You are the Open Door Which No One Can Shut

With Patricia Cota Robles

July 26, 2016

Jennifer Well, I think we're about ready to begin. I'm going to start us off here with a prayer and a blessing as I always do. I'm going to invite everyone to take a breath with me and just move into your heart. So grateful to join with you today. I'm Jennifer Hadley. We're here with livingacourseinmiracles.com in our free series of classes on "Living the Miracle, Being Truly Helpful." Our teacher today is Patricia Cota Robles. Welcome, Patricia.

Patricia Well, thank you. It's wonderful to be here.

Jennifer Patricia's website is eraofpeace.org. That's E-R-A ofpeace.org. She is the author of numerous books and many, many resources for understanding your life's purposes as spiritual being and doing a lot of healing and clearing work, opening up to Prosperity, and knowing your true purpose. I encourage everyone to look at the many beautiful offerings Patricia has. One of my personal favorites is your *Violet Flame* book. I know you'll be talking about the Violet Flame today.

Opening Prayer

We're just starting off in our heart here. I'm asking everyone to place their hand on the heart. We're declaring that we are wholeheartedly available to be led and guided by the Spirit. We take this breath of Love and Gratitude together here and we say, "Yes," to Divine guidance, insight and wisdom. We say yes to the Higher Holy Spirit Self, the mighty I AM presence leading and guiding our dialog, our conversation, our very life and being.

We are saying yes to remembering and recognizing our true identity, our true nature, our true purpose, and seeing it not just for ourselves but for all beings. We open our hearts, we open our minds right here and right now to know the Truth that sets us free. We declare that we are willing to be a miraculous experience of life, of Spirit expressing itself and knowing itself as us.

We are the living miracles. We are grateful and thankful to declare our willingness to be truly helpful in this world. In gratitude, we share the benefits of our healing, our expansion, our awakening with everyone **because we're One with them.** In gratitude, we allow our healing to be. We let it be, and so it is. Amen. Amen. Amen. Amen.

Divine Flames

Well, Patricia, you chose the topic “**You are the Open Door Which No One Can Shut.**” I love it whenever you talk about that. For some people, they **might not be clear what does that really mean, so let's start with that.**

Patricia

Well, it's the most important that we need to remember right now because **the whole transformation that's taking place can only occur if those of us in the physical plane become the conduit for God's light and bring that light into the physical plane.** We've heard the expression, “**God needs a body,**” and the reason for that is that there are Universal Laws.

One of them states that the call for assistance must come from the realm where the assistance is needed. What that means is that **God and the beings of light cannot just wave a wand and interfere with humanity's free will and what we've chosen to create either deliberately or inadvertently through our creative faculties of thought and feeling.**

Another factor that is critical in understanding this process of transformation is that the way that invocation of light then must be received is through the Divinity of our hearts. In order for something to manifest in the physical plane, it has to be drawn from the Heavenly realms through our Crown Chakra, our pineal gland, our acupuncture meridians, through all of the systems within our body, and anchor it within the Immortal Victorious Three-fold Flame within our hearts, the Divinity of our Heart Flame.

Now that flame consists of the sapphire-blue **radiance of our Father God's Divine Will and power.** This light activates our left brain hemisphere, our rational logical mind. The power center of our throat, and then is anchored in our heart as the beautiful Blue Flame of God's **magnificent Divine will, power, and the first cause of God's perfection.**

The pink **radiance of our Mother God's Love, the Divine Feminine,** activates the right brain hemisphere, our creative, intuitive mind, our heart center,

the Love nature within us. She is the aspect that we have known of as the Holy Spirit, the Love nature of God, the Holy comforter, and she is the Divine Feminine polarity, and she anchors within our heart as the beautiful pink plume of Divine Love.

Then these two plumes merge, and this is at our inception, into a magnificent Violet Flame. A perfectly balanced Pink and Blue flame **reflecting the Violet Flame of God's** infinite perfection, of our Father-Mother Go. This flame, then raised into our physical brain structure and literally formed a reclining Figure 8 that passes back and forth between our right and left brain hemispheres, activating our spiritual brain centers, our pituitary, pineal and hypothalamus glands, and the ganglionic centers at the base of our brain.

Once these centers were activated, they opened our Crown Chakra of enlightenment, birthing us into Christ consciousness as Sons and Daughters of God. This is the Yellow-gold radiance of light that reverberates with illumination, Wisdom, enlightenment, understanding and the full Divine potential of Christ consciousness as Sons and Daughters of God. Then that yellow-gold plume was anchored between the Pink and Blue Flames within our heart, and that completed the reflection of the true **Holy Trinity, the Father God's blue power, the Son and Daughter of God's** yellow-gold radiance of Christ consciousness, and our Mother God, the Divine Feminine **essence of the Holy Spirit's radiance of Divine Love**. That is the Immortal Victorious Three-fold Flame.

Learning to be Co-Creators with Father-Mother God

In order for us to create in the physical plane, we have to draw the unformed primal light substance from our Father-Mother God, the electronic light substance, our life-force. It enters our Crown Chakra, go through our body, descends into our heart, and is stamped with our own electronic light pattern. We have a unique electronic light pattern, just like we have unique fingerprints, unique respiratory patterns, voice pattern, **DNA. We also have the unique electronic light pattern. It's stamped with** our electronic light pattern, and then this is the light that we send forth with every thought, word, action or feeling, into the physical plane.

