# Villeroy & Boch Tiles

Inspiring and sophisticated

Tiles must be designed to be functional in every detail and yet offer innovative and desirable aesthetics and graphic qualities that continue to delight. Sophistication often lies in their simplicity - it is the well thought-out details that, as a whole, create a versatile design concept.

The VILLEROY & BOCH WORLD OF TILES BROCHURE features a selection of designs to inspire and awaken your creativity.

The scope for individuality is endless: choose from contemporary and elegant or industrial and historical style designs to realize your own interior lifestyle.

New formats and technical features such as CERAMICPLUS and VILBOSTONEPLUS, VILBOTOUCH, POWDER TOUCH and CONCEPT3 as well as high-quality reliefs, harmonious colours and detailed decors, create authenticity and make our tiles incomparable.

For over 270 years Villeroy & Boch has been bringing innovation, quality and culture to create a complete, unparalleled bathroom. We invite you to visit your local Villeroy & Boch retailer to see our innovative and inspirational collections.

To find your nearest Villeroy & Boch retailer, please visit the Store Locator on our website: [www.villeroy-boch.com/store-locator](http://www.villeroy-boch.com/store-locator)

## THE AIR OF A GRANITE LANDSCAPE

In Aberdeen, the remote port in the north-east of Scotland, the cityscape is characterised by historic grey-stone buildings. ABERDEEN features a fresh interpretation of the silver-grey granite from the former local quarries in vitrified porcelain stoneware floor tiles and nonvitreous wall tiles: a matt granite look for the floor is combined with a discreet stone look featuring fine gloss effects for walls. The finely detailed design and the expressive colours ensure an authentic and contemporary character for this multi-format architectural system range, making it ideal for purist or rustic interiors.

### Available sizes & Décors:

Material: Porcelain stoneware, suitable for walls & floors  
Nonvitreous ceramic, suitable for wall

## NO FRILLS, DOWN-TO-EARTH AND FASCINATING

The concrete look has become an integral feature of modern interiors. ATLANTA wall and floor tiles which adopt typical concrete structures are a perfect choice for purist urban interior designs throughout private homes and in the high-end commercial sector, especially in bathrooms and living rooms. The vitrobond porcelain stoneware tiles in six colours offer plenty of creative scope in a variety of different formats. The nonvitreous wall tiles take up the finely detailed used look of the floor tiles in a more discreet style on a smooth surface.

### Available sizes & Décors:

## CERAMICS WITH A TOUCH OF COSINESS

Come home and wallow in pure comfort – a wish that harmonious wall and floor coverings can fulfil. The soft colours and structures of the BACK HOME nonvitreous and villbostone porcelain stoneware wall and floor concept create a natural elegance with matt and gloss surfaces that produce interesting highlights on walls and a feeling of space on floors. All told, the range creates a distinctive and special touch of cosiness.

### MARBLE MEETS TERRAZZO

BELLAGIO captures the special charm of the northern Italian landscape around Lake Como in vilbostone porcelain stoneware floor tiles and nonvitreous wall tiles. The design is a fresh interpretation of natural stone, which peeps up a natural, authentic look with trend-setting aspects: Marble meets terrazzo – a unique combination that cannot be found in nature. Discreet inclusions give the fine marble touch a decidedly modern appeal. As such, this wall and floor concept is ideal for purist interiors and also a wonderful choice for a classic setting.

## IMPRESSIVELY NATURAL & MODERN

The BERNINA tile concept is a creative and versatile solution for walls and floors and suitable for use in the most diverse application areas. Reminiscent of quartzite, with a subtle shimmer, the matt, structured tiles are covered in fine, irregular veins, which produce the characteristic effect: a natural-stone look with contemporary flair and application advantages that are unique to vilbostone porcelain tiles.

## SIMPLE BEAUTY WITH A NATURAL LOOK AND FEEL

Nature-influenced interior design is found not only in country houses. This is also how many city-dwellers bring a special flair into their own four walls. Adapted today in a wide variety of ways, these natural materials and finishes create a special feeling of cosiness. The colours shimmer, at times appearing subtle and at other times powerful, or enter into a symbiosis with new materials. Cádiz gives a new meaning to the country house style, with balanced colours and combinable formats for a distinctive and unmistakable interior design.

