## About this Book

As we all know Times Tables are one of the fundamental building blocks of mathematics.
And, unlike some things students learn in maths, they are used day-in, day-out throughout life. So their importance cannot be underestimated.

The purpose of this book is to provide teachers and their students with a wealth of material that will make the learning of Times Tables as painless and enjoyable as possible.

The book has an abundance of tests, tips, games and challenges.
It covers the full range of tables, 2 s to 12 s , and is suitable for every classroom, library and resource centre in every school.

Everything Times Tables makes a welcome addition to any teacher's personal library of reference books. The exercises, games and challenges for students cover the entire age and ability spectrum....from the youngest beginners to advanced, highly competent -and even gifted- students.

Many of the worksheets are ideal for classroom wall displays; as well as being decorative they're perfect for pre-test brush-ups and mini practice sessions.

## In giving quotients equal importance to products we have addressed a flaw in many other Times Tables publications that tend to treat products only.

In many of the tests and games in this book we have deliberately omitted the 0,1 and 10 times tables as these may be taught and remembered easily (eg add a zero when multiplying by 10 , take off a zero when dividing by 10 ).

It is recommended that children either keep all completed tests in a folder or paste them in their maths book/pad.

A Tables-a-thon involving the whole school is an excellent way to raise awareness of Times Tables and get your students practising (see pages 57-60).

As part of Intelligent Australia Productions' commitment to enhance numeracy standards in Australia, classes are encouraged to enter the National Times Tables Championships to find Australia's best-performing Times Tables individuals and classes (see final pages).
Schools not wishing to participate may use the Tables tests for their own use.

## About the Author

Ron Shaw has spent almost 30 years teaching in Australian schools where, as Senior Teacher (Advanced Skills Teacher level 1) he has used his Times Tables Tests, Challenges and Games with many hundreds of students between the ages of 6 and 15 .

As a teacher and tutor he has been very successful in improving the times tables skills of learning-delayed children and mainstream students. Academically gifted children delight in challenging themselves with Mr Shaw's Times Tables speed tests, quizzes, puzzles and multi-operational tables tasks.

In addition to the above Mr Shaw has been a private maths tutor to scores of students up to university entrance level. His $20+$ published books on maths and other school subjects are used in several English-speaking countries including Australia, the UK, New Zealand, South Africa, Canada and the USA, as well as in classrooms throughout South-east Asia.

Mr Shaw, a member of the Australian Association of Mathematics Teachers and the Mathematical Association of Western Australia, was accepted into membership of the Australian College of Education (1989), the Australia Teaching Council (1993) and MENSA Australia (1998). After graduating as a teacher from Claremont Teachers College he undertook post-graduate studies (Honours) at the Australian National University, Canberra (1990), and Master of Education studies at Edith Cowan University, Perth (1992).

## How to Become an Expert at Times Tables

A Guide for Students and their Parents
Tip no. 1 Practise just one Table at a time. Example: "This week I will practise the $4 \times$ tables."
Tip no. 2 Put aside 10 minutes each day, for a week, to learn a Table.
Tip no. 3 Practise the products. Then practise the quotients. Then practise both.
Tip no. 4 Practise with small cards. Carry them around with you. Test your friends.
Tip no. 5 Practise saying them out loud, looking in the mirror.
Tip no. 6 Practise whispering them, looking in the mirror.
Tip no. 7 Practise saying them out loud, with eyes closed.
Tip no. 8 Practise whispering them, with eyes closed.
Tip no. 9 Practise writing them. Slowly, then faster.
Tip no. 10 Practise writing them in the air, out loud. Slowly, then faster.
Tip no. 11 Practise writing them in the air, out loud, with eyes closed. Slowly, then faster.
Tip no. 12 Practise writing them in the air, silently. Slowly, then faster.
Tip no. 13 Practise writing them in the air, silently, with eyes closed. Slowly, then faster.
Tip no. 14 Practise writing them slowly on paper, with perfect number formations.
Tip no. 15 Practise writing them slowly in the air, with perfect number formations.
Tip no. 16 Listen to a Times Table tape, with catchy tunes.
Tip no. 17 Sit or lie in silence and 'see' (visualise) the numbers as you slowly practise the tables.
Tip no. 18 Affix a Times Tables chart to your desk, wall or bathroom door.
Tip no. 19 Ask a family member to test you on a random Table whenever you pass by them.
Tip no. 20 Write Tables out in words eg "Four times seven equals twenty eight".
Tip no. 21 Write hard-to-memorise Tables on a post-it sticker; affix to bathroom tap, door knobs etc.

