

# APEX INDUSTRIAL

## **What sets Apex Industrial apart from the masses?**

Our approach is to offer a wide selection of quality products while providing personal, hands-on service to our valued clients. From Bearings, Power Transmission, Electrical Automation, Hydraulics and Pneumatics, Material Handling, Industrial, Janitorial, Personal Protective Equipment and more, we consolidate all your business's needs into one reliable, customer service focused vendor.

By offering this wide array of quality products from established names to the newest up and coming lines, we are able to quickly find you a trusted product, at a fair price.

At Apex Industrial, we pride ourselves on exceeding our clients' expectations when it comes to hard-to-find items or seemingly impossible turnaround times.

## **Apex Industrial is available to our customers 24/7/365.**

Our delivery vehicles are on the road day and night, we offer around the clock customer service and if we sell it, we are qualified to install and maintain it.

To further increase efficiency and save you time and money, we can assist your business operations through vendor-maintained inventory, barcoding, custom inventory management kits, and so much more.

Our team does not merely consist of "order takers" but a diverse group of individuals, driven by relationships. Our knowledgeable and experienced staff invests time to learn about your needs, quickly matching you with the best products to keep your facility moving in the right direction.

Regardless of whether you have worked with other industrial product suppliers, or if you are starting from the ground up and newly in need of our products and services, we want to see how we can be of service to you.

# SERVICES

- **24/7 Support**
- **World Class Deliveries**
- **Automation Design and Implementation**
- **Custom Design and Installation**
- **Liquid Handling Design and Installation**
- **Hydraulic and Pneumatic Design and Installation**
- **Vendor Maintained Inventory**
- **Vending Solutions**
- **On-site Integration**
- **Machine Shop Services**
- **Industrial Repair**
- **Plant Integration**
- **SKU Reduction**
- **Storeroom Surveys**
- **Onsite Training**
- **Committed Inventory**
- **Vendor Consolidation**
- **Cost Savings Blitz**
- **Laser Alignment**
- **Vibration Analysis**

# THE APEX DIFFERENCE

## Value

*"Nowadays, people know the price of everything and the value of nothing" – Oscar Wilde*

We understand value - seeking it in every facet of our company. Our staff, our customers our vendors, our products, our word.

We value our customers and the act of helping them sustain and grow their business.

We want to give our customers value by providing them with trusted vendors and products at a fair price.

We value our word; following through with the promises we make to people and doing what we say we will do.

## Relationships

*"Personal relationships are the fertile soil from which all advancement, all success, all achievement in real life grows" – Ben Stein*

We focus on our relationships—internally with colleagues, filling positions with motivated, autonomous people who we invest in and will grow with us.

Building lasting relationships—proving to our clients how important they are to us by providing quality customer service and short turnaround times.

Nurturing relationships in our private lives—as a positive work/life balance is paramount in an employee's success.

## Excellence

*"Be Excellent To Each Other"  
-Bill S. Preston, Esq*

Focusing on unparalleled customer service, stepping up to help colleagues, instilling focus, discipline and accountability.

Being results driven. Going the extra mile to better serve our customers and building a lasting rapport with them.

By holding ourselves to high standards, we develop the trust and appreciation of our colleagues and customers.

## Time

*"Take care of the minutes, and the hours will take care of themselves" – Lord Chesterfield*

Putting in the time. Everything cannot be encompassed in an 8 to 5 day, and we are committed to putting in the time to see a project through.

Providing quick turnaround time and an urgency for our clients. We won't sit on a task, we assess the situation and swiftly complete it. Response time is our top priority.

We respect our client's time and needs.

## Growth

*"The growth and development of people is the highest calling of leadership"—Harvey S. Firestone*

We want our staff to grow professionally. Providing an encouraging environment that allows them to develop solutions, not blame, thus seizing the opportunity to gain knowledge.

We look towards the future as technology grows at lightning speed and will evolve with it. Recognizing that the only way we can drive our customers growth and efficiency is with our own.

## Respect

*"R-E-S-P-E-C-T, find out what it means to me!"  
-Miss Aretha Franklin*

Respecting one another in the workplace, as a professional colleague but also giving people the space and respect to be themselves.

Respecting ideas, changes and failures.

Respecting our clientele and believing in their needs.

Respecting and believing in ourselves and the process.

## Our Vision

***"One call... Consider it done." – Jon Link***
