Community Services

Mission Statement

In partnership with our citizens, Gwinnett County Parks & Recreation provides high quality, broad-based parks, facilities, programs and services creating a sense of community, enabling a safe and secure environment, and enhancing Gwinnett's quality of life. The department promotes recreational opportunities to improve the quality of life for all citizens in Gwinnett County and makes reasonable modifications to programs, services or activities when necessary to promote participation by persons with disabilities.

Conservation Statement

Gwinnett County Department of Community Services established its environmental sustainability initiative that focusses on recycling and resource conservation. DoCS is committed to effective stewardship for a healthy environment where people want to live, work, and play.

SPLOST Success – Pennies for parks

In 2016, Gwinnett County voters approved the renewal of the Special Local Option Sales Tax (SPLOST). First approved in 1996, the one-cent sales tax is essential in preserving green space and natural resources in Gwinnett County. This funding has provided many new trails, playgrounds, sports fields, aquatic centers and gymnasiums to improve the quality of life for Gwinnett's citizens.

THERAPEUTIC RECREATION

Gwinnett County Parks & Recreation believes ALL members of the community should have access to fun, healthy, positive recreation. Therapeutic Recreation offers specialized and inclusive community-based programs for individuals with special needs. We seek to provide residents who have physical, economic and or behavioral challenges the opportunity to participate in competitive sporting events, specialized classes, creative activities and special events.

Therapeutic Recreation exposes participants to new experiences to increase self-esteem and self-confidence and to promote community involvement and independence. That's what Therapeutic Recreation is all about! For more information on Therapeutic Recreation, email cstr@gwinnettcountry.com. For specific accommodations or questions, please contact Janice Rinaldo at janice.rinaldo@gwinnettcountry.com or call 678.277.0875.

Specialized Programs are open to everyone, but are designed to meet the unique needs of individuals with physical, mental and/or emotional disabilities. Programs include sporting activities, adaptive aquatics, arts & crafts and much more!

Inclusive Programs provide reasonable accommodations to people with disabilities upon request. Successful participation and accommodations will only be possible with the commitment of both the recreation staff and the participants. Some minimum eligibility requirements may be required in order to participate. With a reasonable accommodation, an individual can meet the basic need or essential requirements for participation.

Participants are asked to notify the recreation department regarding any and all accommodations necessary for participation at least two weeks prior to the program start date. If accommodation requests are made less than two weeks in advance, Gwinnett County Parks & Recreation will make every effort to meet the request. If we are unable to meet the request in time, Gwinnett County Parks & Recreation reserves the right to limit or deny registration for the requested session. However, the participant will be eligible to register for another program later in the session. Visit www.GwinnettParks.com for more information on Therapeutic Recreation.

Live Healthy Gwinnett

Launched in 2014 as a partnership between Gwinnett County Parks and Recreation and Eastside Medical Center, Live Healthy Gwinnett is designed to encourage and engage Gwinnett County residents to invest in personal wellness while focusing on four major wellness areas: Be Active, Eat Healthy, Get Checked and Be Positive.

Live Healthy Gwinnett (LHG) partners with and participates in many of Parks and Recreation's events. LHG takes a proactive wellness approach to address the preventable chronic illnesses that impact individuals of Gwinnett County. Through community education, people can significantly reduce their risk of developing chronic diseases by making simple lifestyle changes: eating healthy, increasing physical activity and reducing stress.
