Dust Extractors

P. 112-115

Turbo I Wet/Dry Vacuum

AT A GLANCE

- ▶ 6 gallon capacity
- ▶ Durable, reliable, quiet and powerful
- ▶ Auto start for dust extraction when connected to your power tool with input of 40 to 2,000 watts (.3 to 19 amps.)
- ▶ Can be used as a wet vac with optional anti-foam filter
- ▶ Fein Turbo cooling technology uses a dual fan motor to prevent electrical damage and extend the life of the motor
- ▶ Fein vacuums are the perfect combination of portability and power
- ▶ A wide verity of accessories are available for Fein vac's

Type	Turbo I

Price includes
16' Hose (1 1/4" dia.), 5 Micron cloth bag

Turbo III Wet/Dry Vacuum

AT A GLANCE

- ▶ 14.5 gallon capacity
- ▶ Durable, reliable, quiet and powerful
- ▶ Auto start for dust extraction when connected to your power tool with input of 40 to 2,000 watts (.3 to 19 amps.)
- ▶ Can be used as a wet vac with optional anti-foam filter
- ▶ Fein Turbo cooling technology uses a dual fan motor to prevent electrical damage and extend the life of the motor
- ▶ Comes with a 2 1/4" hose and doubles as a clean and efficient workshop dust collector
- ▶ Fein vacuums are the perfect combination of portability and power
- ▶ A wide verity of accessories are available for Fein vac's

 5 Micron filter cloth

General Accessories

1 Micron Filter

Use with paper dust bag, flange and mounting screw for dust such as dry wall and sheet rock

Part Number TII1MCRN

0.3 Micron HEPA Filter

Use with paper dust bag, flange and mounting screw for hazardous small particulate dust

Part Number TIIHEPA

Filter Mounting Screw

Use with HEPA and 1 micron filters

Part Number TII3001

Filter Mounting Flange

Use with HEPA and 1 micron filters

Part Number TII3002

Anti-Foam Filter

For foamy water removal, used by itself

Part Number 9 02 04 200 0

Power Beater Brush

130 watt, automatic motorized start for textile and linoleum, width 14"

For use with Turbo III use Adaptor 2 1/2"-1 1/4" (9 21 005 AK13)

Part Number PB 350

3 Way Connector

With Cap for using 2 suction hoses

Part Number 9 21 086 AA13

Replacement Cap

For 3 Way Connector

Part Number 9 21 087 AK13

Adapter

1 1/4" hose end to a Random Orbit dust free dust port

Part Number 9 21 069 A13

Step Adapter

From 1 1/4" to 3/4"

Part Number 9 21 072 K13

Basket and strap

Part Number 5 26 300 AA13

Hose Cradle

Part Number 3 9 16 054 A089

Turbo 1

Filter bag kit

1 micron filter, dust bag, flange, mounting screw

Part Number FBK-1

Dust Bag

Dust bag 3-pack for use with a 1 Micron or HEPA filter, collects larger particles for two-stage dust collection

Part Number 9 13 038 K01

5 Micron Filter Cloth

For larger shop clean up, used by it self, dry only

Part Number 9 13 022 GA5

Hose Assembly

(16 ft), dia. 1 1/4", anti-static

Part Number 9 21 049 GN1

Cord Clips for 1 1/4" Hose

Part Number 9 21 063 K13

Clean Up Kit

2 metal extension tubes, air reduction handle, upholstery nozzle, crevice tool, wet brush, floor brush with wheels, and an anti-foam filter for water pickup

Part Number DW1

Handle

With air regulation slide

Part Number 9 21 067 A13

Extension Tube

Plated metal, 1 pcs., length 19"
2 required

Part Number 9 19 036 B94

Floor Brush with wheels

With sliding base

Part Number 9 19 064 B13

Thread Pick for Brush

For Floor brush with wheels

Part Number 9 19 043 R14

Liquid Pick Up Nozzle

Plastic, width 1 3/4"

Part Number 9 21 051 A13

Brush

Plastic, dia. 2 1/2"

Part Number 9 19 001 A13

Upholstery Tool

Plastic, with brush insert, width 5 1/2"

Part Number 9 19 003 K13

Crevice Tool

Plastic, length 8"

Part Number 9 19 007 K13

Turbo 2

Filter bag kit

1 micron filter, dust bag, flange, mounting screw

Part Number FBK

Dust Bag

Dust bag 3-pack for use with a 1 Micron filter, collects larger particles for two-stage dust collection