Now we do this every moment of every day with every breath we take. Depending on how we qualify that gift of life and send it forth, depends on

what we are creating on the physical plane. This is how we are the open door. This light continually flows through us, and we continually send it forth with our thoughts, words, actions and feelings.

Now in the beginning prior to the Fall, every thought, word, action or feeling that we send forth, was qualified with a higher frequencies of our Divine purpose, which was that we came into this physical plane, empowered with the gifts of free will and the creative faculties of thought and feeling.

Our mission was to use this life-force to observe all of the patterns of perfection in the causal body of God and then to decide to our unique ways of perceiving and feeling and observing things what we would want to create in the physical plane. How would we combine these life-force, these patterns of perfection into new previously unknown expressions of Divinity? Thus, literally expanding the borders of the kingdom of Heaven in the physical plane. That was our purpose, to learn to become co-creators with our Father-Mother God.

Universal Laws

So in the beginning, for instance, we would draw this light, we would create these new expressions of Divinity and Divine Love, and send that forth to the person, place, condition or thing we were thinking of at that time, and that light would pass forth from us on an electro-magnetic current of energy, just like a radio wave or television wave.

As it passed through the atmosphere, it would magnetize into it other **energy vibrating at that same frequency. We've all heard the expression like attracts like.** So by the time our current got to the person we are **sending it to, it's amplified over what we sent out.** So if we're sending forth a thought of Love, what might have just seemed like a simple thought of **kindness or compassion, could manifest in that person's life** as something far more glorious than just that simple thought as a financial success, as a healing, as a loving relationship, and a myriad of seemingly unrelated things.

This is the process of involution, our life-force from the heart of God, which is always perfect, entering our Heart Flame being stamped with our Divine pattern, being set forth, charged with whatever we are thinking or feeling

at that time, and manifesting in the life of the person, place, condition or **thing we're sending it to.**

Then the Universal Law, this is how we are the open door. Then the Universal Law is that that light must return to the source. This is the Law of the Circle or what we often call the Law of Attraction or the Law of Cause and Effect or karmic return of energy, **all kinds of things.** We've known at some level, that whatever we are sending out must return to the source. So **first, that energy, it blesses the person or brings the energy into the person's** life in alignment with whatever they need to learn from it.

Then it is magnetized back to the identical, electronic light pattern. So it is drawn back to the Three-fold Flame, the Heart Flame that is qualified with that electronic light pattern. So it comes back to us. Again, on the return current, it is drawing other energies vibrating at that same frequency. By **the time it returns to us, it's greatly magnified so it can manifest as** something that seems totally unrelated. But at the time prior to the Fall, it was something wonderful that was coming back to our life.

Another Universal Law is that in order for the energy to return to our Father-Mother God, the source, it must be vibrating with the same or a higher frequency of perfection than what we originally received. So this energy would be— then it passes through our Heart Flame to the source.

Now, the problem now is that we experience what is known as the Fall from Grace. **It's mentioned to us and it's very complex what's actually** happened. And the beings of light have discussed it in **great detail.** I've shared all about it, if you want those specifics in my book, and then the information on the website.

Legend of the Fall

But just for our purposes here, there was a point in time when it said, "Do not partake of the Tree of Knowledge of Good and Evil." **All evil is, and this** is what the entire company of Heaven is reiterating to us through every fiber of our being at this moment. All evil is the absence of Love. Everything, no matter how deplorable it is in the outer world, is nothing more than a reflection of thoughts, words, actions or feelings. Humanity have **expressed that it's not based** in the foundation of Love.

But when we began doing that, creating thoughts and feelings that weren't based in Love, this life-force is pure light from the heart of God within our Heart Flame, we would stamp it with our electronic life substance, with our pattern, and then it would go out, say it was a thought of hate. This would go out as this heavy discordant frequency. Initially, there wasn't a lot of that but look at what's going on now. Look at what's manifesting in this fallen environment that we're existing in.

So when we send forth a thought of hate now, it has tons of energy vibrating at that frequency that can be drawn to it. We send it to the person, place, condition or thing we're sending that negativity to and depicts him in whatever way and learning experience they need to learn from. Then on the return current, it comes back to us, again, accumulating the negativity. It comes back greatly magnified over what we send out. So what might have seemed like just a simple thought of what we think of or thought of in that moment as just a mild prejudice, could manifest as a horrific car accident, as a financial crisis, as a disease in our body and all of the horrific maladies that are manifesting in the outer world.

That energy, of course, is not vibrating with its original perfection, so it can't pass through us to return to God. So it hangs around us and goes out and comes back even more magnified, bringing more havoc into our lives that we have created.

Now what the beings of light are wanting us to really understand is that because of this process, because we are the open door that no one can shut, the light of God is continually flowing through us, and that we are making the conscious decision either deliberately or sometimes inadvertently because we've lost the awareness of how this is manifesting. We have made the choice to qualify this energy with the things that are returning to us, and there is not a person, a place, a condition or a thing that can interject anything into our life experience that we have not in the first instance created.

And something—you know, we have these things and these expressions like bad things happen to good people. Well, of course, everybody is a Son or Daughter of God, but when things are going wrong in our life, we're not just innocent victims, it's not that we are just experiencing the wrath of God because Eve ate an apple, because of a lack of understanding or awareness. That is all the delusion and the misunderstanding.

We even get information from our churches and our religious sources that our professing at this time in many instances that man is innately evil. That the reason these things are happening to us is because we are worthless sinners and worms in the dust. Nothing could be further from the Truth. And we become who we believe we are. So this belief system, this absolute distorted, erroneous belief system is perpetuating the very thing that is causing the problems in our life.

