Home Care Beds

- Beds
- Mattresses
- Bed Rails

The Invacare IVC™ Home Care Bed delivers long-term savings over the lifecycle of the bed. It is durable and washable, reducing repair and cleaning costs, while its interchangeability reduces inventory. All of the IVC bed features have been designed to make the bed easier to deliver, set up, clean and maintain.

Features

- IVC bed components – universal bed ends, headspring and footspring – are interchangeable with the original Invacare® Home Care Bed
- Universal bed ends simplify inventory – store just one universal bed end instead of three different ones
- Universal bed ends can be used as either the headboard or footboard on any Invacare bed (semi-electric, full-electric or manual, IVC or original) with the use of the IVC drive shaft with silver decal
- High-impact bed end panels are 22 times stronger than fiberboard, and have better impact and scratch resistance
- DC low voltage motor system is faster, quieter and lighter than traditional AC systems
- Motor system, bed frame, hand pendant and bed ends are completely washable with standard water pressure (power washing is not recommended); motor system with waterproof enclosures is rated IP66
- Ergonomic hand pendant comes with durable strain relief, heavy-duty cord, and an optional hand pendant cradle for convenient storage of hand pendant (part no. 26975)
- Two locking and two non-locking casters with non-marring rubber tread for secure positioning
- Enhanced caster sockets provide better retention during delivery and setup
- Color-coded connections on junction box make maintenance easier
- Double-insulated junction box eliminates need for grounding prong
- Emergency crank provided allows all motors to be operated manually in the event of a power failure
- 350 lb. patient weight capacity
- 450 lb. total weight capacity
- UL962 and CSA certified
- Extended maintenance schedule – every three years or with every new user

Invacare® IVC™ Semi-Electric Bed

Model no. 5310IVC

The Invacare® IVC™ Semi-Electric Bed combines effortless positioning of the upper body and knees with the economy of manual bed height adjustment. The pendant control provides motorized positioning of the upper body and/or knees. A manual crank located at the foot end of the bed adjusts bed frame height for caregiver assistance.

HCPCS code: E0295

Invacare® IVC™ Full-Electric Low Bed

Model no. 5410LOW

Invacare brings the safety and convenience of a low bed into the Home Care Bed Series with the IVC™ Full-Electric Low Bed. The split-spring design incorporated into the standard low bed profile combines the easy, one-person delivery of an Invacare® bed with the benefits of a low bed, where rails are not desirable or appropriate, but potential injuries from falling out of bed are still a concern. The IVC Low Bed ends are fully compatible with existing Invacare full-electric bed frame inventories and the IVC drive shaft, simplifying inventory management for providers and long-term care facilities.

HCPCS code: E0297

Invacare® IVC™ Value Care Semi-Electric Bed

Model no. VC5310

The Invacare® Value Care Semi-Electric bed utilizes a single motor design making the bed lightweight and easy to assemble. It features the popular universal bed ends with the Invacare® deck design and a 9V battery backup for low cost protection from power outages. The advanced pendant design allows the head and knee sections to move either simultaneously or independently at the push of a button.

Bed Packages: VCPKGIVC-1633:

VC5310, 5185, 6629

VCPKGIVC2-1633:

VC5310, 5185, 6630

- Single motor design makes the bed lightweight and easy to assemble
- 9V battery backup provides convenient low cost protection in case of power outages
- Advanced pendant design allows head and knee sections to operate simultaneously or independently
- Universal bed ends are high impact and resist impacts and scratches
- Semi-electric operation:
 - Electric head and leg elevation
 - Manual hi/lo operation
- 5185 mattress (included in bed packages) meets 16CFR1633
- 350 lb. patient weight capacity
- 450 lb. total weight capacity

The Invacare® BAR750 Bariatric Bed is a heavy-duty full-electric bed frame capable of supporting up to 750 pounds (650 lb. patient weight capacity). With the consumer in mind, this bed expands from 39" wide to a full 48" and from 80" in length to 88". Four ultra-quiet DC actuators easily reposition the head and foot sections, as well as the bed height. And, for the ultimate in safety, the bed comes standard with a battery backup.

HCPCS code: E0302

Features

- 650 lb. patient weight capacity
- 750 lb. total weight capacity
- Heavy-duty frame design ensures added strength for client support
- Split-spring design eases delivery and setup
- Two locking casters on head section and two steering lock casters on foot section
- Two high-low motors, one on head section and one on foot section
- Pendant allows for dynamic client positioning
- Quiet, smooth operation
- Integrated battery backup, bed ends and half rails standard
- Choose from three mattress width options
- BARMATT Mattress options meet fire safety regulations 16CFR1633 and 16CFR1632

*Measurement from floor to bed deck.

