### PIECES TO PLAY

Now available with a CD! Burnam composed this collection of piano pieces to correlate directly with her *Step by Step* piano course method. Prefixed to each piece is an indication of the exact page of *Step by Step* at which a selection from *Pieces to Play* may be introduced. When the student reaches the indicated page, they are ready to play with ease and with understanding. These pieces would also be very useful as supplementary material for other piano methods.

### NEW ORLEANS JAZZ STYLES

#### Intermediate Level

The tunes in *New Orleans Jazz Styles* are written for piano students of intermediate level. The composer-teacher believes that every student's musical education should include experiences in a variety of popular stylings, including jazz, as a recurring phase of his or her studies. Students should also be encouraged to deviate from the written notes with their own improvisations if desired, for spontaneity is an essential ingredient of the jazz idiom.

### Jazzabilities

The *Jazzabilities* series introduces the student to the sounds of jazz through short exercises and performance pieces. The emphasis is on developing rhythmic control through jazzy melodic and harmonic bits—in essence, building a jazz vocabulary. Teachers who have had little experience working with jazz will have no trouble using this series with their students. The optional GM Disk or CD accompaniments are a great way to build rhythmic control and develop performance skills.

## New Orleans Jazz Styles

The five pieces of *New Orleans Jazz Styles* are written for piano students of intermediate level. Gillock believed that every student's musical education should include experiences in a variety of popular stylings, including jazz, as a recurring phase of his or her studies. Students should also be encouraged to deviate from the written notes with their own improvisations if desired, for spontaneity is an essential ingredient of the jazz idiom.

**Adult Piano Course**

John Thompson's *Adult Piano Course* was written with the older student in mind. Older beginners have the same musical road to travel as younger students, but the study material for the grown-up differs in content. These books are compiled especially for adults and contain pieces that grown-ups like to play and hear. Many hints are given to help the student play as artistically and with as much musical understanding as possible.
