ELECTRIC CONTRACTORS

Information About ELECTRICIANS Some states have licensing requirements for electricians. Consumers are advised to check with their appropriate state agencies to learn more. In Orange County, NY an electrician must be licensed with the county to do electrical work in the county. In New Jersey, contact the State Board of Examiners of Electrical Contractors, PO Box 45006, 153 Halsey Street, Newark, NJ 07101 (201) 504-6410. Consumers are advised to check for valid license and business permit prior to utilizing the services of Electrical Contractors.

VoiceCare PERSONAL RESPONSE SYSTEMS

Always there... 24 hours a day, seven days a week

VoiceCare allows you to maintain your independence at home and be prepared for unforeseen incidents and emergencies that may occur.

How VoiceCare works:

- A two-way console unit connects to your existing phone line.
- A personal activator stays with you, worn around your neck.
- When you need assistance, press the activator button, and the console unit automatically dials the toll-free number and opens a two-way voice conversation between you and the operator at American Medical Alert Corp.
- When your signal is received, your personal & medical information, list of responders including family, friends, emergency personnel, and the response directives you want are displayed on the response center's computer.
- Even if you are unable to speak, the operator knows who you are, where you live and who to contact.

For more information, call:

845.986.8080 or 973.764.8080

Information About PLUMBERS Some states have
licensing requirements for plumbers. Consumers
are advised to check with their appropriate
state agencies to learn more (or go to
www.contractors-license.org). In New Jersey,
contact the State Board of Examiners of Master
Plumbers (SBEMPH), 124 Halsey St., Newark, NJ
07101, telephone: 201-504-6420. SBEMPH
licenses and regulates the practice of Master
Plumbers in the state of New Jersey. In New
York state, licensing of plumbers is regulated at
the local level. Check with your local agencies
for requirements.**A-1 SEWER SERVICE &

VoiceCare allows you to maintain your independence at home and be prepared for unforeseen incidents and emergencies that may occur.

How VoiceCare works:

- A two-way console unit connects to your existing phone line.
- A personal activator stays with you, worn around your neck.
- When you need assistance, press the activator button, and the console unit automatically dials the toll-free number and opens a two-way voice conversation between you and the operator at American Medical Alert Corp.
- When your signal is received, your personal & medical information, list of responders including family, friends, emergency personnel, and the response directives you want are displayed on the response center's computer.
- Even if you are unable to speak, the operator knows who you are, where you live and who to contact.

For more information, call:

845.986.8080 or 973.764.8080
