BRIEF of GERMANY

As Europe's largest economy and second most populous nation (after Russia), Germany is a key member of the continent's economic, political, and defense organizations. European power struggles immersed Germany in two devastating World Wars in the first half of the 20th century and left the country occupied by the victorious Allied powers of the US, UK, France, and the Soviet Union in 1945. With the advent of the Cold War, two German states were formed in 1949: the western Federal Republic of Germany (FRG) and the eastern German Democratic Republic (GDR). The democratic FRG embedded itself in key Western economic and security organizations, the EC, which became the EU, and NATO, while the communist GDR was on the front line of the Soviet-led Warsaw Pact. The decline of the USSR and the end of the Cold War allowed for German unification in 1990. Since then, Germany has expended considerable funds to bring Eastern productivity and wages up to Western standards. In January 1999, Germany and 10 other EU countries introduced a common European exchange currency, the euro.

Economy Overview

The German economy - the fifth largest economy in the world in PPP terms and Europe's largest - is a leading exporter of machinery, vehicles, chemicals, and household equipment and benefits from a highly skilled labor force. Like its Western European neighbors, Germany faces significant demographic challenges to sustained long-term growth. Low fertility rates and declining net immigration are increasing pressure on the country's social welfare system and necessitate structural reforms. Reforms launched by the government of Chancellor Gerhard SCHROEDER (1998-2005), deemed necessary to address chronically high unemployment and low average growth, contributed to strong growth and falling unemployment. These advances, as well as a government subsidized, reduced working hour scheme, help explain the relatively modest increase in unemployment during the 2008-09 recession - the deepest since World War II - and its decrease to 5.3% in 2014. The new German government introduced a minimum wage of about \$11.60 (8.50 euros) per hour to take effect in 2015. Stimulus and stabilization efforts initiated in 2008 and 2009 and tax cuts introduced in Chancellor Angela MERKEL's second term increased Germany's total budget deficit - including federal, state, and municipal - to

4.1% in 2010, but slower spending and higher tax revenues reduced the deficit to 0.8% in 2011 and in 2012 Germany reached a budget surplus of 0.1%. The budget was essentially in balance in 2014. A constitutional amendment approved in 2009 limits the federal government to structural deficits of no more than 0.35% of GDP per annum as of 2016 though the target was already reached in 2012. Following the March 2011 Fukushima nuclear disaster, Chancellor Angela MERKEL announced in May 2011 that eight of the country's 17 nuclear reactors would be shut down immediately and the remaining plants would close by 2022. Germany plans to replace nuclear power with renewable energy, which accounts for 34% of total energy consumption, up from 9% in 2000. Before the shutdown of the eight reactors, Germany relied on nuclear power for 23% of its electricity generating capacity and 46% of its base-load electricity production.

GDP: \$3.621 trillion (2014 est.), \$3.572 trillion (2013 est.), \$3.553 trillion (2012 est.)

Industries:

among the world's largest and most technologically advanced producers of iron, steel, coal, cement, chemicals, machinery, vehicles, machine tools, electronics, automobiles, food and beverages, shipbuilding, textiles

Industrial production growth rate: 1.3% (2014 est.)

Exports:

\$1.547 trillion (2014 est.)

\$1.506 trillion (2013 est.)

Exports - commodities:

Motor vehicles, machinery, chemicals, computer and electronic products, electrical equipment, pharmaceuticals, metals, transport equipment, foodstuffs, textiles, rubber and plastic products

Exports - partners:

France 9.8%, UK 7.4%, Netherlands 6.9%, US 6.4%, Austria 5.5%, China 5.4%, Italy 5.2%, Switzerland 4.6%, Poland 4.1%, Belgium 4.1% (2013)

Imports:

\$1.319 trillion (2014 est.)

\$1.249 trillion (2013 est.)

country comparison to the world: 4

Imports - commodities:

machinery, data processing equipment, vehicles, chemicals, oil and gas, metals, electric equipment, pharmaceuticals, foodstuffs, agricultural products

Imports - partners:

Netherlands 14.2%, France 7.7%, Belgium 6.4%, China 6.4%, Italy 5.4%, UK 4.9%, Austria 4.4%, Russia 4.3%, Poland 4.3%, Switzerland 4.1%, Czech Republic 4% (2013).

