

CEU  
*Universities*

The largest private educational institution in Spain

WHO DO YOU

WANT TO BE?

2020 - 2021 | MADRID | BARCELONA | VALENCIA

## CEU UNIVERSITIES

The **Fundación Unversitaria San Pablo CEU**, founded in 1933 by the **ACdP (Catholic Association of Propagandists)** was established with the intention of making a positive impact on society through its educational centers. These centers provide training in the framework of a comprehensive educational experience while striving to impact society in favor of justice and the defense of all human beings. The institution's objectives are rooted in its quest for achieving academic and professional excellence, innovation in its educational projects and teaching its students values and human virtues.

The institution comprises **25 educational centers** ranging from primary education to postgraduate degrees and vocational training. We currently have centers in Madrid, Barcelona, Valencia, Murcia, Castellón, Alicante, Vigo, Jerez, Elche, Sevilla, Vitoria and Valladolid.

Teaching excellence at CEU stands out in over 200 degrees that are offered at our 3 universities in Madrid, Barcelona and Valencia:

**CEU San Pablo University** in Madrid is a long-standing institution of great prestige that has educated influential members of society such as CEOs of multinational corporations, doctors, architects, diplomats and journalists.

The **Abat Oliba CEU University** in Barcelona is a university that was designed to promote personalized teacher-student relationships. Classes are organized in groups of a small number of students who receive comprehensive attention through individualized programs that are specifically developed for them.

Our university in Valencia, **CEU Cardenal Herrera**, is one of the most international universities in Europe, where students from more than 75 countries fill the classrooms. This university provides the space to learn and share experiences with students from all five continents.

CEU SAN PABLO - MADRID

CEU CARDENAL HERRERA - VALENCIA

ABAT OLIBA CEU - BARCELONA

1 International Doctoral Studies School  
2 Senior Universities

210,000

### ALUMNI

Become a part of Spain's best and brightest talent pool.

+300

### AGREEMENTS

with top universities on 5 continents to so that stundejnts can complete their studies in more than 50 countries.

## WHY CEU

- **The largest private educational institution in Spain**  
The only group that has 3 Universities in Madrid, Valencia and Barcelona.
- **Tradition**  
More than 85 years of experience dedicated to training students from 2 to 90 years old.
- **International Vocation**  
Our students come from over 70 different countries and we have a wide offer of bilingual and English degrees.
- **Employability**  
In some of our faculties, an average of 95% of the students find their first job right after completing their studies.
- **Research**  
We are the only institution that involves students in advanced research projects throughout their studies, offering them first-hand experience with the value of scientific progress.

## PROGRAMAS BILINGÜES INTERNACIONALES

Los programas bilingües internacionales CEU brindan al alumno la posibilidad de estudiar durante un semestre en algunas de las mejores universidades del mundo. Se tratan de acuerdos únicos en Europa en los que el alumno obtiene, además del título oficial, un certificado expedido por una prestigiosa universidad de Estados Unidos.

### CEU - Boston University Program *International Business Certificate*

**Boston University**, founded in 1839, is the 4th largest private university in the United States of America. Boston University has 8 Nobel Laureates and 23 Pulitzer Prize winners. It is ranked among the world's top universities in terms of employability.

