REPUBLIC OF YEMEN
Ministry of Oil & Minerals
Petroleum Exploration & Production Authority
Head Office

الجمهورية اليمنية
وزارة النفط والمعادن
هيئة استكشاف وإنتاج النفط
المكتب الرئيسي

Date :
Our Ref. :

التاريخ : ٢٠١١/١١/١٥
مرجعنا : ٢٠١١/٩٨١٥/٤

المحترمون

السادة/ مدراء عموم الشركات الاستكشافية والإنتاجية

بعد التحية ، ، ،

الموضوع :- سبائك قاز ون لتجارة والمقاولات وخدمات النفطية

يرجى العلم بالخدمات التي تقدمها الشركة المذكورة وإتاحة الفرصة لها في المنافسة للحصول على الأعمال والمناقصات وإدراجهم ضمن الطلبات الخاصة بشركتكم أسوةً بالشركات النفطية الخدمية الأخرى حسب القوانين واللوائح ..
مع العلم بأنها مسجلة في السجل التجاري برقم (2/31487) ورقم القيد في وزارة النفط والمعادن برقم (475) .

وتقبلوا خالص التحية ، ، ،

أحمد علي عبد الاله

رئيس الهيئة

سعة مع التحية

المحترمون

Suppliers for Oil and Gas, Petrochemical, Oil Refineries, Fertilizers, Power Generation, On-shore & Off-shore rigs, Mining, Textile, Cement, Steel Mills.

PRODUCT BRANDS

We have on our pool, renowned Companies/Industries that clearly give us the edge over competitors.

We believe in high quality product and assurance at every stage from sourcing of materials to delivery of products.

We specialize in top quality products as per the customer requirement and thereby ensuring reliability and competent technical support for our end users.

In this regard, we shall be able to offer you complete range of our top quality specialized products.

BRANDS THAT WE CAN SUPPLY BUT NOT LIMITED TO.....

- ABB Inc., U.S.
- AGCO, Anderson Greenwood Instrument Valves
- Alfa Laval, USA
- Allen Bradley
- Allied Bearings & Co.
- ALLOY PIPING PRODUCTS CANADA
- ALSTOM USA
- AMETEK, Inc. USA
- Ametek-Chandler
- AMOT USA
- APC Houston, USA
- ASCO / Emerson Industrial Automation
- Ashcroft Inc / Dresser Instruments
- Atlas Copco Compressors LLC. USA
- Autronica Fire and Security AS-North America
- Baker Hughes
- BATT Cables, USA
- BASSILUIGI ITALY

MISCELLANEOUS

POWER TOOLS

SABA'A GAS, is capable of supplying every Power Tool of almost all American / European brands. We offer an extensive range of products that are all certified for industrial or commercial applications.

Some of the Power Tools that we can assist you with are:

- Air compressor
- Alligator shear
- Angle grinder
- Bandsaw
- Belt sander
- Biscuit joiner
- Ceramic tile cutter tile saw
- Chainsaw
- Circular saw
- Concrete saw
- Cold saw
- Crusher
- Diamond blade
- Diamond tools
- Disc sander
- Drill
- Floor sander
- Grinding machine
- Heat gun
- Impact wrench
- Jointer
- Jigsaw
- Lathe
- Miter saw
- Nail gun (electric and battery as well as powder actuated)
- Needle scaler
- Pneumatic torque wrench
- Powder-actuated tools
- Power wrench
- Radial arm saw
- Random orbital sander
- Reciprocating saw
- Rotary reciprocating saw
- Rotary tools
- Sabre saw

- Sander
- Scrollsaw
- Steel cut off saw
- Table saw
- Thickness planer
- Trimmer
- Wall chaser

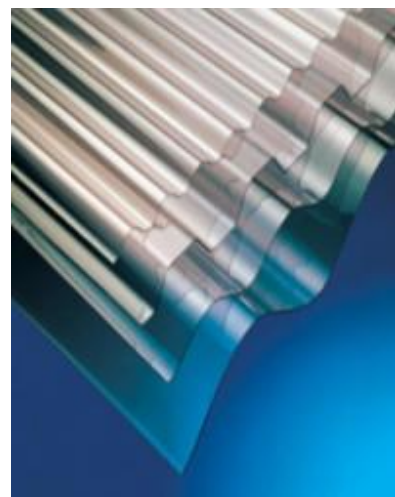

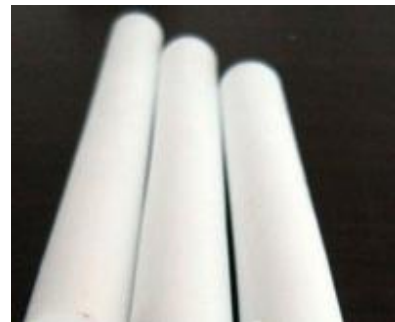

PLASTICS

SABA'A GAS, supplies a wide variety of engineering thermoplastics used in Oil Exploration & Sub-Sea Systems, Chemical Processing, LPG Gas Transfer and Oil Refining. We provide high-temperature, steam-resistant and chemical resistant material suitable for Valve Seats, Pump Housings, Lantern Rings, Gaskets and Seals. Many of the products are specifically designed to excel in corrosive environments without failure of degradation, even at high-temperatures.

Some of the plastics for industrial applications we are capable of supplying are:

- PVC - Type 1 Grey - Sheets & Rods
- Teflon - PTFE- Virgin Grade
- Polycarbonate - Machine Grade Plate & Rod
- Nylatron GS Nylon – Extruded
- Nylon - Extruded & Cast
- Polypropylene Sheets & Rods
- UHMW-PE
- HDPE Sheets & Rods
- LDPE - Low Density Polyethylene
- Kel-F – PCTFE
- PEEK - Virgin Sheets & Rods
- Techtron - PPS
- Phenolic - Grade CE, LE, X-Paper
- G-11 Glass Epoxy Laminate
- ABS - Forming Grade (General Purpose)
- ABS - FR Forming Grade Sheet (Flame Retardant)
- Royalite R59
- High-Impact Polystyrene – HIPS
- Polycarbonate GP Sheet - Glazing Grade
- PETG Sheet
- Teflon - PTFE Tubing
- FEP Tubing
- PFA Tubing
- Tygon - Beverage & Laboratory Tubing
- Versilic - SPX-50 High-Strength Silicone Tubing
- PVDF/ Kynar Pipe & Tubing
- FM 4910 Fire-Safe Plastics
- PVDF Film

EQUIPMENT FOR HAZARDOUS AREA

SABA'A GAS, supplies diverse range of intrinsically safe and explosion protected electrical and electronic equipment. We offer an extensive range of products that are all certified for use in potentially explosive atmospheres. We also provide a wide range of equipment for various requirements and applications including Process Automation, Monitoring and Control, Electrical Installation, Test, Calibration and Communication.

