Parking at San Francisco General Hospital

Options for parking cars at Zuckerberg San Francisco General are limited. It is always best to consider taking public transportation as the availability of parking spaces is restricted.

Here is what's available:

SFGH 23rd Street Garage **(B)**

- Located directly across from the hospital. Entrance into the garage is located on 24th Street between Utah and San Bruno Avenue. There is a one to two year waiting period for ZSFG and UCSF employees to purchase monthly parking permits. Hourly parking is available upon availability. For more information, visit their website at <https://www.lazparking.com/find-parking/about-laz-online>.

- **Hospital Visitors parking lot**

Located on the hospital campus near the Emergency Clinic. Hourly fee is charged daily.

- **All Day Street Parking**

Located in the vicinity of hospital and at the rear of the hospital – west of HWY 101. There are pedestrian bridge crossings that lead to the rear of the hospital. The bridges cross HWY 101(north and south bound) and connects to the hospital campus. Nearby street parking is limited from 1 to 24 hours per day. Watch for weekly street cleaning schedules on each block as citations are issued for illegal parking on street cleaning zones.

- **ZSFG Parking permits**

ZSFG required parking permits around the immediate borders of the campus. Citations for illegal parking (permit and hourly parking areas) are strictly enforced. Visit Laz Paring website for information on obtaining a parking permit.