The Invacare® IVC™ Bariatric Bed is a heavy-duty full-electric bed frame designed for bariatric individuals. It is capable of supporting patients who weigh up to 600 pounds. The bed frame extends to the edges of the bed deck for better support than most other split-spring Bariatric Beds. Using the hand pendant, the consumer or caregiver is able to change the positioning of the head and foot sections, as well as the bed height. Despite being substantial in size, bed setup within the home is easy – no special tools are needed.

HCPCS code: E0301

Invacare® Bariatric Bed

Model no. BAR600IVC

The Invacare BAR600IVC is a heavy-duty bed frame designed for bariatric individuals who weigh up to 600 pounds. The easy-to-use pendant control provides motorized positioning of the head and foot sections, as well as the bed height.

Features

- Heavy-duty frame design ensures added strength for client support
- Heavy-duty bed sleep surface is 17% larger than conventional beds to ensure comfortable positioning
- Split-spring design with universal bed ends for ease in setup
- No special tools necessary for in-home setup
- Easy-release motor mounts allow quick motor removal
- Robotically welded, steel frame construction
- Pendant allows for dynamic client positioning
- Quiet, smooth operation
- Emergency crank manually functions to lower any raised section of bed
- Use with Invacare bariatric mattress (BARMATT42) and bed rails (BAR6640IVC)
 - BARMATT42 meets fire safety regulations 16CFR1633 and 16CFR1632
- 600 lb. client weight capacity

*Measurement from floor to bed deck.

All Invacare bed rails feature durable chrome-plated, welded steel construction and are designed to withstand heavy-duty use. These rails can be installed permanently or semi-permanently on all spring-fabric medical-style beds.* These rails are easy to attach – no tools are necessary for assembly on most models. *The 6631 home bed rail is for use with non-articulating home or dormitory-style beds only.

6629 Reduced Gap Full-Length Bed Rail

When properly used, bed rails are some of the most important security and accident prevention accessories used in the patient room today.

Invacare® Reduced Gap Full-Length Bed Rail

HCPCS code: E0310

Model no. 6629

- Durable 7/8" chrome-plated, welded steel construction
- Self-adjusting spring-loaded crossbraces snap easily into place without tools for quick installation

Invacare® Extra-Wide Full-Length Bed Rail

HCPCS code: E0310

Model no. 6628-TSS

- Heavy-duty 1" chrome-plated, welded steel construction
- Self-adjusting extra-wide spring-loaded crossbraces snap easily into place without tools for quick installation
- Optional hardware is included for clamp-on
- For use with TSS mattresses

Invacare Reduced Gap Home Bed Rail

HCPCS code: E0310

Model no. 6631

- Tubular 7/8" chrome-plated, welded steel side rails have crossbraces with ten preselected lengths from 36" to 62"
- For use with non-articulating home or dormitory-style beds – fits between mattress and box spring
- Rails fit most single, double and queen-size beds (does not fit king-size beds)

Invacare® Reduced Gap Half-Length Bed Rail

HCPCS code: E0305

Model no. 6630

- Heavy-duty 1" chrome-plated, welded steel construction
- Dual flat-channel crossbraces are secured with wing-nut clamp assemblies (some assembly required)
- For optimal security and convenience, four half-length rails are recommended (one set for head area and one set for foot area)

Invacare® Reduced Gap Heavy-Duty Half-Length Bed Rail

HCPCS code: E0305

Model no. BAR6640IVC

- Heavy-duty 1" chrome-plated, welded steel construction
- Bolt-on hardware for added strength
- For optimal security and convenience, four half-length rails are recommended (one set for head area and one set for foot area)
- Use with BAR600IVC bed only

Invacare® Assist Bed Rail

HCPCS code: E0305

Model no. 6632

- Heavy-duty 1" powder coated, welded steel construction
- 3 positions: Guard, Assist, Transfers
- Moves easily out of the way with a quick release button

Invacare® Tilt-Top Overbed Table

Model no. 6418

- Adaptable tilt-top allows three angle positions in either direction using tilt-release lever
- Light upward touch allows table to elevate freely
- Light downward touch on table top locks it into position

Invacare® Auto-Touch Overbed Table

Model no. 6417

- Light upward touch on patented spring-loaded locking handle allows table to elevate freely
- Light downward touch on table top locks table in position

Now you can offer your customers the comfort, protection and durability of superior home care mattresses by Invacare, along with Invacare® mattress covers. Choose from innerspring or foam mattresses. Mattress covers will keep your Invacare® mattress clean and fresh, and protect it from stains, odors, dust and incontinence. Covers are made of non-allergenic, waterproof vinyl, and are available in zippered and contoured styles.

