Security:	
Security Function	Any person(s) designated with the responsibility for administering the security strategy.
System Resources	Any information or software applications or tools in electronic format, including, but not limited to electronic mail, local databases, externally accessed databases and any digitized information that may be made available on the LAN/WAN
Inappropriate Use	Improper use of the LAN/WAN, use of the LAN/WAN for non-university purposes, including commercial use, any violation of local, state and/or federal law, or any other prohibited use as set forth in this policy.

## Wright State University Terminology and Symbol Decoder - The Raider Stone

Users	Refers to any person consuming resources on the WSU network. This includes all permanent and temporary university personnel, faculty and students, including WSU managed contractors, consultants and vendor partners, who are authorized by WSU to access the WSU network.
General Public	Refers to any client who is authorized to use WSU resources without an account (for example, the public stations in the library).
Internet Access	includes viewing Web sites, sending and receiving e-mail, transmitting and receiving files, and running Internet applications from global Internet.
WSU Network	Consists of electronic devices communicating with one another and sharing hardware, software, data, and information resources. Includes all of the communication and computer hardware, operating systems, data, application software and any stored electronic media utilized to facilitate access to or provide information from the WSU Intranet and global Internet.

NFS	Network File System
Network Sniffers	A network sniffer is a utility which will monitor and log network activity to a file. Intruders commonly use network sniffers to capture username and password data that is passed in cleartext over the network.
Trojan Horse Programs	Trojan horse programs are programs that appear to function properly, but either add or remove features. Intruders use Trojan horse programs to hide their activity, capture username and password data, and create backdoors for future access to a root compromised system.

## Wright State University Terminology and Symbol Decoder - The Raider Stone

Vulnerability Exploits	The majorities of root compromises are a result of machines running vulnerable versions of software. Intruders often use tools to exploit known vulnerabilities and gain root access. These tools are often left behind on the system in "hidden" directories.
Root	
Intruder Tool Output	You may find log files from any number of intruder tools. information about other sites involved, vulnerabilities of your compromised machine (s), These log files may contain and vulnerabilities at other sites.
TFTP	Trivial File Transfer Protocol
GSCIS	Government Smart Card Interface Standard
Network Security Zones:	
ZONE 1	The most secure zone, will house servers and computers that either store university protected information or require constant access to protected information. In addition, departmental sub-networks and their associated computers may be placed in this zone by a department that requires greater network security. All servers for administrative applications will be placed in this zone.
ZONE 2	Will serve the campus at large. General access to this zone will not be permitted from outside the university network. There will only be access to specific services and general access to these systems (except from systems/users in zone 1) will not be allowed. Systems in this zone will be scanned for correct configuration, O/S security patches, etc
ZONE 3	A high security public server zone. This zone will contain University mission critical servers that require access from all locations on or off campus. CaTS will maintain the servers in this area for all campus users who have a need for secure remote access to data/applications. In general, servers in this area will not store protected data locally but will act as front ends to the servers in the most secure zone.
ZONE 4	Designated for departments who have servers that require access from outside the University network. Access from all systems in zones 1-3 will be given to all servers/services. The servers in this zone may access systems only in zone 2 by requesting that access from CaTS. Most departmental web and file sharing servers will be placed in this zone. It is the responsibility of the system administrators that servers in this zone must be maintained for correct configurations, O/S patches, etc.

# Wright State University Terminology and Symbol Decoder - The Raider Stone

ZONE 5	For the university residence halls, dial-up and wireless networks. This is the least secure zone on the University network. Zone 5 includes any network that is either not protected or has devices that do not meet CaTS minimum level of security criteria. Systems in zone 5 will be scanned as appropriate, for correct configuration, O/S security patches, etc.
GLBA	Gramm–Leach –Bliley Privacy Act
PHI	Protected Health Information
MarketScore	a free Internet usage monitoring program