## NEW SIZES &amp; HARMONIOUS DESIGNS

Interior design is influenced not only by colour and décor, but also by the tile format. The new 33 x 99cm wall tiles in the DENIM range are harmoniously balanced and inspire large-scale designs. The range includes basic tiles, décor tiles and matching porcelain stoneware floor tiles and mosaics, making it perfect as an all-in-one concept for bathrooms, living areas, and kitchens. The concrete-look floor tiles emphasise the hand-crafted character of the design concept and highlights the purist-urban look and combines well with all the basic wall tiles.

## MEET THE NEW SLATE

Myriad patterns, structures and colours in multiple layers of rock – slate's typical appearance arose millions of years ago as a result of the oxidation of various metals between the different layers. The GATEWAY vilbostone porcelain stoneware concept interprets this look by way of a discreet relief which subtly represents the strata typical of slate. This creates a fine, particularly beautiful slate structure over extensive areas. A surprising feature: In addition to the three natural colours there is also a light shade one would not expect to find in slate.

## Available sizes &amp; Décors:

## WARM, FEEL-GOOD CERAMICS

A fascinating ceramic asking to be touched – the surface design of the HUDSON range is reminiscent of fine-grained sand. The unglazed vitrified porcelain stoneware range has a homogenous surface finish in warm, soft colours with restrained shading that radiates warmth and a feel-good atmosphere not only in modern homes but also in public buildings. With a high non-slip finish, the modular format in seven colours offers creative designers the greatest conceivable flexibility for inclusive ceramic wall and floor designs.

## THE FASCINATION OF THE CLASSICALLY MODERN

Structures and colours resembling the most precious marble – in a variety that only nature offers. The authentic nonvitreous and glazed vilbostone porcelain stoneware wall and floor tiles recall the glory of old Venetian palazzos – but in the form of a modern forward-looking European style. With a special feel for colour, form and décor, tried and tested elements are combined with a natural-looking surface design – consummate classical appeal with puristic charm.

## ELEGANT SURFACE FINISH AND TROMPE-L'OEIL DÉCOR

An elegant, metallic-looking surface finish and an extravagant décor: METALYN - a symbiosis of urban concrete and machined metal to create a novel ceramic look.

Available in six harmoniously coordinated colours, the vitrified porcelain stoneware can be used to create expressive designs for walls and floors. The highlight of the range is the décor tile made of glazed porcelain stoneware with a refined pattern that uses fine, rust-coloured diamonds and cubes to create a surprising trompe-l'oeil effect.

#### A PIECE OF PARIS - METRO FLAIR

Anyone who has ever travelled on the Paris underground will be familiar with the white tiles with their characteristic facet. The glossy tiles were installed in the corridors and stations of the famous metro when it was built at the beginning of the 20th century in order to reflect the electric light, which was still weak in its early days, and to brighten up the surroundings. Today, the METRO FLAIR wall concept brings fresh urban flair into private homes.

#### THE ATTRACTION OF OPPOSITES IN A CLEAR, INDIVIDUAL STATEMENT

MONOCHROME MAGIC makes a statement about modern minimalism. The range of nonvitreous wall tiles follows the Black & White trend and embodies the tension between light and dark, reduction and decoration. Designs not only use two contrasting colours but also matt and shiny finishes, as well as smooth or relief décor surfaces in a delicate cube structure. The wall tiles in large format 40 x 120 are particularly elegant; this format lends itself to use in shower areas.

## A MIXTURE OF COLOURS AND STRUCTURES

NATURAL BLEND - Every type of stone has its own story to tell: an existence going back millions of years, whose uniqueness offers inspiration for designers. The NATURAL BLEND range is built on this fascination. It tells of the diversity of natural stone and demonstrates it in a mixture of colours and structures. The accomplished imitation of nature is more restrained in nonvitreous wall tiles than in the livelier vitreous porcelain stoneware floor tiles. The range is ideal for both modern and classical interior designs, adding a natural touch in both cases.

