Save Both
Time & Money

4drentals.com

4D Reamer Rentals LTD has over 1200 chamber reamers in stock and ready to ship, along with headspace gauges and many other gunsmithing tools. Our **tools are well maintained and inspected before and after each rental** to assure you receive the highest quality gunsmithing tools. Our staff has over 35 years of professional gunsmithing experience, setting us apart from the competition.

All rentals are for **seven (7) days in your hands**. With shipping time, tools are expected back in our facility in seventeen (17) calendar days. Standard Shipping is via Priority Mail® (USPS). We can ship other methods if you so desire.

Late Fees

1. Clients are welcome to request a second seven days (extra week) if they communicate this before the tools are late, a second week fee is a added fee of 1/2 the first weeks rental fees. I.E. If it rents for \$34.00 the second 7 days is \$17. ***This requires communication with 4D, it is not automatic!***
2. Overdue rentals are those which take longer than the allotted days to return to us. Normal rental with shipping both ways is 17 days as listed elsewhere in the rental agreement.
3. Tools **more than seven (7) days** past the due date an addition full rental fee is added to the invoice.
4. See Montana Code **45-6-309** for the remainder of late fees and collection information.

45-6-309, Montana Code Annotated. Failure to return rented or leased personal property. (1) A person commits the offense of failure to return rented or leased personal property if, without notice to and permission of the lessor, he purposely and knowingly fails to return such property within 48 hours after the time provided for such return in the rental agreement, provided that clear written notice, in bold print, of the date and time when the return of the property is required and of the penalty, prescribed in this section is stated in the rental or lease agreement.

(2) Presentation to the lessor by the lessee of identification that is false for the purpose of obtaining a rental or lease agreement constitutes prima facie evidence of commission of the offense.

(3) After the rental or lease period specified in the rental or lease agreement has expired, failure to return rented or leased personal property within 72 hours of written demand by the lessor sent by certified mail to the renter or lessee at the address given at the time of entering the rental or lease agreement, constitutes prima facie evidence of commission of the offense.

(4)(a) A person convicted of failure to return rented or leased personal property not exceeding \$300 in value shall be fined not to exceed \$500 or be imprisoned in the county jail for a term not to exceed 6 months, or both.

(b) A person convicted of failure to return rented or leased personal property exceeding \$300 in value shall be imprisoned in the state prison for a term not to exceed 10 years.

ALL TOOL RENTALS ARE FOR SEVEN

(7) DAYS (does not include shipping time).

You must specify the caliber and type of pilot on piloted tools. On the facing tools that come in various diameters, it is the client's responsibility to state the diameter of tool as well.

Orders placed online with a card are charged at the time the order is processed. Deposits (repair/replace) fees are not charged but are shown so that you know your responsibility if the tools are lost or damaged.

When ordering by phone, fax, or email, rentals on a credit card will be billed after the tool is returned and inspected. In all rental methods, if the tool is damaged, lost or broken; your card will be billed for the rental fee plus a repair charge or the damage deposit amount, whichever is less.

Deposits will be forfeited on damaged tools but if the repair cost is less than the deposit, you will be refunded the difference. Not returning the tool will also forfeit the deposit and you will still be charged a rental fee. Repair costs are always in addition to the rental fees. If you order with a credit card or debit card you are also agreeing that if tools are lost or damaged in the process of the transaction 4D has the right to charge your card for the repairs, replacement, or the full deposit values published on our price list and web site.

Ordering tools from a mail order rental agency is no different than renting tools from your local tool and machine rental company. You are responsible for the tools and are paying for the time that they are out of inventory as no other client can have the benefit of their use while you have them.

TOOLS ARE EXPECTED BACK IN OUR FACILITY SEVENTEEN (17) DAYS FROM THE DATE WE SHIPPED THEM TO YOU. This allows plenty of mail time in both directions. *Going to be late? Let us know we will work with you. We charge 1/2 (one half) the rental fees for a second week, but you must contact us!*

Note: The complete rental agreement is posted on our web site so that you can review the complete agreement at any time. You are welcome to request a printed copy of the agreement as well or Email: reamers@4drentals.com and ask for a copy of the rental agreement, we will gladly supply one.

Stock Bedding Supplies

Remington 700 Gunsmith's Pillar kit.

Holds this pillars aligned to the action during the bedding process. Includes a set of adjustable pillars and the tools you see here. Tools are reusable. **\$47.95**

Remington 700 adjustable pillars

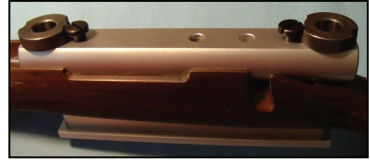

Buy stand alone or use to refill the Gunsmith's pillar bedding kit. **\$ 24.95**

We rent out the tools to install these pillars too.