Part Number 9 13 036 K01

HEPA Filter bag kit

1 HEPA filter, dust bag, flange, mounting screw

Part Number FBK-HEPA

Safety bag

5-pack for use with HEPA filter for hazardous small particulate dust

Part Number 9 13 049 P01

5 Micron Filter Cloth

For larger shop clean up, used by it self, dry only

Part Number 9 13 025 GA5

Hose Assembly

(16 ft), 1 1/4", antistatic

Part Number 9 21 049 GN1

Cord Clips for 1 1/4" Hose

Part Number 9 21 063 K13

Clean Up Kit

2 metal extension tubes, air reduction handle, upholstery nozzle, crevice tool, wet brush, floor brush with wheels, and an anti-foam filter for water pickup

Part Number DW1

Handle

With air regulation slide

Part Number 9 21 067 A13

Extension Tube

Plated metal, 1 pcs., length 19" 2 required

Part Number 9 19 036 B94

Floor Brush with wheels

With sliding base

Part Number 9 19 064 B13

Thread Pick for Brush

For Floor brush with wheels

Part Number 9 19 043 R14

Liquid Pick Up Nozzle

Plastic, width 11 3/4"

Part Number 9 21 051 A13

Brush

Plastic, dia. 2 1/2"

Part Number 9 19 001 A13

Upholstery Tool

Plastic, with brush insert, width 5 1/2"

Part Number 9 19 003 K13

Crevice Tool

Plastic, length 8"

Part Number 9 19 007 K13

Turbo 3

Filter bag kit

1 micron filter, dust bag, flange, mounting screw

Part Number FBK-3

Dust Bag

Dust bag 3-pack for use with a 1 Micron or HEPA filter, collects larger particles for two-stage dust collection

Part Number 9 13 048 K01

5 Micron Filter Cloth

For larger shop clean up, used by itself, dry only

Part Number 9 13 025 GA5

Hose Assembly

(10 ft), dia 2 1/2", anti-static

Part Number 9 21 120 AG13

Clean Up Kit

Tools fit directly onto 2 1/2" hose, includes 2 plastic extension tubes, and air reduction handle, a crevice tool, a round brush, an upholstery nozzle, a floor brush, and an anti-foam filter

Part Number DW3

Handle

Part Number 9 21 085 AK13

Extension Tube

Plastic, 1 pcs., length 19" 2 required

Part Number 9 21 001 AK13

Floor Brush Housing

Plastic, width 15 3/4"

Part Number 9 21 081 CD13

Fluid and floor insert

Part Number 9 21 088 AK13

Floor Brush

Part Number 9 21 084 AK13

Liquid Pick Up Nozzle

Part Number 9 21 083 AK13

Brush

Plastic, dia. 2 3/4"

Part Number 9 21 002 AK13

Upholstery Tool

Plastic, 5" x 6"

Part Number 9 21 003 AK13

Crevice Tool

Plastic, length 9"

Part Number 9 21 004 AK13

Adaptor 2 1/2" - 1 1/4"

Part Number 9 21 005 AK13

Hose end replacement

2 1/4" - 4"

For standard equipment openings such as table saw, planers

Part Number 9 21 16 AK13

Industry Tools

FEIN high-performance power tools are synonymous with quality and precision. FEIN is a leading producer of power tools with ergonomic design. Safety and environmental

concerns, along with durability, and economic operation, have enabled FEIN's success as a producer of "World Class" power tools for Industry.

■ FEIN AccuTEC – Assembly Fastening.

The demands on fasteners has increased enormously in industry in the past years. Based on many years of experience FEIN knows

what it takes to drive screws: repeatability, durability and excellent ergonomics for comfortable handling. FEIN's AccuTEC range

of screwdrivers provides the ideal solution for high-quality fastening in a torque range of 4.5 to 221 in.lbs.

- ▶ Brushless and maintenance-free EC motor
- ▶ Soft start
- ▶ Soft cut-out without hand/arm recoil
- ▶ Very high operating efficiency
- ▶ Optimal ergonomics and well-balanced weight distribution
- ▶ FEIN batteries with high loading capacity/screwdrivers
- ▶ Integrated illumination for the screwdriving point
- ▶ Reverse activated at the press of a button
- ▶ Tongue tools can be used
- ▶ Angled heads can be adjusted 2 x 180°
- ▶ Retro-fits to FEIN AccuTEC Control
- ▶ Balancer suspension available
- ▶ NiMH batteries also available

Model ASW 12-11 Z
Part Number 7 110 95

Torque range	in.lbs	37.1–99.1
	Nm	4.2–11.2
No load speed	rpm	300
Current/Voltages	V ^{ac}	12
Weight incl. battery	lbs	5.0
Chuck (QuickIN)	Adapter	3/8" ■

Price includes

1 NiCd battery 2,000 mAh

Model ASW 12-17 Z
Part Number 7 110 96

Torque range	in.lbs	62–154.8
	Nm	7.0–17.5
No load speed	rpm	240
Current/Voltages	V ^{ac}	12
Weight incl. battery	lbs	5.0
Chuck (QuickIN)	Adapter	3/8" ■