Hazardous Area Equipment includes Specialist Alarm, Signal and Control Equipment, for use in potentially explosive atmospheres and extreme environmental conditions.

Explosion Proof Electrical Items

We supply some of the following Hazardous Area Equipment

- PVDF Film
- Bells and Horns
- Cable Glands
- Call Point
- Continuous Lights
- Control Stations
- Control Systems
- Electronic Sounders
- Flashing Lights
- Heaters
- Junction Boxes
- Motorized Sirens
- Plugs & Sockets
- Sounders & Beacons
- Pushbuttons , Breakglasses Speakers
- Status Lamps

Control Stations & Junction Boxes

Control Stations and Junction Boxes intended for use in potentially explosive atmospheres. All these products are corrosion resistant and come in a wide variety of options, including:

Fire & Flame Detection

- PVDF Film
- Flame Detectors
- Intrinsically Safe Smoke and Heat Detectors

Portable Gas Detectors

- Multigas - Portable Gas Detector
- Single Gas - Portable Gas Detectors

Liquids Monitoring

- IR Open Path Gas Detector
- Catalytic Flammable Gas Detector
- Intelligent Flammable Gas Detector
- Electrochemical Toxic Gas Detector
- Intelligent Toxic Gas Detector
- Control Systems

We supply intrinsically safe interface modules, explosion-protected luminaries, emergency lighting luminaries, terminal boxes, switchgears, plugs and sockets that are specially designed for use under difficult conditions and in the offshore projects.

Explosion Protected Luminaries

- Handlamps
- Flourescent Light Fittings
- Emergency Lighting Luminaries
- FloodLights
- Discharge Lamps
- Pendant Light Fittings

EXPLOSION PROTECTED TERMINAL BOXES

- Junctions

Terminal Boxes & Intermediate Motor Terminal Boxes

EXPLOSION PROTECTED SWITCHGEARS

- Switchgears
- Safety, Control & Manual Motor Starter Switches

INTRINSICALLY SAFE PRODUCTS

EMERGENCY LIGHTING

- Explosion Protected Emergency & Escape Sign Luminaries
- Luminaries for Self Contained Battery Units

Explosion Protected Equipment for Offshore Projects

We supply explosion protected equipment for the offshore projects for almost every application in hazardous areas for the use for exploration, transport, processing and distribution of oil and natural gas.

- Switchgear
- Light Fittings
- Intrinsically Safe Components and Systems for Measurement, Control and Regulation

- Hazardous Area Alarms, Signals and Controls
- Explosion proof and Weather proof electrical equipment

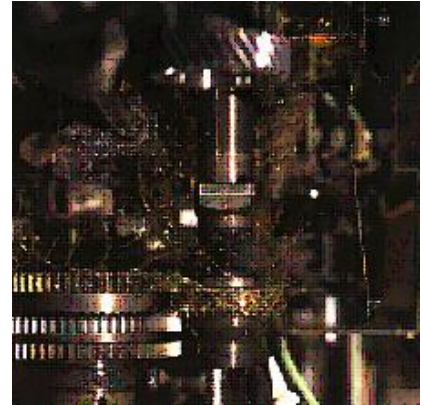

LUBRICANTS

SABA'A GAS, offers a wide range of lubrication products and equipment from leading industrial suppliers. From food-grade greases to automatic lubrication systems, we can provide the lubrication items you need to keep your operation running smoothly.

Some of the frequently used lubricants for industrial application we can supply are:

- Metal Treatment Lubricants
- Power lift Greases
- Fuel Treatment Fluids
- Cutting Fluids
- Soluble Cutting Oils
- Machining, Drilling, Tapping Oils
- Broaching, Ballazing Oils
- Sharpening & Wet Grinding Oils
- Anti Freeze Fluids
- Lithium Greases

Industrial, Gas Oil field, & Power Equipment & Parts we Supply

Our typical regular refinery, petrochemical, industrial gas & oil field equipment supplies

includes but is not limited to the following

'O' Rings
 Abrasives
 AC Parts and Refrigeration
 Accumulators and Parts
 Actuation
 Adhesives
 Air Clutches
 Air Compressors
 Air Seal Unions and Tubes
 Air Tools
 Alarms
 Anchors
 B.O.P. Hose
 Backholes
 Ball Valves - High and Low Pressure
 Barges
 Batteries
 Bearings
 Belts
 Blocks
 Blowers
 Boilers
 Bolts
 Boots
 Brackets
 Brass Hose Fittings
 Bushings Accessories
 Butt Weld Fittings and Flanges
 Butterfly Valves
 Cable Accessories
 Calibration
 Camlocks
 Casing and Tubing

Gaskets
 Gaskets and Gasket Material
 Gate Valves - High and Low Pressure
 Gate Valves Parts
 Gauges
 Gear Box
 Generators DC
 GPS
 Grating
 Grease
 Hammer Unions and Parts
 Hand and Power Tools
 Hand Cleaners
 Hand Tools
 Handling Tools
 Hangers
 Hardware
 Heat Exchangers
 Hose and Fittings
 Hydraulic and Industrial
 Hoses and Fittings
 Hubs

