YOUR BATTLEFIELD BUSINESS

WELCOME

In this edition we bring you the very best of 2018 Gaming Technology. At Battlefield Sports we champion business owners to achieve their business goals so they can create happy and thrilling memories for their gamers.

BE A PART OF THE BATTLEFIELD SPORTS STORY

Many of us fantasize about giving up the day-job, escaping the rat-race and following our dreams. For hundreds each year that means opening up our very own laser tag business.

We are on a mission to empower battlefield operators to run their best possible business, thanks to our innovative and flexible laser tag system.

This year might just be your chance to expand your business or start a new one.

We started back in 1999, with a few thousand dollars & an idea -- to take a video game & experience it LIVE.

Everything we do flows from our belief in creating a "stage" where people can experience exhilarating & memorable times. We believe in creating the one of the best times of a gamer's life, by tapping into the thrill of Hollywood action blockbusters.

Our SATR 3 system is a clear representation of these beliefs. Our mission is to enable your business vision to become a reality.

Unlike a franchise we do not impose a certain way of entertaining your gamers. In fact, our SATR technology is so flexible you can theme your battlefield as a family-friendly laser tag theme, or sci-fi or modern military, zombies, our re-create battles from the American Civil War.

We've been inspired by our love of gaming & our enthusiasm to help others, just like you, to build a viable, thriving enterprise for you & your family. With this in mind, we present to you this year's catalog.

Sincerely,
Peter Lander   **Nicole Lander**
aka "Plan"   aka "Zev-va"

LIVE GAMING
YOU'VE SEEN THE MOVIES YOU'VE PLAYED THE GAMES. NOW... LIVE 'EM

All the Right Reasons to Say "Yes" to Adventure

SATR3 is patented digital technology for laser tag games -- indoor or outdoor. SATR stands for "Small Arms Transmitter Receiver". It offers you real-time hit feedback via light effects (via the red dot scope) & sound effects (via voice feedback & other SFX). SATR gives you realtime statistics - hit points, ammo, reloads, enemy hits, enemy kills, accuracy % & more -- meaning your gamers get an immediate adrenaline pump. Plus immediately at the end of a game you get Kill/ Death ratio (just like in video games!). If gamers play a series of games, then at the end of the session they get an average K/D.

Configure the system in any of 21 languages plus you can customize it with your own language.

This system is FLEXIBLE.

It is designed to maximize your profits & amplify game play. SATR works peer-to-peer, there's no central computer. Any unit can be booted up to act as any other unit e.g. a gaming gun can be booted to act as a medic box. The system scales up to big games. We broke the world-record for the most gamers playing laser tag at once: 436! Unlike traditional indoor systems, the radio range is not constrained by a central computer. SATR is portable & can be used indoors or outdoors.

The system can perform global start/stop, pause/resume even for really big groups. Operators can run up to 8 separate groups, in close proximity, without cross-fire. Plus you can turn friendly fire on or off. You can choose from 12 gaming genres or themes, from modern milsim, sci-fi, horror or fantasy or a family-friendly "laser tag" theme. In fact you can simulate 285 emulations from an Uzi to a P90 and even spells and support roles like "medic".

Gamers worldwide can gear up for the most immersive, authentic, live gaming experience. SATR has full FCC & CE certification. All gaming guns come standard with two head & a barrel sensor, RF feedback & battery. The system has 4 power levels - indoor, short, medium & long -- to suit your terrain.

Live gaming is going through the roof - get your slice of the action. Get in touch with us to book your live gaming experience today.

AMPLIFY GAMEPLAY & MAX PROFITS

1. Patented Technology: Real-Time Hit Feedback
So you know when you've got them! Play any game, in any terrain. No need for a central computer. Worldwide licence free radio signal on 433 Mhz band.

2. Awesome Sound Effects
More than 11,000 SFX including in-game announcements. Choose from 21 Languages + a custom slot.

3. Simple to Operate
Lock Out Mode - Set & Forget! While SATR can offer a diverse range of settings, sometimes you just want SIMPLE.

4. Friendly fire on or off
Perfect for indoor game-play, players on the same team never have to worry about shooting their teammates.

5. Predator Muzzle Flash
For great light effects: team colors blue/red/white or off.

6. Advanced Optik Sensors
Play Indoors or Outdoors. Head sensors are wired into the main battery so never lose them. Integrated barrel sensor Penalizes blind firing.

7. No central computer system
100% Portable. Built in redundancy - boot any unit to act as any other, e.g. you can boot up a gaming gun to act as a Master Controller.

8. Real-time Statistics
Each gamer can track how they are doing, from % accuracy, Hit Points, Ammo, to Kill/Death ratio, & more.

9. Standard Inclusion
All models have digital radio feedback and integrated sensors. The battery is long lasting & there's no need to remove it to re-charge.

10. 8 Groups, No Crossfire
Host up to 7 teams and up to 2,047 players. More, you can play in up to 8 separate battle groups without cross-fire.

11. Range Settings
Adjustable range: indoor/ short / medium / long. Plus special melee packs (perfect for zombies & monsters). Power down when indoors or up for daylight game-play. Small units range up to 300ft/80m, Large units 800ft+/240m+.