Price includes

1 NiCd battery 2,000 mAh

Model with flat drive and drive toothed gear on page 126

FEIN AccuTEC 12 V Angle Nutrunner—with angled head and tongue tool up to 146 in.lbs

AT A GLANCE

Certified screwdriver according to ISO 5393, VDI/VDE 2647, achieves Cmk value > 1.67 at ± 12% (referred to 6 Sigma) for soft and hard joints

- ▶ Process optimized with switch-on delay and low energy lock (battery monitor)
- ▶ Precise tightening torque regardless of screw application
- ▶ Brushless and maintenance-free EC motor
- ▶ Soft start
- ▶ Soft cut-out without hand/arm recoil
- ▶ Very high operating efficiency
- ▶ Optimal ergonomics and well-balanced weight distribution
- ▶ FEIN batteries with high loading capacity/screwdrivers
- ▶ Integrated illumination for the screwdriving point
- ▶ Reverse activated at the press of a button
- ▶ Tongue tools can be used
- ▶ Angled heads can be adjusted 2 x 180°
- ▶ Retro-fits to FEIN AccuTEC Control
- ▶ Balancer suspension available
- ▶ NiMH batteries also available

Model ASW 12-11 Zo
Part Number 7 110 97

Torque range	in.lbs	34.5–92.9
	Nm	3.9–10.5
No load speed	rpm	300
Current/Voltages	V ^{ac}	12
Weight incl. battery	lbs	5.0
Chuck (QuickIN)	Adapter	3/8" ■

Price includes

1 NiCd battery 2,000 mAh

Model ASW 12-17 Zo
Part Number 7 110 98

Torque range	in.lbs	57.5–146

FEIN offers ecological battery disposal. We accept used battery packs for proper and complete recycling to protect the environment.

■ FEIN High Frequency-an outstanding System.

In the field of electronics, High Frequency generally means frequencies above 10 kHz. Industrial, High Frequency is considered to be any range over 60 Hz. However, for High Frequency power tools, the frequency most commonly used is 180 Hz, 300 Hz or 360 Hz. High Frequency power tools require special frequency converters which can step the main power up to the

higher frequency required. These converters are simply wired to the main power supply. Increasing the frequency (ex. From 60 Hz to 180 Hz, 300 Hz or 360 Hz) via a High Frequency converter, allows the use of 3-phase squirrel cage induction type motors with superior operating performance qualities. This provides the industry with tooling that has an excellent

power output combined with constant torque, which in turn translates into the most cost efficient utilization of your abrasives and tools. FEIN developed its First High Frequency power tools according to this principle many years ago and even today, FEIN High Frequency tools still stand out for their excellent power-to-weight ratio.

Why High Frequency power tools?

Many areas of industry demand consistent top performance from their power tools. High Frequency power tools have proven to be an outstanding solution. They offer a whole range of specific advantages when compared to power tools with AC/DC motors and compressed air tool motors:

- Virtually no loss of speed during heavy-duty work
- High efficient output
- Constant torque
- Simple, strong construction, low maintenance and repair costs
- Less wear and tear
- Minimum maintenance needed
- Low cost of maintaining the High Frequency system
- Low operating and energy costs*
- Enclosed motor and surface cooling

High Frequency versus Pneumatic Tools

- High Performance: Air tools lose up to 50% of RPM under load while HF tools only lose 5%!
- Low Energy Consumption–Air tools require 10 times the horsepower to generate the same power at the working spindle. An enormous financial savings
- Low maintenance: Three-phase motors do not have armatures or carbon brushes that need to be repeatedly replaced. The motors are also dust sealed
- Theft: There is no way to operate High Frequency power tools unless you have the proper converter

