WELCOME

Discovering & Deploying Your Leadership Gift

Welcome to the 2008 Global Leadership Summit, an opportunity designed to equip you with the tools essential to optimum self-development. Each year we are pleased to welcome leaders from diverse nations who choose to join in this leadership forum to prepare themselves for becoming a part of the solution to the leadership crisis seen throughout our world. Our theme this year, "Discovering and Refining your Leadership Gift," taps into the heart of leadership concepts. I am convinced that trapped within every follower is an undiscovered leader, and this leadership potential is tied to an individual's personal leadership gift. During this Summit, we will address, explore, and ignite this vast untapped potential, which is hidden in every individual.

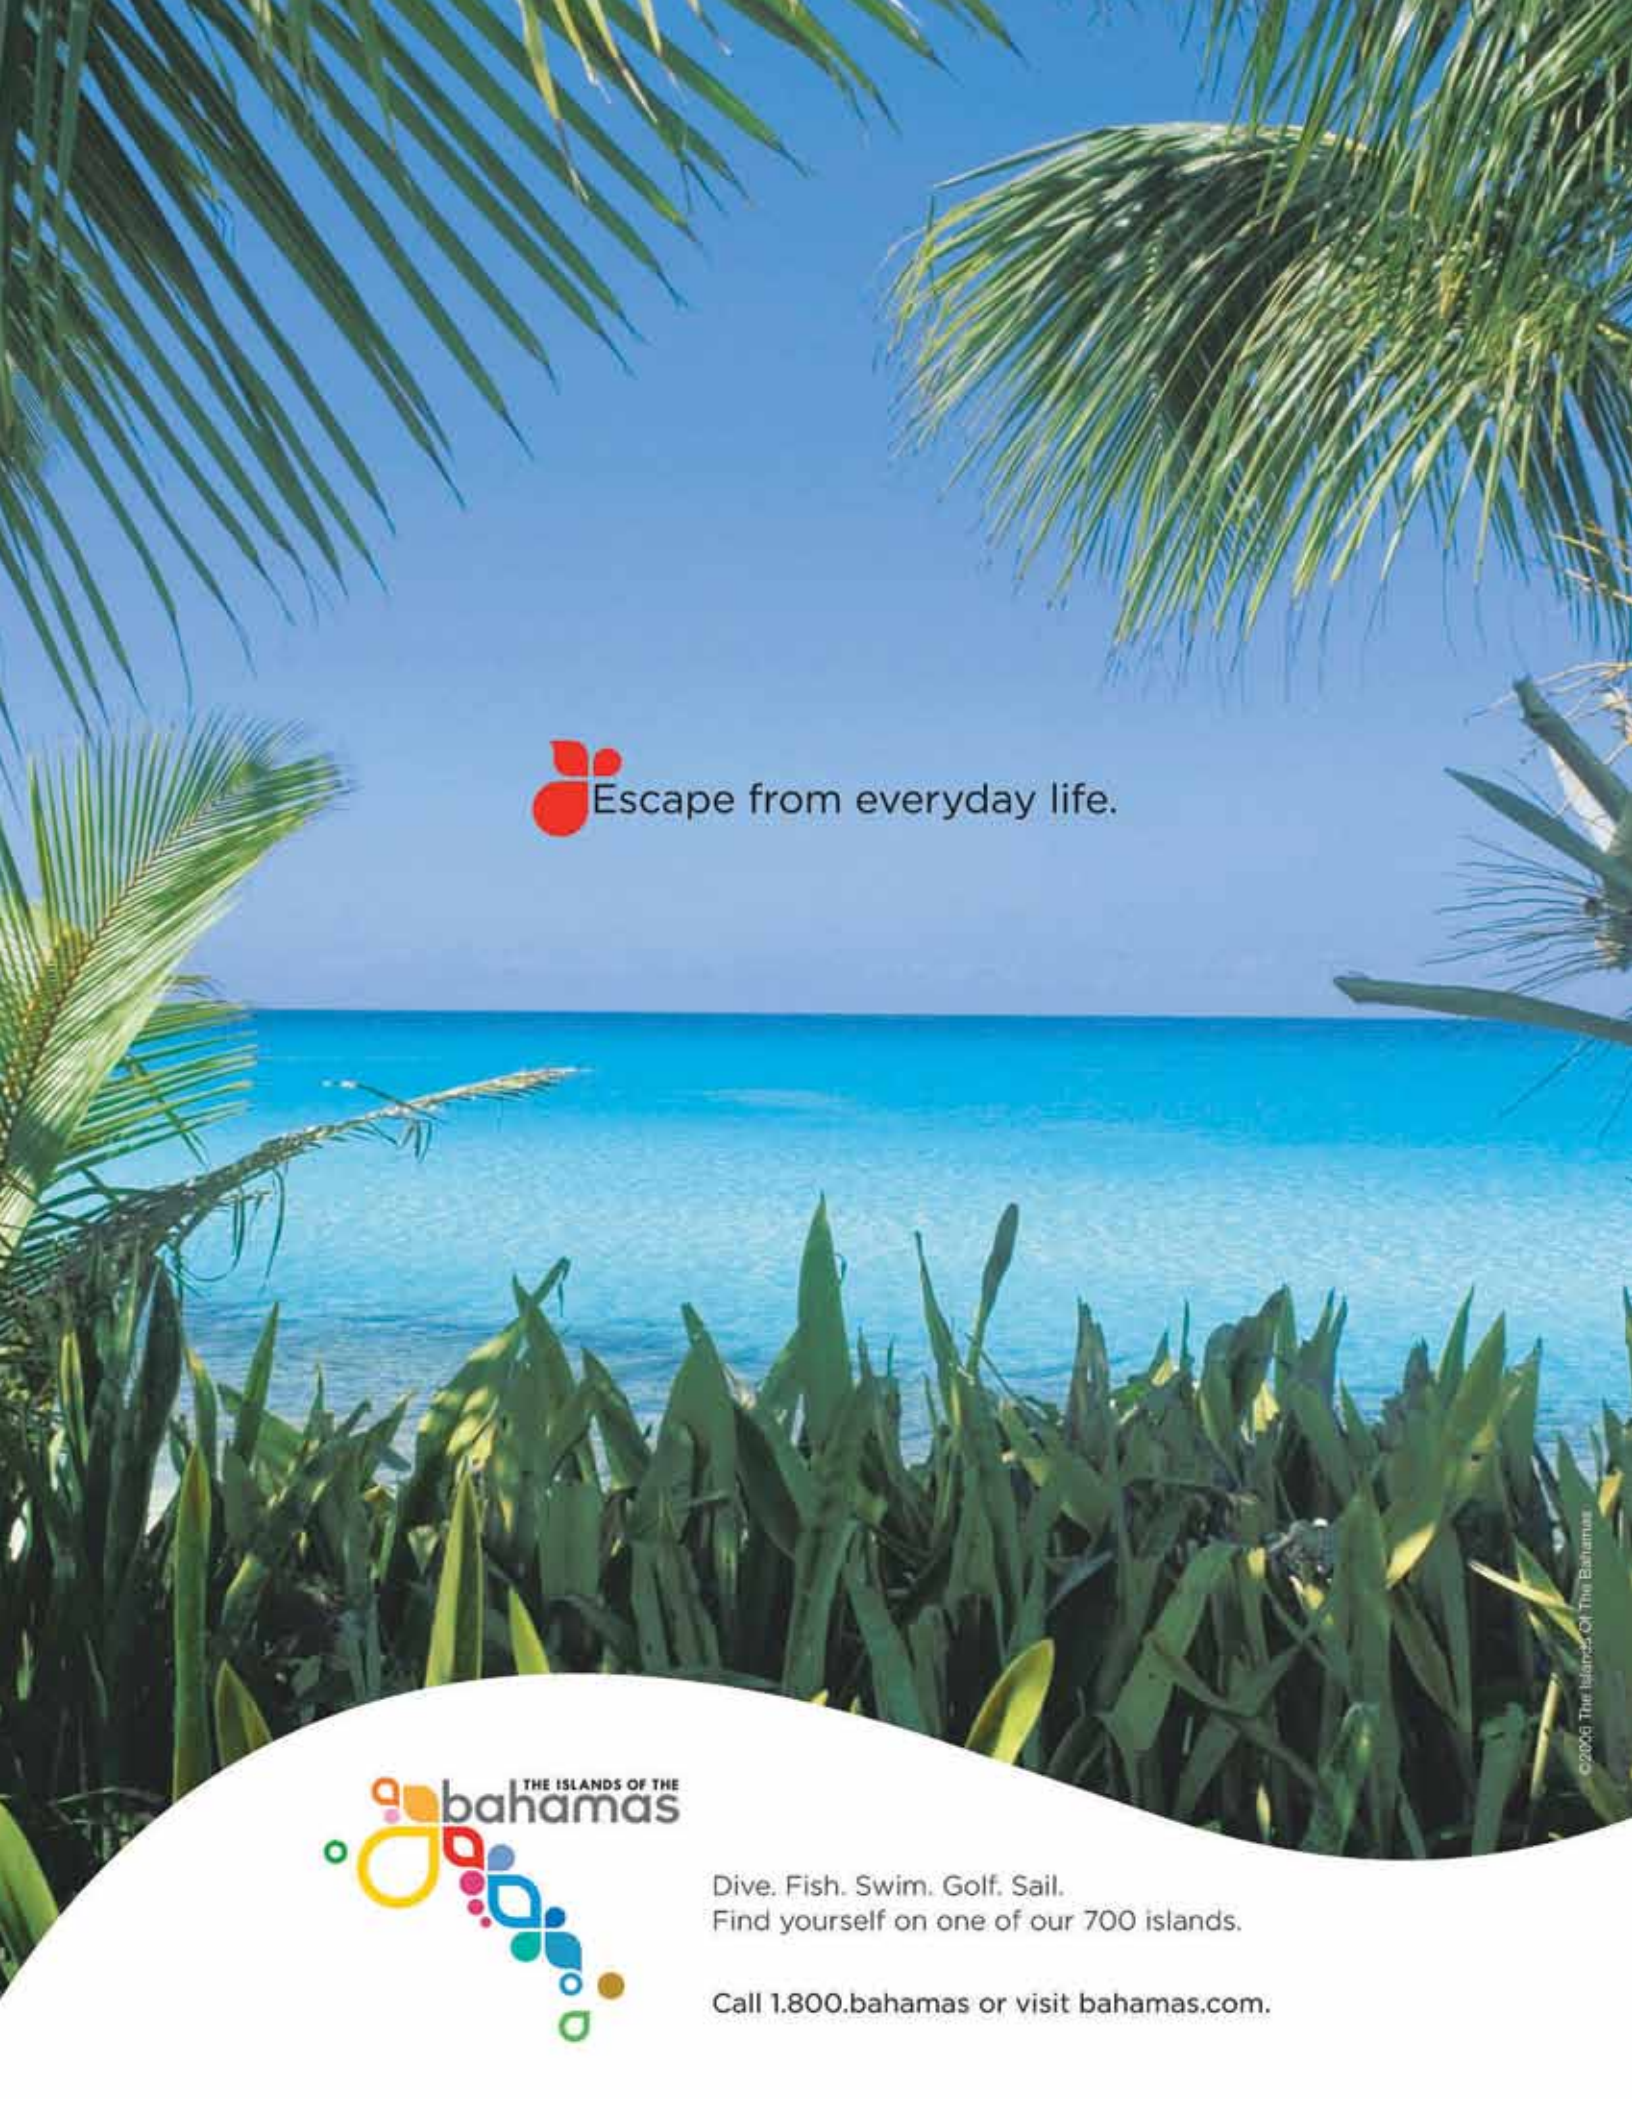

True leadership goes far beyond the mechanics of most of the approaches that pervade our leadership programs today. Why? True leadership is simply self-manifestation. While many philosophies of leadership hold that leadership is for an elite group, the anatomy of the human spirit reveals that every individual was created and designed with a seed of influence on the inside of them. This seed must be exposed and manifested to the world. It is the assignment of every human being to find and refine their leadership gift to become agents of change in the world.

