# Complete Study Program for Non-Natives to Master the Arabic Sciences

## Authored and Personally Taught by Our Shaykh Dr. V. Abdur Rahim حفظه الله

### Who is the study program for?

It is tailored for non-natives speakers of Arabic. It is also suited for native Arabic speakers.

It is for learners of all backgrounds: complete beginners or advanced level.

It is for home-learners or those in a class with a teacher.

It is for schools, colleges and universities who have a complete and meticulously prepared syllabus for non-natives to master Arabic.

### What is the aim of the program?

To teach Qur'aanic Arabic, and modern Arabic - from beginner to advanced level, to develop *iimaan* and a strong Islaamic character through in-depth study and understanding of the Qur'aan, aHaadiith, tawHiid and Fiqh texts, Siirah, scholarly works, and a host of historical and modern Arabic texts.

### What skills will I gain at the end of the program?

You will gain a firm, connected and very advanced understanding of the Qur'aan, aHaadiith, traditional Arabic books, historical texts, classical and modern Arabic literature, poetry etc **إِنْ شَاءَ اللَّهُ**.

### Is the program only for the graduates of the 3 Madinah Books?

No. The program has a wide audience and is suitable for:

1) Complete beginners;

2) The graduates of the 3 Madinah Books; *Or*

Any student who has gained proficiency in Arabic equivalent to the 3 Madinah Books.

### ● Are we taught in English or Arabic?

Both. Our Shaykh first teaches through the medium of English-Arabic. Then as the student advances and gains more skills in the language, our Shaykh teaches in Arabic in a clear and easy style.

### ● What order should I study or teach, these books and courses?

Please follow the Shaykh's recommended order (below). It reflects our Shaykh's methodology of teaching the Arabic sciences in stages, starting with the foundation and what is easy, and building to the next level. What the Shaykh has already taught, is revised, expanded and connected to the next topic in the learning-chain. The success of this teaching method, is world renowned *والحمد لله*.

### ● Can I read other Arabic books alongside the program?

Our Shaykh advises to complete the program first, then to read Arabic books by other authors - if you wish. Such consistency has many benefits, e.g. your knowledge stays connected and learning pace becomes quicker which would otherwise be slower if you switch between books and teachers. (For more convincing, see *Admin's Page: Q10: 'What Study Path Should I Follow and Why?'*).

### ● Ready to embark...

What follows is an overview of the entire program at a glance.