12. Set Gamers Wirelessly
Easy to use Master Controller for fast wireless game set-up - change game time, volume, set continuous play, plus many more options! Great for large groups needing high throughput.

13. Highly Configurable
285 Emulations for a huge range of live gaming options from Modern Milsim and Tank Battles to Fantasy Spell Casting and Monsters/Zombies, even support for American Civil War scenarios.

14. Hundreds of Live Game Scenarios
Including popular games like Electronic Capture the Flag, Rush, Heist, Domination, and Free for All.

15. Set Up the System The Way You Want
Pre-sets up to 8 weapon slots. Switch between emulations such as your primary weapon, secondary weapon, and medical supplies.

16. Turn-Key System
Only the operator can turn the unit on/off. One key fits all models. The unit stores previous configurations for quick set-up. Plus save up to 12 user-defined templates.

17. Built Tough
Quality aluminium & steel construction or robust fiber-reinforced polycarbonate construction.

18. Integrated Red-Dot Scope
Powered via a high-powered re-chargeable battery for all day gaming. The Scope automatically switches off if the unit is turned off. No need for two batteries. Also simulates recoil.

19. Precision glass optics
For long range game even in daylight. Upgrade to the Sniper Lens.

20. All weather gaming
Marine Quality Mylar speakers for all weather gaming. Weather resistant enclosures work fine in showers and light rain.

21. Configurable difficulty level
Easy / Standard / Hard / Legendary. Customize your customer's experience for any age-group or skill level.

22. Self-Diagnostics
Straight-forward to maintain. Compliance testing from an independent Test Laboratory.

23. Operator Support
Battlefield Sports University, Portal Listing and more.

24. All New Game-Play Support
Amp up the Game-Play with perk and mystery boxes. Offering gamers new in-game perks like "super mag" or "stopping power"

25. The Best Gamer Experience
Battlefield Sports' SATR3 is hi-tech, customer & operator friendly, and easily customizable. It's the most versatile live gaming system on the market!

CHOOSE YOUR THEME

The first question to ask yourself when considering starting Your Battlefield Business is "what theme?" Are you considering a hard-core military simulation - Battlefield LIVE? Are you considering a Horror or Zombie theme - Battlefield UNDEAD? Are you considering army parties or sci-fi for kids - Battlefield TAG (aka Laser Tag)? If you select a "Laser tag" theme, then the sound effects & wording on the display changes. For example, Laser Tag e.g. instead of using "kill", use "de-activated" & on the "phaser" the display changes to D for deactivations rather than K for kills. You can see below that the gamer's screen will change depending on which theme you select.

A

DISPLAY A

The display shows the Hit Points=5 out of 5. LASER TAG: Ammo=49 out of 50.
Current Emulation: Cobra. R UL (Reloads=unlimited)
Tags=0. Deactivations=0. ReSpawns=0. Battle Group=1. Team=X (any team).
The unit's status=Ready. FA (Fully Automatic Firing).

B

DISPLAY B

This display the hit points: HP=25/25. Ammo=46/50.
Current Emulation: FN P90. Range: Med – Medium. P4 = 4 points of piecing damage
Hits = 0. Kills = 0. ReSpawns = 0. Battle 1, Team C.
The unit's status = Ready. SA (Semi-Automatic Firing)

SELECT FROM 12 GAMING GENRES OR THEMES. FROM MILSIM "BATTLEFIELD LIVE" TO FAMILY FRIENDLY LASER TAG.

Access All Areas
and visibility to all menu options.

Mil Spec
The Military Specification sets the system to functions suitable for military training exercises. Includes wide range of modern small arms.

Battlefield LIVE
Battlefield LIVE Genre. Modern combat simulation settings.

Battlefield TAG
Laser Tag Genre. Simplified and limited options for running basic laser tag games.

Battlefield FANTASY
Suitable for fantasy role playing games. Includes medieval weapons, armor, shields, rings, spells and monsters.

Battlefield UNDEAD
Horror Genre. Modern day horror genre includes full range of weapons and modern genre monsters.

Battlefield Sci-Fi
Science fiction Genre: Futuristic weapons and armor as well as futuristic monsters.

Battlefield WW2 AFV
World War Two: Armored Fighting Vehicle Genre. Especially World War 2 tank combat.

Battlefield Modern AFV
Modern Armored Fighting Vehicle Genre. Especially modern tank combat.

Battlefield WW2 Ord
World War Two Ordnance Genre. Large direct fire artillery simulation.

Battlefield Modern Ord
Modern Ordnance Genre. Large direct fire artillery simulation.

Battlefield ACW
American Civil War

LASER TAG GUNS
Up to 285 Emulations.
This model recommended emulation - HB14.

RANGE
Long range setting: up to 120 meters 400 feet. Defaults to long range.

COLOR DEFAULT
Hammerburst Black.

SCOPE
Red Dot, wired into the main power source: rechargeable battery 7.2 volt (4,000mAh).