## THE TIMELESS ELEGANCE OF MARBLE

The unique charm of the delicately translucent stone with plastic depth effects thanks to fine veining has always been very popular in discerning interior design. Now, the NOCTURNE range reinterprets various marble looks, transforming them into contemporary styles with richly varied décors: with a wealth of variations, the expressive porcelain stoneware tiles offer a natural-looking replica of their role models to create an impressive, extremely noble atmosphere in classic and modern settings alike.

## AUTHENTIC, NATURAL FLAIR

Wood brings a natural flair to any room. OAKPARK tiles look wonderfully authentic, feel very natural and are much easier to maintain, more robust and durable than real wood floors, without requiring any subsequent treatment. The OAK PARK floor concept in vilbostone porcelain stoneware captures the calming allure of fine-grained oak with gentle progressions and a slight relief – a perfect choice for the living room, bedroom, dining room, kitchen, bathroom and hall.

## ELEGANT DESIGN REMINISCENT OF OAK

Authentic grain in four natural, warm colours which combine to produce a harmonious, calm overall effect. The wall and floor concept OAK SIDE transfers the noble oak wood look to matt, very subtly structured VilboStone porcelain stoneware tiles, the wood look conjures up an air of calm in which the tiles add natural or purist modern touches, according to the individual style of the interior, and slightly relief wall tiles with a homely ambience with a natural flair.

## MINIMALIST DESIGN FOR A WIDE VARIETY OF SOLUTIONS

Concrete has many faces: in tandem with white walls, it looks clear and pure, combined with colour or wood, it shows its slightly rustic, natural side, opening up broad scope for very different interior design styles. Five harmonious, combinable colours emphasise the design statement and style of the furnishings while at the same time confidently shaping the atmosphere of the space. PURE BASE is perfectly suited for the latest designs throughout the home.

#### THE LOOK OF NATURAL STONE AND A RUSTIC RELIEF

RESTONICA, a name combining the look of natural stone with a rustically charming relief décor.

The glazed nonvitreous tiles can be used to create modern wall designs throughout the home. The tiles in 30x90cm format are rectified and can be laid with particularly exact edges and narrow joints. A few tiles laid horizontally can create continuous walls with very few joints. RESTONICA's strong design allows for expressive, individual wall creations that make touching irresistible – laid as a strip, as a full-surface covering or in combination with the basic tiles.

## NATURAL LOOK OF STONE AND ABSTRACT FLORAL DÉCOR

When nature and art are combined, the result is an almost magical aesthetic: ROCKY.ART, the high-quality wall and floor concept, combines vilbostone porcelain stoneware to create a minimalist look of natural stone and concrete with a variety of artistic, abstract-floral décors. With impressive details of hydrangea blossoms in vitalising nuances of yellow and green, glazed tiles in porcelain stoneware bring a fresh, floral touch with powerfully colourful accents to the modern home.

## A MODERN LIVING ENVIRONMENT:

SECTION - The simple attraction of concrete for the domestic environment was discovered a few decades ago when the first artists converted abandoned factories into workshops and apartments. Since this time, the concrete look has also become popular with ceramic surfaces, whose outstanding wear properties even outdo the model on which they are based.

## IN THE SIMPLICITY OF COLOURS, THE VARIETY OF FORM COMES TO LIFE

The sleek tone-in-tone arrangements in particular create beautiful accents for subtle designs. Even the joint pattern of the SPOTLIGHT wall and floor range in 80x80 and 40x80 formats can create an interesting effect. Matt and gloss surfaces in warm and cooler colours can also be combined to exciting effect. The wall concept includes individual décors with delicate natural traces, an attractive platinum border and mosaic strip tiles.

## RETRACING THE PAST WITH AN EYE TO THE PRESENT

Modern design skilfully integrates classical elements from the past to create something fascinatingly new.

The STATEROOM wall and floor concept creates a bridge between the past and the present. It combines dynamic ornamentation with an organic basic structure to produce a perfect symbiosis between natural-looking style and classical ornamentation. The borders with gold, bronze and multicoloured effects contribute to the classical charm.