Invacare® Innerspring Mattress

NEW

Model no. 5185, 5185XL

HCPCS code: E0271

- High quality .312 innerspring design
- Durable 11-ounce vinyl cover is anti-bacterial, anti-static, acid-resistant and waterproof for easy use and care
- Invacare® 5185XL (not shown) is available for use with extender kit
- Meets fire safety regulations 16CFR1633 and 16CFR1632

Invacare® MC0195-1 zippered mattress cover comes individually wrapped; 12 per case.

Invacare® MC0065-1 contoured mattress cover comes individually wrapped; 12 per case.

Invacare® Economy Foam Mattress

NEW

Model no. 5180, 5184

HCPCS code: E0272

Bed Buggy

Model no. 5140

- Used to transport split-spring or assembled bedspring quickly and easily
- Allows for one-person setup in much less time
- Can be used on all Invacare beds

Extender Kit

Model no. 5143IVC for all Home Care Beds

- Designed to expand 80" bed frame to 84"
 - Complete with extended head pull tube and drive shaft, link fabric and helicals
 - Not available for bariatric bed
- Model no. BAR600IVC

Stor-A-Bed

Model no. 5142

- The ultimate bed storage unit. Uses both bed ends to transport or store bed. Helps maintain bed inventory, requiring less warehouse space
- Can be used on all Invacare beds

Invacare® Group I Therapeutic Support Surfaces are designed to aid in the prevention and treatment of pressure ulcers. Three types of modalities allow you to choose the right product for the individual user. Product types include an alternating pressure pad system, gel overlay and a foam mattress replacement. All of these products are simple to use and easy to maintain.

Invacare® CareGuard™ 101 Home Care Foam Mattress

NEW

Model no. CG10180CA-1633

HCPCS code: E0184

- Torso section of top layer anatomically sculpted for body conformity
- Multiple layers of foam combine to provide maximum pressure reduction and durability
- Reversible head-to-foot with contour cuts to reduce shear
- Head and heel section of top layer constructed of softer, pressure-absorbing foam
- Articulation cuts on bottom layer facilitate gatching
- Anti-microbial waterproof cover with a 70 denier top to reduce friction
- Non-slip bottom cover provides secure positioning on bed sleep surface
- Meets criteria for Medicare HCPCS billing code E0184
- Does not contain latex
- Meets fire safety regulations 16CFR1633 and 16CFR1632

Invacare® Gel Foam Mattress Overlay

NEW

Model no. IVCGFM02

HCPCS code: E0185

- Reversible for increased service life
- Durable aggressive base material with strong elastic corner securing straps reduce overlay movement
- Vapor permeable waterproof cover with low friction and shear (do not machine wash)
- Meets California Technical Bulletin #117 for fire retardancy
- Does not contain latex

Invacare® CareGuard™ APP Alternating Pressure Pad System

Model no. CG9701

HCPCS code: E0181

- Advanced pump technology alternately inflates and deflates air cells
- Variable pressure setting for added patient comfort
- Pad includes flaps that wrap around mattress for better stability
- Pump can be mounted on the bed with built-in bracket
- Pad meets California Technical Bulletin #116 for fire retardancy
- Uses CG9702 CareGuard pads only
- Does not contain latex

Egress EZ® Mattress

NEW

Model no. MATTEZCA/MATTEZLTCA

HCPCS code: E0184

- Pressure reducing, dual layer foam mattress
- 3" raised bolsters define the bed edge helping to reduce falls
- Exclusive built-in frame prevents sidewall collapse during egress/ingress
- Heel-Soft™ foam section reduces interface pressures
- Stabilizing straps adjust to any bed frame to prevent the mattress from shifting
- 20" wide egress/ingress zone allows patients to enter and exit on their own or with the assistance of a caregiver
- Meets fire safety regulations 16CFR1632 and 16CFR1633
- Does not contain latex