What the company of Heaven and all the legions of light are referring to us and reiterating to us now is to remind us of how we got in this mess. And when we started mis-qualifying our gift of life and this negativity started coming back to us, that we were so unaware of how this was happening, we realized that the Love nature was in us.

Our Mother God, the Divine Feminine, the Holy Spirit, this is our feeling nature. This is what is making us feel the pain. So we made the tragic **decision to close our Heart Chakra, so that we wouldn't feel this pain** that we were creating by sending forth thoughts and feelings **that weren't based in Love**. What that did was block the portal that allowed our Mother God to flow her Love nature into our life experience.

So instead of being the open door for our Mother God's Love, blocking that portal by closing our Heart Chakra caused our Mother God to have to withdraw to a mere treacle of her initial influence in our lives. This caused our right brain hemisphere to become almost dormant, which caused—excuse me, our spiritual brain centers to atrophy. This caused our Crown Chakra to close. So we lost awareness of our I AM presence. We lost awareness that we are Sons and Daughters of God, and we lost the awareness of the Love nature of our Mother God.

For eons of time now, we have been using our masculine power without **the full balance of our Mother God's Love. And we develop this fragmented, fear-based consciousness that's known as our human ego.** And since our human ego no longer could connect with our Christ-self and Christ consciousness or our I AM presence or the company of Heaven on a conscious level, it started perceiving that our physical body is who we are and the physical plane is all that exist. The thought its purpose and reason for being was to gratify the physical senses and whatever it needed to do to accomplish that would be just fine.

Return of the Christ Consciousness

If we were in male bodies, we would abuse that power by being aggressive and domineering. If we were in female bodies, we would abuse it by suppressing our power and allowing ourselves to be oppressed, **and that's exactly what we're witnessing to this day all over the world. So what is happening now to allow us to be the open door, it's that there is an incredible influx of light that is happening.** We are opening our hearts again. Humanity en masse. We have reached a critical mass of Divine Love **that has allowed the initial impulse of humanity's return to Christ** consciousness to manifest through us. This was a major part of the archetypes that Jesus revealed to humanity during the Piscean Age, the last age. Preparing us for this moment.

Even though he anchored all the archetypes for our return to Christ consciousness, he said in Revelations, knowing that we may not get it in the Piscean Age, which was the sixth solar aspect of deity. That in the day of the Seventh Angel, which is the Age of Aquarius, that we have now entered, which is predominantly the influx of the Violet Flame that we will experience for the next 2000 years, the perfect balance of our Father-Mother God.

He said, on the day of the Seventh Angel, when He begins to sound the mystery of God will be fulfilled and time will be no more at the time of the second coming of the Christ. Of course, the second coming of the Christ is you and me and every other person on this planet following the archetypes of Divine Love that Jesus anchored for us, invoking the baptism of the Holy Spirit by sacred fire to awaken our Crown Chakra, to open our right brain hemisphere, returning our hearts to the path of Divine Love, opening our Crown Chakra, returning to Christ consciousness and following the path of Divine Love that is the only way back to the Divinity within us. Knowing that being the open door, originally meant opening for the light of God, but the mistake that we made is not realizing that the open door is every single thought, word, action, feeling, belief or memory we are expressing.

The Transmuting Fire

Jennifer I would love to share some references to *A Course in Miracles* related to what you are sharing here. What you're sharing is so helpful to us in a practical application and in understanding how we can move forward and be truly

helpful. In *A Course in Miracles*, Jesus says to us, “You who belong to the First Cause created by Him like unto Himself, a part of Him are more than merely guiltless.” So this is in reference to what you’re saying here, which is **we’re part of First Cause. We’re a part of God, and we’re already as Holy as Holy can be.** This is for us to remember at this time and to see in our brothers and sisters.

In the *A Course in Miracles*, Jesus tells us about the Great Rays, the flames that you were talking about. The pink and the blue and the violet. Jesus says, He references the Great Rays a number of times, and He says, “**As the ego would limit your perception of your brothers to the body, so would the Holy Spirit release your vision and let you see the Great Rays shining from them. So unlimited that they reached to God.**”

It is this shift, the vision that is accomplished in the Holy instant. Yet, it is needful for you to learn just what this shift entails, so you will become willing to make it permanent.” What it entails is for us to forgive, which of course is related—**well, I say, of course, it’s related to the Violet Flame.** The Violet Flame is to support us in doing that deep forgiveness work.

Forgiving ourselves, forgiving our brothers and sisters is—in many ways, the very best tool we have on a moment by moment page is to be truly helpful and to be a beneficial presence in this world right now.

Patricia Absolutely.

Jennifer I wonder if you could speak about that?

Patricia Yes. Absolutely. This is what Jesus **didn’t say, “Wow, I’m Jesus, look at all the things I can do. I’ve come to save you, worthless worms in the dust.”** What He said was, “**These things I do, you shall do, and greater things can—then thee shall you do. Barely, barely, I say unto you, ye are Sons and Daughters of God, joint heirs with the Christ.**” And those Truths are things that **we have forgotten, and this is the message that’s pouring forth** from the heavenly realms through every single open door at this time, is that right here and right now, we have every single thing we need within us.

The problem is we have been so beaten down, and even our ego will do a meditation. What happened, the ego has been much dissipated because of the return to Christ consciousness that is occurring through the **I AM presence in the initial impulses in perfect alignment with each person’s**

Divine plan. But it's happening for every single person on the planet at this time. So the ego has that paralyzing grip, and the human ego has been shattered by the I AM presence and the frequencies of the return of Christ consciousness.