This week you will hear presentations on leadership principles and concepts, which have often been lost in the sea of misguided modern leadership philosophies. The men and women of our Summit faculty are both excellent speakers and examples of dynamic agents of change. Also, with every fellow Summit delegate you meet this week, remember that you are connecting to another individual designed to be a leading success. Take time to network with these diverse leaders that come from every level of society.

To all the visitors to our Bahamian shores, I extend a special greeting and welcome to our islands. We trust that you will enjoy our unique Bahamian culture, including our cuisine, hospitality, and beautiful island landscape. And to all of our distinguished guests, I welcome you on behalf of my wife, Pastor Ruth Munroe, the Executive Council and Trustees of the International Third World Leaders Association, and Myles Munroe International.

A MESSAGE FROM THE MINISTER OF TOURISM & AVIATION

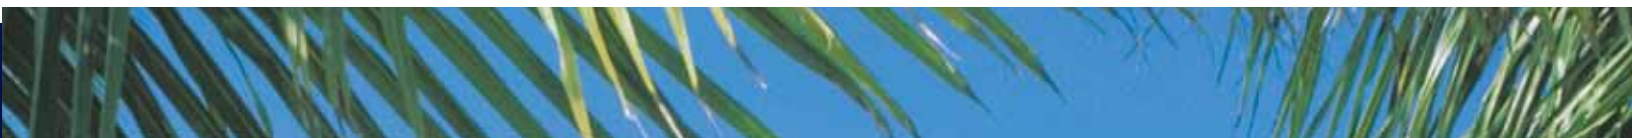

Welcome to the islands of The Bahamas, where we have been blessed with some of the most picturesque land and seascapes ever beheld by human eyes. Our 700 islands stretch across 100,000 square miles of beautiful blue, emerald, and turquoise waters. Our scenic, sandy beaches are too numerous to count, and the experiences on our shores are the perfect prescription to cure the weary mind, body, and soul. God has been so good to us.

While the natural beauty of The Bahamas is world renowned, it is in the depth of the talent that has emerged from our nation of little more than 300,000 people that makes us most proud and augments those natural blessings. Our global leadership in many areas of human endeavour is legion as exemplified by The Bahamas being declared the winner for the past three consecutive Summer Olympic Games in terms of medals won per capita.

We are equally as proud of such business and religious leaders as Dr. Myles Munroe, who, in pursuit of his divine purpose, has become recognized as an international authority on Christian living, philosophy, and personal motivation. We are proud to claim him as a son of the Bahamian soil.

Now, under Dr. Munroe's guidance, so many delegates – all leaders in their own right – have assembled for this Global Leadership Summit. We anticipate that it will be the most outstanding summit ever, and we look forward to receiving the reports and conclusions at its close.

Again, welcome to our paradise of islands, and we hope to welcome you and your loved ones to The Bahamas for many, many years to come.