Hydraulic Adapters
 Hydraulic Fittings
 Hydraulic Hose

Pulsation Dampeners & Parts
 Pump Couplings
 Pumps & Pump Parts
 Pumping Tees
 PVC Pipe and Accessories
 Quick Connectors
 Quick Couplers
 Quick Coupling
 Quick-Disconnect Fittings
 Radial Ball Bearing
 Recorders
 Reducers
 Refractometers
 Regulators
 Retrofits
 Pen - Six Recorder
 Rig Parts
 Rims and Traps
 Ring Joint Gaskets
 Risers
 Roller Chain
 Rope and Catlines
 Manila Ropes
 Rotary Hose
 Rotary Pumps
 Rotary Table
 Safety Equipment and Products
 Safety Valves
 Sand Separators
 Sealant
 Seals
 Sensors
 Screens and Parts
 Shear Relief Valves

Cathead and Spinning Chain
 Catwalks
 Cementing Equipment
 Centrifugal Pumps and Parts
 Centrifuges
 Chain and Wire
 Chain, Roller
 Chains
 Change Hoses
 Chemical Pumps
 Chemicals / Fluids
 Clamps
 Cleaning Solvents
 Coiled Tubing
 Combination Nipples
 Compressors
 Connections
 Connectors
 Control Panels
 Controls
 Conveyer
 Conveyor Belting
 Couplings
 Crane Parts
 Crimping Tools
 Crown Blocks
 Crown Works
 Cutting Tools
 Cylinders
 Densimeter
 Detectors

Downhole Motors
 Downhole Tools
 Dresser Couplings
 Dresser Sleeves
 Drilling Pipes
 Drilling Rigs

Hydraulic Tools
 Hydraulic Units
 Desilters
 Desanders
 Industrial Hose
 Instrumentation
 Insulations
 Joints
 Kelly Cocks
 Kelly Drivers
 Kelly Hoses
 Kelly Spinners
 Kelly Valves
 Laboratory Equipment
 Level Switches
 Lifting Equipment
 Lightings, Explosion Proof
 Lubricants
 Machine Tools
 Manifold Fittings
 Manifolds
 Master Bushings
 Measuring Equipment
 Meters
 Milling Tools
 Mills
 Misc. Parts
 Monitors
 Motor Controller
 Motors
 Mud Agitators
 Mud Chemicals

Mud Gate Valves and Parts
 Mud Gauges
 Mud Hoses
 Mud Pump Hose
 Mud Pumps
 Needle Valves
 Nuts and Bolts
 Oil Coolers
 Orifice Fittings
 Paint and Accessories
 Pipes
 SMLS/SS/Welded/Fiberglass
 Pig Signalers
 Pipe Fittings
 Pipe Handling Equipment

Sheaves
 Skimmers Slip
 Solid Control
 Sorbents - Oilfield and Industrial
 Spare Parts
 Spiders
 Spill Control
 Stabilizer
 Starters
 Steam Traps
 Storage Shelves
 Strainers

Strainers Strains
 Straub and Dia Coup Coupling
 Stripper Rubbers
 Strut, Studs
 Stuffing Box Packing
 Subsea Equipment
 Sucker Rods
 Survival System
 Swings
 Switchgear Equipment
 Swivel Accessories
 Swivel Flanges & Joints
 Torque Converters
 Triplex Pump
 Tachometers
 Tanks
 Tanks Fuel / Water
 Tees
 Testers For Flash Point, Vapor
 Thermometers
 Thermowells
 Thickness Gauging
 Abrasimeter
 Threads
 Tong Dies and Slip Inserts

Drilling Tools
Duplex Pumps
Elbows
Electric Actuators
Electric Equipment
Electric Tools
Electrical and Lighting
Elevator
Engines
Expansion Joints
Explosion Proof Fittings
Explosion Proof Material
Fan Coils
Fasteners
Fiberglass Pipes & Fittings
Flanges
Float Equipment
Float Valves and Parts
Floor Mats
Flow Control Valves
Flow Indicators
Flow Level Analyzer
Flow Meters
Fluid End Expendables for Mud
Pumps
Fluid End Modules and
Accessories
Foot Valves
Gas Analyzer
Gas Scrubber

Pipe Wipers, Pipe Layer
Plug Valves
Polished Rod Clamps
Polished Rods & Liners
Power Crimpers
Power Tools
Pressure Gauges
Pressure Measurement
Transducers
Pressure Valves
Pressure Vessels
Protective Coating

Tongs
Transformers
Transmissions
Trees
Tubular Goods
Turbine Gas / Steam
Turnback and Wireline Rollers
Turnback Rollers and Units
Ultrasonic Meters
Unions
Unit Heaters
Vacuum Equipment
Valve Lubricants
Valve Positioners
Valves

Valves Parts
V-Belts
Vibrator Hose
Vinyl Tubing
Viscometer
Washdown Hose
Washers
Washpipe and Packing
Water Desalination
Welding Supplies
Wellhead/Components
Winches
Wire
Wire Rope and Assemblies
Wireline Rollers & Units

VALVES

We supply a wide range of valve products and parts for oilfield, refinery, petrochemical plant, marine and industrial applications according to API 6A, 6D specification for various pressure classes, sizes and applications.

We offer wide variety of corrosion resistant high pressure application valves and parts and supply best quality valves that are both reliable and repairable.

CHECK VALVES AND PRESSURE CONTROLLED VALVES

3-2 Way Jacketed Valves
 Actuation
 Angle Seat Valves
 Angle Valves
 API 6A & 6D Gate Valves
 Ball Diaphragm Valves
 Ball Valves for all Applications
 Bleed Valves
 Butterfly Float Valves
 Butterfly Valves
 Check Valves
 Choke Valves
 Control Valves
 Diaphragm Valves

Distribution Manifolds
 Double Block Valves
 Double Sealing Actuated Valves
 Drain Valves
 Dual Plate Check Valves
 Externally Pressure Controlled
 Foot Valves
 Force Pilot Operated Valve
 Gas and Air Valves

Sampling
 Slurry
 High Pressure Valves
 High Temperature Valves
 Instrument Control Valves
 Isolation Valves
 Knife Gate Valves
 Manifold and Gauge Valve
 Modular Valves
 Mono Flange Valves
 Motorized Valves
 Multi Valve Manifolds
 Needle and Plug Valves
 Needle Valves

Pinch Valves
 Piston Check Valves
 Plug Valves
 Pneumatic Actuators
 Pressure Reducing Valves
 Pressure Regulating Valves
 Pressure Seal Valves
 Relief Valves
 Safety Valves

Gate Valves
Globe Valves
High Integrity Globe
Instrumentation
Safety & Environmental

Solenoid Valves
Storm Valves
Sub-Sea Valves
Wedge plug Valves

Standards: API, ANSI, DIN, BS, GOST and other international standards

Materials: Cast Iron, Cast Steel, Forged Steel, Stainless Steel, Brass, Bronze, Malleable Iron & Ductile Iron, Aluminum, Special & Exotic Alloys, etc.

