On-Staff Accessibility Consultants

- ! The bathroom is one of the most common places for falls and can pose challenges for safety and independence in the home. BILD offers accessibility experts who are experienced occupational and physical therapists along with interior design services (courtesy of our Designbild division) for safe, beautiful, and comfortable solutions.

## Barrier-free shower

- Zero-threshold entry for easy walk-in or roll-in access.
- Full backing in place for custom grab bar placements at any time.
- High friction flooring materials for safety and traction.
- Interior design assistance for aesthetics and function.
- Choices in materials include:
  - o Tile - beautiful aesthetics.
  - o Fiberglass surround
    - Quick installation.
    - Lower maintenance.
    - Minimizes mold, bacteria and mildew.
    - Custom colors and configurations.
- Design support of accessibility consultant ensures a configuration that optimizes independence, functionality and safety.

## Options for containing water with barrier-free systems:

- Sloped flooring.
- Long, weighted shower curtain.
- Flexible rubber water barrier.
- Linear drain system – strip drain to contain water and provide an even slope.

## Options to increase flooring traction:

- Traction tread strips.
- Grip Texture flooring coating
  - o Bacteria resistant.
  - o Seals grout to prevent staining.
  - o Can be used on any non-polished surface inside or outside of the home.

## Walk-in tub

- Accessible designs that allow for scooting transfers or use of floor transfers lifts.
- Hydrotherapy options
  - Air-jets.
  - Whirlpool.
  - Pipeless hydrotherapy minimizes mold and bacteria buildup.
- Temperature moderation solutions
  - Heated seats & other strategies for maintaining comfort when water is draining.

## Tub cutout

- An inexpensive option to creating an accessible tub.
- Reversible for resale value.
- May be performed with any material: fiberglass, steel, & cast iron.
- May be utilized with a tub transfer bench for easier transfers.
- Waterproof swing in or removable door make soaking possible.
- Proper placement of the cutout is important for safety and functionality.

# Grab bar solutions & considerations

- Functional grab bar systems that provide reliable supports.
- Transform existing fixtures into grab bars.
- Color contrast to provide visual cues.
- Bacterial resistant properties.
- Non-slip grip.
- Decorative.
- Up to 500 lb weight capacity.
- Flexible installation options.
- Soft and warm to the touch.

## Hand-held shower sprays & diverters

- Pause feature.
- Lightweight and dexterous for ease of use.
- Options for mounting to grab bar / glider bars.

## Battery-operated bathtub lifts

- Mechanically lowers you into the tub and lifts you up to sitting
- Battery-powered and water-safe
- Varied heights and weight capacities.
- Optional sliding disc for easier transfers.

## Tub dipper

- Non-battery operated lift.
- Lever adjusts forward to lower into tub.
- Reduces back strain for parent.
- 100 lb weight capacity.
- Lightweight and portable.

## Tornado body dryer

- Waterproof system with pneumatic controls.
- 2 speed dryer system.
- Maintains a clean and comfortable environment.
- Helps moderate temperature and comfort.
- Ideal for individuals with skin sensitivity or limited mobility.
- May be installed in shower or anywhere.

## Glider bathing transfer & roll in shower chair systems

- Allows for access without remodeling.
- Customizable with straps and lateral supports.
- Optional tilt or recline features.
- May be used to access tub or walk-in shower.
- Roll-over commode or commode pan insert options.
- Custom roll-in shower chair options available also.
- Side drop rail option available for easier reach/bowel management.
- Cushions with commode openings available.

## Bathroom doorway widening

- Improved wheelchair access to bathroom.
- May achieve increased clearance with offset hinges.
- Varied door type options to address door swing and maneuverability.

## Comfort/ADA height toilets and toilet base risers

- Comfort height toilets raise toilet height to 17-19".
- 2-4" higher than traditional toilets.
- Toilet base risers raise toilet height by 3.5"
- Wall mounted toilet seats allow custom height and more maneuvering space in front of toilet.

## Tub/shower seat transfer options

- Temporary tub/shower seat options.
- Solid or padded seats.
- Gliding seat options to eliminate friction.

## Ceiling lift options for bathroom access

- Varied options available.
  - May track continuously from bedroom or other area of home.
  - May move portable motor onto separate track in the bathroom.
  - May use pressure fit system which secures track in the bathroom.
- Provides accessible bathroom area without necessarily need for remodeling.
- Addresses transfers, safety, and bathing access – can be used with positioning seating.
- Options available to accommodate vaulted ceilings.
- Self-transfer potential with specialized harnesses.

## Design aesthetics

- Beautiful and functional design for accessibility
- Full time designer & project manager on staff
- Involvement in design and implementation from start to finish
