guest, or current APICS student.

*Alpha and Omega of  
Project Success*

*Brian Hays*

*CNH Industrial*

In today's competitive environment, the success of projects is less often driven by commodity based analytical tools but by collaborative project definition, leadership and control models. During this PDM session, Brian will review real life case studies to examine why some projects succeed and maintain their improvements while others fall apart resulting in team frustration and failure.

**Brian Hays**

**Purchasing Operations Manager**

**CNH Industrial**

Brian has worked in the manufacturing industry for the past 20 years. He currently holds the position of Purchasing Operations Manager for Case New Holland Industrial. Previous experience includes Purchasing, Information Technology, Manufacturing Manager and Six Sigma roles at Cessna Aircraft Company. Brian holds Bachelor's and Master's Degrees from Friends University in Computer Science, Business and Mathematics and is a member of the Alpha Chi Honors Society.

### President's Message

We had another great tour this month when McGinty Machine opened their doors for us. Our plant tours have proven to be so popular and it is easy to see why. I for one always learn something new and it is great to have the opportunity to see the many examples of manufacturing excellence that we have locally and in the surrounding area.

I look forward to seeing everyone at our March PDM where our speaker, Brian Hays of Case New Holland, will enlighten us on the always important topic of Project Management success (and why some are not so successful). Then in April at our Spring Seminar we will have the opportunity to learn from Bryan Ward how to optimize our processes to make our ERP and related systems more effective. So, there is a lot to look forward to in the next couple of months and I hope everyone can share in these outstanding learning opportunities.

Bill Carroll Ph.D., CPIM, CIRM

President, APICS Wichita

2013-2015

**Wichita APICS Education – March 2015**

**NEW CSCP Eligibility Requirements**

To be eligible for the APICS CSCP, a candidate must meet **one** of the following criteria:

- Bachelor's degree\*, **or**
- CPIM, CFPIM, CIRM, SCOR-P, C.P.M., CSM or CPSM designations, **or**
- 3 years of related business experience

*\*APICS defines the international equivalent of a Bachelor's degree as the level of study that would qualify an individual for a graduate program in the country where the undergraduate degree was earned.*  
 The CSCP committee recently approved changes to the CSCP eligibility requirements. These changes were posted on the APICS website and in the CSCP bulletins at the end of January. Candidates who were previously denied eligibility, but may now qualify should have been contacted of the changes by email in the beginning of February.