It has happened for so long and even the habit, the residue of what we believed to be ego, we will do a wonderful meditation and just connect with that. The realms of Truth and that wonderful knowing, I AM that I AM. I AM One with my Father-Mother God. I AM One with the Divinity within me. **And then we'll come back from our meditation, and we start getting** this little chatter in our head. **"Look at the mess your life is in. You can't even pay your bills on time. Look at how fat you are. Look at this job you have. Look at this. Look at that."** **Everything to beat us down, and then we'll just say, "Well, that's true. How can I possibly believe that?"**

But the beings of light want us to know. Yes, **we've been to eons of time** where we have fallen to levels of consciousness that we forgot who we were, and we inadvertently kept just perpetuating negative thoughts and feelings from this fragmented, fear-based consciousness of us against them, and this duality that we had, which is absolutely the most erroneous and inaccurate belief system we could have.

There is no separation. We are One. And that is not a lofty platitude. That is not religious rhetoric. "We are One means," that every particle and wave of life **throughout the whole of creation that's pulsating in the Divine** matrix that is the omniscient, omnipotent, omnipresent Father-Mother God, the Cosmic I AM, all that is, every single atomic and sub-atomic particle and wave of life is interconnected, interrelated and interdependent.

Every single thing we express with our thoughts, words, actions, feelings, memories and beliefs either adds to the light of the world or adds to the chaos, and not only of **what's happening on the planet but to the collective** of all creation. So this is why Jesus kept saying, **"As I am lifted up, all life is lifted up with Me."**

What is happening now when I want to just put this in perspective, because when we start seeing the bigger picture, we can realize why things are happening. The reason why I want to focus—this is the key to this wonderful series **that Jennifer is having of being helpful, this is why we're here. We're here because God needs a body and because we have been** prepared to be the open door for this light. Because every particle and wave

of life, every electron of energy manifesting in the physical plane, no matter how distorted and corrupt, and horrific and evil it is, began as a pure **pulsating frequency of God's light.**

That was our gift to the life that we took and distorted through our free will choices into this gross mutation that is now manifesting as war, as hatred, as disease, as poverty, as greed and corruption, and every other malady, anything, that is manifesting on this planet that is not the exquisite bliss of Heaven on earth, which was our original Divine experience prior to the Fall.

Everything is a human miscreation and has nothing to do with God's will. It is absolutely God's will that this energy return to us and we love it back and into its original pristine perfection. That is God's will. So it comes back to us in all different kinds of form.

One of the things-- I'd like to just share a few things of these horrific events that are taking place in the outer world. For instance, our collective consciousness, when we focus on something, collectively as a global meditation or even the horrific event that happens in the outer world, it creates a **collective cup of humanity's consciousness.**

Through that collective cup awakening humanity, you and me and everybody else that is conscious of this has the ability to say, say for instance, what took place in Orlando, that occurred on the 12th of June and that event, when that took place, billions of people on the planet became aware of it almost instantaneously because of the internet and because of global communication. Those of us in the physical plane have the ability to say, **"I ask the Father-Mother God and the entire company of Heaven and the I AM presence of every single person to gather up every electron of energy that is in anyway being focused on this event. Purify it with the full Divine momentum of the Violet Flame and use it to heal and transmute back into light whatever created this consciousness in the first place. And that literally allows that energy to pass through all time frames and all dimensions that allowed any frequency of radical imbalanced religious rhetoric or prejudice or discrimination.**

Now what I want you to realize is when these things are happening, this light, this negative energy has to be surfaced to transmute back into light. **We created it, we have to transmute it. God cannot do that. So it's coming back in the forms of the elements, of natural disasters, of all the different**

kinds of things that are going on, of all the horrific things we see happening. But it's also coming back in the form of incredible light that's flowing into the planet.

No Innocent Victims

This is the time referred to, biblically, as the time of screaming and gnashing of teeth, because millions of people every single day are awakening and invoking the light. When that occurs, it passes through their Heart Flame, flood the Earth and enters every particle of light that **conflicts with that light. So what we're seeing is the garbage being pushed** through the surface with our third dimensional physical sight.

What we do not see is the incredible light that's being pushed through the surface. But God and the company of Heaven are not going to kill us in this process. So what is happening is that these events are being pushed up when there is a tremendous powerful focus of **humanity's consciousness** that can help transmute it.

The event in Orlando took place during the month when the LGBT community was celebrating their lifestyle and their uniqueness, an event of global celebration. It also took place during the most powerful month of Ramadan. All of the Muslims in the world, all of the LGBT and everybody who loves and supports them is brought to blaze the light into this event. Those precious souls who left the physical plane during that time left in a tremendous in-breath of Divine Love for the sacrifice and service they made. They were able to perceive how that sacrifice heals the very atrocity that was being demonstrated through that event.

The same thing just happened and it's happening over and over if we step back and see the bigger picture. But the events that took place on the still day in France, pulsating in the etheric realms over France is that incredibly powerful temple and portal of liberty. France gave us the statue of Liberty. So in our harbor in New York, we also have a powerful force field and open portal of the Flame of Liberty, which is a facet of the Violet Flame.

This horrible event that took place, of hatred and abusive power, took place when all of the French people were focusing on liberty. It allowed the world to focus at that time. Now when we look at it just through our understanding and our lower consciousness, there were a lot of women and a lot of children that left that physical plane at that time, which is horrific.

