Testimonials

If you are just as clueless with where/how to start planning a wedding as I was, look no further!!! Louis is an angel sent from the wedding event planners above. We started so lost navigating where to even begin with planning our wedding before we met with Louis. He put us at ease instantly by starting with the necessities to focus on first and then shifting to the fun less stressful details afterwards. After our very first session of meeting with Louis we instantly felt relieved, confident and excited to start planning!! Even if you have an idea of what you want, Louis' expertise and incredibly insightful helped us narrow and pin down your plans. We are forever grateful for Louis' help and guidance, and know anyone who uses him in the future will be just as happy!
Jessica Drummond (Bride)

Louis is amazing! reached out for my wedding that I thought I could coordinate on my own. I was so confused and just needing someone to point me in the right direction. Louis jumped right in and helped me have the day I always dream of without the headache! I honestly don't think it would have been such a success without his help! Louis provides not just help with planning but also gives anyone who uses him the comfort knowing he has your best interest at heart!
Meghan Henning-LeBlanc (Bride)

Louis is so helpful! He was able to help us think through what to expect and plan for in a budget for our daughter's wedding. He answered lots of questions about tents, lighting, caterers, and venues. Having worked with Louis planning nonprofit events, I can verify that he is thoughtful, reliable, thorough, and so very capable with all aspects of event planning and execution. I would recommend him for consultation on any event planning.
Mary Rockwell Thon – (Mother of the Bride)

Thank you and best wishes