PUMPS & ACCESSORIES

..... offers a wide range of Pump products and parts (ANSI and ISO) to the Oil & Gas projects, refineries, petrochemical plants and marine application.

Centrifugal Pumps
Commercial Pumps
Diaphragm Pumps
Dispensing Pumps
Down Well Pumps
Downhole sucker rods
Pumps
Duplex Pumps
Fluid Power Pumps
High Pressure Pumps
Industrial Pumps

Measuring Pumps
Mud Pumps
Oil Well and Oilfield Pumps
Pump Parts and Accessories
Quintiplex Pumps
Reciprocating Pumps
Rotary Pumps
Submersible Pumps
Triplex Pumps
Vacuum Pumps
Vertical Turbine Pumps

We also offer a complete line of chemical pump, heavy duty process pumps, slurry pumps, vertical cantilever pumps, double suction pumps, vertical turbine pumps and many other types of pump and pump parts for a wide variety of services.

Water Glycol Pumps for Wellhead Safety Control
Pumps for Panel Systems
Deepwell Turbine Pumps
Positive Displacement Pumps
Hydraulic Components for Power Packs
Packaged pump and control skid

We offer more than 100 varieties of pumps designed for high volume and low maintenance operations. We are practically able to supply any Pump and Parts according to specific project requirement, drawings and parameters.

ANSI B73.1 Horizontal Pumps
ANSI B73.2 Vertical Inline pumps
API 610 Pumps for Refinery Service
Boiler Feed Pumps
Bottom Suction Pumps
Charge Pumps
Chemical Pumps
Frame Mounted End Suction

Multi Stage Double Suction Pumps
Mutlistage Canned Motor Pumps
Packaged Pumps
Seal-less Centrifugal Pumps
Seal-less Vertical Pumps
Self Priming Centrifugal Pumps
Side Suction Centrifugal Pumps
Single Stage Canned Motor Pumps

Pumps

Close Coupled Pumps

Deep Well Pumps

Diagonally Split Casing Pumps

Diffuser Type Pumps

Diffusers

Double Suction Horizontal Split Pumps

Double Suction Pumps

Double Suction Volute Type Pumps

Dry Pit Pumps

End Suction Centrifugal Pumps

Fire Pumps

Heavy Duty Process Pumps

Hermetically Sealed Pumps

High Pressure Water Supply Pumps

Horizontal Split Casing Pumps

Immersion Sump Pumps

Industrial Vertical Process Pumps

Multi Stage Close Coupled Pumps

Single Stage Centrifugal Pumps

Single Stage Close Coupled Pumps

Single Stage Double Suction Pumps

Single Suction Centrifugal Pumps

Single Suction Volute Type Pumps

Slurry Pumps

Solid Casing Centrifugal Pumps

Stainless Steel Centrifugal Pumps

Submersible Centrifugal Pumps

Submersible Disc Centrifugal Pumps

Vertical Cantilever Pumps

Vertical Immersion Vortex Sump Pumps

Vertical In-Line Pumps

Vertical Multi-Stage Pumps

Vertical Split Casing Barrel Type Pump

Vertical Turbine Pumps

Vertically Split Casing Pumps

Water Lubricated Circulators

Wet Pit Pumps

Pump Accessories

Pump Accessories
Access Doors
Alarms
Basket Strainers
Check Valves
Communications Connectors
Control Panels
Deep Well Packer Adaptors
Electrical Controls
Electrical Enclosure
Extension Leads
Filtration Devices
Fittings
Gas Ballast Adaptors
Gauges
Gear Reducers
Inlet and Exhaust Filters
Inlet and Exhaust Traps
Junction Boxes

Leak Detectors
OEM Pumps & Oil Pressure Monitors
Oil Treatment Kits
Piping

Pre-Assembled Pump Skids
Pump and Panel Switches
Pump Temperature Controls
Quartz and Powder Reference Leaks
Thermostatic Modulation
Traps and Catchpots
Trolleys
Tube Heat Exchanger
Vacuum Sniffer Probes
Valves

Fluid Handling and Hoses

Hoses

We supply a wide range of Hoses for fluids supply and transfer which are efficient enough to transfer water-base mud/oil-base mud at high pressure in large volumes.

- Composite Hoses
- Flexible Metal Hoses
- Hydraulic Hoses
- Pneumatic Hoses
- Rotary Hose

- Rubber Instrument Hoses
- Spiral Hydraulic Hoses
- Suction and Return Hoses
- TFE High Pressure Hydraulic Hoses

The metal hoses are offered in a variety of different alloys that meet or exceed even the most stringent service conditions that industry demands. The Teflon hoses are easier to move, handle and install with a comparable burst pressure rating. The Composite hose products are designed to meet the critical requirements of chemicals and fluid handling. Their multi-layer construction prevents catastrophic failures. Industrial Rubber Hose is generally used for air, water, steam, petroleum, and chemical transfer. This hose is also used for unloading oils and fuels from tank. The hoses that we supply meet and exceed various international quality standards.

- BOB Hoses
 - Composite Hoses
 - Fire Hoses
 - Heavy Duty Hoses
 - High Pressure Drilling Hoses

 - High Pressure Hydraulic Hoses
 - High Pressure Water Blast Hoses
 - Oil Suction and Delivery Hoses
 - Stainless Steel Metallic Hoses
 - Water Suction and Delivery Hoses
-

Equipment for hazardous and non-hazardous liquid, gas and dry bulk products.

We supply equipment for both hazardous and non-hazardous liquid, gas and dry bulk products.

- Blowers
- Compressors
- Control Systems
- Fittings
- Hydraulic Drive Equipment
- Loading and Unloading Arms
- Loading and Unloading Truck

- Marine Transport in the Petroleum
- Mobile Hydraulic Power Application
- Pumps
- Tank Trucks
- Tank Valves
- Transportation Equipment

Supplies are for application in chemical, dry bulk, LPG, liquid waste, cryogenic liquids.