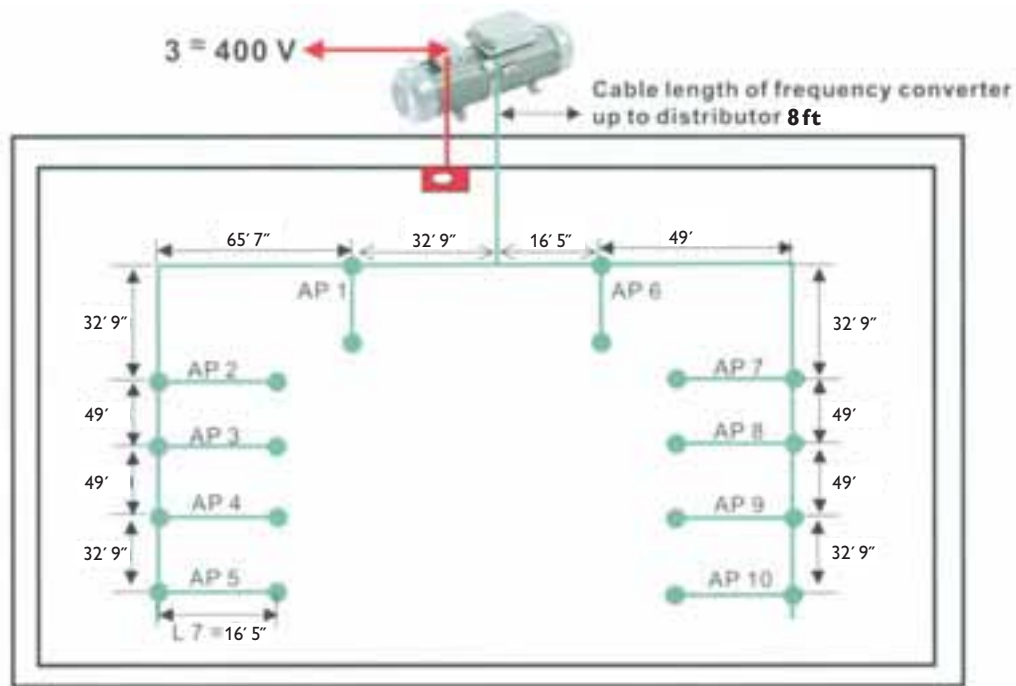

High Frequency versus Single Phase, AC/DC Electric Tools

- AC/DC tools drop up to 30% under load while HF tools only drop 5%!
- Low Energy Consumption–For all practical purposes, the operating and energy costs are the same for both single-phase and High Frequency tools.
- Low-Maintenance-Single-phase electric tools use a rotating armature and carbon brushed which are subject to wear and downtime. Metal deposits drawn over the motor are deposited on the armature, causing premature wear. High Frequency tools do not employ an armature and the motors are totally sealed and surface cooled
- This section is already explained under the air tool section

5" HF One-Hand Angle Grinder

AT A GLANCE

One of the most popular FEIN High Frequency angle grinders with high grinding output

- ▶ Constant speed
- ▶ Direct cooling
- ▶ Robust, long-life three-phase motor for tough, continuous operation
- ▶ Fiberglass reinforced polyamide motor housing
- ▶ Metal gear head
- ▶ Spiral bevel gears. Smooth running, long service life
- ▶ Side handle for left- or right-handed operation

Model MSf 842-2c
Part Number 7 820 51

Power	Watts	700/300 c/s
Available voltages	V	220 200
Cable without plug	ft	16.4'
Net weight	lbs	4.9
Shaft thread		5/8"-11
Input	Watts	700
Output	Watts	520
Speed, no load	rpm	7,100
Grinding wheel	in	5"
Sanding disc Ø	in	4 3/4"

Price includes

1 wheel guard, 1 pair of flanges, 1 side handle, 1 set of wrenches

7" HF Angle Grinder

AT A GLANCE

For light grinding and roughing operations

- ▶ Constant speed
- ▶ Surface-cooled, with dust-sealed motor
- ▶ Robust, long-life three-phase motor for tough, continuous operation
- ▶ Metal motor head and metal gear head
- ▶ Spiral bevel gears. Smooth running, long service life
- ▶ For 180 c/s and 360 c/s machines, check with a FEIN sales person for technical details

Model MSfo 849-1c
Part Number 7 820 80

Power	Watts	1,350/300 c/s
Available voltages	V	220 200
Cable without plug	ft	16.4'
Net weight	lbs	8.8
Shaft thread		5/8"-11
Input	Watts	1,350
Output	Watts	950
Speed, no load	rpm	6,150
Grinding wheel	in	7"
Sanding disc Ø	in	6 3/4"

Price includes

1 wheel guard, 1 pair of flanges, 1 set of wrenches, 1 side handle

7"/9" HF Angle Grinders

AT A GLANCE

Angle grinder for medium-tough grinding and cutting operations

- ▶ Constant speed
- ▶ Surface-cooled, fully encapsulated motor
- ▶ Robust, long-life three-phase motor for tough, continuous operation
- ▶ Air cooled gear housing
- ▶ Spiral bevel gears. Smooth running, long service life
- ▶ High cutting capacity, excellent efficiency
- ▶ For 180 c/s and 360 c/s machines, check with a FEIN sales person for technical details

Model MSfo 852-1c MSfo 852-1d
Part Number 7 820 71 7 820 73

Power	Watts	1,700/300 c/s
Available voltages	V	220 200
Cable without plug	ft	16.4 16.4
Net weight	lbs	11.2 11.0
Shaft thread		5/8"-11 5/8"-11
Input	Watts	1,700 1,700
Output	Watts	1,250 1,250
Speed, no load	rpm	6,400 8,500
Grinding wheel	in	9" 7"
Sanding disc Ø	in	6 3/4" 6 3/4"