But what is happening is that we will pay attention. There are women and children a lot of times really involved with these events.

From outer appearances, they look like innocent victims, but what the being of light is revealing to us is that when women and children are involved in bringing to the conscious mind atrocities of the outer world, it **opens humanity's hearts of Divine Love or the Divine Feminine in ways** that nothing else does.

These women and children are not innocent victims, they are powerful beings of light that have volunteered to come into the physical plane to accomplish this healing in this cosmic moment when the earth is going through and unprecedented purging and healing.

Rise of the New Earth

Now one of the things that is coming up, you know, one of the things that's happening for us, of course, is our elections. What's happening in the outer world and many instances is the antithesis of Divine government.

What Divine government is? It's a **government of self-governed people** just like the heavenly realms of the I AM presence by the I AM presence for the I AM presence, working collectively for the highest good of all concerned in perfect alignment **with each person's Divine plan. Reveling in our uniqueness, in our diversity and in the wonders of Heaven on Earth.**

What is happening now is that all of these is coming to the surface. And **we're seeing glimpses of this here and there. We're going to see more and more of it as things move forward, and seeing the diversities and seeing coming to the surface of things that will not be resonating any longer in people's hearts as appropriate or part of the Divine plan.**

I just want to mention that the World Congress that we are having, this is the 30th annual. What the World of congress is, **it's an event that we've been directed by the company of Heaven to have every year since Harmonic Convergence in August of 1987. This will be the annual event. What takes place is the beings of light evaluate all of the light that's being added to the world, throughout the entire year, every single prayer, every single time someone admires the radiance of God through a sunset. Everything that people do to add to the light of the world, loving everything**

is evaluated, and then the company of Heaven determines how that light can be used for the greatest good for the planet.

What has been determined for this year is that we have reached a critical point when it is time for us to be the open door for the patterns of perfection, for the new Heaven and the new Earth that is now flowing into the physical plane.

The beings of light have said, “Even when those of us that are aware that the New Earth is being burst and we try to vision what will Heaven on earth be like.” They have said even the most awakened soul is barely looking at reversing the adverse effects of our fall. **So we’re saying, “Okay,** Heaven on Earth are going to be the elimination of war. The elimination of disease. The elimination of poverty and suffering. The elimination of the inclement weather conditions that are so destructive.” All of those things are our human miscreations and, of course, we have to transmute them. And it will be wonderful to be rid of them.

But they have said clearly that the New Earth contains patterns of perfection, of bliss and ecstasy and wonder and awe that we have not been able to fathom with our conscious mind. And they said, “These are the patterns that **now need to flow into humanity’s consciousness from the** realms of cause, the causal body of God, flooding the mental and emotional strata.” So that as we move into higher and higher levels of Christ consciousness, we will tap in to these new patterns and create even more **blissful things that we haven’t been able to grasp.** That is going to occur at the World Congress.

These patterns, there will be those of us that are physically on this cruise going through this portal and the sacred water element forming a transformer. But that light is going to flow through the transformer into the center of the Earth and be transmitted all over the Earth to every single awakening person on the planet, blessing all humanity. Those of us that are aware of it have a greater responsibility to be the open door. It is not by chance that this event is occurring during the Olympic Games.

Now the masculine polarity of God enters the planet as a tremendous killer of light in the area of Tibet in the Himalayan Mountains. The feminine polarity of God enters as a tremendous ray of light near Lake Titicaca in Bolivia in South America. So South America has been working with the Virgin of Guadalupe consciousness and all of the consciousness of the

Divine Feminine to open that portal and return the Divine Feminine. It's not by chance even with all the problems and things that have been reported in the news. It is not by chance that these Olympic Games are taking place in South America, in Brazil.

The Olympic Games for 17 days draw an estimated, at one time or another, 4-5 billion people. So the collective cup of consciousness focusing on the Divine intent, which is the family of humanity, setting aside our differences, coming together to express our **highest level of excellence**. **There's not** another outer world event that creates a greater cup of consciousness.

What all of us can do is ask that every electron, all these negative information, and negative press, and the Zika virus, and the unpreparedness of whatever is going on in Brazil, and pollution, all of those **things**, **not that that isn't part of what's going on, but we have the ability** to ask that every electron from this focus of attention be transmuted by the Violet Flame and use to bring forth the most blissful, wondrous patterns of perfection for the New Earth into the mental and emotional strata, so that **we can quickly transmute the surfacing negativity, all of the garbage that's** coming up all over the world and begin manifesting these new patterns.

So each of us has an incredible opportunity and ability to be the open door in ways that we have not experienced since prior to the Fall of humanity which took place literally millions of years ago.

Applying the I AM That I AM

Jennifer Yes. Yes, yes, yes. *A Course in Miracles* tells us that it is in our power to make **the time of Christ to be now**. **This is what you're reminding us** of not to delay but now, this now, everything is coming together to allow it to happen and to make it be so. I wonder if you could also tell us, Patricia, you speak so eloquently about the power of prayer and the increased power of our prayer right now. I wonder if you could speak a little about that.

Patricia Yes. One of the things that the beings of light are really encouraging us to do is always invoke our I AM presence. **This is the part of us that's created in God's image, that it's always perfect no matter what we've done down** here through the lower consciousness of our human ego. So just by saying, "I AM my I AM presence, and I AM One with the I AM presence of all humanity. We change from being the individualized microcosm of our self to being the collective macrocosm of all humanity. This gives every

person's I AM presence permission to intervene in their life. And we say, "We invoke this light on behalf of ourselves and all humanity in perfect alignment with each person's Divine plan and the highest good for all concerned."