Loading Arms & Products

- API Couplers
- Floating Suctions

- Grounding Equipment
- Loading Arms

- Skimmers
- Swivel Joints

Pipes

Pipes - Standard and Line Pipe

We can supply practically all kinds of Line Pipes that meet specific Oil & Gas/Petrochemical project requirements and mainly for sour/ chemical services. We also supply complete range of Pipes and Tubular products.

- Alloy Pipes
 - Exotic Tubings
 - Casing & Tubing
 - Coiled Tubings
 - Drill Pipes
 - Fiber Glass Pipes
 - Industrial Pipes
 - Large OD Pipes
 - PE Pipes
 - Pipes for Boilers
 - Pressure Tubings
 - Stainless Steel Pipes
 - Structural Pipes
 - Heat Exchangers Tubes, etc.
-
- Mild Steel/Carbon Steel Pipes

Line Pipe

We offer a wide range of Line Pipe of different sizes and grades, wall thicknesses, pressure classes, coatings and accessories.

Specification:

API 5L , ASTM, A53, A106 Grade A or Grade B and other specifications

Grades :
X42 - X80

Dimensions:
OD - 1/8" - 120"

SMLS Seamless Line Pipe

Specification

API 5L , API 5A, PSL1, PSL2, ASTM A106, ASTM A53

Dimensions

OD to 28", WT to 4"

Grades

X42 - X80

Standards

API, ASTM, DIN, ISO, NFA, EN, EEMUA, DNV, GOST and for specific project requirement according to required specifications.

Welded ERW Pipe

Spiral or Longitudinal - Continuous Weld, SAW and DSAW, HFI, CDW, EFW

Available in a wide range of specification, Class, Grade, OD and Wall Thickness

ERW Pipe custom steel in specs API 5L , ASTM, AWWA, ASME, and API 5L through X 70 in various sizes

Tubular Products

Tubular products that we supply include a wide range of high quality seamless tubes (SMLS) and welded tubes (ERW), fittings and flanges mainly to Oil & Gas exploration, petrochemical, power projects, etc.

Material

SS, Alloy, Ni, Cu, Ti, etc .stainless steel, duplex, nickel alloy, and other specialty grades of tubing and pipes.

Tubular Products

Pipe Fittings, Flanges, Connections, Couplings, etc.

Accessories

Handling Equipment, Shrink Sleeves, Bends, Elbows, Tees, Liners, Repair Equipment, Pigs etc

Pipe Fittings and Flanges

Petromen is a regular supplier of Pipe Fittings and Flanges of various specifications, size, grade and materials. Our supplies include standard grade Couplings, Sockets, Nipples, Bushings, Nuts, Caps, Plugs, Socket and Hose fittings, etc.

Materials

Forged carbon, CS, SS, High-yield, Al, CU, Brass, Bronze, Malleable and Cast Iron, Chrome , Moly, PVC, CPVC, exotic alloys, Hastelloy, Inconel, Monel, titanium or other non ferrous materials.

Pipe Fittings

Butt Weld Fittings, Threaded Fittings and SMLS Fittings

We supply a wide range of Fittings - 45's, 90's, 180's, Reducers, Couplings, Caps, Y's Tee's, Laterals, O-lets, Plugs, Unions, etc.

Dimensions
OD 1/4" - 102"

Schedule
10 - XXH 150# - 9000#

Grades

WPB, WPC, Y42, Y65, WP11, WP22, WP91 F304, F347

Forged Fittings

ASTM A-105 ASTM A-182 F-304, F304L,
F-316, F-316L 150#, 300#, 2000#, 3000#,
6000#, Various OD & WT

Weld Fittings

A-234 WPB Carbon Steel NACE
A-403 WPS, WP, WPX 304L,
316L A-774 304L, 316L
Socketweld Fittings for high
pressure systems

Threaded Fitting

High quality fittings
made of premium tube
and bar material for
high pressure system

Pipe Flanges

We supply all steel grades and pressure classes according to ANSI, API, BS, standards. Our regular supply includes all types of flanges, Lap-joint, Slip-on, Welding neck and Blind flanges in standard grades.

Dimensions - OD 1/8" - 102". WT ranging from MSS and ANSI standards

Grades - F5, F91, Y42, Y65, F304, F347

Schedule - 10 - XXS 150# - 2500# SA-105, SA-182, SA-350, SA-694

Strainers

Y- type, Tee, Basket, Cone, Flat, etc.

Sealing Products

Fasteners, Bolts, Studs and Gaskets

We regularly supply fasteners, threaded studs, double-end and tap-end studs, combination studs, nuts, bolts, screws, washers etc. of all pressure ratings, various specifications, grade and materials. We supply a full range of high tensile stud bolts (OD 1/2" to 31/2") with a versatile range of gaskets including compressed fiber, klinger spiral hound, graphite self centering or centering ring type.

- Anchor Fastener
- Expansion Fastener
- Expansion Anchor Fasteners
- Expansion Anchor Bolts
- Expansion Anchor Bolt
- Machine Hex Head Bolts
- Machine Studs
- Standard and Metric
- Gaskets, Neoprene, Spiral Wound
- RTJ
- Thru Bolts
- SS Anchor Bolts
- Eye & Hook Anchors Bolts

Nipples, Swedge Nipples

Grooved, Transition
Plain Both Ends

Beveled Both Ends
Threaded Both End

LIGHTING & ELECTRICAL PRODUCTS

..... supplies a wide range of Electrical Equipment and Products. We supply quality lighting products for hazardous and difficult environments such as lighting fixtures both interior and exterior for all Oil & Gas / Petrochemical Plants Applications. Our regular supplies include various types of electrical, telecom, control instrumentation, thermocouple cables and generally all kinds of electrical switchgear, hardware etc.