WEIGHT
5 lbs / 2.3kg

LENGTH
16" / 43cm

CAT CODE:

GG HB14   (base model)
GG HB14A   (with handgrip)
GG HB14B   (with sling)
GG HB14AB (with hand-grip & sling)

This is a HB14 with aftermarket add-ons: bipod & stock

HB14
PERSONAL DEFENCE

SUITABLE FOR: Gamers aged 8+

This is one of the most popular metal laser tag gun models in the Battlefield Sports' line up. It is the HB14 a personal defence weapon. The HB14 PDW gaming gun is inspired by weapons in popular video games like Call of Duty. The latest SATR software supports both super-sonic & sub-sonic weapon emulations.

It is pretty compact and it is great for both indoor or outdoor laser tag games. This new gaming gun model is compact and robust. This model comes with a 40mm lens for LONG range gaming, even in daylight. Or simply change the software settings to "indoor" mode for arena gaming.

The construction on this laser tag gaming gun is aluminium with stainless steel bolts. It also comes standard with a marine-grade speaker. This makes the HB14 one of the most rugged laser tag guns on the market.

The Honey Badger has an integrated Red Dot scope. Battlefield Operators can also customize the gaming gun by adding a forward hand-grip or sling (or both!). Battlefield Sports laser tag equipment is famous for its build quality and realism without sacrificing durability, making the HB14 a truly commercial laser tag gun.

With this Battlefield Sports laser tag gun you can realy create a "wow!" efect for your customers.

GAMING GUNS • BATTLEFIELD SOFTWARE • GAMES / LIVE-PLAYS

LASER TAG GUNS
Up to 285 Emulations.
This model recommended emulations - FN P90, MP28-50, PPsch-41.

RANGE
Long range setting: up to 120 meters 400 feet. Defaults to medium range.

COLOR DEFAULT
Hammerburst Black.

SCOPE
Red Dot, wired into the main power source: rechargeable battery 7.2 volt (4,000mAh).

WEIGHT
6½ lbs / 3kg

LENGTH
20½" / 52cm

HEIGHT
9" / 23cm

WIDTH
2" / 5cm

CAT CODE:
GGP90

Made famous by the hit TV series, "Star-Gate" the P90 is a versatile gaming gun.

P90
PERSONAL DEFENCE WEAPON

SUITABLE FOR: Gamers aged 10+

The P90 is a personal defence weapon made famous by the hit TV show "Star-Gate."

This is a mid weight gaming gun, making it ideal for teens and adults. If you are going for a sci-fi theme with a military cross-over then this is your model of choice. Here is what is new:
* Red dot scope lowered for fast target acquisition and better aiming
* Lens housing is aluminum throughout for increased robustness
* Antenna bracket more slim-line for strength
* Handle is polyurethane and is lighter & stronger.

The standard issue color of this gaming gun is black. The orange barrel tip is removable for indoor battles.

Like all models, on boot up, you can configure the gaming gun's range to "long" or reduce the power for indoor games. Range selections include: long, medium, short or indoor. Because the model is compact, it can be used in an urban setting either indoors or outdoors.

"We are committed to bringing gamers the best gaming guns to your battlefield," said Peter Lander, Founder of Battlefield Sports.

Devotees to indoor or outdoor Battlefield LIVE will want to get their hands on one of these.

Get in touch with us to book your live gaming experience today.

LASER TAG GUNS
Recommended emulations - Scorpion for a Laser Tag theme or P90 for a Milsim theme.

RANGE
Long range setting: up to 120m/400ft.
Scorpion emulation defaults = short range.
P90 emulation defaults = medium range.

COLOR DEFAULT
Polycaboronate case - Black.
Option Upgrade to Red or Blue Tube.
Switch out Black Ring with Orange. Decals Grey, Blue or Red.

SCOPE
30mm Red Dot Scope wired into main power source. Takes a rechargeable battery 7.4 volt (2,200mAh).

WEIGHT
2.8lbs / 1.3kg +

CAT CODE:
GGBLST1   (No Scope)
GGBLST4   (Red Dot Scope)
Check with your local consultant for full options list

BLASTER
COMPACT PHASER

SUITABLE FOR: Gamers aged 5+

The new Battlefield Sports Blaster model is a polycarbonate and metal hybrid. It is ultra-light and ultra-compact.

It features a 40mm lens for long range gaming even in daylight. It also has a marine-grade 50mm mylar speaker for gaming even in the rain.

This new model brings a new generation of innovations including, just like a camera, the ability of the standard front lens tube to be unscrewed and replaced with a sniper lens tube (which features a 46mm lens for super long-range gaming!).
The Blaster features a fiber-reinforced polycarbonate body with an aluminium alloy handle with a steel spine for strength.

The Blaster includes the advanced capabilities of the award-winning Battlefield Sports series of laser tag guns.

Designed and made in Australia, the new Blaster is brand new. The Blaster features, as standard, the Predator Targeting System and the patented SATR system.

Polycaboronate case - Black. Trigger & Fake Barrel are Orange. Decals Green, Blue or Red.

SCOPE
30mm Red Dot Scope wired into main power source. Takes a rechargeable battery 7.4 volt (2,200mAh).

WEIGHT
3.9lbs / 1.8kg

CAT CODE:
GG COBRA

Cobra are great for playing indoors or for mobile laser tag.