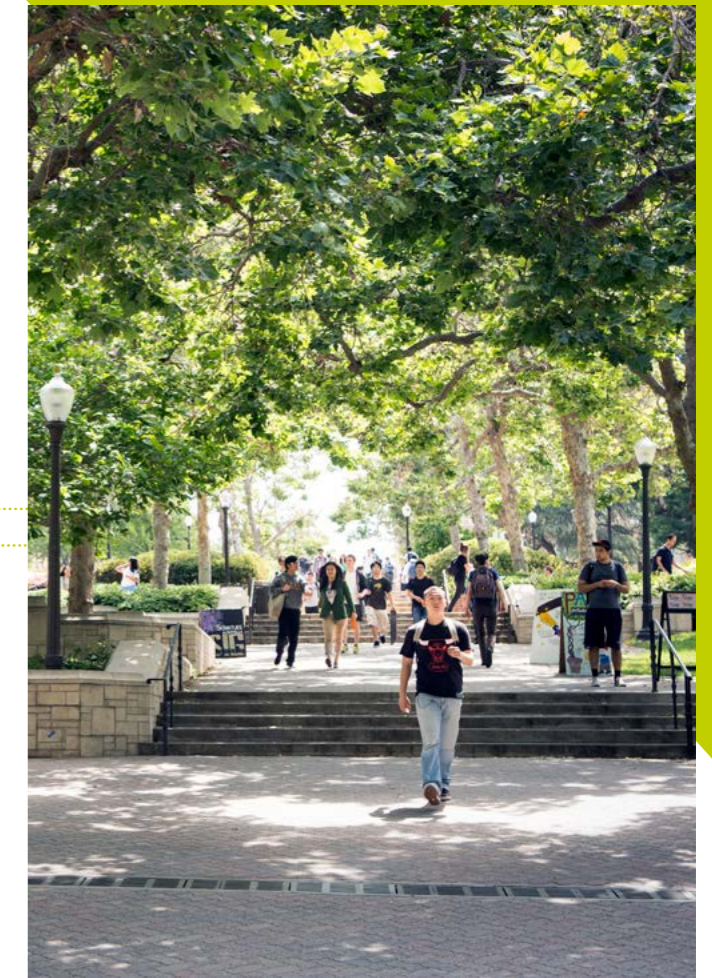

Students who are studying the following international degrees and double degrees are eligible for this program:

- Business Management
- Business Intelligence
- Advertising and Public Relations
- Economics

### CEU - Boston University Program *Business of Biotechnology & Biomedical Engineering*

Students who are studying the following international degrees and double degrees are eligible for this program:

- Biotechnology
- Biomedical Engineering

### CEU - UCLA Program *Digital Media & Strategic Communications*

Founded in 1919, the **University of California**, characterized by its focus on optimism, is a top performer in the worlds of science, sports and economics. The institution's optimism is a part of every aspect of its education, research and public service and is what makes it possible to move forward and redefine the limits of what is possible. With nearly 45,500 students, **UCLA** has 14 Nobel laureates and 13 MacArthur Foundation fellows.

Students who are studying the following international degrees and double degrees are eligible for this program:

- Journalism
- Audiovisual Communication
- Advertising and Public Relations
- Digital Communication

## PROGRAMAS BILINGÜES INTERNACIONALES

### CEU - The University of Chicago Program *Clinical Trials Management*

The **University of Chicago** is the 10th best university in the world according to the latest world ranking of universities and, in its more than 120 years of history, has counted among its members with 89 Nobel Prizes and has not ceased in its effort to promote the generation of New ideas and reflections.

Through this program, the student will receive a solid training in clinical trial management, an area with high job placement in the pharmaceutical sector, which will also accompany an observational study in Chicago hospitals. Students who are studying the following international degrees and double degrees are eligible for this program:

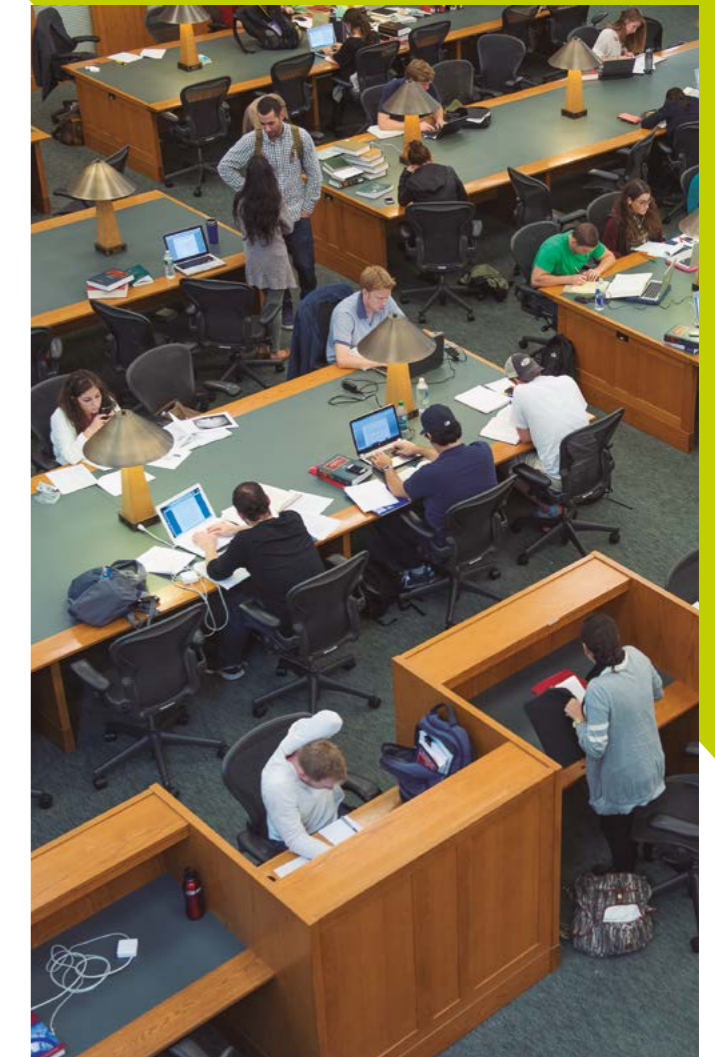

- Pharmacy

### CEU - Fordham University Program *Certificate of Compliance LLM + NY Bar Exam (optional)*

**Fordham University** is a Jesuit, Catholic university founded in 1841 in New York. Through an agreement between CEU and Fordham's prestigious School of Law, a program has been created for undergraduate students completing a bilingual Law and European Law interested in moving on to study an LLM, building their career in International Law or sitting for the New York BAR exam. Students who are studying the following international degrees and double degrees are eligible for this program:

- Law

## OUR UNIVERSITIES

### Universidad CEU San Pablo

#### Madrid

CEU San Pablo is located in Madrid, the capital of Spain. With a population of over 3 million, Madrid is a bustling cosmopolitan and multi-ethnic city famous for its vibrant nightlife, gastronomy and cultural and artistic events.

The city is also the seat of government as well as the main business hub in Spain.

Madrid hosts the largest international student population in Spain and one of the largest in Europe, offering a unique opportunity to experience an international environment.

### Why CEU San Pablo?

-  **NAAB recognition**  
The Institute of Technology (EPS) has received Substantial Equivalency from the National Architectural Accrediting Board (NAAB) for its Architecture, which qualify our students to register as architects in most of the states of the USA upon completion of their degree.
-  **FabLab Madrid CEU (Center for Bits and Atoms of MIT)**  
The EPS has a digital fabrication laboratory, the FabLab Madrid CEU, which belongs to the global network of the Center for Bits and Atoms Laboratory at MIT (Massachusetts Institute of Technology). The center carries out architectural and engineering projects in collaboration with other universities around the world.
-  **First Journalism school in Spain**  
The Faculty of Humanities and Communication Sciences was the **first to offer a Journalism in Spain** and is the only one that offers the chance to complete an entire undergraduate **English**.
-  **One of the best private universities in Spain**  
CEU San Pablo has been recognized as the best private university in Madrid and second best in Spain according to SClmago Institutions Rankings (SIR) 2020.

## Universidad CEU Cardenal Herrera Valencia

CEU Cardenal Herrera has campuses in Valencia, Elche and Castellón, all located in the Community of Valencia. Well-known for its beaches, rich culture, parks and nature reserves, Valencia is also recognized as a leading center for innovation and design.

It is a comfortable place to live that offers extensive options for transportation to other major cities in Spain and all over the rest of Europe.