Electric Heaters
 Electric Motors and Drives
 Electrical Cables, Lightings
 Electrical Installations and Inspections
 Electrical Motors

Electrical Switchgears
 Fiber Optics

Generators
 Generator Controls
 Industrial High Voltage Electrical Products
 Industrial Medium Voltage Electrical Products
 Jointing Kits
 Junction Boxes

Large AC/DC Motors
 Lithium Batteries

Marine Electrical Motors

Pumps
 Standby Generators

We supply automation software and services to the Oil and Gas production and processing industries, Petrochemical industries that require the automation systems, to run operations productively. We deliver complete electrical and automation systems to the oil & gas and petrochemical projects.

Process Controls

We also offer through their associates flow control solutions for the most demanding applications in this industry segment. Critical services rely on ESD valves to provide dependable performance in emergency situations. Testing and monitoring system for these applications helps ensure that emergency shutdown (ESD) and venting (ESV) valves will always perform properly when needed.

Oilfield Instruments and Tools

..... supplies a wide range of instrumentation, process control and automation systems including Electronic Pressure Transmitters, Pressure Gauges, Laboratory Pressure Gauges, Calibration Systems, Pressure Switches, Diaphragm Seals, Thermometers, Thermo-wells, Thermocouples and Resistance Temperature Detectors, etc.

We offer a wide range of specialized instruments for the Drilling Monitoring, Mud Logging, Gas Detection, etc.

Actuators

Pneumatic Cylinder Actuators
Spring-Diaphragm Rotary Actuators

Pneumatic Double Diaphragm Actuator
Positioners and Accessories

Sensors

Pipe and Cable Locators
Portable Gas Detectors
Fixed Gas Monitor
Fixed Gas Sensors
Calibration Gas
Metal Detectors
Sheaf Fault Locators

Electronic Markers
Water Leak Detectors
Pressure and Flow Data Loggers
Pressure Reduction Valve Controllers
Turbidity Meters
Streaming Current Monitors
Ultrasonic Level Indicators

Plant Automation Equipment

LCD display units for computer interfaces

Pump off controllers

Transient protectors

Well head monitors

Automation and Control

Ball Valves
Plug Valves
Controllers
Regulators
Flow Sensors
Flowmeters

HEAT EXCHANGERS & ACCESSORIES

We have a long trusted business relationship with a renowned Heat Exchanger manufacturer, and this gives us an edge over other suppliers by providing fast, efficient and competitive fabrication options to our customer. From ASME certified to non-certified equipment; from Carbon Steel to Stainless Steel to Exotic Alloys; from motor driven to compressor driven to natural draft, we are your complete source for your Air Cooled Heat Exchanger equipment.

All our equipment is designed to meet your exact process and project requirements and undergo our thorough quality inspection to ensure our customers complete satisfaction.

Equivalent Replacement Bundles

Regardless of the manufacturer, we are able to provide O.E.M. replacement coils to fit existing structures. Our coils are fully designed and tested to insure satisfactory performance. We can also re-rate existing coils to increase working pressure or temperatures as allowed by CODE. We specialize in fast delivery to meet turn-around or emergency situations.

Process Coolers

We offer a full range of electric motor driven vertical and horizontal draft process coolers that are custom built to your exact requirements. Ranging from 3'x3' to 16'x60', we can design the equipment for you.

Compressor Coolers

We offer compressor coolers in both Vertical and Slanted Coil designs. We are also able to custom design multi-coil units to handle multiple stage gas and water applications on the same unit.

Ambient Coolers

Our ambient coolers are made to exacting standards to insure maximum cooling from natural draft flow. They are also available with coil guards that improve cooling and protect against weather damage. We can also provide fabricated custom heat exchangers & complete process equipment according to the user requirements .

WELDED FINNED PIPE & TUBE

High Frequency Helical Serrated Finned Pipe & Finned Tubes

Our source produces Welded Finned Pipe and Tubes in many different diameters and fin configurations and metal combinations to meet your heat transfer needs.

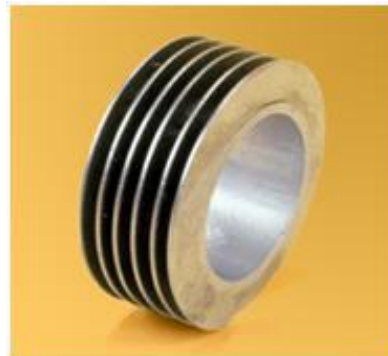

Tube Sizes:	3/4" O.D. to 8" NPS (8.625" O.D.)
Fin Heights:	3/8" to 1 1/2"
Fin Thicknesses:	20 ga. (.035") to 12 ga. (.102")
Fin Pitch:	1 to 7 fins per inch
Material:	Any material or combination that can be resistance or arc welded.

High Frequency Helical Non-Serrated (Solid) Finned Pipe & Finned Tubes

We can also supply Welded Finned Pipe and Tubes in many different diameters and fin configurations and metal combinations to meet your heat transfer needs.

Tube Sizes:	3/4" O.D. to 8" NPS (8.625" O.D.)
Fin Heights:	3/8" to 1 1/2"
Fin Thicknesses:	22 ga. (.035") to 12 ga. (.102")
Fin Pitch:	1 to 7 fins per inch
Material:	Any material or combination that can be resistance or arc welded.

Material of Construction

Common pipe and tube material: Carbon Steel, Chrome Moly, Stainless Steel and Nickel Alloys which can be furnished in lengths up to 100 feet.

Common fin materials are: Carbon Steel, 304, 316, 321, and 409 Stainless Steel.

CUSTOM FINNED TUBE PRODUCTS

We can supply the following products catering to the user requirement with standard, as well as customs specifications.

- Solder Dipped
- Root Solder Dipped
- Brazzed Finned Tubes
- Longitudinal Solder Finned Tubes
- Turbulators
- Integral Belled End Tubes
- Tube Supports
- Header Plugs / Gaskets
- Tube Plugs
- Tube Expanders, Cutters & Cleaners
- Copon Coating

AIR COOLED FIN TUBES

- L foot Tension Wound Finned Tube
 - Embedded Fin Tube
 - Extruded Fin Tube
 - Edge Tension Wound (K-Fin) Finned Tube
-

BEARINGS

We can supply practically all types of bearings of any Brand. The bearings are available in inch and metric sizes and are manufactured from today's most popular and high performing materials, including: Stainless Steel Bearings, 300 stainless steel, 400 stainless steel, Chrome steel and ceramic.