DS	Directory Services
Objects	Discrete elements, or nodes, or leafs on the tree
Containers	Objects which contain other objects, or branches of the tree
short-name view	Tree Layout: The one view of the Novell tree, containing short departmental codes. Using abbreviations allows users to enter a relatively short name on a command line. This view would be the most commonly used by users and administrators.
Long Name View	Tree Layout: Arranged alphabetically like the "short name view", however, it contains the long names for the abbreviated departmental codes. This view is designed to assist users browsing the tree who do not know the abbreviation for a department.
Tree Navigation:	
formal view container	
organizational view container	
unit/departmental container	
user or object context	Expressed as a ordered list of container objects back to the root of the tree, separated by periods. For instance, user JSMITH in the History department on the WSU campus might have a context like this: jsmith.hst.colg.wsu. Short names keep the context small and easy to remember.
Top level	The top level of the NDS tree consists of a single modular container.
Campus level	Our template, for the most part, captures the required information for a system-wide DS implementation. However, it is up to some organizations to organize their branch of the tree.
Departmental Unit Containers	The structure of the department; the names of the containers will be based upon the University's letter abbreviation for the department or unit.
Formal NameView Container	Will contain alias objects, or pointers, to the objects they actually represent in the departmental containers. For instance, while the container for the College of Liberal Arts may be called "COLA," the formal name container will have an object called "College of Liberal Arts" which is an alias to the COLA container.

## Wright State University Terminology and Symbol Decoder - The Raider Stone

Organizational View Container	The organizational view container will be a tree structure representing the table of organization for the university campus. Again these objects will have the formal name of the university unit and they will aliases to their actual counterparts in the rest of the campus tree.
NDS Naming Guidelines / Description Conventions:	
User objects standards:	
Object name	user's login name
Identification page properties Value:	
Login name	"Wxxxinitials" - campus account name - (W number)
Last name	Last name
Given name	First name
Full name	First name followed by last name
Employee ID	WSU ID Number
Title	Current job title or student status, if a student
Description	User's preferred OS platform
Location	User's office
Department	User's Department, full name
Telephone number	Full telephone format, staff's work phone
FAX number	Full telephone format, if applicable
E-Mail address	user's email - name@wright.edu
Environment properties Value:	
Language	User's language
Default Server	Same as home directory server
Home directory	Use the format server_name/volume:path
Postal address properties Value:	
Postal address	No standard
Login Restrictions:	Limit Concurrent connections to 3
Password Restrictions:	User can change password; minimum password length is six characters; periodic password changes are forced every 120 days - reminder emails are sent from cats when appropriate; passwords are required to be unique; grace logins are limited to six. Call the helpdesk at x4827 if you need your account reset.
The Formal View Container:	The object name should be the complete name of the university unit.
Identification page properties Value:	
Name	Full name of the university unit
Other name	Name of the object which this object aliases

# Wright State University Terminology and Symbol Decoder - The Raider Stone

Cohort 1 student	You attended one of the following quarters: Summer 2001, Fall 2001, Winter 2002, Spring 2002, and; You were not classified by the University as a consortium or high school student, including Post-Secondary Enrollment Options Program (PSEOP), during the above periods of attendance, and; You attended at least one of the four quarters immediately prior to the current registration term. Note: You must meet the above criteria each quarter to maintain Cohort 1 status as long as the cohort fee schedules are in effect.
Cohort 2 student	Your first quarter of attendance was Summer 2002, Fall 2002, Winter 2003 or Spring 2003, OR Your first quarter of attendance was prior to Summer 2002, but you had a break in enrollment for four consecutive quarters and reapplied for admission to the University Summer 2002-Spring 2003, and You were not classified by the University as a consortium or high school student, including Post-Secondary Enrollment Options Program (PSEOP), during the above periods of attendance, and; You attended at least one of the four quarters immediately prior to the current registration term. Note: You must meet the above criteria each quarter to maintain Cohort 2 status as long as the cohort fee schedules are in effect.
Cohort 3 student	Your first quarter of attendance was Summer 2003 or after, OR Your first quarter of attendance was prior to Summer 2003, but you had a break in enrollment for four consecutive quarters and reapplied for admission to the University in Summer 2003 or after. Note: You must meet the above criteria each quarter to maintain Cohort 3 status as long as the cohort fee schedules are in effect.
PSEOP	Post-Secondary Enrollment Options Program
The Grading System:	Grade Scale & Grade letter, single letter codes
A	Excellent-4 points per credit hour
B	Good-3 points per credit hour
C	Satisfactory-2 points per credit hour
D	Poor-1 point per credit hour
F	Failed-0 points per credit hour - Failed - student did not pass "lab" or writing intensive portion of a Writing Intensive course
X	Student did not complete course or officially withdraw-0 points per credit hour. A student's GPA at Wright State is obtained by dividing the number of points the student has earned at Wright State by the total number of hours the student has attempted, excluding the following symbols, which appear on student records but are not used in computing GPAs:
L	Audit-given only if arranged when the student registers
T	Attendance in honors courses. Those hours are not counted toward graduation. Not used effective fall 1998.