### Reasons why

- ✓ **First private university in the autonomous region of Valencia** with over 50 years of experience.
- ✓ **The most international university in the region.** More than a quarter of our students are international students and the university prides itself on its clear orientation towards preparing our students for a global world. There are currently students from more than 70 countries on campus.
- ✓ **The first university in Valencia to offer Pharmacy, Journalism and Veterinary Medicine.**

## Universidad Abat Oliba CEU

### Barcelona

Abat Oliba CEU is located in Barcelona on the Mediterranean coast. A modern, avant-garde and dynamic city, Barcelona is a warm and welcoming metropolis with great weather all year long. The city is filled with work from world renowned artists and architects such as Picasso, Dali, Miro and Gaudi, making it one of the most unique cities in Europe.

Barcelona is a world leader for many European cities, a leading city in innovation, competitiveness and technology.

### Reasons why

- 
**First private university to offer Law in Barcelona.**  
 The oldest private university to offer Law related degrees in Barcelona. Since 1973 the university has been recognized for educating high-performing lawyers as well as its bilingual program in International and European Law.
- 
**High employment rate.**  
 Employability is also a distinctive attribute of the Faculty of Economics with a job placement rate of over 90% within the first three years after graduation (according to the Catalanian Agency for University Quality 2017 labour market survey, 2 points higher than the average in all Catalanian universities).
- 
**High student satisfaction rate.**  
 The global satisfaction rate of our graduated students is one of the highest of the Catalanian universities (in the top 3 according to the Catalanian Agency for University Quality 2017 student satisfaction survey).

## ADMISSIONS PROCESS

- 1
- 2
- 3
- 4
- 5

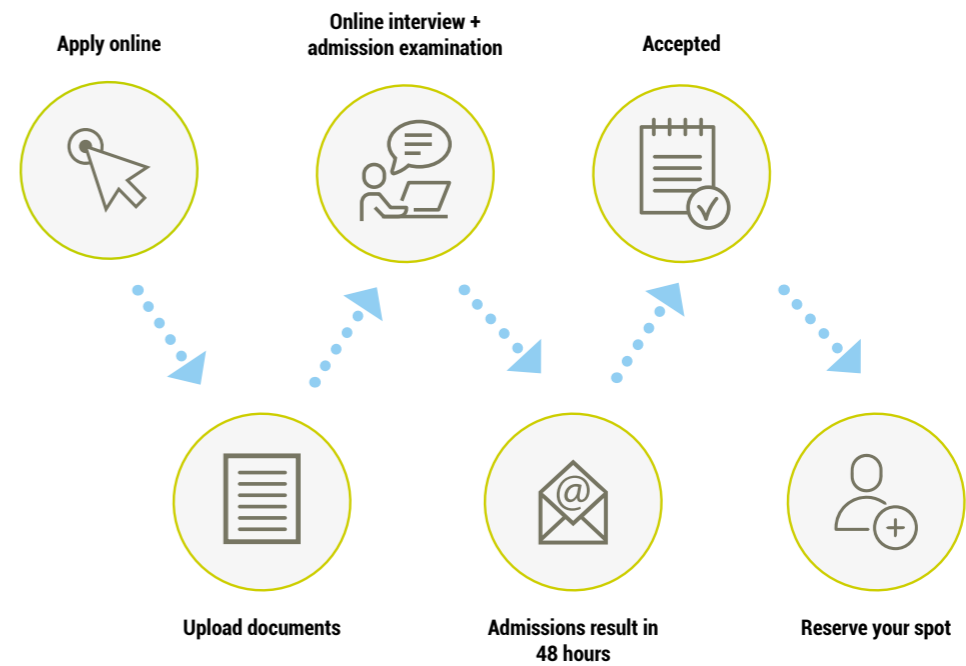

**APPLICATION:** To apply, students will need to fill out an online form and provide the necessary documentation (contact information, academic records and any other documentation).

**ADMISSIONS TESTS:** Students will receive instructions via email on how to complete tests for general and language skills. Students who can certify that they hold a B2 or higher will be exempt from the language exam.

**PERSONAL INTERVIEW:** This interview can be done online or in person. It is important that the documentation is uploaded to the system before the day of the interview.

**PRE-ADMISSION:** If the candidate is selected, they will receive notification of pre-admission via email which will explain how to formalize pre-registration.

