

**REPOWER
WITH KUBOTA**

RE-POWER ENGINE CATALOGUE

REPOWER ENGINES

Has your Kubota given its all, day after day, year after year, through the good times and the hard times, through the dust and the rain. It's been a great machine but time and hours are not in its favour.

For Kubota Equipment online parts list visit kubota.com.au (in parts select Kubota Pad).

Rejuvenate, revitalise, repower and get your machine back to work as good as the day you fell in love with it.

Kubota repower engines are made specifically for Kubota manufactured machinery. The engines are scoped to exact specifications to suit all Kubota agricultural and construction equipment.

These specifically built engines are available to support the Kubota brand of tractors, mowers, RTV's, excavators, wheel loaders, track loaders, skid steers and generator sets.

From repower engines to save on downtime and costly rebuild expenses to all your genuine Kubota spare parts and Kubota engine oils and batteries, we can keep your equipment in peak condition.

Although the repower range is scoped to suit Kubota equipment with little or no interchange of parts we can also offer fan to flywheel engines to suit other manufactures using the Kubota engine range. Please contact us with your engine details to confirm if an engine can interchange into your Kubota powered equipment.

KX SERIES

Superior strength, versatility and performance will help you to get the job done.

B SERIES

Super glow system comes as standard to shorten preheating time and quicken engine start up in cold temperatures.

RTV SERIES

With its outstanding technical experience and deep concern for the environment, Kubota developed the world's smallest, multi-cylinder, high power density diesel engine series.