# Wright State University Terminology and Symbol Decoder - The Raider Stone

I	Incomplete-given only when part of the required work is missing and arrangements have been made with the instructor to complete the work. The instructor must submit an Incomplete grade contract at the time the grade sheet is submitted to the Office of the Registrar. If the work is not completed by the end of the following quarter, or earlier if required by the instructor, the I grade automatically is converted to an F and the grade point is recalculated, unless the instructor submits another I grade. Work for an Incomplete received spring quarter does not have to be completed until the end of the following fall quarter if the instructor does not indicate an earlier date on the Incomplete grade contract.
U	Unsatisfactory performance; indicates work of C quality or below for graduate courses; given only for specifically approved courses.
W	Withdrew-given for courses from which the student officially withdrew, that the student dropped during the fourth through seventh week of classes or equivalent, or for which the student successfully petitioned for withdrawal.
P	Passing-indicates work of C quality or better; given only for specifically approved courses
M	Satisfactory progress; final grade will be assigned upon completion of the project. Graduate Studies: The satisfactory M grade will be assigned only to courses that are of a continuing nature, such as research and thesis courses. Normally the number of these courses ends in _99, such as 799, 899, or 999. The M grade will not be contained in the grading format of all non-sequence courses. The School of Graduate Studies and the Registrars Office will ensure that requests for M grades within the grading formats will be confined to continuing or sequence courses.
Repeat Symbols:	
S	Course taken in a prior quarter; both grades averaged in GPA
Y	Course retaken in a later quarter; both grades averaged in GPA
X	See above; Course retaken in a later quarter; course grade not used in calculating GPA
R	Course taken in a prior quarter; new grade replaces the prior grade in calculating GPA
N	Course credit not added to hours earned; course grade not used in calculating GPA. Student may have already taken course with a grade of C or higher or may have successfully petitioned to have the points removed from the record. No report-the instructor did not report a grade; must be removed before graduation
Academic Standing	Student Classification
0-44.9 credit hours	Freshman
45-89.9 credit hours	Sophomore
90-134.9 credit hours	Junior
135 credit hours or more	Senior

# Wright State University Terminology and Symbol Decoder - The Raider Stone

Dean's List	must have at least a 3.4 GPA for the quarter; have completed for the quarter at least 12 hours of credit for courses in which they have received grades of A, B, or C; and cannot have received a grade of F, X, D, I, U, T, M, or N
3.4 - 3.59 G.P.A.	Dean's List Honors
3.6 - 3.79 G.P.A.	Dean's List High Honors
3.8 - 4.0 G.P.A.	Dean's List Highest Honors
Good Standing	Students who have earned a cumulative GPA of 2.0 or higher, or who have not been on probation for more than two consecutive quarters, are considered to be in good standing.
Probation (scholastic action)	<p>Scholastic action is determined on the basis of cumulative GPA. When a student's cumulative GPA drops below 2.0, the registrar takes scholastic action by placing the student on probation. Students will not be placed on probation until they have attempted six or more credit hours. Whenever students subsequently attain a cumulative GPA of at least 2.0, they are removed from probation. Students who are on probation must have their advisor's approval of their course selection before they register for classes. Advisor approval is also required for all drop-add transactions. The student's course load may be limited if the advisor feels such a restriction is necessary. The advisor may also require the student to complete counseling, remedial work, and course repeats; restrict enrollment; and complete other steps.</p> <p>Scholastic actions are determined on the basis of quarter hours computed in the Office of the Registrar. Since credit hours for transfer, proficiency, and grades of M, P, and I are not used in computing quarter and cumulative averages, they are not considered in determining scholastic action.</p>
Fresh Start Policy	Readmission: An undergraduate student who re-enrolls in the university after an absence of five or more years may request the university to recalculate the cumulative grade point average and hours earned during the period of previous residency. This application must be made through the dean or director of the student's enrollment unit.
Course Numbering:	
0-99	Remedial precollege-level courses.
100-299	Lower division courses intended for undergraduate credit only. The first digit indicates the general level of the courses: 1 for first-year, 2 for a second-year course.

# Wright State University Terminology and Symbol Decoder - The Raider Stone

300-499	Upper division courses carrying undergraduate credit only. The first digit indicates the general level of the course: 3 for a third-year course, 4 for a fourth-year course.
500-599	Courses that carry graduate credit only in a major field other than that of the department offering the course.
600-699	Courses that carry graduate credit in any major field.
700-799	Courses for graduate credit only.