## Times Allowed for all Tests

- The times below are based on students who know their Times Tables perfectly and who complete the tests as quickly as they can.
- Younger students in some schools are introduced to 'harder' Times Tables earlier than in some other schools.
- The Times Tables tests in this book have been given to thousands of Australian students. Times were recorded.

| Page | Description of Test | Time A |  |  | owed |  |  |

## Intelligent Australia's

## National Times Tables Championships

This is an annual competition to find Australia's best performing Times Tables individuals and classes.

Closing date: Entries must be received by last day of term 3 in your state.

- This competition is open to all students up to and including year 9s.
- Entries for Class Awards are open only to mainstream classes (i.e. not gifted/talented groups) of at least 20 students, where all enrolled students sit for the test.
- There is no restriction on the number of times students may do the appropriate test.
- Performance on the Class Awards test pertains to any single sitting of the test and all students' scores must be used to calculate the percentage of the class who score $100 \%$.
- If, after submitting an entry, a subsequent test(s) produces a better score (individual or class) another entry may be submitted. Entries will be accepted any time up to the closing date.
- Individuals and classes may enter the category for their year level as well as any other categories for higher year levels (separate entry forms will need to be submitted if entering in more than one category).
- Only teachers may fill out and submit entry forms.
- Entries will only be accepted if submitted on the form opposite.
- Do not send the tests themselves. The entry form is all that is required.
- Winners will be sent Intelligent Australia Certificates of Merit.

| CA9 | Yr 9 class of 20+ students with highest \% of class scoring 100\% | Advanced Tables Challenge page 64 |
| CA8 | Yr 8 class of 20+ students with highest \% of class scoring 100\% | Advanced Tables Challenge page 64 |
| CA7 | Yr 7 class of 20+ students with highest \% of class scoring 100\% | Senior Tables Challenge page 65 |
| CA6 | Yr 6 class of 20+ students with highest \% of class scoring 100\% | Senior Tables Challenge page 65 |
| CA5 | Yr 5 class of 20+ students with highest \% of class scoring 100\% | Intermediate Tables Challenge page 66 |
| CA4 | Yr 4 class of 20+ students with highest \% of class scoring 100\% | Intermediate Tables Challenge page 66 |
| CA3 | Yr 3 class of 20+ students with highest \% of class scoring 100\% | Junior Tables Challenge page 67 |
| CA2 | Yr 2 class of 20+ students with highest \% of class scoring 100\% | Junior Tables Challenge page 67 |
| CA1 | Yr 1 class of 20+ students with highest \% of class scoring 100\% | Junior Tables Challenge page 67 |

## Individual Category entered

I hereby state that (print student's name).
scored $100 \%$ in the appropriate test in the time of
I (see below) certify that the above-named student completed the test with no prompting or assistance. The test has been checked and double-checked by me and found to contain no errors. Time was recorded accurately.

## Class Category entered................

I hereby state that. $\qquad$ \% of the students in
(print name of class) scored $100 \%$ in the appropriate test.

I (see below) certify that the above-named class completed the test with no prompting or assistance.
Results have been checked and double-checked by me and found to contain no errors.
Teachers: Please fill in one or both of the above. Then complete details below.
Teacher's Name (print).
Signature
School's Name (print).
School's Address (print).
School's Tel. No. (incl' STD code).
Post this form to:
Intelligent Australia Productions PO Box 670 Hillarys WA 6923