Price includes

1 wheel guard, 1 pair of flanges, 1 set of wrenches, 1 side handle

5" HF Angle Grinder

AT A GLANCE

Long angle grinder for special grinding tasks where access is difficult

- ▶ Extra-flat gear head, 2 3/16" high including grinding wheel
- ▶ Constant speed
- ▶ Surface-cooled, fully encapsulated motor
- ▶ Robust, long-life three-phase motor for tough, continuous operation
- ▶ Metal motor housing and metal gear housing
- ▶ Spiral bevel gears. Smooth running, long service life
- ▶ For 180 c/s and 360 c/s machines, check with your FEIN agency for technical details

Model MSfov 852-1
Part Number 7 820 83

Power	Watts	1,700/300 c/s
Available voltages	V	220 200 72
Cable without plug	ft	16.4'
Net weight	lbs	11.2
Shaft thread		5/8"-11
Input	Watts	1,700
Output	Watts	1,250
Speed, no load	rpm	8,800
Grinding wheel	in	5"

Price includes

1 wheel guard, 1 pair of flanges, 1 set of wrenches

7"/9" HF Angle Grinders

AT A GLANCE

High Frequency angle grinder for all roughing, grinding and cutting work

- ▶ Constant speed
- ▶ Surface-cooled, with dust sealed motor
- ▶ Robust, long-life three-phase motor for tough, continuous operation
- ▶ Air cooled gear housing
- ▶ Spiral bevel gears. Smooth running, long service life
- ▶ High cutting capacity, excellent efficiency
- ▶ For 180 c/s and 360 c/s machines, check with your FEIN agency for technical details
- ▶ Excellent for cup wheel applications

Model MSfo 869-1c MSfo 869-1d
Part Number 7 820 62 7 820 65

Power	Watts	2,700/300 c/s

Price includes

1 wheel guard, 1 pair of flanges, 1 set of wrenches, 1 side handle

HF Die Grinder

AT A GLANCE

Extremely handy universal die grinder

- ▶ Constant speed
- ▶ Robust, long-life three-phase motor for tough, continuous operation
- ▶ Surface-cooled, dust-sealed die grinder
- ▶ Grinding shaft with multiple bearings
- ▶ Vibration-free operation
- ▶ For right- or left-handed operation
- ▶ High cutting capacity
- ▶ For 180 c/s and 360 c/s machines, check with your FEIN agency for technical details

Power	Watts	360/300 c/s
Available voltages	V	220 200 72
Cable without plug	ft	16.4'
Net weight	lbs	4.6
Tool holder	Collet	Ø 1/4"
Speed, no load	rpm	18,000
Input	Watts	360
Output	Watts	220
Grinding wheel for min.	SFPM	5,900
Max. Ø	in	1 3/16" x ...
Grinding wheel for min.	SFPM	8,850
Max. Ø	in	2" x ...
Grinding wheel max. Ø	in	2" x 3/8" (15,750 SFPM)

Price includes

1 set of wrenches, 1/4" collet 6 32 07 088 00 9

HF Die Grinder

AT A GLANCE

High-performance die grinder

- ▶ Constant speed
- ▶ Dust-protected die grinder with intensive cooling
- ▶ Robust, three-phase motor with high load capacity for continuous operation
- ▶ Grinding shaft with multiple bearings
- ▶ Vibration-free operation
- ▶ For right- or left-handed operation
- ▶ High cutting capacity
- ▶ For 180 c/s and 360 c/s machines, check with your FEIN agency for technical details

Model

MSh 843-1

Part Number

7 823 19

Power	Watts	900/300 c/s
Available voltages	V	220 200 72
Cable without plug	ft	16.4'
Net weight	lbs	6.2
Tool holder	Collet	Ø 1/4"
Speed, no load	rpm	18,000
Input	Watts	900
Output	Watts	600
Grinding wheel for min.	SFPM	8,850
Max. Ø	in	1 1/16" x ...

Price includes

1 set of wrenches, 1/4" collet 6 32 07 088 00 9

HF Straight Grinder

AT A GLANCE

Straight grinder with high reserve power

- ▶ Constant speed
- ▶ Dust-protected straight grinder with intensive cooling
- ▶ Robust, three-phase motor with high load capacity for continuous operation
- ▶ Grinding shaft with multiple bearings
- ▶ Vibration-free operation
- ▶ For right- or left-handed operation
- ▶ High cutting capacity

Model

MSho 849-1Z

Part Number

7 823 20

Power	Watts	1,350/300 c/s
Available voltages	V	220 200 72
Cable without plug	ft	16.4'
Net weight	lbs	9.0
Tool holder	Collet	Ø 1/4"
Speed, no load	rpm	18,000
Input	Watts	1,350
Output	Watts	950
Grinding wheel for min.	SFPM	5,900
Max. Ø	in	1 1/4" x ...
Grinding wheel for min.	SFPM	8,850
Max. Ø	in	1 1/4" x ...
Grinding wheel max. Ø	in	2" x 3/8"