This stock drilling jig is by far the best method for drilling a Remington 700 stock to accommodate our adjustable pillars or pillars made by any one. Each kit comes with a specially modified drill that will not split or damage the stock. The drill bushing bar is the same diameter as a Remington action and is rigidly attached to the stock. It is actually a superior method to drill a stock than a drill press or even a milling machine.

Rental \$40 Specify Short Action or Long Action.

Forster, Inletting Guide Screws

These simple tools allow you to keep the barreled action properly aligned in the stock during the inletting process. Without them it is very difficult to get a tight inlet. **\$8.95 per set.**

98 Mauser
Springfield 03, 03-A3 and Krag actions
Enfield 1914, 1917 and SMLE
CZ 550 or 7.7 Jap Arisaka
Remington 700, 721, 722
Winchester 70 or 54

JERROW'S INLETTING BLACK The standard among stock makers since 1963! Does not dry out or soak into the wood. Leaves a good clear mark, yet cleans up easily. A small amount goes a long way. Positively the best products on the market for precision hand fitting of gunstocks, knife handles, cabinet furniture; all precision inletting. Inlay / fit parts to wood with ease.

\$14.85

Forster, Stock Makers Hand Screws

These simple tools allow you to keep the barreled action properly aligned in the stock during final fitting.

Recommended by stockmakers, these Forster Stockmakers Hand Screws are used in the final accurate fitting of the stock to the action. These screws are precision made and hardened to make repeated trial fittings. Set of two.

To save time and to avoid damaged guard screws or a ruined stock, don't attempt to inlet a stock without the proper stockmakers hand screws.

98 Mauser
Remington 700, 721, 722
Winchester 70 or 54

\$19.95 per set

www.4drentals.com

Each book in the series will provide a highly detailed and Technical explanation of the subject at hand in a way that any gun lover will be able to understand, whether professional or hobbyist.

These are carefully assembled text books that some gunsmith schools are already adopting.

Signed copies available from 4D Reamer Rentals LTD.

Current titles are:

- Chambering Rifles for Accuracy \$39.95
- Understanding Headspace \$24.95
- Chambering for Ackley Cartridges \$24.95

DVD Reloading from A-Z

Most people learn reloading strictly from a mechanical ‘monkey see, monkey do’ view point. Nobody ever explains to them WHY operations are performed a certain way or WHAT value they have.

when fired and when it goes through the reloading process. This information will make you an informed reloader and if you’re a gunsmith, will help aid in diagnosing problems with your clients’ reloads and guns. The full course runs nearly 8 hours. AGI has added a bonus, Darrel Holland’s, Advanced Reloading Techniques. Our Price \$295 (without Certification)

In this course Fred shows you, from a gunsmith’s perspective, what is happening to the brass

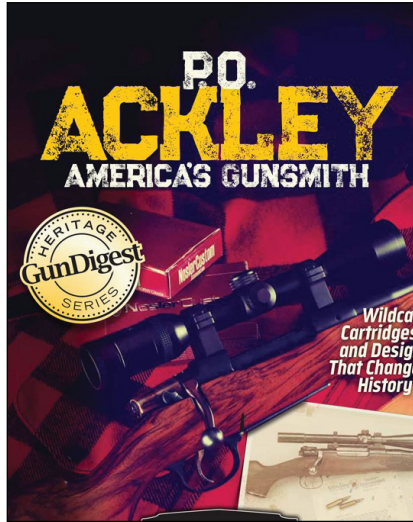

Rental Protection Plan is optional, if not purchased all standard [rental terms](#) apply to every order. The Rental Protection Plan fee is \$75 per unit for up to \$300 (average value of one reamer and set of gauges) in repair or replacement costs.

For full information on this plan visit our web site at: 4drentals.com you will see the Rental Protection Plan in the upper right corner of the page. Or email us for a full explanation: reamers@4drental.com

P.O. Ackley, America's Gunsmith

Fred Zeglin's extensive research highlights not just the history of cartridge and rifle development, but a never-before-seen look at a humble man who influenced nearly everything we know about shooting and ballistics today. Ackley's ideas on reloading, rifle accuracy, safety, cartridge choice, and wildcats are just as relevant for modern "gun cranks" as they were in Ackley's heyday.

This hardcover, 256-page study of P.O. Ackley's work illustrated with never before seen photos from the personal archives of friends and family.

From the dusty, oil-covered machine shops of Ackley's early years, to the modern-day firearms chambered in Ackley's timeless wildcats and improved cartridges, the full-color center section brings to life this colorful character and his accomplishments in gunsmithing and cartridge development. If you think you know about P.O. Ackley, you will be surprised how this book tells you so much more.