CHEMSPEC EUROPE-2015

Chemspec Europe ventures into Eastern Europe in 2015. Germany will host the 30th Chemspec Europe which will see over 400 exhibiting companies from around the globe and in excess of 5,000 attendees.

Some of the world's largest suppliers of fine and specialty chemicals and associated products and services can be found at Chemspec Europe. With many attendees representing manufacturing and consumer companies servicing multiple industries, Chemspec Europe provides the perfect opportunity to connect with visitors from not just Europe but around the world.

ABOUT the Exhibition: Chemspec Europe is the ideal promotional platform for Manufacturers or suppliers of fine and speciality chemicals for any of the following industries Biotechnology, Oilfield chemicals, Colours & dyestuffs, Agro chemicals, Contract & toll manufacture, Cosmetics, Healthcare, Pharmaceutical, Water Treatment, and many more. Formulators, custom and toll processors Service providers to the fine and speciality chemicals industries, including Transport and logistics companies, Process instrumentation &

automation providers, Suppliers of drums, containers, bags and packaging, Lab and analytical equipment suppliers, Banks, investment houses and venture capital providers.

In just two days exhibitors meet buying teams from every type of industry sector; customers, distributors, end-users and new prospects. No other event delivers such a comprehensive return on investment.

WHY GERMANY FOR CHEMSPEC-2015 (Cologne - the chemical hub)

- About 230 chemical companies of all sizes and sectors with a total of around 70,000 employees have established themselves in this region.
- The ChemCologne region (chambers of Commerce and Industry of Cologne, Aachen, Bonn-Rhein-Sieg, Düsseldorf, Mittlerer Niederrhein, Wuppertal-Solingen-Remscheid) is vast and generates the equivalent of 20% of Germany's total chemical turnover.

Cologne - the easily accessible city for business

- a. 90 minutes away or less from almost all capital cities within Europe
- b. 15 minutes by car and direct train connections between Koelnmesse and Cologne-Bonn Airport
- c. High Speed ICE and Thalys trains connecting Koelnmesse with the airports of Frankfurt, Brussels and Amsterdam
- d. 30 minutes by train from Düsseldorf International Airport and an average of 60 minutes directly from Frankfurt Airport to Koelnmesse
- e. Direct flights to over 160 countries

USP of Chemspec Europe

- 400+ international companies represented within the exhibition with experts on stands who will be able to offer you new solutions for business
- 50+ global experts in their field offering a wide range of free-of-charge conference content.

- Chemspec Events Careers Clinic offering private consultations on career development in association with Chemical Search International
- Product sourcing support with the Chemspec Source Finder team organised by Chemical Information Services.
- Exhibitor showcases presentations offering a guide to the latest innovations in the industry.
- Networking opportunities and informal meeting areas throughout the exhibition
- With Budapest ideally located to join Eastern and Western Europe this is an opportunity to meet new contacts from both sides of the continent and further afield

BRIEF OF THE EVENT

CHEMEXCIL is participated in Chemspec Europe-2015 exhibition being organized by Quartz Business Media Limited UK, from 24th to 25th June, 2015 at Hall 7, Koln Messe, Cologne, Germany.

This project is sanctioned under MAI scheme. Altogether **50** chemexcil member-exporters participated participation in this exhibition.

CHEMEXCIL Booked 980 sq. mt. space in Hall No.7. Entire Space is converted in India Pavilion, Branding INDIA.

5000+ visitors from various countries and regions visited this exhibition.

Target visitors :- Agrochemical intermediates, biotechnology, Catalysts, Colours & Pigments, Flavours & Fragrances, Organic Intermediates, Photographic Chemicals and Water treatment chemicals., International Trade Missions are the target visitors.

Chemexcil Pavilion was inaugurated by -----on 24th June-2015 at 10.00am along with Dr. B.R. Gaikwad, Chairman, Chemexcil.