Price includes

1 set of wrenches, 1/4" collet 6 32 07 088 00 9

HF Straight Grinder

AT A GLANCE

Straight grinder with high reserve power

- ▶ Constant speed
- ▶ Robust, long-life three-phase motor for tough, continuous operation
- ▶ Surface-cooled, dust-sealed straight grinder
- ▶ High cutting capacity
- ▶ Smooth running
- ▶ Outstanding power-weight ratio
- ▶ Excellent for cone wheel applications
- ▶ For 180 c/s and 360 c/s machines, check with your FEIN agency for technical details

Model	MSHo 852-1	
Part Number	7 824 42	
Power	Watts	1,700/300 c/s
Available voltages	V	220 200 72
Cable without plug	ft	16.4'
Net weight	lbs	11.4
Tool holder	Flanges	
Speed, no load	rpm	18,000
Input	Watts	1,700
Output	Watts	1,250
Grinding wheel for min.	SFPM	15,750
Max. Ø	in	3 3/8" x 1 1/4" 1 1/8"

Price includes

1 set of wrenches, 1 pair of flanges; 1 wheel guard

HF Straight Grinder

AT A GLANCE

Straight grinder with high reserve power

- ▶ Constant speed
- ▶ Robust, long-life three-phase motor for tough, continuous operation
- ▶ Surface-cooled, dust-sealed straight grinder
- ▶ High cutting capacity
- ▶ Smooth running
- ▶ Outstanding power-weight ratio
- ▶ Excellent for cone wheel applications
- ▶ For 180 c/s and 360 c/s machines, check with your FEIN agency for technical details

Model	MSHy 852-3a	
Part Number	7 824 39	
Power	Watts	1,700/300 c/s
Available voltages	V	220 200 72
Cable without plug	ft	16.4'
Net weight	lbs	11.0
Tool holder	Flanges	
Speed, no load	rpm	10,200
Input	Watts	1,700
Output	Watts	1,250
Grinding wheel for min.	SFPM	8,850
Grinding wheel for min.	SFPM	15,750
Max. Ø	in	5" x 1 1/4" 1 1/4"
Grinding wheel max. Ø	in	2" x 3/8"

Price includes

1 set of wrenches, 1 pair of flanges, 1 wheel guard

HF Straight Grinders

AT A GLANCE

Straight grinder with high reserve power

- ▶ Constant speed
- ▶ Robust, long-life three-phase motor for tough, continuous operation
- ▶ Surface-cooled, dust-sealed die grinder
- ▶ High cutting capacity
- ▶ Smooth running
- ▶ Outstanding power-weight ratio
- ▶ Excellent for cone wheel applications
- ▶ For 180 c/s and 360 c/s machines, check with your FEIN agency for technical details

Model	MSHy 869-1 a/d

Plug Connections

FEIN precision extends down to the smallest detail. FEIN plug connections are to standardized CEE system collar design for high-frequency power tools. They are not interchangeable with normal plug systems.

Type CEE	pin plug	Receptacle	Receptacle fixed to machine	Wall receptable
CEE, over 50 V 32 A	3 07 28 124 00 5	3 07 28 131 00 9	3 07 28 142 00 1	3 07 28 138 00 3
100–300 Hz, 10 h, 3 P+E	0.55 lbs	0.61 lbs	0.44 lbs	0.75 lbs

Motor protection plugs

FEIN motor protection plugs manufactured to CEE standards protect frequency power tools effectively against overload.

A bi-metallic cutout which is individually set to the rated current of the connected HF power tool prevents late or premature cutout where there is a temporary overload. The motor protection plug is connected to the HF power tool cable instead of the

normal pin-type plug. The HF motor protection plug consists of a plug according to CEE 32 A or CEE 16 A, 3 P + E 10 h over 50 V, 100–300 Hz, thermal cutouts with temperature compensation and rotary on/off switch.

■ Pipe Milling.

Powerful professionals.

FEIN pipe milling machines are world renowned in the field of pipe cutting technology.

Their applications range from trimming pipes before laying to cutting pipes already lowered into the ground. FEIN pipe milling cutters can be used on cast or steel pipes carrying oil, gas, and water; which are found in pipelines in municipal supply networks, power plants, and industrial systems. Reliable and precise work can also be obtained on container construction. Optimized technology ensures improved cutting performance.

Approved technology for perfect results.

Especially under difficult conditions such as pipe ruptures, the system

proves its utility. By selecting the right gear ratios, the ideal cutting and advance speeds can be adapted to various pipe materials.

This makes cost-efficient use of HSS and carbide tools possible.

Optimal protection for water, gas and oil.

Depending on the area of usage and the power supply available, a selection can be made among specifically designed electrical and compressed air models of the FEIN pipe milling machines.

