

# A Complete Power Solution

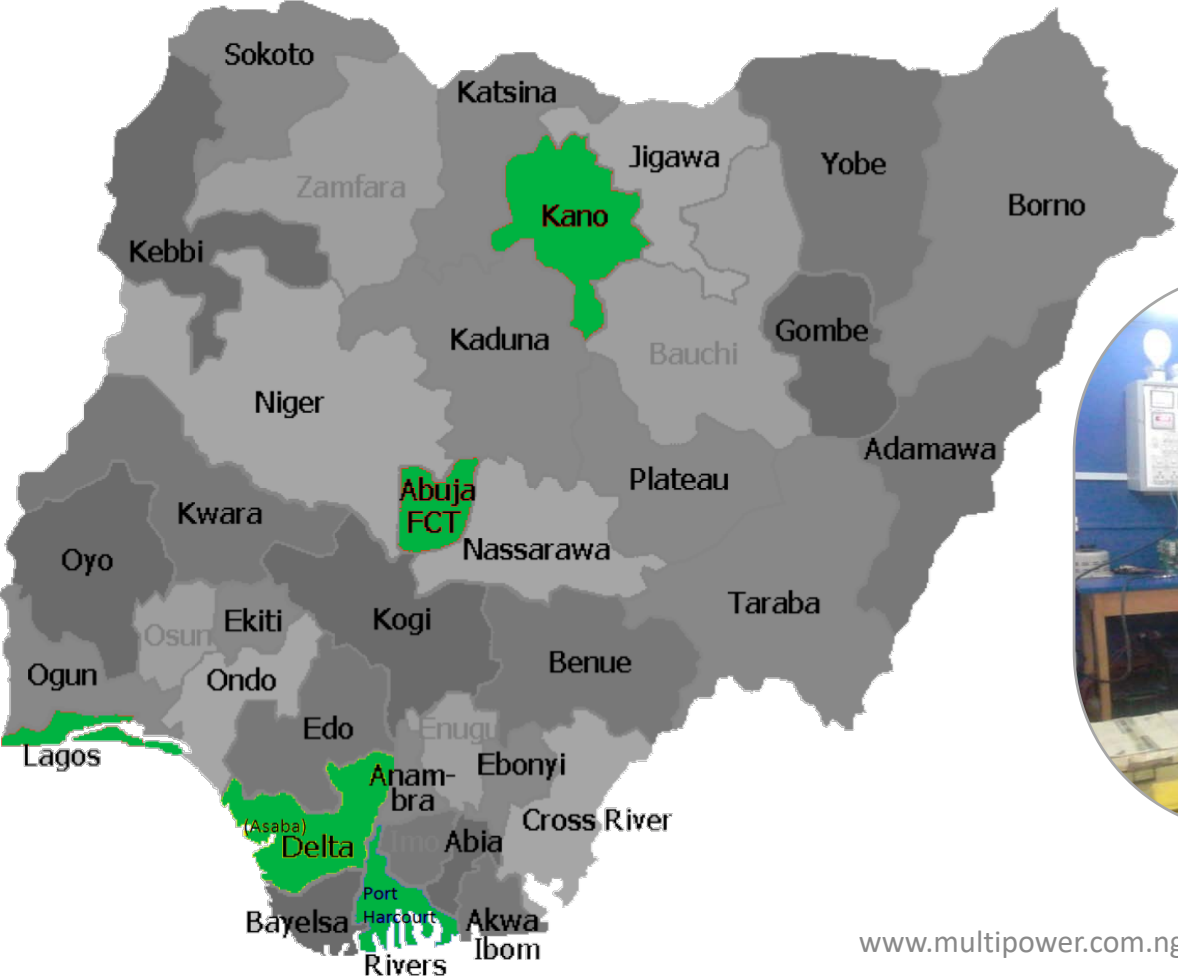

## Multichem – Our Parent Group

- ❖ **Multichem Industries Limited** was established in Nigeria in 1981 as a trading company for textile dyes and chemicals and over a period of time, diversified its portfolio into bulk chemicals, printing inks, flavors & fragrances, agrochemicals & specialty chemicals. Today, the company is probably the oldest and one of the largest and most diversified companies in Nigeria in distribution of a wide range of chemicals.
- ❖ We are a proud member of the Multibis Group of Companies (a \$1.2 billion family owned enterprise with business interests in chemicals, ship recycling, timber, specialized yarns, and power backup & solar solutions).
- ❖ We have our own manufacturing facility for Printing Inks, Pigment Emulsions, Textile Auxiliary Chemicals and Industrial & Specialty Adhesives, with a state-of-the-art Laboratory for product development and quality control of finished goods.

- ❖ Multipower Global Solutions Ltd is a group company of the renowned Multichem group.
- ❖ Entered into power backup industry couple of years back.
- ❖ Vision - Our vision is not just to be a inverter battery trading company but to become a complete power backup solution provider, so as to foray into innovative technologies, and focus on 'out of the box' solutions that are in tune with our quest for greener and sustainable development leading towards a better tomorrow for all.
- ❖ Mission - Our Mission is to become the leading company in Nigeria providing power backup, power conditioning, and power protection solutions and to extend this expertise in allied areas by developing highly reliable, technologically advanced products and solutions which are of exceptional quality and real "value-for-money".
