Dr. Tullis was invited to Bridges Academy to discuss spirituality and health, and how spirituality is enacted in medical settings. This lecture explored the research about spirituality in a variety of healthcare settings, and provided an opportunity to reflect upon their own beliefs and how those beliefs influence healthcare decisions. She provided strategies for communicating with healthcare practitioners and loved ones. #rockedit!

Dr. Bond recently added two more publications to his curriculum vitae!

#1: Following your "friend": Social media and the strength of adolescents' parasocial relationships with media personae in *Cyberpsychology, Behavior, & Social Networking*

Professor Bridges' Parade cover feature called "Exceptional Minds: Movie Magic," which is about a visual effects studio in LA that trains and only employs young adults on the autism spectrum -- who work on major movie hits -- is a finalist for a Folio Eddie award!