COBRA
PHASER

SUITABLE FOR: Gamers aged 6+

MOST POPULAR

The COBRA is our most popular laser tag gun model. It is built tough. This design incorporates the very latest in industrial design and precision engineering. Choose your team via decals (Blue, Green or Red) and muzzle flash / hit light (Blue / Red).
Add colored headbands and head wraps (bandanas) to match.
This laser tag gun is ideal for the Battlefield TAG (Laser Tag) genre. This theme changes the language and display e.g. instead of "firing" the display shows "tagging".
The case is made from heavy duty fiber-reinforced polycarbonate which is on average 4mm thick, even thicker in critical areas.
The design incorporates extensive use of silicone seals to make the Cobra highly weather resistant.
All electronic parts except the reload button are mounted on the right-side of the enclosure making disassembly, maintenance and reassembly extremely easy. All surfaces are rounded making this unit very suitable for both indoor and outdoor use. More, there is no protruding barrel, in fact there is no real no barrel - a design that is for maximum safety.
Blaze orange tip prominently placed at the front to ensure there is no danger of creating public alarm, so Cobra can be used just about anywhere.
Every unit includes the latest SATR electronics system, integrated head and barrel mounted infrared Optik sensors and Predator muzzle flash.
Cobra has an extra weaver rail underslung for mounting a tactical torch. It also has an internally mounted (inside forward hand grip) antenna for maximum robustness.

GAMING GUNS • BATTLEFIELD SOFTWARE • GAMES / LIVE-PLAYS

LASER TAG GUNS
Up to 285 Emulations.
This model recommended emulations - Uzi, Mp5SD, M3 Grease Gun, MP38/40, Sten MKII, MAT 49- 20, MP18 and the MAT49-32.

RANGE
Long range setting: up to 120 meters /400 feet. Defaults to short range.

COLOR DEFAULT
Hammerburst Black.

SCOPE
Red Dot, wired into the main power source: rechargeable battery 7.2 volt (4,000mAh).

WEIGHT
4.4lbs / 2kg

LENGTH
16" / 42cm

CAT CODE:
GG SPITFIRE

This model was inspired by the famous Uzi machine pistol.

SPITFIRE
MACHINE PISTOL

SUITABLE FOR: Gamers aged 7+

The Spitfire machine pistol is a compact laser tag gun. Its design is reminiscent of the famous UZI, but it is not an exact replica. Not surprisingly, the recommended software emulation is the "Uzi".
It is great for outdoor live gaming, or with the orange barrel tip removed, it is great for indoor gaming too.
Many paintball field owners and theme park managers have chosen the Spitfire model because it looks cool and is robust.
Like all of our laser tag gun models, it is built tough in Australia and is made from high-grade but light-weight aluminium and secured with stainless-steel screws.
All metal laser tag guns models including the Spitfires are powder-coated with quality Dulux paints.
The Spitfires features a 40mm lens for long range gaming even in daylight. It also has a marine-grade 50mm mylar speaker for gaming even in the rain. The sound effects come in up to 21 languages include the non-language "arcade" sound scheme or you can customize it for your own language.
This next generation of laser tag gun ushers in a new generation of live gaming - be a part of the action.

Boosted my Numbers
"We are still getting plenty of return business for Laser Tag and are especially pleased how Battlefield LIVE has complimented the existing Ten Pin Bowling business. Rather than detract from the bowling numbers, it seems to have boosted them"
Peter Mc, Australia

GAMING GUNS • BATTLEFIELD SOFTWARE • GAMES / LIVE-PLAYS

LASER TAG GUNS
Up to 285 Emulations.
This model recommended emulations - Scorpion, MP5, Owen SMG, M1928 Thompson, PPS-43.

RANGE
Long range setting: up to 120m/400ft. Defaults to Short range.

COLOR DEFAULT
Hammerburst Black.

SCOPE
Red Dot, wired into the main power source: rechargeable battery 7.2 volt (4,000mAh).

WEIGHT
4.6lbs / 2.1kg

LENGTH
11.8" / 30cm

CAT CODE:

GG SCORPION

SCORPION
SUB MACHINE GUN

SUITABLE FOR: Gamers aged 7+

The Scorpion is our most popular metal laser tag gun model. It is light-weight yet robust. It is great for either indoors or outdoors. It particularly comes into its own for urban Close Quarter Battles (CQB).

The blaze orange barrel can be removed for indoor arenas. The recommended software emulation for this model is the sci-fi themed "scorpion". While the default color is "hammerburst black" you can option up to a variety of colors, ask your local consultant how we can customize it for you.

The Scorpion is, by default, has sci-fi sound effects, but just like any of our laser tag models it re-configured on boot up. The patented SATR laser tag system offers you up to 285 emulations. Just like the Cobra model, the Scorpion is great for mobile laser tag games.

In fact all of our equipment is 100% portable, built tough, and weather-resistant.

It comes standard with an integrated red-dot scope & one heavy-duty rechargeable battery that powers both the laser tag gun and its scope. So when you turn off the laser tag gun with the key, you automatically turn off the scope too.