- Stainless Steel Bearings (300 stainless steel, 400 stainless steel)
- Chrome steel
- Ceramic
- Radial/deep groove bearings (Single row, Double row)
- Angular contact bearings
- Thrust bearings
- Machine tool bearings
- Needle roller bearings
- Self-aligning bearings
- Airframe bearings
- Miniature bearings
- Instrument bearings
- Inch and metric bearings
- Thin section bearings
- Torque tube bearings
- Industrial bearings
- Duplex pair bearings
- Flanged bearings

We have good working relationships with almost all the leading Bearing manufacturers, and can supply the most common brands.

- NTN
- FAG
- NSK
- NHBB
- NMB
- IJK
- Barden
- Timken
- Torrington
- Fafner

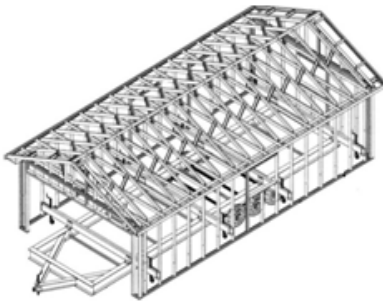

STRUCTURAL STEEL AND BUILDING MATERIAL

..... can supply all kind of structural steel & building Material of all grades, types & sizes. We can also provide Pre-fabricated buildings from our sources renowned In manufacturing this highly specialized structural steel.

Some of the most commonly procured items in this Category are :

- M.S. Angles
- M.S. Beams
- M.S. Channels
- M.S. Plates
- M.S. Bars
- M.S. Squares / M.S. Flats
- M.S. Bright Bars
- TMT Re Bars (SAIL and RINL Plants)
- M.S. & Carbon Wires

Prefabricated Building solutions include complete material like Base Conditions, Rigid Frame Systems, Secondary Framing & Bracing, Panels, Fasteners & Trims, etc for nearly all the construction needs like Workshops, Garages & Offices

GASKETS

Over the years, has developed expertise in facilitating our clients to provide almost all kinds of Gaskets including standard as well as custom fabricated gaskets.

Standard Flange & Custom Sizes and Shapes

- Compressed Non Asbestos
- InterfaceÂ (CMP4000, CN705, CS301, N8090, N8092, N8094)
- Carbon Fiber Sheet
- Graphite Sheet (Plain and Inserted)
- Teflon
- Gylon

Our sources have the capability to die cut, flash cut, waterjet cut, stripping, vulcanizing; thus helping us to give an edge over our competitors when it comes to custom requirements.

Packing

T100 FLAX PACKING

T105 FLAX PACKING TEFLON IMPREGNATED

T205 SYNTHETIC TEFLON PACKING

T350 VIRGIN TEFLON PACKING

T400 GRAPHITE PACKING

T500 NON ASBESTOS GRAPHITE IMPREGNATED

FIBERGLASS PIPES & FITTINGS

FIBER GLASS DETAILING, SUPPLY & INSTALLATION

We offer the latest technologies in High Pressure Fiberglass Pipe detailing & installation. Our equipment has been designed exclusively for the efficient installation of High Pressure Fiberglass Pipe and has been proven in the field.

Our crews have the experience that will insure efficiency in running High Pressure Fiberglass Pipe and can offer assistance in pipeline planning and design that will produce the best results for your project.

In addition to experience gained in the field, our personnel have participated in the design of pipe manufacturing equipment as well as research and development to determine the proper torque for all types of High Pressure Fiberglass Pipe installations.

If you require a complete turnkey solution for your fiberglass needs, contact us and we will ensure that we facilitate you right from the design phase all the way up to the post-commissioning process.

In addition to that if you require any kind of specialized services for sour/chemical services, then give us a chance to help you out. Steel equipment has always been the weakest link in a chemical service and fiber glass is the only technology till date to cater to these problems.

Some of the related specialized pipes laying services offered by us are:

- Pipe Laying

Emulsion Lines

CO2 Injection lines

Salt Water Injection Lines

Flow Lines

- Trenching
- Boring
- Manifolding
- Underground Service Locations
- Pipeline Detailing & Design
- Project Management
- Down-hole installation
- Production Plant Piping

FIBER GLASS material is the most ADVANCED CUTTING EDGE TECHNOLOGY and THE ONLY COST-EFFECTIVE solution for chemical/oil field services on a long term basis. Industries have utilized and witnessed immense advantages of replacing steel pipes with fiber glass and continue to enjoy maintenance/replacement free service for years. Some of the major advantages that FIBER GLASS has over Steel material are:

- DURABILITY & EXTENDED SERVICE LIFE OF FIBER GLASS PIPES IS MUCH LONGER THAN STEEL, WHEN PUT TO SERVICE UNDER CHEMICAL / CORROSIVE ENVIRONMENT. Consequently, it becomes immensely cost-effective as FIBER GLASS PIPES NEED NOT BE REPLACED AT THE SAME FREQUENCY AS STEEL PIPES. Since Fiber glass pipes are essentially made of glass, hence they are practically immune to corrosion principles. Since rust is basically nothing but an oxide of steel itself, it cannot formulate on anything which does not have steel in it. This is exactly the reason fiber glass pipes are the best cost effective and long term solution in corrosive applications.

- ANOTHER OUTSTANDING QUALITY OF FIBER GLASS PIPES BEING THE ABILITY TO WITHSTAND HIGHER PRESSURES THAN THE RATED PRESSURES, A CHARACTERISTIC THAT STEEL PIPES HAVE YET TO OFFER.

The Tensile Strength (design) offered by Fiber Glass material at 200F is 1920 psi, whereas it can bear up to 7,680 psi under the same temperatures. A bearing capacity by 400%, a capability unmatched by any other industrial material.

- DUE TO ITS CONSTRUCTION, FIBER GLASS PIPES ARE VIRTUALLY CORROSION PROOF AND THE CONCERNS OF PINHOLE RUSTING OR ANY CORROSION ATTACK ARE VIRTUALLY ZERO.

In ferretic material, a single pinhole or a scratch is enough to create a rust patch so huge that makes the whole pipe section replacement, INEVITABLE. This huge replacement cost due to a small pinhole fault is saved in fiber glass as corrosion has no effect on fiber glass.

