The mark of responsible forestry

## DESIGNED WITH THE ENVIRONMENT IN MIND

The majority of our paper & pads range products comes from sustainable FSC® certified sources and the ultimate aim is that all materials will eventually be made from recycled or sustainable materials and will be recyclable after final use.

This is an exciting and on-going project intended to build-up a range of products and packaging with minimal ecological and environmental impact on the world around us.

FSC stands for Forest Stewardship Council®, which is an international organisation that promotes responsible stewardship of the world's forests.

The FSC label allows our consumers to recognise products that support the growth of responsible forest management worldwide.