GAMING GUNS • BATTLEFIELD SOFTWARE • GAMES / LIVE-PLAYS

WEIGHT
9.5lbs / 4.3kg

LENGTH
34" / 88cm

CAT CODE:

GG MORITA SAW
GG MORITA SNIPER

MORITA
SNIPER OR SAW

SUITABLE FOR: Gamers aged 12+

The Morita model has been a stalwart in the Battlefield Sports' laser tag arsenal for many years.
It is a perennial favorite. This is a big laser tag gun!
It is a 3-foot-long metal monster!
And boy, oh boy does it have some firepower!
This model is best used in woodlands or big-box warehouse arenas. It has a long-range 46mm lens for maximum range. Every unit includes the latest SATR system.
It has integrated head & barrel mounted infrared Optik sensors and predator muzzle flash.
The morita SAW model comes standard with a bipod and a red dot scope.

The morita Sniper model comes standard with a telescopic scope (no bipod, but this can be added as an option).
Ensure your Morita is the genuine article - look for the "Copyright Pathfinder Events 2018" on the boot up screen.

GAMING NECCESSITIES • BATTLEFIELD SOFTWARE • GAMES / LIVE-PLAYS

GAMER CONTROLLER
The Controller manages the games such as Game Start By Radio or Set Game Timer, plus has many other functions.

COLOR DEFAULT
Hammerburst Black.

SCOPE
Nil. But includes a rechargeable battery 7.2 volt (4,000mAh)

WEIGHT
3lbs / 1.4kg

CAT CODE:
AC REF
AC REF WHIP

MASTER CONTROLLER

SUITABLE FOR: Commanding Officer (C.O.) or Referee

A master controller controls the games and is normally used by operators/instructors. It has numerous functions to monitor and control devices by radio and infrared communications. Timed games can be as short as 1 minute or as long as 240 minutes. Or you can have un-timed games.

In SATR3 the Master Controller has four boot-up options for the controller, namely:

* Comprehensive Master Controller   * Simple Master Controller
* Workshop Master Controller   * Themed Master Controller.

Comprehensive Master Controller
A master controller controls the games and is normally used by operators/instructors. It has numerous functions to monitor and control devices by radio and/or infrared communications. The most common functions for the controller are: start a times game by radio; set a laser tag gun or box to a team; reset units back to a default configuration; or set a time for a game. Timed games can be as short as 1 minute or as long as 240 minutes. Or you can have un-timed games. A controller can issue pre-recorded phrases or sound effects to gaming guns in gamer mode. The master controller can also monitor and provide limited remote control of devices on the same battle.

Simple Master Controller
The simple master controller is a simpler version of the master controller. It does not have access to many of the unusual or complex commands. It is suitable for running simple "Laser Tag" events. Commando include:
* Respawn (or Reactivate)   * Team A (set the target devices to Team A)
* Set Game Timer   * Team B (set the target devices to Team B)
* End (RF)   * Reload (IR)
* Start (RF)   * Briefing (RF)
* Find (RF)   * Set Volume
* Any Team
  (sets to Team X, effectively no team)

Workshop Master Controller
A Workshop Controller is designed for the depot staff, especially for a rental business. Commands include Reset, Set Spare, Test RF, Spawn, Shoot, Kill, Unlock, and Lock.

Themed Master Controller
This is a master controller but has extra commands for controlling games using the game modes of Manhunt, Haunted and Apocalypse.

The User Guide explains each of these master controller functions in more detail. You can download a copy of the latest user guide from our web site.

GAMING NECCESSITIES • BATTLEFIELD SOFTWARE • GAMES / LIVE-PLAYS

DOMINATION BOX

RECOMMENDED: We recommend min. 1 Domination Box per field

☑ The Domination Box main purpose is to track which clan is controlling a position.

☑ Usually you place a Dom Box in the center of the battlefield.

COLOR DEFAULT
Bright Yellow
(textured powder-coat).

SCOPE
Nil. But includes a rechargeable battery 7.2 volt (4,000mAh)

WEIGHT
4lbs/1.9kg

CAT CODE:
AC DOM BOX

The Domination Box is a robust design.

The Domination Box enables you to play one of the most popular games and the easiest to run! The game is simple, players need to shoot the box to control it.

Please note if you are planning on running Domination Games, you will need two medic boxes and one dedicated domination Box, i.e. a total of three units.
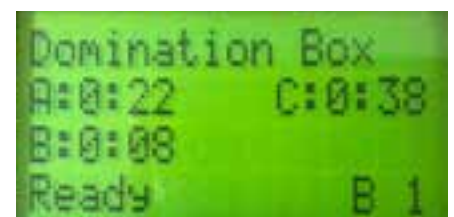

In the Domination Game a gamer on the Blue Team (Team B) shoots its sensor and the light flashes blue. The box also issues a sound effect "Ding!" When a Red Team (Team A) gamer shoots it, the light swaps to red. The box issues a sound effect "Dong!". The box times how long each team dominated to determine the winning team.

The Domination Game can also be run where the gamers press a button to swap. The Boxes can be configured to provide status updates via sound effects every 1 minute, 30 seconds or 15 seconds. For example, "Bravo Team Is Dominating" or "Blue Team is in Control".