**ADMISSION AND REGISTRATION:** Final admission will be granted once the student justifies in written records that they meet all requirements in order to access the Spanish University (through recognition and evaluation of foreign studies, credentials, university entrance examinations, etc.). Once admitted, the candidate will receive notification via email with instructions on how to formalize registration.

## CEU International School of Doctoral Studies (CEINDO)

CEINDO offers our students a variety of programs, projects at both national and international levels, the support of experienced researchers and mentors and the possibility to collaborate with prestigious universities worldwide.

### DOCTORAL PROGRAMS

#### Health Science and Technology

This doctoral program is offered at Universidad CEU San Pablo and CEU Cardenal Herrera and provides students with the opportunity to produce outstanding, cutting-edge research on drugs and diseases.

##### Areas of Research

- » AREA 1. Electronic and Electrochemical Technologies in Health and Environment
- » AREA 2. Molecular and Metabolic Bases of a Disease
- » AREA 3. Biotechnology of Plants and Microorganisms
- » AREA 4. Food Safety, Nutrition and Technology
- » AREA 5. Discovery, Development and Evaluation of Drugs and Medicines
- » AREA 6. Pathology and Human and Animal Health
- » AREA 7. Structural and Functional Bases of Biological Systems

### Composition, History and Technique in Architecture and Urbanism

Students who undertake this doctoral program at the CEU Universities San Pablo and Cardenal Herrera specialize in a range of areas, from the most conceptual to the most concrete, in the fields of Architecture and Urbanism.

#### Areas of Research

- » AREA 1. Theory, Space and Design
- » AREA 2. Construction, Innovation and Technology

### Social Communication

This program is offered at our three CEU Universities and it is designed for students who are interested in developing R&D projects within the guidelines of the UE.

#### Areas of Research

- » AREA 1. Digital Society, Communications and Vulnerable Public
- » AREA 2. Communications, Public Sphere and Citizenship
- » AREA 3. Specialised Communications, Innovation and Technology

### Law and Economics

This program is offered at our three CEU Universities and allows students to explore a wide range of disciplines and areas within the fields of Law and Economics.

#### Areas of Research

- » AREA 1. Economy and Finance
- » AREA 2. Law, Economy and the Environment
- » AREA 3. Law and Economy of the Information Society
- » AREA 4. Restructuring Companies and Competing Markets
- » AREA 5. European Studies and International Relations
- » AREA 6. Globalisation and Law: Philosophical, Historical and Dogmatic Foundations and Perspectives on the Future

### Humanities in the Contemporary World

The main objective of this program is to provide students with the resources to explore and develop recent research lines in the Humanities and their application in today's society.

#### Areas of Research

- » AREA 1. History and Society
- » AREA 2. Philosophy and Thought
- » AREA 3. Literature and Artistic Creation

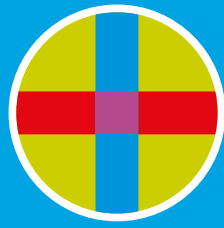

### Translational Medicine

Researchers who undertake this doctoral program in any of our three CEU Universities seek to improve the quality of care for those suffering from chronic, degenerative and neoplastic inflammatory diseases by working directly with patients and in the laboratory.

#### Areas of Research

- » AREA 1. Clinical and Translational Oncology and Hematology
- » AREA 2. Molecular Pathophysiology and New Technologies in Surgery and Cell Therapy
- » AREA 3. Pathophysiology, Diagnosis and Molecular Therapeutics of Cancer Metastasis
- » AREA 4. Pathophysiology and Treatment of the Neuroendocrine System and Oxidative Stress
- » AREA 5. Diagnosis-Treatment Innovation in Internal Medicine and Pediatrics
- » AREA 6. Pathophysiology of Obesity, Psychosocial Disorders and Cardiovascular Diseases
- » AREA 7. Pathophysiology and Treatment of the Locomotor System
- » AREA 8. Multidisciplinary Intervention in Clinical Prevention and Treatment
- » AREA 9. Clinical and Experimental Immunopathology
- » AREA 10. Experimental and Clinical Dentist