## URBAN CONCRETE LOOK IN GENTLE NATURAL TONES

A bold design animated by inclusions reminiscent of hand-crafted terrazzo plus a sophisticated décor featuring lush, exotic plants and shimmering ceramics in calm shades of green - the URBAN JUNGLE design is a fascinating spectacle to behold. It is modern and clear-cut, yet wonderfully gentle and relaxed. The wall tiles in glazed nonvitreous and floor tiles in vilbostone porcelain stoneware conjure up a true feel-good atmosphere and transform bathrooms and living rooms into green wellness oases.

## OUTDOOR20 TILES OVERVIEW

Today, one does not have to be indoors to feel good and relax at home, for on warmer days in particular, life moves outside – where people can be enjoying the day's sunshine surrounded by nature.

Well-designed outdoor areas can significantly increase the quality of both living areas and commercial spaces, possibly introducing pleasant new uses in the process. Yet another reason why it is best to design them like indoor areas, giving preference to the special OUTDOOR TILES from Villeroy & Boch that are available in a variety of designs and which are extremely durable and robust an aesthetic and practical choice.

The OUTDOOR TILES can be laid on a variety of substrates and are an elegant alternative for enhancing life outdoors. The Villeroy & Boch OUTDOOR TILES collection offers a variety of advantages compared with other outdoor surfaces:

**Non Slip:** Classification in R10/A and R11/B for outdoor areas.

**Easy to Clean:** Surface-sealed in the factory with VilbostonePlus to prevent stains.

**Colour Fast:** Unaffected by chemicals providing a perfect base and surround for Hot Tubs. No changes in colour as a result of sunlight. Weather Resistant.

**Frost Proof:** Frost-proof and weather resistant when laid professionally. No need to apply a surface treatment every year as with stone or wood.

**Material:** Vilbostone, high quality, scratch and abrasion proof 20mm thick porcelain stoneware tiles, Millimetre-precision cut rectified edges for laying with narrow joints.

ABERDEEN  
OUTDOOR20

### Authentic granite character for outdoor areas

The Scottish port city of Aberdeen, with its historic buildings in grey stone has the air of a landscape made of granite – a contemporary look, which ABERDEEN OUTDOOR20 in high-quality Vilbostone porcelain stoneware adapts for outdoor use. Authentic natural colours and matt surfaces with a slight relief effect lend the tiles a character which is at once authentic and distinctive. The down-to-earth granite character is ideal for terraces, balconies and garden paths, and lends areas outside restaurants, administrative or office buildings a distinctive appearance.

MEMPHIS  
OUTDOOR20

### Purist concrete design

Concrete's down-to-earth appeal imparts a feeling of calm and serenity – in the garden and on the terrace, too. MEMPHIS OUTDOOR20 interprets modern facing concrete with a gentle relief effect in high-quality porcelain stoneware, combining an authentic concrete look with the impressive merits of modern porcelain. The subtle play of colour resulting from the three fine, harmoniously matched shades of grey and the gentle structure lend the minimalist design a special charisma which comes into its own over larger areas produced with the large, square formats.

MY EARTH  
OUTDOOR20

### Design freedom

No two stones on this Earth are exactly alike, and MY EARTH OUTDOOR20 was developed with this sense of uniqueness in mind. Each tile is a variation of a simple stone structure with a character all its own. The result: individual surface appearances that are able to fascinate time and again. The range is practically predestined for use in large areas, such as those found between residential units. Easy-care Vilbostone porcelain stoneware tiles are light-fast and retain their authentic look even when subjected to heavy use.

OAK PARK  
OUTDOOR20

### Wood look outdoors – Still as beautiful as ever after so many years

A gentle grain, subtle relief and select, medium-brown shades – OAK PARK OUTDOOR20 tiles for outside combine the aesthetics of wood with the impressive merits of Vilbostone porcelain stoneware. The new 120cm format with R11/B slip resistance additionally lends the 2cm thick tiles the typical floorboard look that makes terraces or garden paths so attractive. And while real wood succumbs to the effects of the weather, porcelain stoneware remains as attractive as on day one, even after many years. Thanks to VilbostonePlus surface sealing, the tiles are particularly easy to clean and completely impervious to moisture.

