

Surgical Products

NOTE #1: For Medicare Outpatient Hospital procedures, C1776 [Joint device (implantable)] and C1713 [Anchor/screw for opposing bone-to-bone or soft tissue-to-bone (implantable)] might be allowable for purposes of billing for Zimmer implantable devices and products. Please check with your Payer(s) for complete billing and reimbursement details.

NOTE #2: For implantable devices and products in the Zimmer Catalog, there are no separately reportable HCPCS codes for billing Inpatient Hospital Medicare procedures on the UB-04 Claim Form. These implantable devices and products are considered integral to the procedure performed, and the Medicare MS-DRG payment includes their costs in the total facility payment. Revenue Code(s) in the 027X range could be appended on the UB-04 claim form to track facility charges for such implantable devices and products. Please check with your Payer(s) for complete billing and reimbursement details.

Part A OPPS Status Indicators

Status indicators are assigned to HCPCS/CPT codes to indicate how the service is processed and/or paid under the Outpatient Prospective Payment System (OPPS). Providers may reference Addendum B to determine the status indicator assigned to a particular code. Addendum B is published quarterly in January, April, July and October and posted on the CMS Web site at <http://www.cms.gov/HospitalOutpatientPPS/AU/list.asp>.

ADDENDUM D1.—FINAL OPPTS PAYMENT STATUS INDICATORS FOR CY 2011