You can also control the volume level within the software settings. The full strip of LEDs on the side of the box, as well as the sensor on the top of the box flashes to indicate which team is in control. This is an exciting game and is a must in any arsenal.

If you are running a Battlefield LIVE (milsim theme) then we call this mission the "Domination Game". If you are going with a Laser Tag / Battlefield TAG genre then we call this the "Ding/Dong" game.

Domination Box
A:0:22   C:0:38
B:0:08
Ready   B 1

GAMING NECCESSITIES • BATTLEFIELD SOFTWARE • GAMES / LIVE-PLAYS

☑ The Mystery Box main purpose is to offer the gamer a new weapon emulation - mid game.

☑ Timed mystery emulations or a fixed number of mystery emulations per game.

☑ When set as a Medic Box, main purpose is to gamers respawn themsevles.

**COLOR DEFAULT**
Bright Yellow
(textured powder-coat).

SCOPE
Nil. But includes a rechargeable battery 7.2 volt (4,000mAh)

WEIGHT
4lbs/1.9kg

CAT CODE:

AC DOM BOX

MEDIC BOX OR MYSTERY BOX
& OTHERS

RECOMMENDED: We recommend minimum 2 Battle Boxes+ per field

The Battle Box is a flexible battlefield prop. Battle boxes can be set as a:

* Medic Box	* Mystery Box (Weapon)
* Mystery Box (Armor)	* Perk Box
* Flag Box	* Weapon Box
* Armor Box	* Ammo Box
* Rush Box	* Bomb Site
* Mission Box	* Money Drop Box
* Vault	* Cure Box

When set as a Medic Box it re-spawns (or re-activates) units. You can have timed re-spawns, a fixed number of respawns per game, timed reloads, fixed number of reloads, or unlimited number of respawns/reloads.

When set as a Ammo Box it can re-supply players with ammunition. The most common configuration is a Combo Box which both offers respawns and ammo resupply.

The re-spawn & re-supply zone works via infrared or by digital radio to the players need to be approximately 3 to 5 feet (1 to 2 meters).

Different boxes enable you to play different missions.

Additional battle boxes can be set to act as special boxes to enhance the game-play. Battle boxes can be set as a:

* Mystery Box (Weapon or Armor)	* Perk Box
* Flag Box	* Weapon Box
* Armor Box	* Ammo Box
* Rush Box	* Bomb Site
* Mission Box	* Money Drop Box
* Vault	* Cure Box

Different boxes enable you to play different missions.

To play the most popular game "Captured the Flag" you'll need: 2 x Medic Boxes + 2 x Domination Boxes. Optionally you can also have a Perk Box.

To play "Team Death Match" you'll need: 2 x Medic Box + 1 x Domination Box (set as a Perk Box). To play the "Advanced Team Death Match" also add in a Mystery Box.

To play the "Heist" game you'll need: 2 x Medic Boxes + 3 x Domination Boxes (two set as Vaults, one for each team and one set as a Money Drop Box).

To play the "Rush" game you'll need: 1 x Medic Box + 1 x Medic Box
(set as Rush Point 1) + 2 x Domination Boxes (set as Rush Point 2 and Rush Point 3).

To amp-up the game play to any mission you can add in a Mystery Box. A Mystery Box enables you to add an element of surprise to your live gaming. A mystery box gives the laser tag gun a new random weapon emulation. The box can be set to provide:
* a new random weapon emulation from within the current genre or
* a completely random emulation for any of the 285.

The gamer must wait at least 60 seconds before they can retry for a new mystery emulation.
Changes made to the emulation are temporary and are not retained between mission starts.

For a comprehensive explanation of all the battle box functions please refer o the User Guide.

GAMING NECCESSITIES • BATTLEFIELD SOFTWARE • GAMES / LIVE-PLAYS

EMULATION
Various emulations including zombie, monsters & fantasy emulations

RANGE
Very short range setting: 2 meters/6 feet. Defaults to very short range.

COLOR DEFAULT
Black.

SCOPE
No Red Dot.
Includes rechargeable battery.

WEIGHT
1.1lbs / 0.5kg

CAT CODE:
AC MELEE
Code "M" Added to the Laser Tag Gun Code e.g. GG COBRA M

This is the Zombie melee pack - note the mask is not included.

MELEE PACK

SUITABLE FOR: Gamers aged 8+

The Melee Pack offers exciting game opportunities. It can be used for zombie game, fantasy scenarios, even escape rooms!

The Melee Pack can be integrated into a laser tag gun or into a little box (with or without integrated head sensors). This little box can be secreted into an actor's costume or used as a battlefield prop.

What it does is emit a pulse so a gamer gets close to melee pack it can hit them!

If you get the Melee Pack with the integrated head sensors, then just like in the movies, gamers need to shoot the zombies in the head to get them. And the Monsters can "shoot" back even without a laser tag gun.

Or you can select to upgrade a Battlefield Sports laser tag gun, such as a Cobra to include the special Melee head sensors. This is so you can still use the laser tag gun in regular battle games as well as for special characters during Zombie games.