Because of the urgency of the hour, the company of Heaven has been granted permission to amplify our prayers and our invocations for the light a thousand times a thousand fold. What that means is for each and every one of us, when we are praying, it is the same as a million people invoking that light with us.

When we are praying on behalf of all humanity, every man, woman and child belonging to or serving the earth at this time, whether he or she is in or out of embodiment, that collective number of I AM presences is amplified a thousand times a thousand fold. This is why the prophecies have said in this time the transformations will take place in the twinkling of an eye. **We've been mis-qualifying** this life for millions of years, now we are transforming it in literally the twinkling of an eye. And the most conscious way we need to do this is that moment by moment, every single day we need to be saying to ourselves, "It's what I'm thinking and feeling now adding to the light of the world or the shadow."

If it's adding to the light of the world, great. Amplify it. If it's adding to the shadows, blaze the Violet Flame through it and then ask what do I want to amplify instead? We see a horrific even happening through the Middle East, we create initially horror, fear, anger, disgust, and instantly we realize **what we're doing**. We blaze those thoughts with the Violet Flame and we say, "I AM my I AM presence and I AM One with the I AM presence of all humanity, and I invoke the Violet Flame to transmute everything from all time frames and dimensions that would have created this kind of consciousness and this response from humanity in the first place." And blaze that with Violet Flame that will take that precious life that is manifesting as this distorted gross mutation of this awful bombing and death. And take those particles and waves and transmute them through Love and light back into the pristine shining neutral perfect light that was their original expression from the heart of God. We can do that with even **the most mundane things...**

Jennifer Yes.

Patricia ...when somebody pulls in front of our car and we think he's a jerk. When we get mad at something. Globally, yes, but even in everyday life. And, no, for instance, if you're going through a divorce, that is horrific and that is so challenging. But look at the number of people that have gone through that experience. So serve as a microcosm for that macrocosm and transmute the pain and the suffering that every single person from all time frames and dimensions has ever experienced through what you're experiencing in that moment. And you can expand and transmute lifetime's worth of humanity's pain.

This is what's going to move us through this purging very quickly, by people accepting responsibility and saying as I am lifted up, all life is being lifted up with me. This is what Jesus thought us. There is no separation. There is no such thing as us and them. We are One. And as we are lifted up, all life is lifted up with us.

Jennifer Yes. *A Course in Miracles* tells us that it has a prayer for our purpose. It's on Page 28 in the text for those who might not know. And it begins with:

"I am here only to be truly helpful. I am here to represent Him Who sent me. I do not have to worry about what to say or what to do, because He Who sent me will direct me. I am content to be wherever He wishes, knowing He goes there with me. I will be healed as I let Him teach me to heal."

So we have in every moment this opportunity to be a healing and beneficial presence in the world. Every time we feel the slightest bit of discord like you were talking about, in traffic, in any area of our lives, the slightest annoyance, we can actually be a healing presence that benefits the whole world.

Patricia Absolutely. Absolutely.

Violet Flame Meditation

Jennifer And I know you have a healing Violet Flame meditation for us. You say it's about a 15-minute meditation?

Patricia Yes, it'll be about a 15-minute meditation, and this is a wonderful gift that has been given to us by the company of Heaven to assist us in reversing the adverse effect of our Fall, so that we can return to Christ consciousness. I'll mention to you, I know you're going to have it available in audio, and you're going to have it written out as well.

Jennifer

Yes.

Patricia

We've also produced a really beautiful visual on a YouTube video that you can go to our website, eraofpeace.org and click on the View Videos, and this one is *The Return to Christ Consciousness*. We have several wonderful YouTube videos there that will just help us stay focused on the light in the face of adversity that's been pushed to the surface all over the planet.

To begin this, we'll just sit comfortably in our chair with our arms and legs uncrossed. Breathe in deeply and go within to our hearts. Gently close your eyes and I'm going to state this in the first person so that each of us experiences it individually. But we're also invoking this activity of light through the I AM presence of every person on this planet creating this collective consciousness of Oneness lifting all life into a new higher frequency in perfect alignment with their Divine plan. So follow me through this with the full power of your attention and be here now.

I AM my I AM presence and I AM One with the I AM presence of all humanity. What I invoke for myself I invoke on behalf of every man, **woman and child on earth in perfect alignment with each person's Divine plan**, and the highest good for all concerned. This is possible because we are One and there is no separation.

On the Holy Breath, I now breathe in and out, deeply and rhythmically through my Heart Chakra. With every in-breath, I align with the Love of my Father-Mother God and the Sacred Fire Breath of the Holy Spirit.

On every out-breath, my Godparents open my Heart Chakra to new breaths and project their Divine Love and power into the physical plane of Earth. Through this activity of light, the portal within my right brain hemisphere and my Heart Chakra, through which the Love of my Mother God originally flowed to bless all life on Earth. It is once again opening to full-breath.

As the full Divine potential of my Mother God's Pink Flame of Love pulsates through my Heart Chakra, it is brought into perfect balance with my Father God's Blue Flame of Divine Power, which is also pulsating within the Divinity of my heart. My newly-balanced Heart Flame has a dual pulsation.

The first pulsation is the in-breath, assimilating and absorbing the Love and power of my Father-Mother God. The second pulsation is the out-breath, expanding and radiating out the power and Love of my Father-Mother God.