- DUE TO ITS EXCELLENT QUALITY OF BEING ELECTROLYSIS PROOF, FIBER GLASS ELIMINATES THE EXHORBITANT COSTS ASSOCIATED WITH CATHODIC PROTECTION ON STEEL PIPES.

Over the years, industries have invested in huge amounts for cathodic protection for their industrial pipes. Fiber Glass pipes totally eliminates this phenomenon as glass is not a conductor of electricity, hence the overlaying of fiber glass pipes nearby does not produce any like or opposite charges and hence there is no electrolytic process on these pipes.

- GLASS FIBER PIPES CAN BE CUSTOM FABRICATED, WHICH RESULTS IN LESS JOINTS THAN STEEL PIPES. YET ANOTHER ASPECT OF ITS COST EFFECTIVENESS, AS COMPARED TO STEEL PIPES.

Over the years manufacturers have developed techniques in designing the fiber glass routing & laying processes to such an optimum level that it minimizes costs of connecting material like Blocks, Elbows, Tees, etc. Due to fiber glass's unparalleled tensile strength, they are custom manufactured in such a way to eliminate overhead costs of interconnecting equipment.

- FIBER GLASS LAYING PROCESS IS MUCH FASTER THAN STEEL PIPE LAYING, WHICH TRANSLATES IN LESS MAN HOURS, HENCE ANOTHER FACTOR THAT MAKES FIBER GLASS MORE COST EFFECTIVE THAN STEEL PIPES.
- FIBER GLASS PIPES MEET ALL HYDROTEST STANDARDS AND MATERIAL TEST STANDARDS AS CONVENTIONAL STEEL PIPES.

Fiber glass pipes are manufactured according to all the ASTM & API standards that apply to conventional steel pipes. For example, clients can refer to ASTM D2996 Designation Code or ISO 15840 Designation Code for Fiber Glass characteristics and usage in their specific area.

Among the many approvals that Fiber Glass manufacturers have, some of the major renowned ones are ABS (American Bureau of Shipping), Lloyd's Register, United States Coast Guard (USCG), Det Norske Veritas and Bureau Veritas.

- COMPATABILITY WITH ALL UNIVERSAL STANDARD FITTINGS, HENCE MAKING INTER-CHANGEABILITY WITH ALL STEEL FITTINGS POSSIBLE.

In addition to the perfect compatibility shown by fiber glass material for almost all interconnecting material, manufacturers also offer joining systems of fiber glass material itself. Hence making a complete process connection corrosion proof and lifelong durable.

- APPLICATIONS OF FIBER GLASS PIPES/FITTINGS CAN BE IN THE FOLLOWING AREAS :
 - Firewater Systems
 - Process Lines
 - Cooling Water
 - Potable Water
 - Process Lines
 - Cargo Lines
 - Drains
 - Vent Lines
 - Salt Water Supply Lines
 - Sprinkler Systems
 - Fresh Water Lines
 - Sanitary Lines
 - Sounding Tubes
 - Scuppers
 - Conduit
 - Bilge Piping

"As this technology is yet to be introduced in many markets, we felt the need and have the honor to join INTERNATIONAL SALES TEAM with M/S TURNKEY OILFIELD SERVICES, USA to provide complete solution in Fiber Glass Technology in these parts of the world."

WE ARE NOW CAPABLE OF FACILITATING THE NEEDS OF OUR CLIENTS, STARTING FROM ENGINEERING, MATERIAL PROCUREMENT AND INSTALLATION, A CAPABILITY TO OFFER OUR QUOTES ON 'TURNKEY BASIS'.

We welcome your BUDGETARY / PROCUREMENT / PLANNING inquiries and assure you of our most prompt attention with our most competitive pricing. Contact Us for more information & discussion.

HEAT EXCHANGERS & FINNED TUBING

Heat Exchanger by far is the most commonly used phenomena used by industries worldwide in a lot of different applications. That is why Inc, have partnered with Tex-Fin to provide all you heat exchanger requirements.

We are equipped to handle any size production run with proven ability to produce a time tested superior product. This coupled with strategic manufacturing location near the Port of Houston and Bush Inter-continental Airport along with convenient access to truck and rail makes us the one to call when expedited deliveries are needed to meet your emergency needs.

We offer a variety of extended surface Finned Pipes and Finned Tubes to exact specifications that provide maximum service and heat transfer performance. We have the added capability to supply assemblies with ASME code fabrication to either "U" or "S" stamp certifications; bending capabilities are also offered for finned J-caners, hairpins, serpentine and helical coils.

Tex-Fin is the only finned tube manufacturer in the Gulf Coast area using High Frequency Welding equipment to produce welded finned tubes. High Frequency Welding is far superior to the M.I.G. (GMAW) Welding used by other finned tube manufacturers in the area. High Frequency Welding (HFW) produces virtually no heat effected zone, minimizing or eliminating changes to the metallurgic properties of the base pipe or tube. This means there is no need to heat treat the completed finned tube.

We offer the following products:

- Tube for High Temperature Applications
- Air Cooled Finned Tubes
- Custom Finned Tubes, Applications & Accessories
- Custom Heat Exchanger & Accessories

Our services for Heat Exchanger piping include:

- Design
- Consulting
- Testing
- Cold Weld Facilities
- Cutting & Beveling
- Bending

In addition to these, we have the capability to design, manufacture & install complete Heat Exchange according to custom requirements. We are dedicated to providing fast, efficient and competitive fabrication options to our customer. From ASME certified to non-certified equipment; from Carbon Steel to Stainless Steel to Exotic Alloys; from motor driven to compressor driven to natural draft,, is your complete source for your Air Cooled Heat Exchanger equipment.

All our equipment is designed to meet your exact process and project requirements and undergo our thorough quality inspection to ensure our customers complete satisfaction.

Contact Us and let us know of your process requirements and we will ensure we meet your requirements.

Drill collars

Drill collars we produce is made from 4145H forging or rolling modified steel

We provide free thread protector for both pin and box.

Different sizes we produce is from 3 1/2" to 11", our strength is large size like above 9" and small size like below 4 3/4".