There are many software options with SATR3. In the Battlefield UNDEAD genre you can select participants to be Zombies or Survivors. There is an easy to run "Haunted" mode or get adventurous with our advanced "Apocalypse" mode. In the Battlefield FANTASY genre you can select the gamers to act as monsters or spell casters. The live action gaming possibilities are endless!

GAMING NECCESSITIES • BATTLEFIELD SOFTWARE • GAMES / LIVE-PLAYS

☑ The Claymore adds excitement to your gameplay.

☑ Create a "mine field" with multiple claymores.

☑ It can act as a claymore, normal mine or dirty mine. Or as a free-standing target.

COLOR DEFAULT
Olive Drab.

SCOPE
Nil. But includes a rechargeable battery 7.2 volt (4,000mAh)

WEIGHT
4lbs/1.9kg

CAT CODE:

AC CLAYMORE

This photo shows the new Olive Drab color.

CLAYMORE MINE

RECOMMENDED: Adds excitement to your battlefield

CLAYMORE MINE
When emulating a claymore mine, the amount of damage can be configured.
Also configured if you want the mine to sound like a mine, artillery or air strike.

A mine can be configured as an area effect weapon using the digital radio system instead of the infrared system.

DIRTY MINE
This configuration actually shoots continuously

for 22 seconds. It has a cool "Geiger-counter" type sound effect. The claymore comes with a bank of 48 infrared emitters so it has abroad area effect. A claymore can be configured to be triggered by being shot by a gamer.
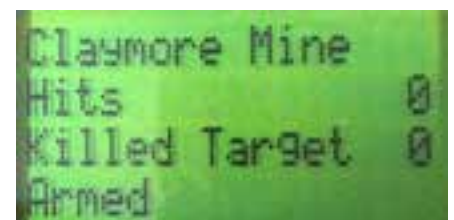

You can also configure a simple target.

The claymore can be configured to automatically rearm after a specified period of time.

The explosion effect distance can be reduced for indoor play. Plus its volume can be easily configured.

GAMING ACCESSORIES

REPLACEMENT HEAD SENSOR (P HEAD SENSOR 6 PIN) Standard Antenna (P ANT SHORT) Barrel Sensors (P Barrel Sensor).

RADIO REPEATER The Radio Repeater mode retransmits master controller radio signals for starting & ending games - place the repeater on high ground with clear lines of sight. (GG REPEATER).

"BATTLEFIELD SPORTS UNIVERSITY"

THE ONLINE RESOURCE "YOUR BATTLEFIELD BUSINESS" OWNERS
A password protected online resources for Your Battlefield Business owners. It includes useful resources such as high res images, tips to grow your business, examples of press releases, and much more. **FREE** for clients who use 100% Battlefield Sports equipment.

GAMES TO PLAY

CAPTURE THE FLAG
The goal is to shoot the opposition's flag box and get back to your team's flag box and shoot it. That counts as one point. The team with the most points at the end of game, wins.

DOMINATION
Inspired by the Call of Duty domination game play with 1 or 3 Domination Boxes. The winning clan has control of the box for the longest. You might also like to award the gamer who has the highest number of "owns".

CAPTURE THE BASE
The classic defend/ attack game is perfect for an indoor arena. One team starts at their base, the other starts at the other end of the battlefield.

ZOMBIE GAMES
There are lots of different ways to play out a Zombie game from a 5min "Nazi Zombies/ Call of Duty type game" to an 8hr Epic. There are two modes in the technology - Apocalypse and Haunted.

4 STRONG POINTS
Capture 4 strong points around the battlefield. Each strong point must be taken in order either in a clockwise or anti-clockwise direction as specified by the CO.

SNIPER
This game works well with small groups from 4 to 16. Plays out best in the forest.

HEIST
The traditional Cops vs Robbers game. The objective for the criminals is to capture and retrieve the bags of cash. The police objective is to kill the criminals and prevent them stealing the cash.

CAPTURE & HOLD
A simple game that's great for mobile events. Basically two Teams start at opposite ends of the battlefield, and each vie for a central area.

TEAM DEATH MATCH
A very popular game. It is quick to organize so throughput is huge. The objective is for your team to shoot the other team more than they shoot yet. Works well with our "continuous game" mode.

V.I.P ESCORT
There are several versions of this game. You can choose from a Battle Scenario or an Ambush one. Choose the one which best suits your terrain.

CQB
This game simulates a close quarter urban battle with both sides trying to capture a vital building. Over the course of the battle, both sides have reserves. Play either indoors or outdoors, as long as the field is quite small.

RUSH
One team plays out a fighting retreat and the other team has to capture three strong points in order.

FOR LOTS MORE GAME IDEAS SEE **THE ADVANCED GAMES HANDBOOK.**

SWAYZO

BATTLEFIELD LIVE GAME SOFTWARE

CAT CODE:
LP SWAYZO PRO
LP SWAYZO LITE

The SWAYZO clan war management software makes it straight forward for you to run Clan Wars. The software has three modules:

* **EVENT MANAGER** - enter clans, create the clan war as an event, generate the draw, enters the results. This module covers all the data entry. Calls the battles and prints battle cards. It keeps track of which clans have checked in or are currently playing.

* **LEADERBOARD** - displays the ladder of results.