On the in-breath, my Heart Flame extends up in vibration, piercing into the very heart and mind of God, the source of never ending perfection. On the out-breath, my balanced Heart Flame radiates the blessings from the heart and mind of my Father-Mother God into the physical plane of Earth.

On every in-breath, my balanced Heart Flame ascends into new heights of Divinity. And on each out-breath, through my fully opened Heart Chakra, **my Heart Flame becomes a stronger pulsation of God's blessings into the world of form.** Because of this dual activity, my Heart Flame is both the portal into the pure land of boundless splendor and infinite light within me as well as the source of all of the Divine blessings from my Father-Mother God, to humanity and planet Earth.

My Heart Flame is the inward portal for my return to Christ consciousness as well as a connection with my I AM presence and the company of Heaven. It is also the open door through which the blessings from my Father-Mother God and the realms of the living Truth will radiate outward into my daily life.

Through the Holy Breath, my return to Christ consciousness and my inner journey back to my Father-Mother God are being balanced with my outer service to humanity and all life. It is within this balance that I open my **Heart Chakra once again to the perpetual flow of God's pure Divine Love.** Now that the portal through which my Mother God's Divine Love is open to full breath, **the Blue Flame of my Father God's power and the Pink Flame of my Mother God's Love are at last perfectly balanced within the Divinity of my heart.**

These two aspects of my Father-Mother God now merge into the **magnificent fifth dimensional crystalline Solar Violet Flame of God's infinite perfection.** This sacred fire blazes up from my Heart Chakra and expands into my physical brain structure activating my pineal, pituitary and hypothalamus glands, and the ganglionic center at the base of my brain. This activation of my spiritual brain centers creates the sacred space for the opening of my Crown Chakra.

As this occurs, a greatly intensified frequency of the Yellow-gold Flame of wisdom, enlightenment, illumination and Christ consciousness begins flowing from my I AM presence into my pineal gland.

This intensified Yellow-gold Flame is now anchored within my heart flame. With this influx of light, the full Divine momentum of my Christ

consciousness now flows through my Crown Chakra and my pineal gland into my mental and emotional bodies. As I return to Christ consciousness, my heart and mind are being recalibrated into higher frequencies of Oneness and reverence for life than I have experienced **since humanity's** fall from Grace eons ago.

In this enlightened state of Christ consciousness, I am able to easily communicate with my I AM presence, my Father-Mother God and the entire company of Heaven through the natural process of open heart and mind telepathic communication. I realize now as never before that Christ consciousness is my Divine birthright as a beloved Son or Daughter of God.

Through this level of consciousness, I AM One with my Father-Mother God and every particle and wave of life throughout the whole of creation. As I live, move, breathe, and have my being within the elevated state of Christ consciousness, all that my Father-Mother God have is mine. I now know that the path of Divine Love is the way, the Truth, and the life for every Son and Daughter of God.

With the God victorious return of my Mother God and my return to my Christ consciousness, I now have the ability to assimilate the entire nature of **God's Divine Love into my heart flame** on every single in-breath as I rise endlessly toward the supreme source of all life.

And on every out-breath, I have the ability to expand the patterns of perfection for the New Earth into the world of form, greatly enhancing my ability to co-create Heaven on Earth. My Mother God, the Holy Spirit is at long last able to release the full potential of her Divine Love through my Heart Flame. This allows the balance of the Divine Masculine and the Divine Feminine to become a manifest reality, thus reversing and healing **the adverse effects of humanity's fall from Grace once and for all.**

The light flowing through my Heart Chakra and my newly-balanced heart flame is now creating an environment of Divine Love that is flooding the planet. When I turn my attention to the balanced expression of my Father-Mother God now pulsating through my heart flame, the illusions of separation and duality are shattered. My heart is unified with all of the Sons and Daughters of God evolving on earth.

Once again, I experience the bliss of knowing that we are One and that Love is all there is. Knowing this profound Truth evoked from within the deepest recesses of my being, a reverent feeling of infinite Gratitude. My Mother God

is now placing me within a mantle of her Love, and my nervous system is being recalibrated to withstand the highest possible frequencies of the Divine Feminine. This mantle of Love is helping me to awaken my right brain hemisphere to new levels of creativity, and it is activating my spiritual brain centers into higher levels of their Divine potential.

This is enabling me to awaken to a higher level of Christ consciousness than I have ever experienced since my Father-Mother God first breathe me forth from the core of creation as a beloved child of God. Through this **higher level of Christ consciousness, my Mother God's radiant and all-encompassing Divine Love** is now pouring through my Heart Chakra without designating favor to a particular person, place, condition or thing. Instead, her Love is giving a healing impersonal benediction to every particle and wave of life on earth.

The power and magnetic Love of my Mother God is now anointing all life with an equal opportunity to respond. Every Son and Daughter of God is being given this moment both the blessing and the responsibility of being **an open door for our Mother God's exquisite Divine Love.**

Every person now has the opportunity to become an instrument of God, vested with the power to change the feeling world of all with whom he or she comes in contact. This will be accomplished not through our human will but through the balanced power of the flame of Divinity now blazing in our hearts.

Through the Christ consciousness and the full Divine momentum of my **Father God's power and my Mother God's Love, I now realize and affirm I AM** a force of God moving upon this planet. I AM the open door that no one can shut. I AM an upward rushing force of vibration and consciousness, which is the Immortal Victorious Three-fold Flame pulsating within my heart.