The extra advantage: The explosion-proof electric motors meet the same safety requirements as the compressed air motors. They are therefore ideally suited for working on gas and oil pipelines.

Precise tracking, clean cuts.

The two-chain system with separate spring tension cartridges and the adjustable track settings make it possible to cut around diameters of 9' 13/16" to 9' 10 1/8" precisely and without torsion. The chain clamping provides a marking-free cutting operation.

This makes the FEIN pipe milling machines also suitable for working on high-pressure pipes. The chip removing process provides neat pipe ends. By employing the appropriate implements you can make everything from clean separation cuts to profile cuts for V- or U-welding grooves. All that with simple assembly and easy handling.

Always the proper setting.

The Clamping.

Space around the pipe = working space with cutting tool completely immersed

Item number 3 02 31 013 02 7 consists of 10 chain links with a length of 2 1/2" each.

In order to obtain optimal chain pre-tensioning, possibly use half-links (1 1/4" long) included in the tool case

Example for an order: Pipe diameter 15 3/4": order 6 times 3 02 31 013 02 7.

Electric Pipe Milling Machines (A)

AT A GLANCE

RSG Ex 18: Explosion and humidity-proof three-phase AC motor (classification EExelIT3), with explosion-proof auxiliary switch (classification EExdeIICT6), especially suited for cutting oil and gas lines

- ▶ Powerful, compressed air and three-phase AC motors for use even under extreme conditions
- ▶ Electric motors providing power even at sub-zero temperatures
- ▶ Electric pipe milling machines with advance and return motion (return motion only in non-load condition)
- ▶ Suitable for pipe diameters from 9 13/16" to 9'10 1/8" diameter
- ▶ Profile or straight cuts with profile cutter or saw blade
- ▶ Precise tracking and clean cuts thanks to two-chain system, adjustable track setting, and double chain tightening
- ▶ Crack-free pipe ends
- ▶ Simple assembly due to optimized handling
- ▶ Available in two gear types, with different advance and rational speed sequences appropriate for the material
- ▶ Advance and milling drive connected by gears
- ▶ Overload protection of the gear by slipping clutch
- ▶ Special models with divided drive shaft for cutting thick-walled pipes and containers available on request
- ▶ Wide selection of FEIN accessories

Required accessories:

Plate

For mounting the hand-double-valve to the pipe milling machines.

Part Number 3 24 33 027 01 7

Coupling sleeve

To connect the compressed-air cooling lubrication device to the maintenance unit.

Part Number 4 11 36 005 01 9

Splitting wedges

Made of steel

Part Number 6 33 05 006 00 8

Single chain links (half lengths)

1 1/4" for precise dimensioning of the total chain length.

This makes an optimal chain pre-tension possible.

Part Number 3 02 31 029 00 2

Replacement bolts

Part Number 3 02 17 216 00 4

Compressor

The compressor is needed for operating the cooling lubrication device with the RSG/RSG Ex three-phase AC models. Safety class I; enclosure IP 42; incl. suction hose with filter.

Technical data:

Voltage/type of current	V	230/~
Power input	W	520
Suction capacity	cfm	4.7
Pressure max.	psi	55.1

Splitting wedges

Made of steel

Part Number 6 33 05 006 00 8

Non-sparking

Part Number 6 33 05 013 00 2

Transport container

W x H x L	Part Number
31" x 16" x 40"	3 39 01 114 00 7

Feather key

W x H x L	Part Number
1/4" x 1/4" x 1 1/4"	4 02 21 044 00 0
3/16" x 1/4" x 1 1/4"	4 02 21 050 00 5

Splitting wedges

Consisting of 10 chain links at 2 1/2" each = 25" long.

Determine the number of chain links needed according to the table.

Part Number 3 02 31 013 02 7

Replacement retaining rings

Part Number 4 26 34 020 00 5

Cooling lubrication system

Technical data:

Tank capacity	fl.oz. ³	83.3
Cooling lubrication fluid max.	fl.oz. ³	60
Tank inner pressure max.	psi	101.5
Pressure of the feed compressor max.	psi	145
Opening pressure safety valve	psi	101.5
Recommended operating pressure	psi	7.3–101.5
Air consumption up to	gal/min	5.3–13.2
Spray consumption up to	gal	0.08
Net weight	lbs	18.7

Part Number 9 12 01 002 00 4

Profile cutter

V-shape, form, HSS, for gear type:

a–for the cutting steel pipes, high alloy
b–for cutting unalloyed steel and cast-iron pipes up to 3/8" wall thickness and maximum Ø 63"

Ø	Width	Weight	Teeth	Cutting depth max.	Part Number
in	in	lbs	pc.	in	
6 5/16"	1 3/16"	6.3	36	1"	6 35 08 081 00 9
7"	1 5/8"	10.6	36	1 3/8"	6 35 08 085 00 8

U-shape, HSS, for gear type:

a–for the cutting steel pipes, high alloy
b–for cutting unalloyed steel and cast-iron pipes up to 3/8" wall thickness and maximum Ø 63"

Ø	Width	Weight	Teeth	Cutting depth max.	Part Number
in	in	lbs	pc.	in	
6 5/16"	1"	6.2	40	1"	6 35 08 089 00 7

Specially shaped cutters for other materials and other cutting geometries available on request.