* **DRAW BOARD** - shows which clan is playing this round (calls the battles, which clan on which battlefield) shows all other battles in the current round.

It supports the " number of wins" as the tie-breaking criterion. Swayzo runs on Windows 2000, XP, Vista, 7, and windows 8. The software is available as a "gift with purchase" to Your Battlefield Business operators and will be available via download from the Battlefield Sports University. You will need a printer.

You will also need to download the free Microsoft Access database drivers - these are freeware. (If you already have Microsoft Access on your computer, then you won't need to do this.)
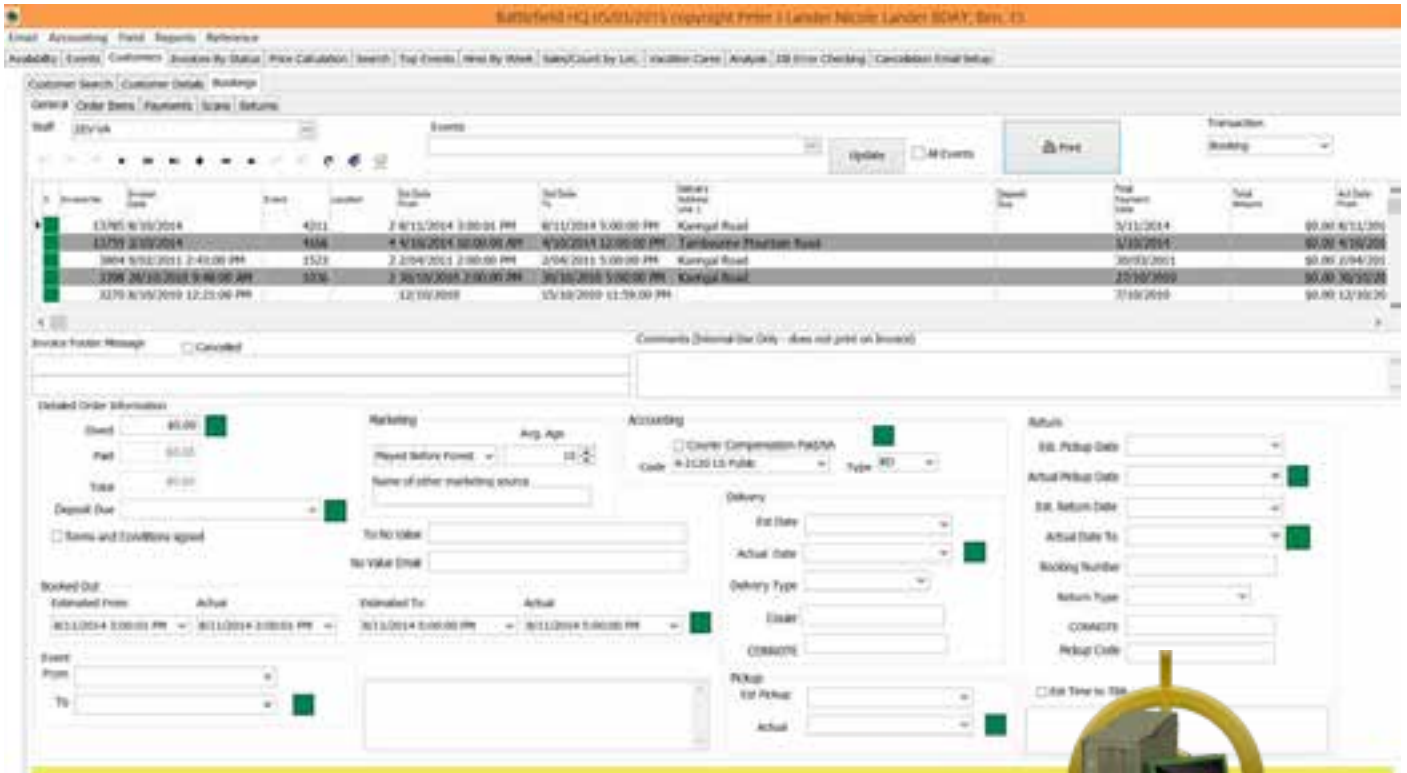

Example of the Leaderboard.

BATTLEFIELD HQ
BATTLEFIELD LIVE GAME SOFTWARE

Managing a busy laser tag business can be time-consuming. The Battlefield HQ software streamlines your administration chores and lets you concentrate on creating thrilling games and fantastic memories for your customers.

CAT CODE:
BATTLEFIELD HQ

BATTLEFIELD HQ REPORTS
The system can print out a series of reports:

* Create and track bookings Access customer histories.

* Registration Sheet which lists prepaid bookings and bookings still needing payment.

* Capacity Management System. Bookings by Location lists the details of different bookings.

* Food/Beverage Sheet. This lists what catering has been booked for an event.

* Invoices & Confirmations emails automatically.

* Workshop Picking Slip so your quartermaster knows what items/ equipment has been booked.

BATTLEFIELD HQ BENEFITS
The benefits of the Battlefield HQ software includes:

* Customer Relationship Management - customer database enables operators to identify their V.I.P customers.

* Track payments & deposits.

* Track marketing effectiveness and how customers found you.

* Analyse revenue by category & more!