My heart flame is the electronic auras spiraling around me. God's infinite light perpetually flows through this aura. I AM a Christ conscious being, a very powerful light. I AM One with all light. I AM that I AM. Beloved Father-Mother God, I love and adore you. Shine now through my every effort of becoming One with your Divine power and your Divine Love.

Oh, flaming presence of God, let the gift of Divine Love and Divine power, which is yours alone to give, flow through me to set all life free. I ask that I might be Love's open door.

As I accelerate my journey toward Eternal Oneness with you, I consciously draw back to myself all of my own energies, that I am so desirous of loving free. Help me, Beloved Father-Mother God, to love myself free all of my returning energy as I AM about the business of loving all life free, which is my Divine destiny. I am reclaiming all of my energies back into the heart of Love.

I AM the light of God in action loving me and all life free. I am grateful to the Violet Flame, the most powerful aspect of my Father-Mother God's Love and power, which instantly transmutes all outstanding energy back into its original protection. I AM One with my I AM presence and the I AM presence of all humanity. I AM One with my Father-Mother God. I AM that I AM, and so it is.

Beloved I AM. Beloved I AM. Beloved I AM.

Jennifer Thank you, Patricia.

Patricia You're welcome.

Patricia's Gifts

Jennifer Taking this moment to simply allow...

Hmm. Yes. It's a powerful meditation. I will point out that we will have this meditation as a separate free download on the website for you so you can all listen to it again and again. Share it with friends. Play it in your *A Course in Miracles* study group. We certainly encourage you to do that, and you'll have the transcript as well.

I would like to point out, too, that Patricia has on her website, eraofpeace.org, [E-R-A ofpeace.org](http://E-R-Aofpeace.org), many beautiful guided meditations including this one, as well as books and other wonderful resources. I think I have just about all of them myself. I really encourage people to go to eraofpeace.org and take a look. See what resonates for you. She has wonderful meditations for healing, for Prosperity, for Abundance as well as books and tools for that. She has—**isn't it a two-CD set about *The Return to Christ Consciousness*?**

Patricia Yes, it's a double CD. The one of it explains more about the Fall, about Jesus' mission in all of this. The baptism of the Holy Spirit, what does crucifixion meant and all of those things are in the first CD, Then the

second one includes this as well as several other meditations that have been given to us to help us with this process of returning to Christ consciousness.

Jennifer Exactly. I love that CD. I've listened to it so many times and I encourage people if you are—if you're feeling really sparked to take advantage of the wealth and resources that Patricia has. Like she said, she's got a whole lot of videos there at eraofpeace.org.

We're going to wrap up here in just a moment but I would also like for people to know, in addition to the beautiful conference, the gathering that's taking place in Alaska next month that you could still attend and read about that on her website.

Patricia, also she travels around the United States. She does a speaking event almost every month. She's got a number of them coming up in the fall. Did you one this month already? I've forgotten.

Patricia Yes. We did one in—come on, come on, come on.

Jennifer Chicago?

Patricia No, in Salt Lake City.

Jennifer Salt Lake City.

Patricia These are free seminars, and they're open to the public. Anybody who has a will are welcome to come. You can just register, and there's a number so that we can be sure we have enough seats for everybody when they come. They're welcome to register online or they can give us a call on the toll free number. The one coming up in September is going to be in Detroit area.

Jennifer Yeah, so there'll be one in September, October, and you said—is October or November in Washington, DC?

Patricia October is in Washington, DC, the month before the election. Then in November, we're going to be in Torrance, California.

Jennifer Yes. Those are free events. I highly encourage everyone to go to these events whenever they're in your area. They're certainly worth traveling to. I've done that. They are powerful healing vortexes of energy as you might imagine. They are truly deeply healing opportunity to join together with like-minded souls. Patricia speaks and leads guided meditations. There's music usually that's offered, and it's a wonderful opportunity, and it's all day practically. Have lunch, and bring your friends, and again, it's her gift to you.

Patricia Thank you, Jennifer. Let me just mention also that if people want to sign up on the website for the newsletter, or give us their physical mailing address, we mail out flyers and announcements when we're going to be in your area, too, so people would be able—it's listed on the website, of course. But if you want to get a flyer or reminder about it, please sign up. We consider that a sacred trust. We don't get that information to anybody.

Jennifer Yes. I'm glad you reminded us about the newsletter. I've been receiving that newsletter for many years and it's a wealth of insight and information, prayers and right up to the minute. It's so helpful in helping us to make sense of current events and windows of opportunity energetically. So it's all free at eraofpeace.org.

I'm going to say a prayer here to seal the deal. I'd like to say once again, thank you, Patricia, for showing up and sharing so deeply with us.

Patricia Well, you're welcome. It's been my honor.

Closing Prayer

Jennifer Once again I invite everybody to place your hand on your heart. We do this to remind ourselves we're wholehearted here. We're not just paying lip service. We are consciously choosing to be that open door. We are grateful and thankful to Partner Up with the Higher Holy Spirit Self and recognize the I AM that I AM, and that we are One with the I AM presence of all beings everywhere.

We are grateful and thankful to declare that our life is a life of Love. We are choosing freedom. We are loving ourselves, free of all limited thoughts and beliefs, and truly sharing the benefits with all brothers and sisters, with all life.

We are grateful and thankful to stand in our Holy purpose to be truly helpful. Everything we need is provided to us. We are grateful to accept it and to be the answer right now.

In gratitude, we share the benefits with all. We allow the healing to be, and so it is. Amen. Amen. Amen. Amen.

Patricia Amen.

Jennifer Thank you, everybody. God bless you. We love you.