Circular saw blades

Form 1, HSS, for gear type:

a, b–for cutting steel pipes

Ø	Width	Weight	Teeth	Cutting depth max.	Part Number
in	in	lbs	St.	in	
6 5/16"	3/16"	1.1	50	1"	6 35 02 022 00 6
7"	3/16"	1.5	60	1 3/8"	6 35 02 037 00 8
8"	3/16"	2.0	64	1 3/4"	6 35 02 053 00 7
8 1/16"	3/16"	2.8	70	2 3/16"	6 35 02 041 00 1

Form 2, HSS, for gear type:

b–for cutting cast iron pipes

Ø	Width	Weight	Teeth	Cutting depth max.	Part Number
in	in	lbs	pc.	in	
6 5/16"	3/16"	1.1	40	1"	6 35 02 050 00 1
7"	3/16"	1.5	46	1 3/8"	6 35 02 098 00 0
8"	3/16"	2.0	50	1 3/4"	6 35 02 099 00 4

Form 3, HSS, with carbide tipped teeth, for gear type:

b–for working on cast-iron pipes (also with cement lining) and for unalloyed steel pipes up to 56,000 lb/in².

Ø	Width	Weight	Teeth	Cutting depth max.	Part Number
in	in	lbs	pc.	in	
6 5/16"	3/16"	1.1	40	1"	6 35 02 080 00 8
7"	3/16"	1.5	44	1 3/8"	6 35 02 061 00 9
8"	3/16"	2.0	50	1 3/4"	6 35 02 084 00 2

Miscellaneous

FEIN Balancer increases operation comfort and safety when working with electric tools and heavy equipment.

The balancer makes the tool weightless for the operator. The loads range from 1.1 to 132 lbs.

■ **Balancer**

P. 143-144

■ **Tool Cases**

P. 145

Balancer up to 5.5 lbs load

Technical data

Adjustable load lbs	Pre-set by manuf. lbs	Rope extension max. ft	Weight lbs	Part Number
1.1–3.3	2.2	3'	0.7	9 08 01 012 00 8
3.3–5.5	2.2	3'	0.7	9 08 01 023 00 1

AT A GLANCE

Safe suspension of device and power line in “weightless” state

- ▶ Small size
- ▶ Constant traction
- ▶ Easily adjustable

Balancer up to 37.4 lbs load

Technical data

Adjustable load lbs	Pre-set by manuf. lbs	Rope extension max. ft	Weight lbs	Part Number
2.2–6.6	4.4	6.5'	7.0	9 08 01 024 00 9
5.5–11	7.7	6.5'	7.0	9 08 01 025 00 3
7.7–14.3	11	6.5'	7.0	9 08 01 026 00 6
9.9–19.8	15.4	6.5'	7.0	9 08 01 027 00 0
16.5–25.4	19.8	6.5'	7.0	9 08 01 028 00 8
22–30.9	26.4	6.5'	7.0	9 08 01 029 00 2
29.7–37.4	33	6.5'	7.1	9 08 01 030 00 4

AT A GLANCE

Safe suspension of device and power line in “weightless” state

- ▶ Constant traction

Balancer up to 132 lbs load

Technical data

Adjustable load lbs	Pre-set by manuf. lbs	Rope extension max. ft	Weight lbs	Part Number
28.6–55.2	33	6.2'	15.4	9 08 01 048 00 6
48.5–70.5	55	6.2'	15.43	9 08 01 049 00 0
66–99.2	88	6.2'	39.6	9 08 01 050 00 2
99–132.3	110	6.2'	40.5	9 08 01 051 00 1

AT A GLANCE

Safe suspension of device and power line in “weightless” state

- Constant traction

Balancer up to 132 lbs

Locking device

For locking the extended rope. Eases the changing of the tool.

Part Number 3 02 40 239 01 4

Swivel hook

To hook into the top of the balancer and locks the swivel.

Part Number 3 02 32 044 01 0

FEIN Abbreviations

The following list provides the conversion relationship between U.S. customary units and SI (International System) units. The proper conversion

procedure is to multiply the specified value on the left (primarily U.S. customary values) by the conversion factor exactly as given below and then

round to the appropriate number of significant digits desired.

Symbol	When You Know	Multiply by	To Find	Symbol
LENGTH				
in	inches	2.54	centimeters	cm
in	inches	25.4	millimeter	mm
