

World-class Quality, Competitive Price, Immediate Delivery

Rotary Vacuum Pump Oil (Mineral)

SV-68

SV-68 Rotary vacuum Pump Oil is equivalent of:-

R4	R7	Ultragrade 19	LVO 100	LVO 110
LVO 120	LVO 130	Molycoat L-0610	VM 100	KV 100
CVC 70/19	N62	Adixen A120	MD 502	MD 504
INLAND 19	MR 200	Mobil DTE Oil	VM 68	
Alcatel Adixen A 200		Alcatel Adixen A 120		

Description:

Rotary vacuum pump oil SV-68 is mineral vacuum oil that has been double distilled through molecular distillation process. Because of this process, SV-68 delivers fast vacuum in a short span of time. Furthermore, SV-68 comes at a very competitive price.

Features and Benefits:

- 1. SV-68 is prepared from high quality mineral base stock.**
- 2. Double distilled through molecular distillation process-** Molecular distillation ensures lower vacuum time cutting down the cycle time considerably.
- 3. Excellent Vacuum Level-** Ultimate vacuum of 1×10^{-3} Torr.
- 4. High viscosity index-** This ensures lesser variations in viscosities at different operating temperatures.
- 5. Low vapor pressure-** Therefore minimum back streaming takes place and there is reduction in pump down time.
- 6. Free of artificial additives-** Additives like rust inhibitors/anti corrosion etc. if present in vacuum oil separate from the base fluid under high temperatures and stick to the pump interiors as gummy substances. Since it is free of these artificial additives, unlike most of the so-called vacuum oils, SV-68 will never turn to gel form and never harm the pump interiors.
- 7. Provides excellent lubrication to the pump.**
- 8. High Thermal Stability-** SV-68 works excellently even in extreme operating temperatures.
- 9. Conforms to DIN-51506 VD-L and ISO DIS-6521 specifications for vacuum pump oils.**
- 10. Suitable for rotary/mechanical vacuum pumps of all makes and models around the world.**
- 11. Comes in packing of 5lt., 20 lt. and 210 lt.**

Supervac Industries' Recommendation:

In order to prolong your Rotary pump's life we recommend timely change of the pump oil. This will prevent impurities inside the pump from accumulating and damaging it.

Specifications:

Property	Value
Ultimate Vacuum	1×10^{-3} Torr
Vapor Pressure at 25° C	8×10^{-4} Torr
Resistance to Oxidation	Excellent
Distillation	Double Distilled Organic Oil
(Carbon) (Sulfur) & other Impurities	Nil
Flash Point	245° C
Viscosity at 40° C	68cst
Appearance	Pale Yellow
Packaging	(20 ltrs.)(210 ltrs.)

Shipping Constraints: None

Supervac products are supplied to satisfied customers in 20 different countries all over the world.

The Brand Trusted By Engineers Worldwide

Rotary Vacuum Pump Oil (Mineral)

SV-68

Supervac™ manufactures and supplies excellent quality high-tech consumables to various industries all over the world. Our products include- An entire range of vacuum oils (Rotary Pump Oils, Diffusion Pump Oils and Vacuum Booster Pump Oils), Graphite Foil, Ceramic Evaporation Boats, Silicone Grease, Graphite Suspension, Boron Nitride Powder (Various Grades), Boron Nitride Suspension (Mould Release Agents/ Coating Lubricants).

Supervac's USP: World-class Quality, Competitive Price, Immediate Delivery.