# OPTIMA

reddot design award

*by Villeroy & Boch*

The OPTIMA collection was presented with the “red dot award: product design 2018” by the internationally renowned Designzentrum for its impressive design quality. The elegant ease of the large format: 60 x 120cm, 120 x 120cm and 120 x 260cm, each just 6mm thin.

The light megaformats convey a cosy purism and place the focus on the attractive design of the ceramic surfaces. Only a few joints are needed here – offering not just a visual advantage but also an advantage where ease of care is concerned – not to mention a tremendous opportunity for high-quality living and design. Villeroy & Boch offers the thin large-format tiles in different design ranges, as part of its OPTIMA Collection. All differ in style, ensuring tasteful wall coverings for every form of interior furnishing.

**Elegant Design:** At 260 cm, perfectly tailored to standard heights.

**Lower weight:** Thanks to the 6-mm thickness, comparatively low weight for simplified handling.

**Handling:** low weight facilitates transport and installation.

**Suitable for use in renovations:** low overall height – making it also well-suited for attaching over older coverings.

**Design variety:** different designs in concrete and natural stone looks.

**Creative Freedom:** for designs on walls and floors, in private and public areas alike.

**Easy-Care properties:** very low number of joints, and easy-care vilbostoneplus surface seal.

**Thermal conductivity:** the thin ceramic tiles are the ideal covering for use with underfloor heating.

HUDSON  
OPTIMA

Ceramics for warmth and atmosphere: the HUDSON OPTIMA range. Living comfort combined with minimalist elegance – HUDSON OPTIMA made from vilbostone porcelain stoneware lends rooms an exquisite, natural flair.

URBAN JUNGLE  
OPTIMA

Big, bigger, URBAN JUNGLE OPTIMA - The novel interpretation of concrete, enlivened by inclusions in a terrazzo look, exploits the elegant lightness of large formats to the full: the imposing mega-formats in vitrified porcelain stoneware create large ceramic surfaces with just a few joints to produce a puristic living space. In the bathroom a complete shower without any joints whatsoever can be produced with just one wall tile and one floor tile, while in the living room and bedroom the gigantic tiles make an impressive minimalist statement.

Special features: R9 standard finish

Nonvitreous

The easy-care ceramicplus finish was developed in the Villeroy & Boch laboratories according to the latest findings from the field of materials research. Ceramicplus provides the ceramic surface with a permanent finish by means of a special process. On nonvitreous wall tiles treated in this way, dirt particles are virtually unable to obtain a hold and flow off with water droplets.

***vilbostone***  
*Porcelain stoneware*

Vilbostone porcelain stoneware permits a wealth of different surface designs featuring unusual colour and sheen effects. Vilbostone porcelain stoneware is available both glazed and unglazed, with a matt, polished, rough-polished or relief surface finish and in various classes of slip resistance.

**vilbostoneplus**

Unglazed vilbostone porcelain stoneware with a matt or rough-polished surface finish have the vilbostoneplus seal, which renders the tiles particularly resistant to dirt and stains. During the manufacturing process, the structure of the tile surface is sealed in order to further increase the tiles' resistance to staining and dirt, as a result of which subsequent treatment with impregnating agents is no longer necessary.

# TILES by VILLEROY & BOCH

## SUSTAINABILITY IS NOT A MATTER OF OPINION

As a responsible and innovative company we think ahead – in every respect.  
We look after the people in our area by creating new opportunities and prospects for integration.  
Of course, we are also committed to the environment.

With a strategy that firmly anchors the careful use of our resources in our corporate goals.  
And with a product range that meets the principles of sustainability: our tiles are in stock for a long time, they are very durable, modular and customisable and can be processed without consuming too much energy.

We are the first tile manufacturer in Germany to participate on a voluntary basis in EMAS,  
the currently strictest and most comprehensive environmental audit system.  
Our professional partners appreciate our responsibility, because nowadays, the eco-balance of all materials used must be tested when planning projects.

And we share this responsibility with others:  
we are the only company in our industry to include our suppliers in our quality management processes.
