Message from

PROFESSOR NICK PETFORD

Vice Chancellor -
The University of Northampton - UK

The University of Northampton is proud to be an academic partner of HRMI. Our institutions have a shared vision to transform lives and inspire change and to do so in a socially responsible way that embraces our Changemaker values.

It was a pleasure to attend our Changemaker Awards 2020 to see HRMI win the first International Changemaker of the Year award. This award recognised HRMI's amazing work in benefiting communities within Sri Lanka that lack educational opportunities, enabling children to access learning who might otherwise have missed out on prospects for further and higher education.

HRMI offers such great educational opportunities for its students, all of whom play an active part in their socially responsible mission and so gain much more than just an academic award. There have been challenging times recently during which HRMI has always been positive and supportive to all its staff and students and to my university.

I greatly value our partnership and wish all new students every success in their studies and in their future careers.
